(d)(i) Departments and agencies process proposed revisions of FAR or DFARS through channels to the Director of the DAR Council. Process the proposed revision as a memorandum in the following format, addressed to the Director, DAR Council, OUSD(AT&L), 3060 Defense Pentagon, Washington, DC 20301-3060; datafax (571) 372-6094.

I. PROBLEM: Succinctly state the problem created by current FAR and/or DFARS coverage and describe the factual and/or legal reasons necessitating the change to the regulation.

II. RECOMMENDATION: Identify the FAR and/or DFARS citations to be revised. Attach as TAB A a copy of the text of the existing coverage, conformed to include the proposed additions and deletions. Indicate deleted coverage with dashed lines through the current words being deleted and insert proposed language in brackets at the appropriate locations within the existing coverage. If the proposed deleted portion is extensive, it may be outlined by lines forming a box with diagonal lines drawn connecting the corners.

III. DISCUSSION: Include a complete, convincing explanation of why the change is necessary and how the recommended revision will solve the problem. Address advantages and disadvantages of the proposed revision, as well as any cost or administrative impact on Government activities and contractors. Identify any potential impact of the change on automated systems, e.g., automated financial and procurement systems. Provide any other background information that would be helpful in explaining the issue.

IV. COLLATERALS: Address the need for public comment (FAR 1.301(b) and Subpart 1.5), the Paperwork Reduction Act, and the Regulatory Flexibility Act (FAR 1.301(c)).

V. DEVIATIONS: If a recommended revision of DFARS is a FAR deviation, identify the deviation and include under separate TAB a justification for the deviation that addresses the requirements of [201.402\(2\)](#). The justification should be in the form of a memorandum for the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics).

(ii) The public may offer proposed revisions of FAR or DFARS by submission of a memorandum, in the format (including all of the information) prescribed in paragraph (d)(i) of this subsection, to the Director of the DAR Council.

201.201-70 Maintenance of Procedures, Guidance, and Information.

The DAR Council is also responsible for maintenance of the DFARS Procedures, Guidance, and Information (PGI).

SUBPART 201.3—AGENCY ACQUISITION REGULATIONS

(Revised June 26, 2015)

201.301 Policy.

(a)(1) DoD implementation and supplementation of the FAR is issued in the Defense Federal Acquisition Regulation Supplement (DFARS) under authorization and subject to the authority, direction, and control of the Secretary of Defense. The DFARS contains—

- (i) Requirements of law;
- (ii) DoD-wide policies;
- (iii) Delegations of FAR authorities;
- (iv) Deviations from FAR requirements; and

(v) Policies/procedures that have a significant effect beyond the internal operating procedures of DoD or a significant cost or administrative impact on contractors or offerors.

(2) Relevant procedures, guidance, and information that do not meet the criteria in paragraph (a)(1) of this section are issued in the DFARS Procedures, Guidance, and Information (PGI).

(b) When Federal Register publication is required for any policy, procedure, clause, or form, the department or agency requesting Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) approval for use of the policy, procedure, clause, or form (see [201.304\(1\)](#)) must include an analysis of the public comments in the request for approval. Information on determining when a clause requires publication in the Federal Register and approval in accordance with 201.304(1) is provided at [PGI 201.301\(b\)](#).

201.303 Publication and codification.

(a)(i) The DFARS is codified under chapter 2 in Title 48, Code of Federal Regulations.

(ii) To the extent possible, all DFARS text (whether implemental or supplemental) is numbered as if it were implemental. Supplemental numbering is used only when the text cannot be integrated intelligibly with its FAR counterpart.

(A) Implemental numbering is the same as its FAR counterpart, except when the text exceeds one paragraph, the subdivisions are numbered by skipping a unit in the FAR 1.105-2(b)(2) prescribed numbering sequence. For example, three paragraphs implementing FAR 19.501 would be numbered [219.501](#)(1), (2), and (3) rather than (a), (b), and (c). Three paragraphs implementing FAR 19.501(a) would be numbered [219.501](#)(a)(i), (ii), and (iii) rather than (a)(1), (2), and (3). Further subdivision of the paragraphs follows the prescribed numbering sequence, e.g., [219.501](#)(1)(i)(A)(1)(i).

Defense Federal Acquisition Regulation Supplement

Part 201—Federal Acquisition Regulations System

(B) Supplemental numbering is the same as its FAR counterpart, with the addition of a number of 70 and up or (S-70) and up. Parts, subparts, sections, or subsections are supplemented by the addition of a number of 70 and up. Lower divisions are supplemented by the addition of a number of (S-70) and up. When text exceeds one paragraph, the subdivisions are numbered using the FAR 1.105-2(b)(2) prescribed sequence, without skipping a unit. For example, DFARS text supplementing FAR 19.501 would be numbered 219.501-70. Its subdivisions would be numbered 219.501-70(a), (b), and (c).

(C) Subdivision numbering below the 4th level does not repeat the numbering sequence. It uses italicized Arabic numbers and then italicized lower case Roman numerals.

(D) An example of DFARS numbering is in Table 1-1, DFARS Numbering.

(iii) Department/agency and component supplements must parallel the FAR and DFARS numbering, except department/agency supplemental numbering uses subsection numbering of 90 and up, instead of 70 and up.

TABLE 1-1, DFARS NUMBERING		
FAR	Is Implemented As	Is Supplemented As
19	219	219.70
19.5	219.5	219.570
19.501	219.501	219.501-70
19.501-1	219.501-1	219.501-1-70
19.501-1(a)	219.501-1(a)	219.501-1(a)(S-70)
19.501-1(a)(1)	219.501-1(a)(1)	219.501-1(a)(1)(S-70)

201.304 Agency control and compliance procedures.

Departments and agencies and their component organizations may issue acquisition regulations as necessary to implement or supplement the FAR or DFARS.

(1)(i) Approval of the USD(AT&L) is required before including in a department/agency or component supplement, or any other contracting regulation document such as a policy letter or clause book, any policy, procedure, clause, or form that—

(A) Has a significant effect beyond the internal operating procedures of the agency; or

(B) Has a significant cost or administrative impact on contractors or offerors.

(ii) Except as provided in paragraph (2) of this section, the USD(AT&L) has delegated authority to the Director of Defense Procurement and Acquisition Policy (OUSD(AT&L)DPAP) to approve or disapprove the policies, procedures, clauses, and forms subject to paragraph (1)(i) of this section.

(2) In accordance with 41 U.S.C. 1304, a new requirement for a certification by a

Defense Federal Acquisition Regulation Supplement

Part 201—Federal Acquisition Regulations System

contractor or offeror may not be included in a department/agency or component procurement regulation unless—

- (i) The certification requirement is specifically imposed by statute; or
 - (ii) Written justification for such certification is provided to the Secretary of Defense by USD(AT&L), and the Secretary of Defense approves in writing the inclusion of such certification requirement.
- (3) Contracting activities must obtain the appropriate approval (see [201.404](#)) for any class deviation (as defined in FAR Subpart 1.4) from the FAR or DFARS, before its inclusion in a department/agency or component supplement or any other contracting regulation document such as a policy letter or clause book.
- (4) Each department and agency must develop and, upon approval by OUSD(AT&L)DPAP, implement, maintain, and comply with a plan for controlling the use of clauses other than those prescribed by FAR or DFARS. Additional information on department and agency clause control plan requirements is available at [PGI 201.304](#)(4).
- (5) Departments and agencies must submit requests for the Secretary of Defense, USD(AT&L), and OUSD(AT&L)DPAP approvals required by this section through the Director of the DAR Council. Procedures for requesting approval of department and agency clauses are provided at [PGI 201.304](#)(5).
- (6) The Director of Defense Procurement and Acquisition Policy publishes changes to the DFARS in the Federal Register and electronically via the World Wide Web. Each change includes an effective date. Unless guidance accompanying a change states otherwise, contracting officers must include any new or revised clauses, provisions, or forms in solicitations issued on or after the effective date of the change.

SUBPART 201.4—DEVIATIONS FROM THE FAR

(Revised February 14, 2003)

(i) Identify the department/agency, and component if applicable, requesting the deviation;

(ii) Identify the FAR or DFARS citation from which a deviation is needed, state what is required by that citation, and indicate whether an individual or class deviation is requested;

(iii) Describe the deviation and indicate which of paragraphs (a) through (f) of FAR 1.401 best categorizes the deviation;

(iv) State whether the deviation will have a significant effect beyond the internal operating procedures of the agency and/or a significant cost or administrative impact on contractors or offerors, and give reasons to support the statement;

(For emergency acquisition flexibilities, see [218.270](#).)

“Major defense acquisition program” is defined in 10 U.S.C. 2430(a).

“Milestone decision authority,” with respect to a major defense acquisition program, major automated information system, or major system, means the official within the Department of Defense designated with the overall responsibility and authority for acquisition decisions for the program or system, including authority to approve entry of

(1) A direct offset involves benefits or obligations, including supplies or services that are directly related to the item(s) being purchased and are integral to the deliverable of the FMS contract. For example, as a condition of a foreign military sale, the contractor may require or agree to permit the customer to produce in its country certain components or subsystems of the item being sold. Generally, direct offsets must be performed within a specified period, because they are integral to the deliverable of the FMS contract.

(2) An indirect offset involves benefits or obligations, including supplies or services that are not directly related to the specific item(s) being purchased and are not integral to the deliverable of the FMS contract. For example, as a condition of a foreign military sale, the contractor may agree to purchase certain manufactured products, agricultural commodities, raw materials, or services, or make an equity investment or grant of equipment required by the FMS customer, or may agree to build a school, road or other facility. Indirect offsets would also include projects that are related to the FMS contract but not purchased under said contract (e.g., a project to develop or advance a capability, technology transfer, or know-how in a foreign company). Indirect offsets may be accomplished without a clearly defined period of performance.

The DFARS will point to non-mandatory procedures, guidance, and information using permissive language such as “The contracting officer may use...” or “Additional information is available at...” or other similar language;

(3) Is numbered similarly to the DFARS, except that each PGI numerical designation is preceded by the letters “PGI”; and

(1) Solicits and receives offers from both small and other than small business concerns;

(2) Establishes a tiered or cascading order of precedence for evaluating offers that is specified in the solicitation; and

Defense Federal Acquisition Regulation Supplement

Part 202—Definitions of Words and Terms

203.900 Scope of subpart.

This subpart applies to DoD instead of FAR subpart 3.9.

(1) This subpart implements 10 U.S.C. 2409 as amended by section 846 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), section 842 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417), and section 827 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. (2) This subpart does not apply to any element of the intelligence community, as defined in 50 U.S.C. 3003(4). This subpart does not apply to any disclosure made by an employee of a contractor or subcontractor of an element of the intelligence community if such disclosure—

- (i) Relates to an activity or an element of the intelligence community; or
- (ii) Was discovered during contract or subcontract services provided to an element of the intelligence community.

203.901 Definitions.

“Abuse of authority,” as used in this subpart, means an arbitrary and capricious exercise of authority that is inconsistent with the mission of DoD or the successful performance of a DoD contract.

203.903 Policy.

(1) *Prohibition.* 10 U.S.C. 2409 prohibits contractors and subcontractors from discharging, demoting, or otherwise discriminating against an employee as a reprisal for disclosing, to any of the entities listed at paragraph (3) of this section, information that the employee reasonably believes is evidence of gross mismanagement of a DoD contract, a gross waste of DoD funds, an abuse of authority relating to a DoD contract, a violation of law, rule, or regulation related to a DoD contract (including the competition for or negotiation of a contract), or a substantial and specific danger to public health or safety. Such reprisal is prohibited even if it is undertaken at the request of an executive branch official, unless the request takes the form of a non-discretionary directive and is within the authority of the executive branch official making the request.

(2) *Classified information.* As provided in section 827(h) of the National Defense Authorization Act for Fiscal Year 2013, nothing in this subpart provides any rights to disclose classified information not otherwise provided by law.

(3) *Entities to whom disclosure may be made:*

- (i) A Member of Congress or a representative of a committee of Congress.

Defense Federal Acquisition Regulation Supplement

Part 203—Improper Business Practices and Personal Conflicts of Interest

(ii) An Inspector General that receives funding from or has oversight over contracts awarded for or on behalf of DoD.

(iii) The Government Accountability Office.

(iv) A DoD employee responsible for contract oversight or management.

(v) An authorized official of the Department of Justice or other law enforcement agency.

(vi) A court or grand jury.

(vii) A management official or other employee of the contractor or subcontractor who has the responsibility to investigate, discover, or address misconduct.

(4) *Disclosure clarified.* An employee who initiates or provides evidence of contractor or subcontractor misconduct in any judicial or administrative proceeding relating to waste, fraud, or abuse on a DoD contract shall be deemed to have made a disclosure.

(5) *Contracting officer actions.* A contracting officer who receives a complaint of reprisal of the type described in paragraph (1) of this section shall forward it to legal counsel or to the appropriate party in accordance with agency procedures.

203.904 Procedures for filing complaints.

(1) Any employee of a contractor or subcontractor who believes that he or she has been discharged, demoted, or otherwise discriminated against contrary to the policy in 203.903 may file a complaint with the Inspector General of the Department of Defense.

(2) A complaint may not be brought under this section more than three years after the date on which the alleged reprisal took place.

(3) The complaint shall be signed and shall contain—

(i) The name of the contractor;

(ii) The contract number, if known; if not, a description reasonably sufficient to identify the contract(s) involved;

(iii) The violation of law, rule, or regulation giving rise to the disclosure;

(iv) The nature of the disclosure giving rise to the discriminatory act, including the party to whom the information was disclosed; and

(v) The specific nature and date of the reprisal.

203.905 Procedures for investigating complaints.

(1) Unless the DoD Inspector General makes a determination that the complaint is frivolous, fails to allege a violation of the prohibition in 203.903, or has been previously

Defense Federal Acquisition Regulation Supplement

Part 203—Improper Business Practices and Personal Conflicts of Interest

addressed in another Federal or State judicial or administrative proceeding initiated by the complainant, the DoD Inspector General will investigate the complaint.

(2) If the DoD Inspector General investigates the complaint, the DoD Inspector General will—

(i) Notify the complainant, the contractor alleged to have committed the violation, and the head of the agency; and

(ii) Provide a written report of findings to the complainant, the contractor alleged to have committed the violation, and the head of the agency.

(3) Upon completion of the investigation, the DoD Inspector General—

(i) Either will determine that the complaint is frivolous, fails to allege a violation of the prohibition in 203.903, or has been previously addressed in another Federal or State judicial or administrative proceeding initiated by the complainant, or will submit the report addressed in paragraph (2) of this section within 180 days after receiving the complaint; and

(ii) If unable to submit a report within 180 days, will submit the report within the additional time period, up to 180 days, as agreed to by the person submitting the complaint.

(4) The DoD Inspector General may not respond to any inquiry or disclose any information from or about any person alleging the reprisal, except to the extent that such response or disclosure is—

(i) Made with the consent of the person alleging reprisal;

(ii) Made in accordance with 5 U.S.C. 552a (the Freedom of Information Act) or as required by any other applicable Federal law; or

(iii) Necessary to conduct an investigation of the alleged reprisal.

(5) The legal burden of proof specified at paragraph (e) of 5 U.S.C. 1221 (Individual Right of Action in Certain Reprisal Cases) shall be controlling for the purposes of an investigation conducted by the DoD Inspector General, decision by the head of an agency, or judicial or administrative proceeding to determine whether prohibited discrimination has occurred.

203.906 Remedies.

(1) Not later than 30 days after receiving a DoD Inspector General report in accordance with 203.905, the head of the agency shall determine whether sufficient basis exists to conclude that the contractor has subjected the complainant to a reprisal as prohibited by 203.903 and shall either issue an order denying relief or shall take one or more of the following actions:

(i) Order the contractor to take affirmative action to abate the reprisal.

Defense Federal Acquisition Regulation Supplement

Part 203—Improper Business Practices and Personal Conflicts of Interest

(ii) Order the contractor to reinstate the person to the position that the person held before the reprisal, together with compensatory damages (including back pay), employment benefits, and other terms and conditions of employment that would apply to the person in that position if the reprisal had not been taken.

(iii) Order the contractor to pay the complainant an amount equal to the aggregate amount of all costs and expenses (including attorneys' fees and expert witnesses' fees) that were reasonably incurred by the complainant for, or in connection with, bringing the complaint regarding the reprisal, as determined by the head of the agency.

(2) If the head of the agency issues an order denying relief or has not issued an order within 210 days after the submission of the complaint or within 30 days after the expiration of an extension of time granted in accordance with 203.905(3)(ii), and there is no showing that such delay is due to the bad faith of the complainant—

(i) The complainant shall be deemed to have exhausted all administrative remedies with respect to the complaint; and

(ii) The complainant may bring a de novo action at law or equity against the contractor to seek compensatory damages and other relief available under 10 U.S.C. 2409 in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy. Such an action shall, at the request of either party to the action, be tried by the court with a jury. An action under this authority may not be brought more than two years after the date on which remedies are deemed to have been exhausted.

(3) An Inspector General determination and an agency head order denying relief under paragraph (2) of this section shall be admissible in evidence in any de novo action at law or equity brought pursuant to 10 U.S.C. 2409(c).

(4) Whenever a contractor fails to comply with an order issued by the head of agency in accordance with 10 U.S.C. 2409, the head of the agency or designee shall request the Department of Justice to file an action for enforcement of such order in the United States district court for a district in which the reprisal was found to have occurred. In any action brought under this paragraph, the court may grant appropriate relief, including injunctive relief, compensatory and exemplary damages, and reasonable attorney fees and costs. The person upon whose behalf an order was issued may also file such an action or join in an action filed by the head of the agency.

(5) Any person adversely affected or aggrieved by an order issued by the head of the agency in accordance with 10 U.S.C. 2409 may obtain judicial review of the order's conformance with the law, and the implementing regulation, in the United States Court of Appeals for a circuit in which the reprisal is alleged in the order to have occurred. No petition seeking such review may be filed more than 60 days after issuance of the order by the head of the agency or designee. Review shall conform to Chapter 7 of Title 5, United States Code. Filing such an appeal shall not act to stay the enforcement of the order by the head of an agency, unless a stay is specifically entered by the court.

Follow the procedures at PGI 204.101 for signature of contract documents.

SUBPART 204.2—CONTRACT DISTRIBUTION

(Revised September 13, 2019)

204.201 Procedures.

Follow the procedures at [PGI 204.201](#) for the distribution of contracts and modifications.

(a) In lieu of the requirement at FAR 4.201(a), contracting officers shall distribute one signed copy or reproduction of the signed contract to the contractor.

204.203 Taxpayer identification information.

(b) The procedure at FAR 4.203(b) does not apply to contracts that include the provision at FAR 52.204-7, System for Award Management. The payment office obtains the taxpayer identification number and the type of organization from the System for Award Management database.

204.270 Electronic Data Access.

204.270-1 Policy.

(a) The Electronic Data Access (EDA) system, an online repository for contractual instruments and supporting documents, is DoD's primary tool for electronic distribution of contract documents and contract data. Contract attachments shall be uploaded to EDA, except for contract attachments that are classified, are too sensitive for widespread distribution (e.g., personally identifiable information and Privacy Act and Health Insurance Portability and Accountability Act, or cannot be practicably converted to electronic format (e.g., samples, drawings, and models). Section J (or similar location when the Uniform Contract Format is not used) shall include the annotation "provided under separate cover" for any attachment not uploaded to EDA.

(b) Agencies are responsible for ensuring the following when posting documents, including contractual instruments, to EDA—

(1) The timely distribution of documents; and

(2) That internal controls are in place to ensure that—

(i) The electronic version of a contract document in EDA is an accurate representation of the contract; and

(ii) The contract data in EDA is an accurate representation of the underlying contract.

204.270-2 Procedures.

(b) The procedures at [PGI 204.270-2](#)(b) provide details on how to record the results of data verification in EDA. When these procedures are followed, contract documents and data in EDA are an accurate representation of the contract and therefore may be used for audit purposes.

(c) The procedures at [PGI 204.270-2](#)(c) provide details on the creation and processing of contract deficiency reports, which are used to correct problems with contracts distributed in EDA.

**SUBPART 204.4—SAFEGUARDING CLASSIFIED INFORMATION WITHIN

204.402 General.

DoD employees or members of the Armed Forces who are assigned to or visiting a contractor facility and are engaged in oversight of an acquisition program will retain control of their work products, both classified and unclassified (see [PGI 204.402](#)).

204.403 Responsibilities of contracting officers.

(1) Contracting officers shall ensure that solicitations comply with [PGI 204.403](#)(1).

(2) For additional guidance on determining a project to be fundamental research in accordance with [252.204-7000](#)(a)(3), see [PGI 204.403](#)(2).

(b) Use the clause at [252.204-7003](#), Control of Government Personnel Work Product, in all solicitations and contracts.

204.470 U.S.-International Atomic Energy Agency Additional Protocol.

204.470-1 General.

Under the U.S.-International Atomic Energy Agency Additional Protocol (U.S.-IAEA AP), the United States is required to declare a wide range of public and private nuclear-related activities to the IAEA and potentially provide access to IAEA inspectors for verification purposes.

204.470-2 National security exclusion.

(a) The U.S.-IAEA AP permits the United States unilaterally to declare exclusions from inspection requirements for activities, or locations or information associated with such activities, with direct national security significance.

(b) In order to ensure that all relevant activities are reviewed for direct national security significance, both current and former activities, and associated locations or information, are to be considered for applicability for a national security exclusion.

(c) If a DoD program manager receives notification from a contractor that the contractor is required to report any of its activities in accordance with the U.S.-IAEA AP, the program manager will—

SUBPART 204.6—CONTRACT REPORTING

(Revised July 29, 2009)

204.602 General.

See PGI 204.602 for additional information on the Federal Procurement Data System (FPDS) and procedures for resolving technical or policy issues relating to FPDS.

204.604 Responsibilities.

(1) The process for reporting contract actions to FPDS should, where possible, be automated by incorporating it into contract writing systems.

(2) Data in FPDS is stored indefinitely and is electronically retrievable. Therefore, the contracting officer may reference the contract action report (CAR) approval date in the associated Government contract file instead of including a paper copy of the electronically submitted CAR in the file. Such reference satisfies contract file documentation requirements of FAR 4.803(a).

(3) By December 15th of each year, the chief acquisition officer of each DoD component required to report its contract actions shall submit to the Director, Defense Procurement and Acquisition Policy, its annual certification and data validation results for the preceding fiscal year in accordance with the DoD Data Improvement Plan requirements at <http://www.acq.osd.mil/dpap/pdi/eb>. The Director, Defense Procurement and Acquisition Policy, will submit a consolidated DoD annual certification to the Office of Management and Budget by January 5th of each year.

204.606 Reporting data.

In addition to FAR 4.606, follow the procedures at PGI 204.606 for reporting data to FPDS.

SUBPART 204.8—CONTRACT FILES

(Revised May 20, 2021)

204.802 Contract files.

(a) Any document posted to the Electronic Data Access (EDA) system is part of the contract file and is accessible by multiple parties, including the contractor. Do not include in EDA contract documents that are classified, too sensitive for widespread distribution (e.g., personally identifiable information and Privacy Act and Health Insurance Portability and Accountability Act), or attachments that cannot be practicably converted to electronic format (e.g., samples, drawings, and models). Inclusion of any document in EDA other than contracts, modifications, and orders is optional.

(f) A photocopy, facsimile, electronic, mechanically-applied and printed signature, seal, and date are considered to be an original signature, seal, and date.

204.804 Closeout of contract files.

(1) Except as provided in paragraph (3) of this section, contracting officers shall close out contracts in accordance with the procedures at [PGI 204.804](#). The closeout date for file purposes shall be determined and documented by the procuring contracting officer.

(2) The head of the contracting activity shall assign the highest priority to close out of contracts awarded for performance in a contingency area. Heads of contracting activities shall monitor and assess on a regular basis the progress of contingency contract closeout activities and take appropriate steps if a backlog occurs. For guidance on the planning and execution of closing out such contracts, see [PGI 207.105\(b\)\(20\)\(C\)\(8\)](#) and [PGI 225.373\(e\)](#).

(3)(i) In accordance with section 836 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328) and section 824 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91), contracting officers may close out contracts or groups of contracts through issuance of one or more modifications to such contracts without completing a reconciliation audit or other corrective action in accordance with FAR 4.804-5(a)(3) through (15), as appropriate, if each contract—

(A) Was entered into on a date that is at least 17 fiscal years before the current fiscal year;

(B) Has no further supplies or services due under the terms of the contract; and

(C) Has been determined by a contracting official, at least one level above the contracting officer, to be not otherwise reconcilable, because—

(1) The contract or related payment records have been destroyed or lost; or

(2) Although contract or related payment records are available, the time or effort required to establish the exact amount owed to the U.S. Government or amount owed to the contractor is disproportionate to the amount at issue.

(ii) Any contract or group of contracts meeting the requirements of paragraph (3)(i) of this section may be closed out through a negotiated settlement with the contractor. Except as provided in paragraph (3)(ii)(B) of this section, the contract closeout process shall include a bilateral modification of the affected contract, including those contracts that are closed out in accordance with a negotiated settlement.

(A) For a contract or groups of contracts, the contracting officer shall prepare a negotiation settlement memorandum that describes how the requirements of paragraph (3)(i) of this section have been met.

(B) For a group of contracts, a bilateral modification of at least one contract shall be made to reflect the negotiated settlement for a group of contracts, and unilateral modifications may be made, as appropriate, to other contracts in the group to reflect the negotiated settlement.

(iii) For contract closeout actions under paragraph (3) of this section, remaining contract balances—

(A) May be offset with balances in other contract line items within the same contract, regardless of the year or type of appropriation obligated to fund each contract line item and regardless of whether the appropriation obligated to fund such contract line item has closed; and

(B) May be offset with balances on other contracts, regardless of the year or type of appropriations obligated to fund each contract and regardless of whether such appropriations have closed.

(iv) USD(A&S) is authorized to waive any provision of acquisition law or regulation in order to carry out the closeout procedures authorized in paragraph (3)(i) of this section (see procedures at [PGI 204.804\(3\)\(iv\)](#)).

(4) When using the clause at [252.204-7022](#), Expediting Contract Closeout, to expedite contract closeout, determine the residual dollar amount upon completion of all applicable closeout requirements of FAR 4.804.

204.804-70 Contract clause.

Use the clause at [252.204-7022](#), Expediting Contract Closeout, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, when the contracting officer intends to expedite contract closeout through the mutual waiver of entitlement to a residual dollar amount of \$1,000 or less determined at the time of contract closeout.

204.805 Disposal of contract files.

(1) The sources of the period for which contract files must be retained are General Records Schedule 3 (Procurement, Supply, and Grant Records) and General Records Schedule 6 (Accountable Officers' Accounts Records). Copies of the General Records

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

Schedule may be obtained from the National Archives and Records Administration, Washington, DC 20408.

(2) Deviations from the periods cannot be granted by the Defense Acquisition Regulations Council. Forward requests for deviations to both the Government Accountability Office and the National Archives and Records Administration.

(3) Hold completed contract files in the office responsible for maintaining them for a period of 12 months after completion. After the initial 12 month period, send the records to the local records holding or staging area until they are eligible for destruction. If no space is available locally, transfer the files to the General Services Administration Federal Records Center that services the area.

(4) Duplicate or working contract files should contain no originals of materials that properly belong in the official files. Destroy working files as soon as practicable once they are no longer needed.

(5) Retain pricing review files, containing documents related to reviews of the contractor's price proposals, subject to certified cost or pricing data (see FAR 15.403-4), for six years. If it is impossible to determine the final payment date in order to measure the six-year period, retain the files for nine years.

SUBPART 204.11—SYSTEM FOR AWARD MANAGEMENT
(Revised May 30, 2018)

204.1103 Procedures.

See [PGI 204.1103](#) for helpful information on navigation and data entry in the System for Award Management (SAM) database.

(1) On contract award documents, use the contractor's legal or "doing business as" name and physical address information as recorded in the SAM database at the time of award.

(4) See [PGI 204.1103](#) for additional requirements relating to use of information in the SAM database.

(5) On contractual documents transmitted to the payment office, provide the CAGE code, instead of the DUNS number or DUNS+4 number, in accordance with agency procedures.

SUBPART 204.16—UNIFORM PROCUREMENT INSTRUMENT IDENTIFIERS
(Revised September 13, 2019)

204.1601 Policy.

(a) *Establishment of a Procurement Instrument Identifier (PIID).* Do not reuse a PIID once it has been assigned. Do not assign the same PIID to more than one task or delivery order, even if they are issued under different base contracts or agreements.

(b) *Transition of PIID numbering.* Effective October 1, 2016, all DoD components shall comply with the PIID numbering requirements of FAR subpart 4.16 and this subpart for all new solicitations, contracts, orders, and agreements issued, and any amendments and modifications to those new actions. See also [PGI 204.1601\(b\)](#).

(c) *Change in the PIID after its assignment.* When a PIID is changed after contract award, the new PIID is known as a continued contract.

(i) A continued contract—

(A) Does not constitute a new procurement;

(B) Incorporates all prices, terms, and conditions of the predecessor contract effective at the time of issuance of the continued contract;

(C) Operates as a separate contract independent of the predecessor contract once issued; and

(D) Shall not be used to evade competition requirements, expand the scope of work, or extend the period of performance beyond that of the predecessor contract.

(ii) When issuing a continued contract, the contracting officer shall—

(A) Issue an administrative modification to the predecessor contract to clearly state that—

(1) Any future awards provided for under the terms of the predecessor contract (e.g., issuance of orders or exercise of options) will be accomplished under the continued contract; and

(2) Supplies and services already acquired under the predecessor contract shall remain solely under that contract for purposes of Government inspection, acceptance, payment, and closeout; and

(B) Follow the procedures at [PGI 204.1601\(c\)](#).

204.1603 Procedures.

(a) *Elements of a PIID.* DoD-issued PIIDs are thirteen characters in length. Use only alpha-numeric characters, as prescribed in FAR 4.1603 and this subpart. Do not use the letter I or O in any part of the PIID.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

(3) *Position 9.*

(A) DoD will use three of the letters reserved for departmental or agency use in FAR 4.1603(a)(3) in this position as follows:

(1) Use M to identify purchase orders and task or delivery orders issued by the enterprise FedMall system.

(2) Use S to identify broad agency announcements.

(3) Use T to identify automated requests for quotations by authorized legacy contract writing systems. See [PGI 204.1603\(a\)\(3\)\(A\)\(3\)](#) for the list of authorized systems.

(B) Do not use other letters identified in FAR 4.1603(a)(3) as “Reserved for future Federal Governmentwide use” or “Reserved for departmental or agency use” in position 9 of the PIID.

(C) Do not use the letter C or H for contracts or agreements with provisions for orders or calls.

(4) *Positions 10 through 17.* In accordance with FAR 4.1603(a)(4), DoD-issued PIIDs shall only use positions 10 through 13 to complete the PIID. Enter the serial number of the instrument in these positions. A separate series of serial numbers may be used for any type of instrument listed in FAR 4.1603(a)(3). DoD components assign such series of PIID numbers sequentially. A DoD component may reserve blocks of numbers or alpha-numeric numbers for use by its various activities.

(b) *Elements of a supplementary PIID.* In addition to the supplementary PIID numbering procedures in FAR 4.1603(b), follow the procedures contained in paragraphs (b)(2)(ii)(1) and (2) of this section. See [PGI 204.1603\(b\)](#) for examples of proper supplementary PIID numbering.

(2)(ii) *Positions 2 through 6.* In accordance with FAR 4.1603(b)(2)(ii), DoD-issued supplementary PIIDs shall, for positions 2 through 6 of modifications to contracts and agreements, comply with the following:

(1) *Positions 2 and 3.* These two digits may be either alpha or numeric characters, except—

(i) Use K, L, M, N, P, and Q only in position 2, and only if the modification is issued by the Air Force and is a provisioned item order;

(ii) Use S only in position 2, and only to identify modifications issued to provide initial or amended shipping instructions when—

(a) The contract has either FOB origin or destination delivery terms; and

(b) The price changes;

(iii) Use T, U, V, W, X, or Y only in position 2, and only to identify modifications issued to provide initial or amended shipping instructions when—

(a) The contract has FOB origin delivery terms; and

(b) The price does not change; and

(iv) Use Z only in position 2, and only to identify a modification which definitizes a letter contract or a previously issued undefinitized modification.

(2) *Positions 4 through 6.* These positions are always numeric. Use a separate series of serial numbers for each type of modification listed in paragraph (b)(2)(ii) of this section.

204.1670 Cross reference to Federal Procurement Data System.

Detailed guidance on mapping PIID and supplementary PIID numbers stored in the Electronic Data Access system to data elements reported in the Federal Procurement Data System can be found in [PGI 204.1670](#).

204.1671 Order of application for modifications.

(a) Circumstances may exist in which the numeric order of the modifications to a contract is not the order in which the changes to the contract actually take effect.

(b) In order to determine the sequence of modifications to a contract or order, the modifications will be applied in the following order—

(1) Modifications will be applied in order of the effective date on the modification;

(2) In the event of two or more modifications with the same effective date, modifications will be applied in signature date order; and

(3) In the event of two or more modifications with the same effective date and the same signature date, procuring contracting office modifications will be applied in numeric order, followed by contract administration office modifications in numeric order.

SUBPART 204.17—SERVICES CONTRACTS INVENTORY
(Added July 9, 2021)

204.1700 Scope of subpart.

This subpart prescribes the requirement to report certain contracted services in accordance with 10 U.S.C. 2330a.

204.1701 Definitions.

As used in this subpart—

“First-tier subcontract” means a subcontract awarded directly by the contractor for the purpose of acquiring services for performance of a prime contract. It does not include the contractor’s supplier agreements with vendors, such as long-term arrangements for materials or supplies or services that benefit multiple contracts and/or the costs of which are normally applied to a contractor’s general and administrative expenses or indirect costs.

204.1703 Reporting requirements.

(a) *Thresholds.* Service contractor reporting of information is required in the System for Award Management (SAM) when a contract or order—

(i) Has a total estimated value, including options, that exceeds \$3 million; and

(ii) Is for services in the following service acquisition portfolio groups (see [PGI 204.1703](#) for a list of applicable product and service codes):

(A) Logistics management services.

(B) Equipment-related services.

(C) Knowledge-based services.

(D) Electronics and communications services.

(b) *Agency reporting responsibilities.* In the event the agency believes that revisions to the contractor-reported information are warranted, the agency shall notify the contractor.

(S-70) *Contractor reporting.*

(1) The basic and the alternate of the clause at [252.204-7023](#), Reporting Requirements for Contracted Services, require contractors to report annually, by October 31, on the services performed under the contract or order, including any first-tier subcontracts, during the preceding Government fiscal year.

(2) For indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements—

(i) Contractor reporting is required for each order issued under the contract or agreement that meets the requirements of paragraph (a) of this section; and

(ii) Service contract reporting is not required for the basic contract or agreement.

204.1705 Contract clauses.

(a)(i) Use the basic or the alternate of the clause at [252.204-7023](#), Reporting Requirements for Contracted Services, in solicitations, contracts, agreements, and orders, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

(A) Have a total estimated value, including options, that exceeds \$3 million; and

(B) Are for services in the following service acquisition portfolio groups:

(1) Logistics management services.

(2) Equipment-related services.

(3) Knowledge-based services.

(4) Electronics and communications services.

(ii) Use the basic clause in solicitations and contracts, except solicitations and resultant awards of indefinite-delivery contracts, and orders placed under non-DoD contracts that meet the criteria in paragraph (a)(i) of this section.

(iii) Use the alternate I clause in solicitations and resultant awards of indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements, when one or more of the orders under the contract or agreement are expected to meet the criteria in paragraph (a)(i) of this section.

204.2101 Definitions.

As used in this subpart—

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, or any subsidiary or affiliate of such entities;

(2) Telecommunications services provided by such entities or using such equipment; or

(3) Telecommunications equipment or services produced or provided by an entity that the Secretary of Defense reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

(2) The homeland defense mission of DoD, including with respect to ballistic missile defense.

204.2102 Prohibition.

(a) *Prohibited equipment, systems, or services.* In addition to the prohibition at FAR 4.2102(a), unless the covered defense telecommunications equipment or services are subject to a waiver described in [204.2104](#), the contracting officer shall not procure or obtain, or extend or renew a contract (e.g., exercise an option) to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

204.2103 Procedures.

(a) *Representations.*

(1)(i) If the offeror selects “does not” in response to the provision at DFARS [252.204-7016](#), the contracting officer may rely on the representation, unless the contracting officer has an independent reason to question the representation. (i) Forward the offeror’s representation and disclosure information to the requiring activity; and

(ii) Not award to the offeror unless the requiring activity advises—

(A) For equipment, systems, or services that use covered telecommunications equipment or services as a substantial or essential component

of any system, or as critical technology as part of any system, that a waiver as described at FAR 4.2104 has been granted; or

(B) For equipment, systems, or services to be used to carry out covered missions that use covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, that a waiver as described at DFARS [204.2104](#) has been granted.

(b) *Reporting.* If a contractor reports information to <https://dibnet.dod.mil> in accordance with the clause at FAR 52.204-25 or DFARS [252.204-7018](#), the Defense Cyber Crime Center will notify the contracting officer, who will consult with the requiring activity on how to proceed with the contract.

204.2104 Waivers.

The Secretary of Defense may waive the prohibition in [204.2102](#)(a) on a case-by-case basis for a single, one-year period, if the Secretary—

(a) Determines such waiver to be in the national security interests of the United States; and

(b) Certifies to the Congressional defense committees that—

(i) There are sufficient mitigations in place to guarantee the ability of the Secretary to carry out the covered missions; and

(ii) The Secretary is removing the use of covered defense telecommunications equipment or services in carrying out such missions.

SUBPART 204.70—PROCUREMENT ACQUISITION LEAD TIME REPORTING
(Added December 31, 2019)

204.7001 Procedures.

Follow the procedures at [PGI 204.7001](#) for reporting procurement acquisition lead time milestones in the Procurement Integrated Enterprise Environment module.

**SUBPART 204.71—UNIFORM CONTRACT LINE ITEM NUMBERING
SYSTEM**

(Revised April 8, 2020)

204.7100 Scope.

This subpart prescribes policies and procedures for assigning contract line item numbers.

204.7101 Definitions.

“Accounting classification reference number (ACRN)” means any combination of a two position alpha/numeric code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

“Attachment” means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

“Definitized item,” as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

“Exhibit” means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

“Nonseverable deliverable,” as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

“Undefinitized item,” as used in this subpart, means an item for which a price has not been established in the basic contract or by modification.

204.7102 Policy.

(a) The numbering procedures of this subpart shall apply to all—

- (1) Solicitations;
- (2) Solicitation line and subline item numbers;
- (3) Contracts as defined in FAR Subpart 2.1;
- (4) Contract line and subline item numbers;
- (5) Exhibits;
- (6) Exhibit line items; and
- (7) Any other document expected to become part of the contract.

(b) The numbering procedures are mandatory for all contracts where separate contract line item numbers are assigned, unless—

(1) The contract is an indefinite-delivery type for petroleum products against which posts, camps, and stations issue delivery orders for products to be consumed by them; or

(2) The contract is a communications service authorization issued by the Defense Information Systems Agency's Defense Information Technology Contracting Organization.

204.7103 Contract line items.

Follow the procedures at [PGI 204.7103](#) for establishing contract line items.

204.7103-1 Criteria for establishing.

Contracts shall identify the items or services to be acquired as separate contract line items unless it is not feasible to do so.

(a) Contract line items shall have all four of the following characteristics; however, there are exceptions within the characteristics, which may make establishing a separate contract line item appropriate even though one of the characteristics appears to be missing—

(1) *Single unit price.* The item shall have a single unit price or a single total price, except—

(i) If the item is not separately priced (NSP) but the price is included in the unit price of another contract line item, enter NSP instead of the unit price;

(ii) When there are associated subline items, established for other than informational reasons, and those subline items are priced in accordance with [204.7104](#);

(iii) When the items or services are being acquired on a cost-reimbursement contract;

(iv) When the contract is for maintenance and repair services (e.g., a labor hour contract) and firm prices have been established for elements of the total price of an item but the actual number and quantity of the elements are not known until performance. The contracting officer may structure these contracts to reflect a firm or estimated total amount for each line item;

(v) When the contract line item is established to refer to an exhibit or an attachment (if management needs dictate that a unit price be entered, the price shall be set forth in the item description block and enclosed in parentheses); or

(vi) When the contract is an indefinite delivery type contract and provides that the price of an item shall be determined at the time a delivery order is placed and the price is influenced by such factors as the quantity ordered (e.g., 10-99 @ \$1.00, 100-249 @ \$.98, 250+ @ \$.95), the destination, the FOB point, or the type of packaging required.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

(2) *Separately identifiable.* A contract line item must be identified separately from any other items or services on the contract.

(i) Supplies are separately identifiable if they have no more than one—

(A) National stock number (NSN);

(B) Item description; or

(C) Manufacturer's part number.

(ii) Services are separately identifiable if they have no more than one—

(A) Scope of work; or

(B) Description of services.

(iii) This requirement does not apply if there are associated subline items, established for other than informational reasons, and those subline items include the actual detailed identification in accordance with [204.7104](#). Where this exception applies, use a general narrative description instead of the contract item description.

(3) *Separate delivery schedule.* Each contract line item or service shall have its own delivery schedule, period of performance, or completion date expressly stated (“as required” constitutes an expressly stated delivery term).

(i) The fact that there is more than one delivery date, destination, performance date, or performance point may be a determining factor in the decision as to whether to establish more than one contract line item.

(ii) If a contract line item has more than one destination or delivery date, the contracting officer may create individual contract line items for the different destinations or delivery dates, or may specify the different delivery dates for the units by destination in the delivery schedule.

(4) *Single accounting classification citation.*

(i) Each contract line item shall reference a single accounting classification citation except as provided in paragraph (a)(4)(ii) of this subsection.

(ii) The use of multiple accounting classification citations for a contract line item is authorized in the following situations:

(A) A single, nonseverable deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy;

(B) A single, nonseverable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

(C) A modification to an existing contract line item for a nonseverable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

(iii) When the use of multiple accounting classification citations is authorized for a single contract line item, establish informational subline items for each accounting classification citation in accordance with [204.7104-1\(a\)](#).

(b) All subline items and exhibit line items under one contract line item shall be the same contract type as the contract line item.

(c) For a contract that contains a combination of fixed-price line items, time-and-materials/labor-hour line items, and/or cost-reimbursement line items, identify the contract type for each contract line item in Section B, Supplies or Services and Prices/Costs, to facilitate appropriate payment.

(d) Exhibits may be used as an alternative to putting a long list of contract line items in the schedule. If exhibits are used, create a contract line item citing the exhibit's identifier. See [204.7105](#).

(e) If the contract involves a test model or a first article which must be approved, establish a separate contract line item or subline item for each item of supply or service which must be approved. If the test model or first article consists of a lot composed of a mixture of items, a single line item or subline item may be used for the lot.

(f) If a supply or service involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate contract line item solely to account for these functions. However, do identify the functions in the contract schedule. If the offeror separately prices these functions, contracting officers may establish separate contract line items for the functions; however, the separate line items must conform to the requirements of paragraph (a) of this subsection.

(g) Certain commercial items and initial provisioning spares for weapons systems are requested and subsequently solicited using units of measure such as kit, set, or lot. However, there are times when individual items within that kit, set, or lot are not grouped and delivered in a single shipment. This creates potential contract administration issues with inspection, acceptance, and payment. In such cases, solicitations should be structured to allow offerors to provide information about products that may not have been known to the Government prior to solicitation and propose an alternate line item structure as long as the alternate is consistent with the requirements of [204.71](#), which provides explicit guidance on the use of contract line items and subline items, and with PGI [204.71](#).

204.7103-2 Numbering procedures.

Follow the procedures at PGI [204.7103-2](#) for numbering contract line items.

204.7104 Contract subline items.

204.7104-1 Criteria for establishing.

Contract subline items provide flexibility to further identify elements within a contract line item for tracking performance or simplifying administration. There are only two kinds of subline items: those which are informational in nature and those which consist of more than one item that requires separate identification.

(a) *Informational subline items.*

(1) This type of subline item identifies information that relates directly to the contract line item and is an integral part of it (e.g., parts of an assembly or parts of a kit). These subline items shall not be scheduled separately for delivery, identified separately for shipment or performance, or priced separately for payment purposes.

(2) The informational subline item may include quantities, prices, or amounts, if necessary to satisfy management requirements. However, these elements shall be included within the item description in the supplies/services column and enclosed in parentheses to prevent confusing them with quantities, prices, or amounts that have contractual significance. Do not enter these elements in the quantity and price columns.

(3) Informational subline items shall be used to identify each accounting classification citation assigned to a single contract line item number when use of multiple citations is authorized (see [204.7103-1\(a\)\(4\)\(ii\)](#)).

(b) *Separately identified subline items.*

(1) Subline items will be used instead of contract line items to facilitate payment, delivery tracking, contract funds accounting, or other management purposes. Such subline items shall be used when items bought under one contract line item number—

(i) Are to be paid for from more than one accounting classification. A subline item shall be established for the quantity associated with the single accounting classification citation. Establish a line item rather than a subline item if it is likely that a subline item may be assigned additional accounting classification citations at a later date. Identify the funding as described in [204.7104-1\(a\)\(3\)](#);

(ii) Are to be packaged in different sizes, each represented by its own NSN;

(iii) Have collateral costs, such as packaging costs, but those costs are not a part of the unit price of the contract line item;

(iv) Have different delivery dates or destinations or requisitions, or a combination of the three; or

(v) Identify parts of an assembly or kit which—

(A) Have to be separately identified at the time of shipment or performance; and

(B) Are separately priced.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

(2) Each separately identified contract subline item shall have its own—

(i) Delivery schedule, period of performance, or completion date;

(ii) Unit price or single total price or amount (not separately priced (NSP) is acceptable as an entry for price or amount if the price is included in another subline item or a different contract line item). This requirement does not apply—

(A) If the subline item was created to refer to an exhibit or an attachment. If management needs dictate that a unit price be entered, the price shall be set forth in the item description block of the schedule and enclosed in parentheses; or

(B) In the case of indefinite delivery contracts described at [204.7103-1\(a\)\(1\)\(vi\)](#).

(iii) Identification (e.g., NSN, item description, manufacturer's part number, scope of work, description of services).

(3) Unit prices and extended amounts.

(i) The unit price and total amount for all subline items may be entered at the contract line item number level if the unit price for the subline items is identical. If there is any variation, the subline item unit prices shall be entered at the subline item level only.

(ii) The unit price and extended amounts may be entered at the subline items level.

(iii) The two methods in paragraphs (b)(3)(i) and (ii) of this section shall not be combined in a contract line item.

(iv) When the price for items not separately priced is included in the price of another contract line or subline item, it may be necessary to withhold payment on the priced contract line or subline item until the included line or subline items that are not separately priced have been delivered. See the clause at [252.204-7002](#), Payment for Contract Line or Subline Items Not Separately Priced.

204.7104-2 Numbering procedures.

Follow the procedures at PGI [204.7104-2](#) for numbering contract subline items.

204.7105 Contract exhibits and attachments.

Follow the procedures at PGI [204.7105](#) for use and numbering of contract exhibits and attachments.

204.7106 Contract modifications.

(a) If new items are added, assign new contract line or subline item numbers or exhibit line item numbers, in accordance with the procedures established at [204.7103](#), [204.7104](#), and [204.7105](#).

(b) *Modifications to existing contract line items or exhibit line items.*

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative and Information Matters

(1) If the modification relates to existing contract line items or exhibit line items, the modification shall refer to those item numbers.

(2) If the contracting officer decides to assign new identifications to existing contract or exhibit line items, the following rules apply—

(i) *Definitized and undefinitized items.*

(A) The original line item or subline item number may be used if the modification applies to the total quantity of the original line item or subline.

(B) The original line item or subline item number may be used if the modification makes only minor changes in the specifications of some of the items ordered on the original line item or subline item and the resulting changes in unit price can be averaged to provide a new single unit price for the total quantity. If the changes in the specifications make the item significantly distinguishable from the original item or the resulting changes in unit price cannot be averaged, create a new line item.

(C) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item and the change does not involve either the delivery date or the ship-to/mark-for data, the original contract line item or subline item or exhibit line item number shall remain with the unchanged quantity. Assign the changed quantity the next available number.

(ii) *Undefinitized items.* In addition to the rules in paragraph (b)(2)(i), the following additional rules apply to undefinitized items—

(A) If the modification is undefinitized and increases the quantity of an existing definitized item, assign the undefinitized quantity the next available number.

(B) If the modification increases the quantity of an existing undefinitized item, the original contract line item or subline item or exhibit line item may be used if the unit price for the new quantity is expected to be the same as the price for the original quantity. If the unit prices of the two quantities will be different, assign the new quantity the next available number.

(C) If the modification both affects only a partial quantity of the existing contract line item or subline item or exhibit line item and definitizes the price for the affected portion, the definitized portion shall retain the original item number. If there is any undefinitized portion of the item, assign it the next available number. However, if the modification definitizes the price for the whole quantity of the line item, and price impact of the changed work can be apportioned equally over the whole to arrive at a new unit price, the quantity with the changes can be added into the quantity of the existing item.

(D) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item, but does not change the delivery schedule or definitize price, the unchanged portion shall retain the original contract line item or subline item or exhibit line item number. Assign the changed portion the next available number.

(3) If the modification will decrease the amount obligated—

(i) There shall be coordination between the administrative and procuring contracting offices before issuance of the modification; and

(ii) The contracting officer shall not issue the modification unless sufficient unliquidated obligation exists or the purpose is to recover monies owed to the Government.

204.7107 Contract accounting classification reference number (ACRN) and agency accounting identifier (AAI).

Traceability of funds from accounting systems to contract actions is accomplished using ACRNs and AAIs. Follow the procedures at [PGI 204.7107](#) for use of ACRNs and AAIs.

204.7108 Payment instructions.

Follow the procedures at [PGI 204.7108](#) for inclusion of payment instructions in contracts.

204.7109 Contract clauses.

(a) Use the clause at [252.204-7002](#), Payment for Contract Line or Subline Items Not Separately Priced, in solicitations and contracts when the price for items not separately priced is included in the price of another contract line or subline item.

(b) Use the clause at [252.204-7006](#), Billing Instructions, in solicitations and contracts if Section G includes—

(1) Any of the standard payment instructions at [PGI 204.7108\(b\)\(2\)](#); or

(2) Other payment instructions, in accordance with [PGI 204.7108\(d\)\(12\)](#), that require contractor identification of the contract line item(s) on the payment request.

SUBPART 204.72– ANTITERRORISM AWARENESS TRAINING

(Added February 15, 2019)

204.7200 Scope of subpart.

This subpart provides policy and guidance related to antiterrorism awareness training for contractor personnel who require routine physical access to a Federally-controlled facility or military installation.

204.7201 Definition.

As used in this subpart—

“Military installation” means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department or, in the case of an activity in a foreign country, under the operational control of the Secretary of a military department or the Secretary of Defense (see 10 U.S.C. 2801(c)(4)).

204.7202 Policy.

It is DoD policy that—

(a) Contractor personnel who, as a condition of contract performance, require routine physical access to a Federally-controlled facility or military installation are required to complete Level I antiterrorism awareness training within 30 days of requiring access and annually thereafter; and

(b) In accordance with Department of Defense Instruction O-2000.16, Volume 1, DoD Antiterrorism (AT) Program Implementation: DoD AT Standards, Level I antiterrorism awareness training may be completed—

(1) Through a DoD-sponsored and certified computer or web-based distance learning instruction for Level I antiterrorism awareness; or

(2) Under the instruction of a qualified Level I antiterrorism awareness instructor.

204.7203 Contract clause.

Include the clause at [252.204-7004](#), DoD Antiterrorism Awareness Training for Contractors, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, when contractor personnel require routine physical access to a Federally-controlled facility or military installation.

**SUBPART 204.73—SAFEGUARDING COVERED DEFENSE INFORMATION
AND CYBER INCIDENT REPORTING**

(Revised November 30, 2020)

204.7300 Scope.

(a) This subpart applies to contracts and subcontracts requiring contractors and subcontractors to safeguard covered defense information that resides in or transits through covered contractor information systems by applying specified network security requirements. It also requires reporting of cyber incidents.

(b) This subpart does not abrogate any other requirements regarding contractor physical, personnel, information, technical, or general administrative security operations governing the protection of unclassified information, nor does it affect requirements of the National Industrial Security Program.

204.7301 Definitions.

As used in this subpart—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified controlled technical information or other information (as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>) that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

- (1) Marked or otherwise identified in the contract, task order, or delivery order and

provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Media” means physical devices or writing surfaces including, but not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Rapidly report” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS [252.227-7013](#), Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

204.7302 Policy.

(a)(1) Contractors and subcontractors are required to provide adequate security on all covered contractor information systems.

(2) Contractors required to implement NIST SP 800-171, in accordance with the clause at [252.204-7012](#), Safeguarding Covered Defense Information and Cyber incident Reporting, are required at time of award to have at least a Basic NIST SP 800-171 DoD Assessment that is current (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) (see [252.204-7019](#)).

(3) The NIST SP 800-171 DoD Assessment Methodology is located at https://www.acq.osd.mil/dpap/pdi/cyber/strategically_assessing_contractor_implementation_of_NIST_SP_800-171.html.

(4) High NIST SP 800-171 DoD Assessments will be conducted by Government personnel using NIST SP 800-171A, “Assessing Security Requirements for Controlled Unclassified Information.”

(5) The NIST SP 800-171 DoD Assessment will not duplicate efforts from any other DoD assessment or the Cybersecurity Maturity Model Certification (CMMC) (see subpart [204.75](#)), except for rare circumstances when a re-assessment may be necessary, such as, but not limited to, when cybersecurity risks, threats, or awareness have changed, requiring a re-assessment to ensure current compliance.

(b) Contractors and subcontractors are required to rapidly report cyber incidents

directly to DoD at <http://dibnet.dod.mil>. Subcontractors provide the incident report number automatically assigned by DoD to the prime contractor. Lower-tier subcontractors likewise report the incident report number automatically assigned by DoD to their higher-tier subcontractor, until the prime contractor is reached.

- (1) If a cyber incident occurs, contractors and subcontractors submit to DoD—
 - (i) A cyber incident report;
 - (ii) Malicious software, if detected and isolated; and
 - (iii) Media (or access to covered contractor information systems and equipment) upon request.
- (2) Contracting officers shall refer to [PGI 204.7303-4\(c\)](#) for instructions on contractor submissions of media and malicious software.

(c) Information shared by the contractor may include contractor attributional/proprietary information that is not customarily shared outside of the company, and that the unauthorized use or disclosure of such information could cause substantial competitive harm to the contractor that reported the information. The Government shall protect against the unauthorized use or release of information that includes contractor attributional/proprietary information.

(d) A cyber incident that is reported by a contractor or subcontractor shall not, by itself, be interpreted as evidence that the contractor or subcontractor has failed to provide adequate security on their covered contractor information systems, or has otherwise failed to meet the requirements of the clause at [252.204-7012](#), Safeguarding Covered Defense Information and Cyber Incident Reporting. When a cyber incident is reported, the contracting officer shall consult with the DoD component Chief Information Officer/cyber security office prior to assessing contractor compliance (see [PGI 204.7303-3\(a\)\(3\)](#)). The contracting officer shall consider such cyber incidents in the context of an overall assessment of a contractor's compliance with the requirements of the clause at [252.204-7012](#).

(e) Support services contractors directly supporting Government activities related to safeguarding covered defense information and cyber incident reporting (e.g., forensic analysis, damage assessment, or other services that require access to data from another contractor) are subject to restrictions on use and disclosure of reported information.

204.7303 Procedures.

(a) Follow the procedures relating to safeguarding covered defense information at [PGI 204.7303](#).

(b) The contracting officer shall verify that the summary level score of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old, unless a lesser time is specified in the solicitation) (see [252.204-7019](#)) for each covered contractor information system that is relevant to an offer, contract, task order, or delivery order are posted in Supplier Performance Risk System (SPRS) (<https://www.sprs.csd.disa.mil/>), prior to—

(1) Awarding a contract, task order, or delivery order to an offeror or contractor that is required to implement NIST SP 800-171 in accordance with the clause at [252.204-7012](#); or

(2) Exercising an option period or extending the period of performance on a contract, task order, or delivery order with a contractor that is that is required to implement the NIST SP 800-171 in accordance with the clause at [252.204-7012](#).

204.7304 Solicitation provisions and contract clauses.

(a) Use the provision at [252.204-7008](#), Compliance with Safeguarding Covered Defense Information Controls, in all solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, except for solicitations solely for the acquisition of commercially available off-the-shelf (COTS) items.

(b) Use the clause at [252.204-7009](#), Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, for services that include support for the Government's activities related to safeguarding covered defense information and cyber incident reporting.

(c) Use the clause at [252.204-7012](#), Safeguarding Covered Defense Information and Cyber Incident Reporting, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, except for solicitations and contracts solely for the acquisition of COTS items.

(d) Use the provision at [252.204-7019](#), Notice of NIST SP 800-171 DoD Assessment Requirements, in all solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, except for solicitations solely for the acquisition of commercially available off-the-shelf (COTS) items.

(e) Use the clause at [252.204-7020](#), NIST SP 800-171 DoD Assessment Requirements, in all solicitations and contracts, task orders, or delivery orders, including those using FAR part 12 procedures for the acquisition of commercial items, except for those that are solely for the acquisition of COTS items.

**SUBPART 204.74—DISCLOSURE OF INFORMATION TO LITIGATION
SUPPORT CONTRACTORS**
(Revised October 31, 2019)

204.7400 Scope of subpart.

This subpart prescribes policies and procedures for the release and safeguarding of information to litigation support contractors. It implements the requirements at 10 U.S.C. 129d.

204.7401 Definitions.

As used in this subpart—

“Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

“Litigation information” means any information, including sensitive information, that is furnished to the contractor by or on behalf of the Government, or that is generated or obtained by the contractor in the performance of litigation support under a contract. The term does not include information that is lawfully, publicly available without restriction, including information contained in a publicly available solicitation.

“Litigation support” means administrative, technical, or professional services provided in support of the Government during or in anticipation of litigation.

“Litigation support contractor” means a contractor (including its experts, technical consultants, subcontractors, and suppliers) providing litigation support under a contract that contains the clause at [252.204-7014](#), Limitations on the Use or Disclosure of Information by Litigation Support Contractors.

“Sensitive information” means controlled unclassified information of a commercial, financial, proprietary, or privileged nature. The term includes technical data and computer software, but does not include information that is lawfully, publicly available without restriction.

“Technical data” means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

204.7402 Policy.

(a) Any release or disclosure of litigation information that includes sensitive information to a litigation support contractor, and the litigation support contractor’s use and handling of such information, shall comply with the requirements of 10 U.S.C. 129d.

(b) To the maximum extent practicable, DoD will provide notice to an offeror or contractor submitting, delivering, or otherwise providing information to DoD in connection with an offer or performance of a contract that such information may be released or disclosed to litigation support contractors.

(c) Information that is publicly available without restriction, including publicly available solicitations for litigation support services, will not be protected from disclosure as litigation information.

(d) When sharing sensitive information with a litigation support contractor, contracting officers shall ensure that all other applicable requirements for handling and safeguarding the relevant types of sensitive information are included in the contract (e.g., FAR subparts 4.4 and 24.1; DFARS subparts [204.4](#) and [224.1](#)).

204.7403 Contract clauses.

(a) Use the clause at [252.204-7014](#), Limitations on the Use or Disclosure of Information by Litigation Support Contractors, in all solicitations and contracts that involve litigation support services, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items.

(b) Use the clause at [252.204-7015](#), Notice of Authorized Disclosure of Information for Litigation Support, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items.

SUBPART 204.75—CYBERSECURITY MATURITY MODEL CERTIFICATION
(Added November 30, 2020)

204.7500 Scope of subpart.

(a) This subpart prescribes policies and procedures for including the Cybersecurity Maturity Model Certification (CMMC) level requirements in DoD contracts. CMMC is a framework that measures a contractor's cybersecurity maturity to include the implementation of cybersecurity practices and institutionalization of processes (see <https://www.acq.osd.mil/cmmc/index.html>).

(b) This subpart does not abrogate any other requirements regarding contractor physical, personnel, information, technical, or general administrative security operations governing the protection of unclassified information, nor does it affect requirements of the National Industrial Security Program.

204.7501 Policy.

(a) The contracting officer shall include in the solicitation the required CMMC level, if provided by the requiring activity. Contracting officers shall not award a contract, task order, or delivery order to an offeror that does not have a current (i.e., not more than 3 years old) CMMC certificate at the level required by the solicitation.

(b) Contractors are required to achieve, at time of award, a CMMC certificate at the level specified in the solicitation. Contractors are required to maintain a current (i.e., not more than 3 years old) CMMC certificate at the specified level, if required by the statement of work or requirement document, throughout the life of the contract, task order, or delivery order. Contracting officers shall not exercise an option period or extend the period of performance on a contract, task order, or delivery order, unless the contract has a current (i.e., not more than 3 years old) CMMC certificate at the level required by the contract, task order, or delivery order.

(c) The CMMC Assessments shall not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a re-assessment may be necessary such as, but not limited to when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

204.7502 Procedures.

(a) When a requiring activity identifies a requirement for a contract, task order, or delivery order to include a specific CMMC level, the contracting officer shall not—

(1) Award to an offeror that does not have a CMMC certificate at the level required by the solicitation; or

(2) Exercise an option or extend any period of performance on a contract, task order, or delivery order unless the contractor has a CMMC certificate at the level required by the contract.

(b) Contracting officers shall use Supplier Performance Risk System (SPRS) (<https://www.sprs.csd.disa.mil/>) to verify an offeror or contractor's CMMC level.

204.7503 Contract clause.

Use the clause at [252.204-7021](#), Cybersecurity Maturity Model Certification Requirements, as follows:

(a) Until September 30, 2025, in solicitations and contracts or task orders or delivery orders, including those using FAR part 12 procedures for the acquisition of commercial items, except for solicitations and contracts or orders solely for the acquisition of commercially available off-the-shelf (COTS) items, if the requirement document or statement of work requires a contractor to have a specific CMMC level. In order to implement a phased rollout of CMMC, inclusion of a CMMC requirement in a solicitation during this time period must be approved by OUSD(A&S).

(b) On or after October 1, 2025, in all solicitations and contracts or task orders or delivery orders, including those using FAR part 12 procedures for the acquisition of commercial items, except for solicitations and contracts or orders solely for the acquisition of COTS items.

(i) In accordance with 10 U.S.C. 2533a(k), contracting officers also must synopsise through the GPE, awards exceeding the simplified acquisition threshold that are for the acquisition of any clothing, fiber, yarn, or fabric items described in [225.7002-1\(a\)\(1\)\(ii\)](#) through (x), if—

(A) The Secretary concerned has determined that domestic items are not available, in accordance with [225.7002-2\(b\)](#); or

(B) The acquisition is for chemical warfare protective clothing, and the contracting officer has determined that an exception to domestic source requirements applies because the acquisition furthers an agreement with a qualifying country, in accordance with [225.7002-2\(n\)](#).

(ii) The synopsis must be submitted in sufficient time to permit its publication not later than 7 days after contract award.

(iii) In addition to the information otherwise required in a synopsis of contract award, the synopsis must include one of the following statements as applicable:

(A) “The exception at DFARS [225.7002-2\(b\)](#) applies to this acquisition, because the Secretary concerned has determined that items grown, reprocessed, reused, or produced in the United States cannot be acquired as and when needed in satisfactory quality and sufficient quantity at U.S. market prices.”

(B) “The exception at DFARS [225.7002-2\(n\)](#) applies to this acquisition, because the contracting officer has determined that this acquisition of chemical warfare protective clothing furthers an agreement with a qualifying country identified in DFARS [225.003\(10\)](#).”

205.303 Announcement of contract awards.

(a) *Public Announcement.*

(i) The threshold for DoD awards is \$7.5 million. Report all contractual actions, including modifications, that have a face value, excluding unexercised options, of more than \$7.5 million.

(A) For undefinitized contractual actions, report the not-to-exceed (NTE) amount. Later, if the definitized amount exceeds the NTE amount by more than \$7.5 million, report only the amount exceeding the NTE.

(B) For indefinite delivery, time and material, labor hour, and similar contracts, report the initial award if the estimated face value, excluding unexercised options, is more than \$7.5 million. Do not report orders up to the estimated value, but

after the estimated value is reached, report subsequent modifications and orders that have a face value of more than \$7.5 million.

(C) Do not report the same work twice.

(ii) Departments and agencies submit the information—

(A) To the Office of the Assistant Secretary of Defense (Public Affairs);

(B) By the close of business the day before the date of the proposed award;

(C) Using report control symbol DD-LA-(AR) 1279;

(D) Including, as a minimum, the following—

(1) *Contract data.* Contract number, modification number, or delivery order number, face value of this action, total cumulative face value of the contract, description of what is being bought, contract type, whether any of the buy was for foreign military sales (FMS) and identification of the FMS customer;

(2) *Competition information.* Number of solicitations mailed and number of offers received;

(3) *Contractor data.* Name, address, and place of performance (if significant work is performed at a different location);

(4) *Funding data.* Type of appropriation and fiscal year of the funds, and whether the contract is multiyear (see FAR Subpart 17.1); and

(5) *Miscellaneous data.* Identification of the contracting office, the contracting office point of contact, known congressional interest, and the information release date.

(iii) Departments and agencies, in accordance with department/agency procedures and concurrent with the public announcement, shall provide information similar to that required by paragraph (a)(ii) of this section to members of Congress in whose State or district the contractor is located and the work is to be performed.

Part 206—Competition Requirements

(Revised April 20, 2015)

206.000 Scope of part.

For information on the various approaches that may be used to competitively fulfill DoD requirements, see [PGI 206.000](#).

206.001 Applicability.

(b) As authorized by 10 U.S.C. 1091, contracts awarded to individuals using the procedures at 237.104(b)(ii) are exempt from the competition requirements of FAR Part 6.

(S-70) Also excepted from this part are follow-on production contracts for products developed pursuant to the “other transactions” authority of 10 U.S.C. 2371 for prototype projects when—

(1) The other transaction agreement includes provisions for a follow-on production contract;

(2) The contracting officer receives sufficient information from the agreements officer and the project manager for the prototype other transaction agreement, which documents that the conditions set forth in 10 U.S.C. 2371 note, subsections (f)(2)(A) and (B) (see 32 CFR 3.9(d)), have been met; and

(3) The contracting officer establishes quantities and prices for the follow-on production contract that do not exceed the quantities and target prices established in the other transaction agreement.

SUBPART 206.1—FULL AND OPEN COMPETITION
(Added February 15, 2019)

206.102 Use of competitive procedures.

(d) *Other competitive procedures.*

(2) In lieu of FAR 6.102(d)(2), competitive selection of science and technology proposals resulting from a broad agency announcement with peer or scientific review, as described in [235.016](#)(a) (10 U.S.C. 2302(2)(B)).

(Revised October 14, 2014)

206.202 Establishing or maintaining alternative sources.

(a) Agencies may use this authority to totally or partially exclude a particular source from a contract action.

(b) The determination and findings (D&F) and the documentation supporting the D&F shall identify the source to be excluded from the contract action. Include the information at [PGI 206.202\(b\)](#), as applicable, and any other information that may be pertinent, in the supporting documentation.

SUBPART 206.3—OTHER THAN FULL AND OPEN COMPETITION

(Revised June 5, 2020)

206.302 Circumstances permitting other than full and open competition.

206.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

(a) Authority.

(2)(i) Section 8059 of Pub. L. 101-511 and similar sections in subsequent defense appropriations acts, prohibit departments and agencies from entering into contracts for studies, analyses, or consulting services (see FAR Subpart 37.2) on the basis of an unsolicited proposal without providing for full and open competition, unless—

(1) The head of the contracting activity, or a designee no lower than chief of the contracting office, determines that—

(i) Following thorough technical evaluation, only one source is fully qualified to perform the proposed work;

(ii) The unsolicited proposal offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence; or

(iii) The contract benefits the national defense by taking advantage of a unique and significant industrial accomplishment or by ensuring financial support to a new product or idea;

(2) A civilian official of the DoD, whose appointment has been confirmed by the Senate, determines the award to be in the interest of national defense; or

(3) The contract is related to improvement of equipment that is in development or production.

(b) Application. This authority may be used for acquisitions of test articles and associated support services from a designated foreign source under the DoD Foreign Comparative Testing Program.

(c) Application for brand-name descriptions.

(2) Notwithstanding FAR 6.302-1(c)(2), in accordance with section 888(a) of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328), the justification and approval addressed in FAR 6.303 is required in order to use brand name or equal descriptions.

(d) Limitations. Follow the procedures at [PGI 206.302-1\(d\)](#) prior to soliciting a proposal without providing for full and open competition under this authority.

(S-70) *Application for proprietary specifications or standards.* In accordance with section 888(a) of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328), the justification and approval addressed in FAR 6.303 is required in order to use proprietary specifications and standards.

206.302-2 Unusual and compelling urgency.

(b) *Application.* For guidance on circumstances under which use of this authority may be appropriate, see [PGI 206.302-2\(b\)](#).

206.302-3 Industrial mobilization, engineering, developmental, or research capability, or expert services.

206.302-3-70 Solicitation provision.

Use the provision at [252.206-7000](#), Domestic Source Restriction, in all solicitations that are restricted to domestic sources under the authority of FAR 6.302-3.

206.302-4 International agreement.

(c) *Limitations.* Pursuant to 10 U.S.C. 2304(f)(2)(E), the justifications and approvals described in FAR 6.303 and 6.304 are not required if the head of the contracting activity prepares a document that describes the terms of an agreement or treaty or the written directions, such as a Letter of Offer and Acceptance, that have the effect of requiring the use of other than competitive procedures for the acquisition.

206.302-5 Authorized or required by statute.

(b) *Application.* Agencies may use this authority to—

(i) Acquire supplies and services from military exchange stores outside the United States for use by the armed forces outside the United States in accordance with 10 U.S.C. 2424(a) and subject to the limitations of 10 U.S.C. 2424(b). The limitations of 10 U.S.C. 2424(b)(1) and (2) do not apply to the purchase of soft drinks that are manufactured in the United States. For the purposes of 10 U.S.C. 2424, soft drinks manufactured in the United States are brand name carbonated sodas, manufactured in the United States, as evidenced by product markings.

(ii) Acquire police, fire protection, airfield operation, or other community services from local governments at military installations to be closed under the circumstances in 237.7401 (Section 2907 of Fiscal Year 1994 Defense Authorization Act (Pub. L. 103-160)).

(c) *Limitations.*

(i) 10 U.S.C. 2361 precludes use of this exception for awards to colleges or universities for the performance of research and development, or for the construction of any research or other facility, unless—

(A) The statute authorizing or requiring award specifically—

(1) States that the statute modifies or supersedes the provisions of 10 U.S.C. 2361,

(2) Identifies the particular college or university involved, and

(3) States that award is being made in contravention of 10 U.S.C. 2361(a); and

(B) The Secretary of Defense provides Congress written notice of intent to award. The contract cannot be awarded until 180 days have elapsed since the date Congress received the notice of intent to award. Contracting activities must submit a draft notice of intent with supporting documentation through channels to the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics).

(ii) The limitation in paragraph (c)(i) of this subsection applies only if the statute authorizing or requiring award was enacted after September 30, 1989.

(iii) Subsequent statutes may provide different or additional constraints on the award of contracts to specified colleges and universities. Contracting officers should consult legal counsel on a case-by-case basis.

206.302-7 Public interest.

(c) *Limitations.* For the defense agencies, the written determination to use this authority must be made by the Secretary of Defense.

206.303 Justifications.

206.303-1 Requirements.

(a) In accordance with section 823 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), no justification and approval is required for a sole - source contract under the 8(a) authority (15 U.S.C. 637(a)) for an amount not exceeding \$100 million.

(b) In lieu of FAR 6.303-1(b), in accordance with section 823 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), contracting officers shall not award a sole source contract under the 8(a) authority (15 U.S.C. 637(a)) for an amount exceeding \$100 million unless—

(1) The contracting officer justifies the use of a sole source contract in writing in accordance with FAR 6.303-2;

(3) The justification and related information are made public after award in accordance with FAR 6.305.

206.303-2 Content.

(b)(i) In lieu of the threshold at FAR 6.303-2(b), each justification shall include the information at FAR 6.303-2(b), except for sole-source 8(a) contracts over \$100 million (see paragraph (d) of this section).

(ii) Include the information required by [PGI 206.303-2\(b\)\(i\)](#) in justifications citing the authority at FAR 6.302-1.

(d) In lieu of the threshold at FAR 6.303-2(d), each justification for a sole-source 8(a) contract over \$100 million shall include the information at FAR 6.303-2(d).

(Revised May 20, 2021)

207.102 Policy.

(a)(1) See [212.102](#) regarding requirements for a written determination that the commercial item definition has been met when using FAR Part 12 procedures.

207.103 Agency-head responsibilities.

(d)(i) Prepare written acquisition plans for—

(A) Acquisitions for development, as defined in FAR 35.001, when the total cost of all contracts for the acquisition program is estimated at \$10 million or more;

(B) Acquisitions for production or services when the total cost of all contracts for the acquisition program is estimated at \$50 million or more for all years or \$25 million or more for any fiscal year; and

(C) Any other acquisition considered appropriate by the department or agency.

(ii) Written plans are not required in acquisitions for a final buy out or one-time buy. The terms "final buy out" and "one-time buy" refer to a single contract that covers all known present and future requirements. This exception does not apply to a multiyear contract or a contract with options or phases.

(e) Prepare written acquisition plans for acquisition programs meeting the thresholds of paragraphs (d)(i)(A) and (B) of this section on a program basis. Other acquisition plans may be written on either a program or an individual contract basis.

(g) The program manager, or other official responsible for the program, has overall responsibility for acquisition planning.

(h) For procurement of conventional ammunition, as defined in DoDD 5160.65, Single Manager for Conventional Ammunition (SMCA), the SMCA will review the acquisition plan to determine if it is consistent with retaining national technology and industrial base capabilities in accordance with 10 U.S.C. 2304(c)(3) and Section 806 of Pub. L. 105-261. The department or agency--

(i) Shall submit the acquisition plan to the address in [PGI 207.103\(h\)](#); and

(ii) Shall not proceed with the procurement until the SMCA provides written concurrence with the acquisition plan. In the case of a non-concurrence, the SMCA will resolve issues with the Army Office of the Executive Director for Conventional Ammunition.

207.104 General procedures.

In developing an acquisition plan, agency officials shall take into account the requirement for scheduling and conducting a Peer Review in accordance with [201.170](#).

207.105 Contents of written acquisition plans.

In addition to the requirements of FAR 7.105, planners shall follow the procedures at [PGI 207.105](#).

207.106 Additional requirements for major systems.

(b)(1)(A) The contracting officer is prohibited by 10 U.S.C. 2305(d)(4)(A) from requiring offers for development or production of major systems that would enable the Government to use technical data to competitively reprocure identical items or components of the system if the item or component were developed exclusively at private expense, unless the contracting officer determines that—

(1) The original supplier of the item or component will be unable to satisfy program schedule or delivery requirements;

(2) Proposals by the original supplier of the item or component to meet mobilization requirements are insufficient to meet the agency's mobilization needs; or

(3) The Government is otherwise entitled to unlimited rights in technical data.

(B) If the contracting officer makes a determination, under paragraphs (b)(1)(A)(1) and (2) of this section, for a competitive solicitation, 10 U.S.C. 2305(d)(4)(B) requires that the evaluation of items developed at private expense be based on an analysis of the total value, in terms of innovative design, life-cycle costs, and other pertinent factors, of incorporating such items in the system.

(S-70)(1) In accordance with section 802(a) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364) and DoD policy requirements, acquisition plans for major weapon systems and subsystems of major weapon systems shall—

(i) Assess the long-term technical data and computer software needs of those systems and subsystems; and

(ii) Establish acquisition strategies that provide for the technical data deliverables and associated license rights needed to sustain those systems and subsystems over their life cycle. The strategy may include—

(A) The development of maintenance capabilities within DoD; or

(B) Competition for contracts for sustainment of the systems or subsystems.

(2) Assessments and corresponding acquisition strategies developed under this section shall—

(i) Be developed before issuance of a solicitation for the weapon system or subsystem;

(ii) In accordance with 10 U.S.C. 2443, to emphasize reliability and maintainability in weapon system design, ensure that reliability and maintainability are included in the performance attributes of the key performance

Part 207—Acquisition Planning

parameters on sustainment during the development of capabilities requirements. For additional guidance see [PGI 207.105\(b\)\(14\)\(ii\)\(2\)](#);

(iii) Address the merits of including a priced contract option for the future delivery of technical data and computer software, and associated license rights, that were not acquired upon initial contract award;

(iv) Address the potential for changes in the sustainment plan over the life cycle of the weapon system or subsystem; and

(v) Apply to weapon systems and subsystems that are to be supported by performance-based logistics arrangements as well as to weapon systems and subsystems that are to be supported by other sustainment approaches.

(S-71) See [209.570](#) for policy applicable to acquisition strategies that consider the use of lead system integrators.

(S-72)(1) In accordance with section 202 of the Weapon Systems Acquisition Reform Act of 2009 (Pub. L. 111-23), acquisition plans for major defense acquisition programs as defined in 10 U.S.C. 2430, shall include measures that—

(i) Ensure competition, or the option of competition, at both the prime contract level and subcontract level (at such tier or tiers as are appropriate) throughout the program life cycle as a means to improve contractor performance; and

(ii) Document the rationale for the selection of the appropriate subcontract tier or tiers under paragraph (S-72)(1)(i) of this section, and the measures which will be employed to ensure competition, or the option of competition.

(2) Measures to ensure competition, or the option of competition, may include, but are not limited to, cost-effective measures intended to achieve the following:

(i) Competitive prototyping.

(ii) Dual-sourcing.

(iii) Unbundling of contracts.

(iv) Funding of next-generation prototype systems or subsystems.

(v) Use of modular, open architectures to enable competition for upgrades.

(vi) Use of build-to-print approaches to enable production through multiple sources.

(vii) Acquisition of complete technical data packages.

(viii) Periodic competitions for subsystem upgrades.

(ix) Licensing of additional suppliers.

(x) Periodic system or program reviews to address long-term competitive

effects of program decisions.

(3) In order to ensure fair and objective “make-or-buy” decisions by prime contractors, acquisition strategies and resultant solicitations and contracts shall—

(i) Require prime contractors to give full and fair consideration to qualified sources other than the prime contractor for the development or construction of major subsystems and components of major weapon systems;

(ii) Provide for Government surveillance of the process by which prime contractors consider such sources and determine whether to conduct such development or construction in-house or through a subcontract; and

(iii) Provide for the assessment of the extent to which the prime contractor has given full and fair consideration to qualified sources in sourcing decisions as a part of past performance evaluations.

(4) Whenever a source-of-repair decision results in a plan to award a contract for the performance of maintenance and sustainment services on a major weapon system, to the maximum extent practicable and consistent with statutory requirements, the acquisition plan shall prescribe that award will be made on a competitive basis after giving full consideration to all sources (including sources that partner or subcontract with public or private sector repair activities).

(5) In accordance with 10 U.S.C. 2443, acquisition plans for engineering manufacturing and development and production of major systems as defined in 10 U.S.C. 2302 and 2302d and for major defense acquisition programs as defined in [202.101](#), shall include performance measures that are developed using best practices for responding to the positive or negative performance of a contractor for the engineering and manufacturing development or production of a weapon system, including embedded software. At a minimum the contracting officer shall—

(i) Encourage the use of incentive fees and penalties as appropriate; and

(ii) Allow the program manager or comparable requiring activity official exercising program management responsibilities, to base determinations of a contractor’s performance on reliability and maintainability data collected during the program. Such data collection and associated evaluation metrics shall be described in detail in the contract; and to the maximum extent practicable, the data shall be shared with appropriate contractor and Government organizations.

(S-73) In accordance with section 815 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417) and DoD policy requirements, acquisition plans for major weapons systems shall include a plan for the preservation and storage of special tooling associated with the production of hardware for major defense acquisition programs through the end of the service life of the related weapons system. The plan shall include the identification of any contract clauses, facilities, and funding required for the preservation and storage of such tooling. The Undersecretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) may waive this requirement if USD(AT&L) determines that it is in the best interest of DoD.

(S-74) When selecting contract type, see [234.004](#) (section 811 of the National

Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239)).

207.170 Reserved.

207.171 Component breakout.

207.171-1 Scope.

(a) This section provides policy for breaking out components of end items for future acquisitions so that the Government can purchase the components directly from the manufacturer or supplier and furnish them to the end item manufacturer as Government-furnished material.

(b) This section does not apply to—

(1) The initial decisions on Government-furnished equipment or contractor-furnished equipment that are made at the inception of an acquisition program; or

(2) Breakout of parts for replenishment (see Appendix E).

207.171-2 Definition.

“Component,” as used in this section, includes subsystems, assemblies, subassemblies, and other major elements of an end item; it does not include elements of relatively small annual acquisition value.

207.171-3 Policy.

DoD policy is to break out components of weapons systems or other major end items under certain circumstances.

(a) When it is anticipated that a prime contract will be awarded without adequate price competition, and the prime contractor is expected to acquire any component without adequate price competition, the agency shall break out that component if—

(1) Substantial net cost savings probably will be achieved; and

(2) Breakout action will not jeopardize the quality, reliability, performance, or timely delivery of the end item.

(b) Even when either or both the prime contract and the component will be acquired with adequate price competition, the agency shall consider breakout of the component if substantial net cost savings will result from—

(1) Greater quantity acquisitions; or

(2) Such factors as improved logistics support (through reduction in varieties of spare parts) and economies in operations and training (through standardization of design).

(c) Breakout normally is not justified for a component that is not expected to exceed \$1 million for the current year's requirement.

207.171-4 Procedures.

Defense Federal Acquisition Regulation Supplement

Part 207—Acquisition Planning

Agencies shall follow the procedures at [PGI 207.171-4](#) for component breakout.

207.172 Human research.

Any DoD component sponsoring research involving human subjects—

(a) Is responsible for oversight of compliance with 32 CFR Part 219, Protection of Human Subjects; and

(b) Must have a Human Research Protection Official, as defined in the clause at [252.235-7004](#), Protection of Human Subjects, and identified in the DoD component's Human Research Protection Management Plan. This official is responsible for the oversight and execution of the requirements of the clause at [252.235-7004](#) and shall be identified in acquisition planning.

SUBPART 207.4—EQUIPMENT LEASE OR PURCHASE

(Revised December 7, 2011)

207.401 Acquisition considerations.

If the equipment will be leased for more than 60 days, the requiring activity must prepare and provide the contracting officer with the justification supporting the decision to lease or purchase.

207.470 Statutory requirements.

(a) *Requirement for authorization of certain contracts relating to vessels, aircraft, and combat vehicles.* The contracting officer shall not enter into any contract for the lease or charter of any vessel, aircraft, or combat vehicle, or any contract for services that would require the use of the contractor's vessel, aircraft, or combat vehicle, unless the Secretary of the military department concerned has satisfied the requirements of 10 U.S.C. 2401, when—

(1) The contract will be a long-term lease or charter as defined in 10 U.S.C. 2401(d)(1); or

(2) The terms of the contract provide for a substantial termination liability as defined in 10 U.S.C. 2401(d)(2). Also see [PGI 207.470](#).

(b) *Limitation on contracts with terms of 18 months or more.* As required by 10 U.S.C. 2401a, the contracting officer shall not enter into any contract for any vessel, aircraft, or vehicle, through a lease, charter, or similar agreement with a term of 18 months or more, or extend or renew any such contract for a term of 18 months or more, unless the head of the contracting activity has—

(1) Considered all costs of such a contract (including estimated termination liability); and

(2) Determined in writing that the contract is in the best interest of the Government.

(c) *Leasing of commercial vehicles and associated equipment.* Except as provided in paragraphs (a) and (b) of this section, the contracting officer may use leasing in the acquisition of commercial vehicles and associated equipment whenever the contracting officer determines that leasing of such vehicles is practicable and efficient (10 U.S.C. 2401a).

207.471 Funding requirements.

(a) Fund leases in accordance with DoD Financial Management Regulation (FMR) 7000.14-R, Volume 2A, Chapter 1.

(b) DoD leases are either capital leases or operating leases. See FMR 7000.14-R, Volume 4, Chapter 6, Section 060206.

(c) Use procurement funds for capital leases, as these are essentially installment purchases of property.

SUBPART 207.5—INHERENTLY GOVERNMENTAL FUNCTIONS

(Revised January 10, 2008)

207.500 Scope of subpart.

This subpart also implements 10 U.S.C. 2383.

207.503 Policy.

(e) The written determination required by FAR 7.503(e), that none of the functions to be performed by contract are inherently governmental—

(i) Shall be prepared using DoD Instruction 1100.22, Guidance for Determining Workforce Mix; and

(ii) Shall include a determination that none of the functions to be performed are exempt from private sector performance, as addressed in DoD Instruction 1100.22.

(S-70) Contracts for acquisition functions.

(1) In accordance with 10 U.S.C. 2383, the head of an agency may enter into a contract for performance of the acquisition functions closely associated with inherently governmental functions that are listed at FAR 7.503(d) only if—

(i) The contracting officer determines that appropriate military or civilian DoD personnel—

(A) Cannot reasonably be made available to perform the functions;

(B) Will oversee contractor performance of the contract; and

(C) Will perform all inherently governmental functions associated with the functions to be performed under the contract; and

(ii) The contracting officer ensures that the agency addresses any potential organizational conflict of interest of the contractor in the performance of the functions under the contract (see FAR Subpart 9.5).

(2) See related information at PGI 207.503(S-70).

SUBPART 207.70—BUY-TO-BUDGET – ADDITIONAL QUANTITIES OF END ITEMS

(Added July 22, 2003)

207.7001 Definition.

“End item,” as used in this subpart, means a production product assembled, completed, and ready for issue or deployment.

207.7002 Authority to acquire additional quantities of end items.

10 U.S.C. 2308 authorizes DoD to use funds available for the acquisition of an end item to acquire a higher quantity of the end item than the quantity specified in a law providing for the funding of that acquisition, if the head of an agency determines that—

(a) The agency has an established requirement for the end item that is expected to remain substantially unchanged throughout the period of the acquisition;

(b) It is possible to acquire the higher quantity of the end item without additional funding because of production efficiencies or other cost reductions;

(c) The amount of funds used for the acquisition of the higher quantity of the end item will not exceed the amount provided under that law for the acquisition of the end item; and

(d) The amount provided under that law for the acquisition of the end item is sufficient to ensure that each unit of the end item acquired within the higher quantity is fully funded as a complete end item.

207.7003 Limitation.

For noncompetitive acquisitions, the acquisition of additional quantities is limited to not more than 10 percent of the quantity approved in the justification and approval prepared in accordance with FAR Part 6 for the acquisition of the end item.

SUBPART 208.4—FEDERAL SUPPLY SCHEDULES

(Revised October 1, 2019)

208.404 Use of Federal Supply Schedules.

See DoD [Class Deviation 2014-O0011](#)- Determination of Fair and Reasonable Prices When Using Federal Supply Schedule Contracts, dated March 13, 2014. Effective immediately, contracting officers shall comply with the following policy, in lieu of FAR 8.404(d), Pricing, when using Federal Supply Schedules. This class deviation remains in effect until incorporated in the DFARS or otherwise rescinded.

(a)(i) If only one offer is received in response to an order exceeding the simplified acquisition threshold that is placed on a competitive basis, the procedures at [215.371](#) apply.

(ii) Departments and agencies shall comply with the review, approval, and reporting requirements established in accordance with subpart [217.7](#) when placing orders for supplies or services in amounts exceeding the simplified acquisition threshold.

(iii) When a schedule lists both foreign and domestic items that will meet the needs of the requiring activity, the ordering office must apply the procedures of part [225](#) and FAR part 25, Foreign Acquisition. When purchase of an item of foreign origin is specifically required, the requiring activity must furnish the ordering office sufficient information to permit the determinations required by part [225](#) and FAR part 25 to be made.

(iv) Use the provisions at [252.215-7007](#), Notice of Intent to Resolicit, and [252.215-7008](#), Only One Offer, as prescribed at [215.371-6](#) and [215.408\(3\)](#), respectively.

208.405 Ordering procedures for Federal Supply Schedules.

(1) Include an evaluation factor regarding supply chain risk (see subpart [239.73](#)) when acquiring information technology, whether as a service or as a supply, that is a covered system, is a part of a covered system, or is in support of a covered system, as defined in [239.7301](#).

(3) See [217.7801](#) for the prohibition on the use of reverse auctions for personal protective equipment and aviation critical safety items.

208.405-6 Limiting sources.

For an order or blanket purchase agreement (BPA) exceeding the simplified acquisition threshold that is a follow-on to an order or BPA for the same supply or service previously issued based on a limiting sources justification citing the authority at FAR 8.405-6(a)(1)(i)(B) or (C), follow the procedures at [PGI 208.405-6](#).

208.406 Ordering activity responsibilities.

208.406-1 Order placement.

SUBPART 208.6—ACQUISITION FROM FEDERAL PRISON INDUSTRIES, INC.

(Added August 12, 2008)

208.602-70 Acquisition of items for which FPI has a significant market share.

(a) *Scope.* This subsection implements Section 827 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181).

(b) *Definition.* “Item for which FPI has a significant market share,” as used in this subsection, means an item for which FPI’s share of the DoD market for the federal supply class including that item is greater than 5 percent, as determined by DoD in consultation with the Office of Federal Procurement Policy. A list of the federal supply classes of items for which FPI has a significant market share is maintained at

http://www.acq.osd.mil/dpap/cpic/cp/specific_policy_areas.html#federal_prison.

(c) *Policy.*

(1) When acquiring an item for which FPI has a significant market share—

(i) Acquire the item using—

(A) Competitive procedures (e.g., the procedures in FAR 6.102, the set-aside procedures in FAR Subpart 19.5, or competition conducted in accordance with FAR Part 13); or

(B) The fair opportunity procedures in FAR 16.505, if placing an order under a multiple award delivery-order contract; and

(ii) Include FPI in the solicitation process, consider a timely offer from FPI, and make an award in accordance with the policy at FAR 8.602(a)(4)(ii) through (v).

(2) When acquiring an item for which FPI does not have a significant market share, acquire the item in accordance with the policy at FAR 8.602.

208.606 Evaluating FPI performance.

See DoD Class Deviation [2013-O0018](#), Past Performance Evaluation Requirements, issued on September 24, 2013. This class deviation requires past performance reporting for contracts awarded under FAR 8.6, Acquisition from Federal Prison Industries, Inc., when the thresholds in this deviation are exceeded. This deviation is effective until incorporated in the DFARS or rescinded.

**SUBPART 208.7—ACQUISITION FROM NONPROFIT AGENCIES
EMPLOYING PEOPLE WHO ARE BLIND OR SEVERELY DISABLED**

(Revised August 12, 2008)

See DoD Class Deviation [2013-O0018](#), Past Performance Evaluation Thresholds and Reporting Requirements, issued on September 24, 2013. This class deviation requires past performance reporting for contracts awarded under FAR subpart 8.7, Acquisition from Nonprofit Agencies Employing People Who are Blind or Severely Handicapped, when the thresholds in this deviation are exceeded. This deviation is effective until incorporated in the DFARS or rescinded.

208.705 Procedures.

Follow the procedures at PGI 208.705 when placing orders with central nonprofit agencies.

SUBPART 208.70—COORDINATED ACQUISITION

(Revised December 1, 2006)

208.7000 Scope of subpart.

This subpart prescribes policy and procedures for acquisition of items for which contracting responsibility is assigned to one or more of the departments/agencies or the General Services Administration. Contracting responsibility is assigned through—

(a) The Coordinated Acquisition Program (commodity assignments are listed in PGI 208.7006); or

(b) The Integrated Materiel Management Program (assignments are in DoD 4140.26-M, Defense Integrated Materiel Management Manual for Consumable Items).

208.7001 Definitions.

For purposes of this subpart—

“Acquiring department” means the department, agency, or General Services Administration which has contracting responsibility under the Coordinated Acquisition Program.

“Integrated materiel management” means assignment of acquisition management responsibility to one department, agency, or the General Service Administration for all of DoD's requirements for the assigned item. Acquisition management normally includes computing requirements, funding, budgeting, storing, issuing, cataloging, standardizing, and contracting functions.

“Requiring department” means the department or agency which has the requirement for an item.

208.7002 Assignment authority.

(a) Under the DoD Coordinated Acquisition Program, contracting responsibility for certain commodities is assigned to a single department, agency, or the General Services Administration (GSA). Commodity assignments are made—

(1) To the departments and agencies, by the Deputy Under Secretary of Defense (Logistics);

(2) To GSA, through agreement with GSA, by the Deputy Under Secretary of Defense (Logistics);

(3) Outside the contiguous United States, by the Unified Commanders; and

(4) For acquisitions to be made in the contiguous United States for commodities not assigned under paragraphs (a)(1), (2), or (3) of this section, by agreement of agency heads (10 U.S.C. 2311).

(i) Agreement may be on either a one-time or a continuing basis. The submission of a military interdepartmental purchase request (MIPR) by a requiring

Defense Federal Acquisition Regulation Supplement

Part 208—Required Sources of Supplies and Services

activity and its acceptance by the contracting activity of another department, even though based on an oral communication, constitutes a one-time agreement.

(ii) Consider repetitive delegated acquisition responsibilities for coordinated acquisition assignment. If not considered suitable for coordinated acquisition assignment, formalize continuing agreements and distribute them to all activities concerned.

(b) Under the Integrated Materiel Management Program, assignments are made by the Deputy Under Secretary of Defense (Logistics)—

- (1) To the departments and agencies; and
- (2) To GSA, through agreement with GSA.

208.7002-1 Acquiring department responsibilities.

See PGI 208.7002-1 for the acquiring department's responsibilities.

208.7002-2 Requiring department responsibilities.

See PGI 208.7002-2 for the requiring department's responsibilities.

208.7003 Applicability.

208.7003-1 Assignments under integrated materiel management (IMM).

(a) Acquire all items assigned for IMM from the IMM manager except—

(1) Items purchased under circumstances of unusual and compelling urgency as defined in FAR 6.302-2. After such a purchase is made, the requiring activity must send one copy of the contract and a statement of the emergency to the IMM manager;

(2) Items for which the IMM manager assigns a supply system code for local purchase or otherwise grants authority to purchase locally; or

(3) When purchase by the requiring activity is in the best interest of the Government in terms of the combination of quality, timeliness, and cost that best meets the requirement. This exception does not apply to items—

- (i) Critical to the safe operation of a weapon system;
- (ii) With special security characteristics; or
- (iii) Which are dangerous (e.g., explosives, munitions).

(b) Follow the procedures at PGI 208.7003-1(b) when an item assigned for IMM is to be acquired by the requiring department in accordance with paragraph (a)(3) of this subsection.

208.7003-2 Assignments under coordinated acquisition.

Requiring departments must submit to the acquiring department all contracting requirements for items assigned for coordinated acquisition, except—

Defense Federal Acquisition Regulation Supplement

Part 208—Required Sources of Supplies and Services

- (a) Items obtained through the sources in FAR 8.002(a)(1)(i) through (vii);
- (b) Items obtained under 208.7003-1(a);
- (c) Requirements not in excess of the simplified acquisition threshold in FAR Part 2, when contracting by the requiring department is in the best interest of the Government;
- (d) In an emergency. When an emergency purchase is made, the requiring department must send one copy of the contract and a statement of the emergency to the contracting activity of the acquiring department;
- (e) Requirements for which the acquiring department's contracting activity delegates contracting authority to the requiring department;
- (f) Items in a research and development stage (as described in FAR Part 35). Under this exception, the military departments may contract for research and development requirements, including quantities for testing purposes and items undergoing in-service evaluation (not yet in actual production, but beyond prototype). Generally, this exception applies only when research and development funds are used.
- (g) Items peculiar to nuclear ordnance material where design characteristics or test-inspection requirements are controlled by the Department of Energy (DoE) or by DoD to ensure reliability of nuclear weapons.
 - (1) This exception applies to all items designed for and peculiar to nuclear ordnance regardless of agency control, or to any item which requires test or inspection conducted or controlled by DoE or DoD.
 - (2) This exception does not cover items used for both nuclear ordnance and other purposes if the items are not subject to the special testing procedures.
- (h) Items to be acquired under FAR 6.302-6 (national security requires limitation of sources);
- (i) Items to be acquired under FAR 6.302-1 (supplies available only from the original source for follow-on contract);
- (j) Items directly related to a major system and which are design controlled by and acquired from either the system manufacturer or a manufacturer of a major subsystem;
- (k) Items subject to rapid design changes, or to continuous redesign or modification during the production and/or operational use phases, which require continual contact between industry and the requiring department to ensure that the item meets the requirements:
 - (1) This exception permits the requiring department to contract for items of highly unstable design. For use of this exception, it must be clearly impractical, both technically and contractually, to refer the acquisition to the acquiring department. Anticipation that contracting by negotiation will be appropriate, or that a number of design changes may occur during contract performance is not in itself sufficient reason for using this exception.

Defense Federal Acquisition Regulation Supplement

Part 208—Required Sources of Supplies and Services

(2) This exception also applies to items requiring compatibility testing, provided such testing requires continual contact between industry and the requiring department;

(l) Containers acquired only with items for which they are designed;

(m) One-time buy of a noncataloged item.

(1) This exception permits the requiring departments to contract for a nonrecurring requirement for a noncataloged item. This exception could cover a part or component for a prototype which may be stock numbered at a later date.

(2) This exception does not permit acquisitions of recurring requirements for an item, based solely on the fact that the item is not stock numbered, nor may it be used to acquire items which have only slightly different characteristics than previously cataloged items.

208.7004 Procedures.

Follow the procedures at PGI 208.7004 for processing coordinated acquisition requirements.

208.7005 Military interdepartmental purchase requests.

Follow the procedures at—

(a) PGI 253.208-1 when using DD Form 448, Military Interdepartmental Purchase Request; and

(b) PGI 253.208-2 when using DD Form 448-2, Acceptance of MIPR.

208.7006 Coordinated acquisition assignments.

See PGI 208.7006 for coordinated acquisition assignments.

**SUBPART 208.71—ACQUISITION FOR NATIONAL AERONAUTICS AND
SPACE ADMINISTRATION (NASA)**

(Revised July 11, 2006)

208.7100 Authorization.

NASA is authorized by Pub. L. 85-568 to use the acquisition services, personnel, equipment, and facilities of DoD departments and agencies with their consent, with or without reimbursement, and on a similar basis to cooperate with the departments/agencies in the use of acquisition services, equipment, and facilities.

208.7101 Policy.

Departments and agencies shall cooperate fully with NASA in making acquisition services, equipment, personnel, and facilities available on the basis of mutual agreement.

208.7102 Procedures.

Follow the procedures at PGI 208.7102 when contracting or performing services for NASA.

SUBPART 208.72
(Removed July 11, 2006)

SUBPART 208.73—USE OF GOVERNMENT-OWNED PRECIOUS METALS

(Revised July 11, 2006)

208.7301 Definitions.

As used in this subpart—

“Defense Supply Center, Philadelphia (DSCP)” means the Defense Logistics Agency field activity located at 700 Robbins Avenue, Philadelphia, PA 19111-5096, which is the assigned commodity integrated material manager for refined precious metals and is responsible for the storage and issue of such material.

“Refined precious metal” means recovered silver, gold, platinum, palladium, iridium, rhodium, or ruthenium, in bullion, granulation or sponge form, which has been purified to at least .999 percentage of fineness.

208.7302 Policy.

DoD policy is for maximum participation in the Precious Metals Recovery Program. DoD components shall furnish recovered precious metals contained in the DSCP inventory to production contractors rather than use contractor-furnished precious metals whenever the contracting officer determines it to be in the Government's best interest.

208.7303 Procedures.

Follow the procedures at PGI 208.7303 for use of the Precious Metals Recovery Program.

208.7304 Refined precious metals.

See PGI 208.7304 for a list of refined precious metals managed by DSCP.

208.7305 Contract clause.

(a) Use the clause at 252.208-7000, Intent to Furnish Precious Metals as Government-Furnished Material, in all solicitations and contracts except—

(1) When the contracting officer has determined that the required precious metals are not available from DSCP;

(2) When the contracting officer knows that the items being acquired do not require precious metals in their manufacture; or

(3) For acquisitions at or below the simplified acquisition threshold.

(b) To make the determination in paragraph (a)(1) of this section, the contracting officer shall consult with the end item inventory manager and comply with the procedures in Chapter 11, DoD 4160.21-M, Defense Materiel Disposition Manual.

SUBPART 208.74—ENTERPRISE SOFTWARE AGREEMENTS

(Revised October 30, 2015)

208.7400 Scope of subpart.

This subpart prescribes policy and procedures for acquisition of commercial software and software maintenance, including software and software maintenance that is acquired—

- (a) As part of a system or system upgrade, where practicable;
- (b) Under a service contract;
- (c) Under a contract or agreement administered by another agency (e.g., under an interagency agreement);
- (d) Under a Federal Supply Schedule contract or blanket purchase agreement established in accordance with FAR 8.405; or
- (e) By a contractor that is authorized to order from a Government supply source pursuant to FAR 51.101.

208.7401 Definitions.

As used in this subpart—

“Enterprise software agreement” means an agreement or a contract that is used to acquire designated commercial software or related services such as software maintenance.

“Enterprise Software Initiative” means an initiative led by the DoD Chief Information Officer to develop processes for DoD-wide software asset management.

“Software maintenance” means services normally provided by a software company as standard services at established catalog or market prices, e.g., the right to receive and use upgraded versions of software, updates, and revisions.

208.7402 General.

(1) Departments and agencies shall fulfill requirements for commercial software and related services, such as software maintenance, in accordance with the DoD Enterprise Software Initiative (ESI) (see website at <http://www.esi.mil/>). ESI promotes the use of enterprise software agreements (ESAs) with contractors that allow DoD to obtain favorable terms and pricing for commercial software and related services. ESI does not dictate the products or services to be acquired.

(2) Include an evaluation factor regarding supply chain risk (see subpart [239.73](#)) when acquiring information technology, whether as a service or as a supply, that is a covered system, is a part of a covered system, or is in support of a covered system, as defined in [239.7301](#).

209.104 Standards.

209.104-1 General standards.

(e) For cost-reimbursement or incentive type contracts, or contracts which provide for progress payments based on costs or on a percentage or stage of completion, the prospective contractor’s accounting system and related internal controls must provide reasonable assurance that—

- (i) Applicable laws and regulations are complied with;
- (ii) The accounting system and cost data are reliable;
- (iii) Risk of misallocations and mischarges are minimized; and
- (iv) Contract allocations and charges are consistent with invoice procedures.

(g)(i) *Ownership or control by the government of a country that is a state sponsor of terrorism.* (See 225.771.)

(ii) *Ownership or control by a foreign government when access to proscribed information is required.*

(A) Under 10 U.S.C. 2536(a), no DoD contract under a national security program may be awarded to an entity controlled by a foreign government if that entity requires access to proscribed information to perform the contract.

(B) Whenever the contracting officer has a question about application of the provision at [252.209-7002](#), the contracting officer may seek advice from the Security Directorate, Office of the Deputy Under Secretary of Defense, Human Intelligence, Counterintelligence, and Security.

(C) In accordance with 10 U.S.C. 2536(b)(1)(A), the Secretary of Defense may waive the prohibition in paragraph (g)(ii)(A) of this subsection upon determining that the waiver is essential to the national security interests of the United States. The Secretary has delegated authority to grant this waiver to the Undersecretary of Defense for Intelligence. Waiver requests, prepared by the requiring activity in coordination with the contracting officer, shall be processed through the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics), and shall include a proposed national interest determination. The proposed national interest determination, prepared by the requiring activity in coordination with the contracting officer, shall include:

(3) Identification of the national security interests involved and the ways in which award of the contract helps advance those interests;

(4) A statement as to availability of another entity with the capacity, capability and technical expertise to satisfy defense acquisition, technology base, or industrial base requirements; and

(5) A description of any alternate means available to satisfy the requirement, e.g., use of substitute products or technology or alternate approaches to accomplish the program objectives.

(D) In accordance with 10 U.S.C. 2536(b)(1)(B), the Secretary of Defense may, in the case of a contract awarded for environmental restoration, remediation, or waste management at a DoD facility, waive the prohibition in paragraph (g)(ii)(A) of this subsection upon—

(1) Determining that—

(i) The waiver will advance the environmental restoration, remediation, or waste management objectives of DoD and will not harm the national security interests of the United States; and

(ii) The entity to which the contract is awarded is controlled by a foreign government with which the Secretary is authorized to exchange Restricted Data under section 144 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2164(c)); and

209.104-4 Subcontractor responsibility.

Generally, the Canadian Commercial Corporation's (CCC) proposal of a firm as its subcontractor is sufficient basis for an affirmative determination of responsibility. However, when the CCC determination of responsibility is not consistent with other information available to the contracting officer, the contracting officer shall request from CCC and any other sources whatever additional information is necessary to make the responsibility determination.

209.104-70 Solicitation provision.

Use the provision at [252.209-7002](#), Disclosure of Ownership or Control by a Foreign Government, in all solicitations, including those subject to the procedures in FAR part 13, when access to proscribed information is necessary for contract performance. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.209-7002](#) in the solicitation.

209.105 Procedures.

209.105-1 Obtaining information.

(1) For guidance on using the Exclusion section of the System for Award Management, see [PGI 209.105-1](#).

(2) A satisfactory performance record is a factor in determining contractor responsibility (see FAR 9.104-1(c)). One source of information relating to contractor performance is Contractor Performance Assessment Reporting System (CPARS), available at <https://www.cpars.gov/>. Information relating to contract terminations for cause and for default is also available through the Federal Awardee Performance and Integrity Information System (FAPIIS) module of CPARS, available at <https://www.fapiis.gov> (see subpart 42.15). This termination information is just one consideration in determining contractor responsibility.

209.105-2 Determinations and documentation.

(a) The contracting officer shall submit a copy of a determination of nonresponsibility to the appropriate debarring and suspending official listed in [209.403](#).

209.105-2.70 Inclusion of determination of contractor fault in Federal Awardee Performance and Integrity Information System (FAPIIS).

If the contractor or a subcontractor at any tier is not subject to the jurisdiction of the U.S. courts and the DoD appointing official that requested a DoD investigation makes a final determination that a contractor's or subcontractor's gross negligence or reckless disregard for the safety of civilian or military personnel of the Government caused serious bodily injury or death of such personnel, the contracting officer shall enter in FAPIIS the appropriate information regarding such determination within three days of receiving notice of the determination, pursuant to section 834 of the National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383). Information posted in FAPIIS regarding such determinations will be publicly available.

209.106 Preaward surveys.

When requesting a preaward survey, follow the procedures at [PGI 209.106](#).

(b) The prohibition in paragraph (a) of this subsection does not apply if—

(1) The Secretary of Defense certifies to the Committees on Armed Services of the Senate and the House of Representatives that—

(ii) DoD took appropriate steps to prevent any organizational conflict of interest in the selection process; or

(2) The entity was selected by a subcontractor to serve as a lower-tier subcontractor, through a process over which the entity exercised no control.

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(c) In accordance with Section 802 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), DoD may award a new contract for lead system integrator functions in the acquisition of a major system only if—

(1) The major system has not yet proceeded beyond low-rate initial production;
or

(2) The Secretary of Defense determines in writing that it would not be practicable to carry out the acquisition without continuing to use a contractor to perform lead system integrator functions and that doing so is in the best interest of DoD. The authority to make this determination may not be delegated below the level of the Under Secretary of Defense for Acquisition, Technology, and Logistics. (Also see [209.570-3\(b\)](#).)

(d) Effective October 1, 2010, DoD is prohibited from awarding a new contract for lead system integrator functions in the acquisition of a major system to any entity that was not performing lead system integrator functions in the acquisition of the major system prior to January 28, 2008.

(2) Consider all information regarding the prospective contractor’s direct financial interests in view of the prohibition at [209.570-2\(a\)](#); and

(3) Follow the procedures at [PGI 209.570-3](#).

(b) A determination to use a contractor to perform lead system integrator functions in accordance with [209.570-2\(c\)\(2\)](#)—

209.570-4 Solicitation provision and contract clause.

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(a) Use the provision at [252.209-7006](#), Limitations on Contractors Acting as Lead System Integrators, in solicitations for the acquisition of a major system when the acquisition strategy envisions the use of a lead system integrator.

(b) Use the clause at [252.209-7007](#), Prohibited Financial Interests for Lead System Integrators—

(1) In solicitations that include the provision at [252.209-7006](#); and

(2) In contracts when the contractor will fill the role of a lead system integrator for the acquisition of a major system.

209.571 Organizational conflicts of interest in major defense acquisition programs.

209.571-0 Scope of subpart.

This subpart implements section 207 of the Weapons System Acquisition Reform Act of 2009 (Pub. L. 111-23).

209.571-1 Definitions.

As used in this section—

“Lead system integrator” includes “lead system integrator with system responsibility” and “lead system integrator without system responsibility”.

(i) “Lead system integrator with system responsibility” means a prime contractor for the development or production of a major system, if the prime contractor is not expected at the time of award to perform a substantial portion of the work on the system and the major subsystems.

(ii) “Lead system integrator without system responsibility” means a prime contractor under a contract for the procurement of services, the primary purpose of which is to perform acquisition functions closely associated with inherently governmental functions (see section 7.503(d) of the Federal Acquisition Regulation) with respect to the development or production of a major system.

“Major subcontractor” means a subcontractor that is awarded a subcontract that equals or exceeds—

(i) Both the certified cost or pricing data threshold and 10 percent of the value of the contract under which the subcontract is awarded; or

(ii) \$55 million.

“Pre-Major Defense Acquisition Program” means a program that is in the Materiel

Solution Analysis or Technology Development Phases preceding Milestone B of the Defense Acquisition System and has been identified to have the potential to become a major defense acquisition program.

“Systems engineering and technical assistance.”

(1) “Systems engineering” means an interdisciplinary technical effort to evolve and verify an integrated and total life cycle balanced set of system, people, and process solutions that satisfy customer needs.

(2) “Technical assistance” means the acquisition support, program management support, analyses, and other activities involved in the management and execution of an acquisition program.

(3) “Systems engineering and technical assistance”—

(i) Means a combination of activities related to the development of technical information to support various acquisition processes. Examples of systems engineering and technical assistance activities include, but are not limited to, supporting acquisition efforts such as—

(A) Deriving requirements;

(B) Performing technology assessments;

(C) Developing acquisition strategies;

(D) Conducting risk assessments;

(E) Developing cost estimates;

(F) Determining specifications;

(G) Evaluating contractor performance and conducting independent verification and validation;

(H) Directing other contractors’ (other than subcontractors) operations;

(I) Developing test requirements and evaluating test data;

(J) Developing work statements (but see paragraph (ii)(B) of this definition).

(ii) Does not include—

(A) Design and development work of design and development contractors, in accordance with FAR 9.505-2(a)(3) or FAR 9.505-2(b)(3), and the guidance at [PGI 209.571-7](#); or

(B) Preparation of work statements by contractors, acting as industry representatives, under the supervision and control of Government representatives, in accordance with FAR 9.505-2(b)(1)(ii).

209.571-2 Applicability.

(a) This subsection applies to major defense acquisition programs.

(b) To the extent that this section is inconsistent with FAR subpart 9.5, this section takes precedence.

209.571-3 Policy.

It is DoD policy that—

(a) Agencies shall obtain advice on major defense acquisition programs and pre-major defense acquisition programs from sources that are objective and unbiased; and

(b) Contracting officers generally should seek to resolve organizational conflicts of interest in a manner that will promote competition and preserve DoD access to the expertise and experience of qualified contractors. Accordingly, contracting officers should, to the extent feasible, employ organizational conflict of interest resolution strategies that do not unnecessarily restrict the pool of potential offerors in current or future acquisitions. Further, contracting activities shall not impose per se restrictions or limitations on the use of particular resolution methods, except as may be required under [209.571-7](#) or as may be appropriate in particular acquisitions.

209.571-4 Mitigation.

(a) Mitigation is any action taken to minimize an organizational conflict of interest. Mitigation may require Government action, contractor action, or a combination of both.

(b) If the contracting officer and the contractor have agreed to mitigation of an organizational conflict of interest, a Government-approved Organizational Conflict of Interest Mitigation Plan, reflecting the actions a contractor has agreed to take to mitigate a conflict, shall be incorporated into the contract.

(c) If the contracting officer determines, after consultation with agency legal

counsel, that the otherwise successful offeror is unable to effectively mitigate an organizational conflict of interest, then the contracting officer, taking into account both the instant contract and longer term Government needs, shall use another approach to resolve the organizational conflict of interest, select another offeror, or request a waiver in accordance with FAR 9.503 (but see statutory prohibition in [209.571-7](#), which cannot be waived).

(d) For any acquisition that exceeds \$1 billion, the contracting officer shall brief the senior procurement executive before determining that an offeror's mitigation plan is unacceptable.

209.571-5 Lead system integrators.

For limitations on contractors acting as lead systems integrators, see [209.570](#).

209.571-6 Identification of organizational conflicts of interest.

When evaluating organizational conflicts of interest for major defense acquisition programs or pre-major defense acquisition programs, contracting officers shall consider—

(a) The ownership of business units performing systems engineering and technical assistance, professional services, or management support services to a major defense acquisition program or a pre-major defense acquisition program by a contractor who simultaneously owns a business unit competing (or potentially competing) to perform as—

(1) The prime contractor for the same major defense acquisition program; or

(2) The supplier of a major subsystem or component for the same major defense acquisition program.

(b) The proposed award of a major subsystem by a prime contractor to business units or other affiliates of the same parent corporate entity, particularly the award of a subcontract for software integration or the development of a proprietary software system architecture; and

(c) The performance by, or assistance of, contractors in technical evaluation.

209.571-7 Systems engineering and technical assistance contracts.

(a) Agencies shall obtain advice on systems architecture and systems engineering matters with respect to major defense acquisition programs or pre-major defense

acquisition programs from Federally Funded Research and Development Centers or other sources independent of the major defense acquisition program contractor.

(b) *Limitation on Future Contracting.*

(1) Except as provided in paragraph (c) of this subsection, a contract for the performance of systems engineering and technical assistance for a major defense acquisition program or a pre-major defense acquisition program shall prohibit the contractor or any affiliate of the contractor from participating as a contractor or major subcontractor in the development or production of a weapon system under such program.

(2) The requirement in paragraph (b)(1) of this subsection cannot be waived.

(c) *Exception.*

(1) The requirement in paragraph (b)(1) of this subsection does not apply if the head of the contracting activity determines that—

(i) An exception is necessary because DoD needs the domain experience and expertise of the highly qualified, apparently successful offeror; and

(ii) Based on the agreed-to resolution strategy, the apparently successful offeror will be able to provide objective and unbiased advice, as required by [209.571-3\(a\)](#), without a limitation on future participation in development and production.

(2) The authority to make this determination cannot be delegated.

209.571-8 Solicitation provision and contract clause.

210.001 Policy.

(a) In addition to the requirements of FAR 10.001(a)—

(i)(A) Agencies shall conduct market research appropriate to the circumstances before issuing a solicitation with tiered evaluation of offers (section 816 of Pub. L. 109-163); and

(B) Use the results of market research to determine whether the criteria in FAR part 19 are met for setting aside the acquisition for small business or, for a task or delivery order, whether there are a sufficient number of qualified small business concerns available to justify limiting competition under the terms of the contract. If the contracting officer cannot determine whether the criteria are met, the contracting officer shall include a written explanation in the contract file as to why such a determination could not be made (section 816 of Pub. L. 109-163); and

(ii) Contracting officers shall use market research, where appropriate, to inform price reasonableness determinations (see [212.209](#) and [234.7002](#)).

(c)(2) In addition to the notification requirements at FAR 10.001(c)(2)(i) and (ii), see [205.205-70](#) for the bundling notification publication requirement.

**SUBPART 211.1—SELECTING AND DEVELOPING REQUIREMENTS
DOCUMENTS**

(Revised May 31, 2019)

211.104 Use of brand name or equal purchase descriptions.

A justification and approval is required to use brand name or equal purchase descriptions—

(1) When using sealed bidding or negotiated acquisition procedures (see [206.302-1\(c\)\(2\)](#) for justification requirements); or

(2) When using the simplified procedures for certain commercial items at FAR 13.5 (see [213.501\(a\)\(ii\)](#) for justification requirement).

211.105 Items peculiar to one manufacturer.

Follow the publication requirements at [PGI 211.105](#).

211.106 Purchase descriptions for service contracts.

Agencies shall require that purchase descriptions for service contracts and resulting requirements documents, such as statements of work or performance work statements, include language to provide a clear distinction between Government employees and contractor employees. Agencies shall be guided by the characteristics and descriptive elements of personal-services contracts at FAR 37.104. Service contracts shall require contractor employees to identify themselves as contractor personnel by introducing themselves or being introduced as contractor personnel and displaying distinguishing badges or other visible identification for meetings with Government personnel. In addition, contracts shall require contractor personnel to appropriately identify themselves as contractor employees in telephone conversations and in formal and informal written correspondence.

211.107 Solicitation provision.

(b) To comply with section 875(c) of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328), use the provision at FAR 52.211-7, Alternatives to Government-Unique Standards, in DoD solicitations that include military or Government-unique specifications and standards.

211.170 Use of proprietary specifications or standards.

A justification and approval is required to use proprietary specifications and standards—

(1) When using sealed bidding or negotiated acquisition procedures (see [206.302-1\(S-70\)](#) for justification requirements); or

(2) When using the simplified procedures for certain commercial items at FAR 13.5 (see [213.501\(a\)\(ii\)](#) for justification requirements).

211.201 Identification and availability of specifications.

Follow the procedures at [PGI 211.201](#) for obtaining specifications, standards, and data item descriptions from the ASSIST database, including DoD adoption notices on voluntary consensus standards.

211.204 Solicitation provisions and contract clauses.

(c) When contract performance requires use of specifications, standards, and data item descriptions that are not listed in the Acquisition Streamlining and Standardization Information System database, use provisions, as appropriate, substantially the same as those at—

(i) [252.211-7001](#), Availability of Specifications, Standards, and Data Item Descriptions Not Listed in the Acquisition Streamlining and Standardization Information System (ASSIST), and Plans, Drawings, and Other Pertinent Documents; and

(ii) [252.211-7002](#), Availability for Examination of Specifications, Standards, Plans, Drawings, Data Item Descriptions, and Other Pertinent Documents.

211.270 Reserved.

211.271 Elimination of use of class I ozone-depleting substances.

See Subpart [223.8](#) for restrictions on contracting for ozone-depleting substances.

211.272 Reserved.

211.273 Reserved.

211.274 Item identification and valuation requirements.

211.274-1 General.

Item unique identification and valuation is a system of marking, valuing, and tracking items delivered to DoD that enhances logistics, contracting, and financial business transactions supporting the United States and coalition troops. Through item unique identification policy, which capitalizes on leading practices and embraces open standards, DoD—

(a) Achieves lower life-cycle cost of item management and improves life-cycle property management;

(b) Improves operational readiness;

(c) Provides reliable accountability of property and asset visibility throughout the life cycle;

(d) Reduces the burden on the workforce through increased productivity and

efficiency; and

(e) Ensures item level traceability throughout lifecycle to strengthen supply chain integrity, enhance cyber security, and combat counterfeiting.

211.274-2 Policy for item unique identification.

(a) It is DoD policy that DoD item unique identification, or a DoD recognized unique identification equivalent, is required for all delivered items, including items of contractor-acquired property delivered on contract line items (see [PGI 245.402-71](#) for guidance when delivery of contractor acquired property is required)—

(1) For which the Government's unit acquisition cost is \$5,000 or more;

(2) For which the Government's unit acquisition cost is less than \$5,000 when the requiring activity determines that item unique identification is required for mission essential or controlled inventory items; or

(3) Regardless of value for any—

(i) DoD serially managed item (reparable or nonreparable) or subassembly, component, or part embedded within a subassembly, component, or part;

(ii) Parent item (as defined in [252.211-7003\(a\)](#)) that contains the embedded subassembly, component, or part;

(iii) Warranted serialized item;

(iv) Item of special tooling or special test equipment, as defined at FAR 2.101, for a major defense acquisition program that is designated for preservation and storage in accordance with the requirements of section 815 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417); and

(v) High risk item identified by the requiring activity as vulnerable to supply chain threat, a target of cyber threats, or counterfeiting.

(b) *Exceptions.* The contractor will not be required to provide DoD item unique identification if—

(1) The items, as determined by the head of the contracting activity, are to be used to support a contingency or humanitarian or peacekeeping operation; to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack; to facilitate the provision of international disaster assistance; or to support response to an emergency or major disaster; or

(2) A determination and findings has been executed concluding that it is more cost effective for the Government requiring activity to assign, mark, and register the unique item identifier after delivery, and the item is either acquired from a small business concern, or is a commercial item acquired under FAR part 12 or part 8.

(i) The determination and findings shall be executed by—

Part 211—Describing Agency Needs

(A) The Component Acquisition Executive for an acquisition category (ACAT) I program; or

(B) The head of the contracting activity for all other programs.

(ii) The DoD Unique Identification Policy Office must receive a copy of the determination and findings required by paragraph (b)(2)(i) of this subsection. Follow the procedures at [PGI 211.274-2](#).

211.274-3 Policy for valuation.

(a) It is DoD policy that contractors shall be required to identify the Government's unit acquisition cost for all deliverable end items to which item unique identification applies.

(b) The Government's unit acquisition cost is—

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items delivered under a time-and-materials contract, the contractor's estimated fully burdened unit cost to the Government at the time of delivery.

(c) The Government's unit acquisition cost of subassemblies, components, and parts embedded in delivered items shall not be separately identified.

211.274-4 Policy for reporting of Government-furnished property.

(a) It is DoD policy that all Government-furnished property be recorded in the DoD Item Unique Identification (IUID) Registry, as defined in the clause at [252.211-7007](#), Reporting of Government-Furnished Property.

(b) The following items are not required to be reported:

(1) Contractor-acquired property, as defined in FAR part 45.

(2) Property under any statutory leasing authority.

(3) Property to which the Government has acquired a lien or title solely because of partial, advance, progress, or performance-based payments.

(4) Intellectual property or software.

(5) Real property.

(6) Property released as work in process.

(7) Non-serial managed items (reporting is limited to receipt transactions only).

211.274-5 Policy for assignment of Government-assigned serial numbers.

It is DoD policy that contractors apply Government-assigned serial numbers, such as tail numbers/hull numbers and equipment registration numbers, in human-readable format on major end items when required by law, regulation, or military operational necessity. The latest version of MIL-STD-130, Marking of U.S. Military Property, shall be used for the marking of human-readable information.

211.274-6 Contract clauses.

(a)(1) Use the clause at [252.211-7003](#), Item Unique Identification and Valuation, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, for supplies, and for services involving the furnishing of supplies, unless the conditions in [211.274-2\(b\)](#) apply.

(2) Identify in paragraph (c)(1)(ii) of the clause the contract line, subline, or exhibit line item number and description of any item(s) below \$5,000 in unit acquisition cost for which DoD item unique identification or a DoD recognized unique identification equivalent is required in accordance with [211.274-2\(a\)\(2\)](#).

(3) Identify in paragraph (c)(1)(iii) of the clause the applicable attachment number, when DoD item unique identification or a DoD recognized unique identification equivalent is required in accordance with [211.274-2\(a\)\(3\)\(i\)](#) through (v).

(b) Use the clause at [252.211-7007](#), Reporting of Government-Furnished Property, in solicitations and contracts that contain the clause at FAR 52.245-1, Government Property.

(1) Contain the clause at [252.211-7003](#), Item Unique Identification and Valuation; and

(2) Require the contractor to mark major end items under the terms and conditions of the contract.

211.275 Passive radio frequency identification.

211.275-1 Definitions.

“Bulk commodities,” “case,” “palletized unit load,” “passive RFID tag,” and “radio frequency identification” are defined in the clause at [252.211-7006](#), Passive Radio Frequency Identification.

211.275-2 Policy.

(a) Except as provided in paragraph (b) of this subsection, radio frequency identification (RFID), in the form of a passive RFID tag, is required for cases and palletized unit loads packaging levels and any additional consolidation level(s) deemed necessary by the requiring activity for shipments of items that—

Defense Federal Acquisition Regulation Supplement

Part 212—Acquisition of Commercial Items

(Revised April 8, 2020)

212.001 Definitions. As used in this part—

“Market research” means a review of existing systems, subsystems, capabilities, and technologies that are available or could be made available to meet the needs of DoD in whole or in part. The review shall include, at a minimum, contacting knowledgeable individuals in Government and industry regarding existing market capabilities and pricing information, and may include any of the techniques for conducting market research provided in FAR 10.002(b)(2) (section 855 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. L. 114-92)).

SUBPART 212.1—ACQUISITION OF COMMERCIAL ITEMS - GENERAL
(Revised October 1, 2020)

212.102 Applicability.

(a)(i) *Commercial item determination.* When using FAR part 12 procedures for acquisitions exceeding \$1 million in value, except for acquisitions made pursuant to FAR 12.102(f)(1), the contracting officer shall—

(A) Determine in writing that the acquisition meets the commercial item definition in FAR 2.101;

(B) Include the written determination in the contract file; and

(C) Obtain approval at one level above the contracting officer when a commercial item determination relies on subsections (1)(ii), (3), (4), or (6) of the “commercial item” definition at FAR 2.101.

(D) Follow the procedures and guidance at [PGI 212.102](#)(a)(i) regarding file documentation and commercial item determinations.

(ii) *Prior commercial item determination.* This section implements 10 U.S.C. 2306a(b)(4) and 10 U.S.C. 2380(b).

(A) The contracting officer may presume that a prior commercial item determination made by a military department, a defense agency, or another component of DoD shall serve as a determination for subsequent procurements of such item. See [PGI 212.102](#)(a)(ii) for information about items that the Department has historically acquired as military unique, noncommercial items.

(B) If the contracting officer does not make the presumption that a prior commercial item determination is valid, and instead chooses to proceed with a procurement of an item previously determined to be a commercial item using procedures other than the procedures authorized for the procurement of a commercial item, the contracting officer shall request a review of the commercial item determination by the head of the contracting activity that will conduct the procurement. Not later than 30 days after receiving a request for review of a commercial item determination, the head of a contracting activity shall—

(1) Confirm that the prior determination was appropriate and still applicable; or

(2) Issue a determination that the prior use of FAR part 12 procedures was improper or that it is no longer appropriate to acquire the item using FAR part 12 procedures, with a written explanation of the basis for the determination (see [212.70](#)).

(iii) *Nontraditional defense contractors.* In accordance with 10 U.S.C. 2380a, contracting officers—

(A) Except as provided in paragraph (a)(iii)(B) of this section, may treat supplies and services provided by nontraditional defense contractors as commercial

Defense Federal Acquisition Regulation Supplement

Part 212—Acquisition of Commercial Items

items. This permissive authority is intended to enhance defense innovation and investment, enable DoD to acquire items that otherwise might not have been available, and create incentives for nontraditional defense contractors to do business with DoD. It is not intended to recategorize current noncommercial items; however, when appropriate, contracting officers may consider applying commercial item procedures to the procurement of supplies and services from business segments that meet the definition of “nontraditional defense contractor” even though they have been established under traditional defense contractors. The decision to apply commercial item procedures to the procurement of supplies and services from nontraditional defense contractors does not require a commercial item determination and does not mean the item is commercial;

(B) Shall treat services provided by a business unit that is a nontraditional defense contractor as commercial items, to the extent that such services use the same pool of employees as used for commercial customers and are priced using methodology similar to methodology used for commercial pricing; and

(C) Shall document the file when treating supplies or services from a nontraditional defense contractor as commercial items in accordance with paragraph (a)(iii)(A) or (B) of this section.

**SUBPART 212.2—SPECIAL REQUIREMENTS FOR THE ACQUISITION OF
COMMERCIAL ITEMS**

(Revised October 1, 2020)

See DoD Class Deviation [2018-O0016](#), Defense Commercial Solutions Opening Pilot Program, issued June 26, 2018. This class deviation allows the contracting officer to acquire innovative commercial items, technologies, or services using the competitive procedure outlined in the class deviation called a commercial solutions opening (CSO). Use of a CSO is authorized by section 879 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328). Under a CSO, DoD may competitively select proposals received in response to a general solicitation, similar to a broad agency announcement, based on a review of proposals by scientific, technological, or other subject matter experts. This class deviation remains in effect until September 30, 2022.

212.203 Procedures for solicitation, evaluation, and award.

(1) See [215.101-2-70](#) for the limitations and prohibitions on the use of the lowest price technically acceptable source selection process, which are applicable to the acquisition of commercial items.

(2) See [217.7801](#) for the prohibition on the use of reverse auctions for personal protective equipment and aviation critical safety items.

212.205 Offers.

(c) When using competitive procedures, if only one offer is received, the contracting officer shall follow the procedures at [215.371](#).

212.207 Contract type.

(b) In accordance with section 805 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), use of time-and-materials and labor-hour contracts for the acquisition of commercial items is authorized only for the following:

(i) Services acquired for support of a commercial item, as described in paragraph (5) of the definition of “commercial item” at FAR 2.101 (41 U.S.C. 103).

(ii) Emergency repair services.

(iii) Any other commercial services only to the extent that the head of the agency concerned approves a written determination by the contracting officer that—

(A) The services to be acquired are commercial services as defined in paragraph (6) of the definition of “commercial item” at FAR 2.101 (41 U.S.C. 103);

(B) If the services to be acquired are subject to FAR 15.403-1(c)(3)(ii), the offeror of the services has submitted sufficient information in accordance with that subsection;

(C) Such services are commonly sold to the general public through use of time-and-materials or labor-hour contracts; and

(D) The use of a time-and-materials or labor-hour contract type is in the best interest of the Government.

212.209 Determination of price reasonableness.

(a) In accordance with 10 U.S.C. 2377(d), agencies shall conduct or obtain market research to support the determination of the reasonableness of price for commercial items contained in any bid or offer submitted in response to an agency solicitation. To the extent necessary to support such market research, the contracting officer—

(1) In the case of major weapon systems items acquired as commercial items in accordance with subpart [234.70](#), shall use information submitted under [234.7002\(d\)](#); and

(2) In the case of other items, may require the offeror to submit other relevant information.

(b) If the contracting officer determines that the information obtained through market research pursuant to paragraph (a) of this section, is insufficient to determine the reasonableness of price, the contracting officer shall consider information submitted by the offeror of recent purchase prices paid by the Government and commercial customers for the same or similar commercial items under comparable terms and conditions in establishing price reasonableness on a subsequent purchase if the contracting officer is satisfied that the prices previously paid remain a valid reference for comparison. In assessing whether the prices previously paid remain a valid reference for comparison, the contracting officer shall consider the totality of other relevant factors such as the time elapsed since the prior purchase and any differences in the quantities purchased (10 U.S.C. 2306a(b)).

(c) If the contracting officer determines that the offeror cannot provide sufficient information as described in paragraph (b) of this section to determine the reasonableness of price, the contracting officer should request the offeror to submit information on—

(1) Prices paid for the same or similar items sold under different terms and conditions;

(2) Prices paid for similar levels of work or effort on related products or services;

(3) Prices paid for alternative solutions or approaches; and

(4) Other relevant information that can serve as the basis for determining the reasonableness of price.

(d) Nothing in this section shall be construed to preclude the contracting officer from requiring the contractor to supply information that is sufficient to determine the reasonableness of price, regardless of whether or not the contractor was required to provide such information in connection with any earlier procurement. If the contracting officer determines that the pricing information submitted is not sufficient to determine the reasonableness of price, the contracting officer may request other relevant information regarding the basis for price or cost, including uncertified cost data such as labor costs, material costs, and other direct and indirect costs.

212.211 Technical data.

The DoD policy for acquiring technical data for commercial items is at [227.7102](#).

212.212 Computer software.

(1) Departments and agencies shall identify and evaluate, at all stages of the acquisition process (including concept refinement, concept decision, and technology development), opportunities for the use of commercial computer software and other non-developmental software in accordance with Section 803 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417).

(2) See Subpart [208.74](#) when acquiring commercial software or software maintenance. See [227.7202](#) for policy on the acquisition of commercial computer software and commercial computer software documentation.

212.7001 Procedures.

(a) Limitation.

(1) For a procurement valued at more than \$1 million, but less than \$100 million, previously procured under a prime contract using FAR part 12 procedures based on a commercial item determination made by a military department, a defense agency, or another DoD component, prior to converting the procurement from commercial acquisition procedures to noncommercial acquisition procedures under FAR part 15, the head of the contracting activity shall determine in writing, upon recommendation from the contracting officer for the procurement that—

(2) In the case of a procurement valued at \$100 million or more, a contract may not be awarded pursuant to a conversion of the procurement described in paragraph (a)(1) of this section until a copy of the head of contracting activity determination is provided to the Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics.

212.7102 Pilot program.

212.7102-1 Contracts under the program.

The contracting officer may utilize this pilot program to enter into contracts for the acquisition of military-purpose nondevelopmental items. See [PGI 212.7102](#) for file documentation requirements. Each contract entered into under the pilot program shall—

SUBPART 213.1—PROCEDURES

(Revised October 1, 2019)

213.101 General.

Structure awards valued above the micro-purchase threshold (e.g., contract line items, delivery schedule, and invoice instructions) in a manner that will minimize the generation of invoices valued at or below the micro-purchase threshold.

213.104 Promoting competition.

For information on the various approaches that may be used to competitively fulfill DoD requirements, see [PGI 213.104](#).

213.106-1 Soliciting competition.

(a) *Considerations.*

(2)(i) Include an evaluation factor regarding supply chain risk (see subpart [239.73](#)) when acquiring information technology, whether as a service or as a supply, that is a covered system, is a part of a covered system, or is in support of a covered system, as defined in [239.7301](#).

(ii) See [215.101-2-70](#) for limitations and prohibitions on the use of the lowest price technically acceptable source selection process, which are applicable to simplified acquisitions.

(iii) See [217.7801](#) for the prohibition on the use of reverse auctions for personal protective equipment and aviation critical safety items.

213.106-1-70 Soliciting competition – tiered evaluation of offers.

See limitations on the use of tiered evaluation of offers at [215.203-70](#).

213.106-2 Evaluation of quotations or offers.

(b)(i) For competitive solicitations for supplies using FAR part 13 simplified acquisition procedures, including acquisitions valued at less than or equal to \$1 million under the authority at FAR subpart 13.5, the contracting officer shall—

(A) Consider data available in the statistical reporting module of the Supplier Performance Risk System (SPRS) regarding the supplier's past performance history for the Federal supply class (FSC) and product or service code (PSC) of the supplies being purchased. Procedures for the use of SPRS in the evaluation of quotations or offers are provided in the SPRS User's Manual available under the references section of the SPRS website at <https://www.ppirssrng.csd.disa.mil>;

(B) Ensure the basis for award includes an evaluation of each supplier's past performance history in SPRS for the FSC and PSC of the supplies being purchased; and

Defense Federal Acquisition Regulation Supplement

Part 213—Simplified Acquisition Procedures

(C) In the case of a supplier without a record of relevant past performance history in SPRS for the FSC or PSC of the supplies being purchased, the supplier may not be evaluated favorably or unfavorably for its past performance history.

213.106-2-70 Solicitation provision.

Use the provision at [252.213-7000](#), Notice to Prospective Suppliers on the Use of Past Performance Information Retrieval System—Statistical Reporting in Past Performance Evaluations, in competitive solicitations for supplies when using FAR part 13 simplified acquisition procedures, including competitive solicitations using FAR part 12 procedures for the acquisition of commercial items and acquisitions valued at less than or equal to \$1 million under the authority at FAR subpart 13.5.

SUBPART 213.2—ACTIONS AT OR BELOW THE MICRO-PURCHASE THRESHOLD

(Revised December 31, 2019)

213.201 General.

(g) See [PGI 213.201\(g\)](#) for guidance on use of the higher micro-purchase thresholds prescribed in FAR 13.201(g) to support a declared contingency operation or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack.

(j) Do not procure or obtain, or extend or renew a contract to procure or obtain, any equipment, system, or service to carry out covered missions that use covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted. (See subpart [204.21](#).)

213.270 Use of the Governmentwide commercial purchase card.

Use the Governmentwide commercial purchase card as the method of purchase and/or method of payment for purchases valued at or below the micro-purchase threshold. This policy applies to all types of contract actions authorized by the FAR unless--

(a) The Deputy Secretary of Defense has approved an exception for an electronic commerce/electronic data interchange system or operational requirement that results in a more cost-effective payment process;

(b)(1) A general or flag officer or a member of the Senior Executive Service (SES) makes a written determination that--

(i) The source or sources available for the supply or service do not accept the purchase card; and

(ii) The contracting office is seeking a source that accepts the purchase card.

(2) To prevent mission delays, if an activity does not have a resident general or flag officer or SES member, delegation of this authority to the level of the senior local commander or director is permitted; or

(c) The purchase or payment meets one or more of the following criteria:

(1) The place of performance is entirely outside the United States and its outlying areas.

(2) The purchase is a Standard Form 44 purchase for aviation fuel or oil.

(3) The purchase is an overseas transaction by a contracting officer in support of a contingency operation as defined in 10 U.S.C. 101(a)(13) or a humanitarian or peacekeeping operation as defined in 10 U.S.C. 2302(8).

(4) The purchase is a transaction in support of intelligence or other specialized activities addressed by Part 2.7 of Executive Order 12333.

Defense Federal Acquisition Regulation Supplement

Part 213—Simplified Acquisition Procedures

- (5) The purchase is for training exercises in preparation for overseas contingency, humanitarian, or peacekeeping operations.
- (6) The payment is made with an accommodation check.
- (7) The payment is for a transportation bill.
- (8) The purchase is under a Federal Supply Schedule contract that does not permit use of the Governmentwide commercial purchase card.
- (9) The purchase is for medical services and—
 - (i) It involves a controlled substance or narcotic;
 - (ii) It requires the submission of a Health Care Summary Record to document the nature of the care purchased;
 - (iii) The ultimate price of the medical care is subject to an independent determination that changes the price paid based on application of a mandatory CHAMPUS Maximum Allowable Charge determination that reduces the Government liability below billed charges;
 - (iv) The Government already has entered into a contract to pay for the services without the use of a purchase card;
 - (v) The purchaser is a beneficiary seeking medical care; or
 - (vi) The senior local commander or director of a hospital or laboratory determines that use of the purchase card is not appropriate or cost-effective. The Medical Prime Vendor Program and the DoD Medical Electronic Catalog Program are two examples where use of the purchase card may not be cost-effective.

Part 215—Contracting By Negotiation

(Removed January 23, 2006)

SUBPART 215.1—SOURCE SELECTION PROCESSES AND TECHNIQUES
(Revised October 1, 2019)

215.101 Best value continuum.

215.101-2 Lowest price technically acceptable source selection process.

215.101-2-70 Limitations and prohibitions.

The following limitations and prohibitions apply when considering the use of the lowest price technically acceptable source selection procedures.

(a) *Limitations.*

(1) In accordance with section 813 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328) as amended by section 822 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) (see 10 U.S.C. 2305 note), the lowest price technically acceptable source selection process shall only be used when—

(i) Minimum requirements can be described clearly and comprehensively and expressed in terms of performance objectives, measures, and standards that will be used to determine the acceptability of offers;

(ii) No, or minimal, value will be realized from a proposal that exceeds the minimum technical or performance requirements;

(iii) The proposed technical approaches will require no, or minimal, subjective judgment by the source selection authority as to the desirability of one offeror's proposal versus a competing proposal;

(iv) The source selection authority has a high degree of confidence that reviewing the technical proposals of all offerors would not result in the identification of characteristics that could provide value or benefit;

(v) No, or minimal, additional innovation or future technological advantage will be realized by using a different source selection process;

(vi) Goods to be procured are predominantly expendable in nature, are nontechnical, or have a short life expectancy or short shelf life (See [PGI 215.101-2-70\(a\)\(1\)\(vi\)](#) for assistance with evaluating whether a requirement satisfies this limitation);

(vii) The contract file contains a determination that the lowest price reflects full life-cycle costs (as defined at FAR 7.101) of the product(s) or service(s) being acquired (see [PGI 215.101-2-70\(a\)\(1\)\(vii\)](#) for information on obtaining this determination); and

(viii) The contracting officer documents the contract file describing the circumstances justifying the use of the lowest price technically acceptable source selection process.

(2) In accordance with section 813 of the National Defense Authorization Act for Fiscal Year 2017, as amended by section 822 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) (see 10 U.S.C. 2305 note), contracting officers shall avoid, to the maximum extent practicable, using the lowest price technically acceptable source selection process in the case of a procurement that is predominately for the acquisition of—

(i) Information technology services, cybersecurity services, systems engineering and technical assistance services, advanced electronic testing, or other knowledge-based professional services;

(ii) Items designated by the requiring activity as personal protective equipment (except see paragraph (b)(1) of this section); or

(iii) Services designated by the requiring activity as knowledge-based training or logistics services in contingency operations or other operations outside the United States, including in Afghanistan or Iraq.

(b) Prohibitions.

(1) In accordance with section 814 of the National Defense Authorization Act for Fiscal Year 2017 as amended by section 882 of the National Defense Authorization Act for Fiscal Year 2018 (see 10 U.S.C. 2302 note), contracting officers shall not use the lowest price technically acceptable source selection process to procure items designated by the requiring activity as personal protective equipment or an aviation critical safety item, when the requiring activity advises the contracting officer that the level of quality or failure of the equipment or item could result in combat casualties. See [252.209-7010](#) for the definition and identification of critical safety items.

(2) In accordance with section 832 of the National Defense Authorization Act for Fiscal Year 2018 (see 10 U.S.C. 2442 note), contracting officers shall not use the lowest price technically acceptable source selection process to acquire engineering and manufacturing development for a major defense acquisition program for which budgetary authority is requested beginning in fiscal year 2019.

(3) Contracting officers shall make award decisions based on best value factors and criteria, as determined by the resource sponsor (in accordance with agency procedures), for an auditing contract. The use of the lowest price technically acceptable source selection process is prohibited (10 U.S.C. 254b).

215.101-70 Best value when acquiring tents or other temporary structures.

(a) In accordance with section 368 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81), when acquiring tents or other temporary structures for use by the Armed Forces, the contracting officer shall award contracts that provide the best value. Temporary structures covered by this paragraph are nonpermanent buildings, including tactical shelters, nonpermanent modular or pre-fabricated buildings, or portable or relocatable buildings, such as trailers or equipment configured for occupancy (see also [246.270-2](#)). Determination of best value includes consideration of the total life-cycle costs of such tents or structures, including the costs associated with any equipment, fuel, or electricity needed to heat, cool, or light such tents or structures (see FAR 7.105(a)(3)(i) and [PGI 207.105\(a\)\(3\)\(i\)](#)).

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(b) The requirements of this section apply to any agency or department that acquires tents or other temporary structures on behalf of DoD (see FAR 17.503(d)(2)).

SUBPART 215.2—SOLICITATION AND RECEIPT OF PROPOSALS AND INFORMATION

(Revised September 20, 2011)

215.203-70 Requests for proposals – tiered evaluation of offers.

(a) The tiered or cascading order of precedence used for tiered evaluation of offers shall be consistent with FAR Part 19.

(b) Consideration shall be given to the tiers of small businesses (e.g., 8(a), HUBZone small business, service-disabled veteran-owned small business, small business) before evaluating offers from other than small business concerns.

(c) The contracting officer is prohibited from issuing a solicitation with a tiered evaluation of offers unless—

(1) The contracting officer conducts market research, in accordance with FAR Part 10 and Part 210, to determine—

(i) Whether the criteria in FAR Part 19 are met for setting aside the acquisition for small business; or

(ii) For a task or delivery order, whether there are a sufficient number of qualified small business concerns available to justify limiting competition under the terms of the contract; and

(2) If the contracting officer cannot determine whether the criteria in paragraph (c)(1) of this section are met, the contracting officer includes a written explanation in the contract file as to why such a determination could not be made (Section 816 of Pub. L. 109-163).

215.209 Solicitation provisions and contract clauses.

(a) For source selections when the procurement is \$100 million or more, contracting officers should use the provision at FAR 52.215-1, Instructions to Offerors—Competitive Acquisition, with its Alternate I.

215.270 Peer Reviews.

Agency officials shall conduct Peer Reviews in accordance with [201.170](#).

SUBPART 215.3—SOURCE SELECTION

(Revised December 31, 2019)

215.300 Scope of subpart.

Contracting officers shall follow the principles and procedures in Director, Defense Procurement and Acquisition Policy memorandum dated April 1, 2016, entitled “[Department of Defense Source Selection Procedures](#),” when conducting negotiated, competitive acquisitions utilizing FAR part 15 procedures. See [PGI 215.300](#).

215.303 Responsibilities.

(b)(2) For high-dollar value and other acquisitions, as prescribed by agency procedures, the source selection authority shall approve a source selection plan before the solicitation is issued. Follow the procedures at [PGI 215.303\(b\)\(2\)](#) for preparation of the source selection plan.

215.304 Evaluation factors and significant subfactors.

(c)(i) In acquisitions that require use of the clause at FAR 52.219-9, Small Business Subcontracting Plan, other than those based on the lowest price technically acceptable source selection process (see FAR 15.101-2), the extent of participation of small businesses to include service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns, and women-owned small business concerns in performance of the contract shall be addressed in source selection. The contracting officer shall evaluate the extent to which offerors identify and commit to small business performance of the contract, whether as a joint venture, teaming arrangement, or subcontractor.

(A) See [PGI 215.304\(c\)\(i\)\(A\)](#) for examples of evaluation factors.

(B) Proposals addressing the extent of small business performance shall be separate from subcontracting plans submitted pursuant to the clause at FAR 52.219-9 and shall be structured to allow for consideration of offers from small businesses.

(C) When an evaluation assesses the extent that small businesses are specifically identified in proposals, the small businesses considered in the evaluation shall be listed in any subcontracting plan submitted pursuant to FAR 52.219-9 to facilitate compliance with [252.219-7003\(e\)](#).

(ii) In accordance with 10 U.S.C. 2436, consider the purchase of capital assets (including machine tools) manufactured in the United States, in source selections for all major defense acquisition programs as defined in 10 U.S.C. 2430.

(iii) See [247.573-2\(c\)](#) for additional evaluation factors required in solicitations for the direct purchase of ocean transportation services.

(iv) In accordance with section 812 of the National Defense Authorization Act for Fiscal Year 2011, consider the manufacturing readiness and manufacturing-readiness processes of potential contractors and subcontractors as a part of the source selection process for major defense acquisition programs.

(v) Include an evaluation factor regarding supply chain risk (see subpart [239.73](#)) when acquiring information technology, whether as a service or as a supply, that is a covered system, is a part of a covered system, or is in support of a covered system, as defined in [239.7301](#). For additional guidance see [PGI 215.304\(c\)\(v\)](#).

(vi) Ensure source selections emphasize sustainment factors and objective reliability and maintainability evaluation criteria in competitive contracts for the—

(A) Technical maturation and risk reduction phase of weapon system design (see guidance at [PGI 207.105\(b\)\(14\)\(ii\)\(2\)](#));

(B) Engineering and manufacturing development phase of a weapon system, including embedded software (10 U.S.C. 2443); or

(C) Production and deployment phase of a weapon system, including embedded software (10 U.S.C. 2443).

(vii) See [226.7202](#) for an additional evaluation factor required in solicitations when using the Demonstration Project for Contractors Employing Persons with Disabilities.

See DoD Class Deviation [2013-O0018](#), Past Performance Evaluation Thresholds and Reporting Requirements, issued on September 24, 2013, which updates the DoD thresholds for evaluating a contractor's past performance in source selections for competitive acquisitions. This deviation is in effect until incorporated into the DFARS or otherwise rescinded.

215.305 Proposal evaluation.

(a)(2) *Past performance evaluation.*

(A) When a past performance evaluation is required by FAR 15.304, and the solicitation includes the clause at FAR 52.219-8, Utilization of Small Business Concerns, the evaluation factors shall include the past performance of offerors in complying with requirements of that clause. When a past performance evaluation is required by FAR 15.304, and the solicitation includes the clause at FAR 52.219-9, Small Business Subcontracting Plan, the evaluation factors shall include the past performance of offerors in complying with requirements of that clause.

(B) Contracting officers shall consider an offeror's failure to make a good faith effort to comply with its comprehensive subcontracting plan under the Test Program described at [219.702-70](#) as part of the evaluation of the past performance.

215.306 Exchanges with offerors after receipt of proposals.

(c) *Competitive range.*

(1) For acquisitions with an estimated value of \$100 million or more, contracting officers should conduct discussions. Follow the procedures at FAR 15.306 (c) and (d).

215.370 Evaluation factor for employing or subcontracting with members of the Selected Reserve.

215.370-1 Definition.

“Selected Reserve,” as used in this section, is defined in the provision at [252.215-7005](#), Evaluation Factor for Employing or Subcontracting with Members of the Selected Reserve.

215.370-2 Evaluation factor.

In accordance with Section 819 of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163), the contracting officer may use an evaluation factor that considers whether an offeror intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve. See [PGI 215.370-2](#) for guidance on use of this evaluation factor.

215.370-3 Solicitation provision and contract clause.

(a) Use the provision at [252.215-7005](#), Evaluation Factor for Employing or Subcontracting with Members of the Selected Reserve, in solicitations that include an evaluation factor considering whether an offeror intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve.

(b) Use the clause at [252.215-7006](#), Use of Employees or Individual Subcontractors Who are Members of the Selected Reserve, in solicitations that include the provision at [252.215-7005](#). Include the clause in the resultant contract only if the contractor stated in its proposal that it intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve, and that statement was used as an evaluation factor in the award decision.

215.371 Only one offer.

215.371-1 Policy.

It is DoD policy, if only one offer is received in response to a competitive solicitation—

(a) To take the required actions to promote competition (see [215.371-2](#)); and

(b) To ensure that the price is fair and reasonable (see [215.371-3](#)) and to comply with the statutory requirement for certified cost or pricing data (see FAR 15.403-4).

215.371-2 Promote competition.

Except as provided in sections [215.371-4](#) and [215.371-5](#)—

(a) If only one offer is received when competitive procedures were used and the solicitation allowed fewer than 30 days for receipt of proposals, the contracting officer shall—

(1) Consult with the requiring activity as to whether the requirements document should be revised in order to promote more competition (see FAR 6.502(b) and 11.002); and

(2) Resolicit, allowing an additional period of at least 30 days for receipt of proposals; and

(b) For competitive solicitations in which more than one potential offeror expressed an interest in an acquisition, but only one offer was ultimately received, follow the procedures at [PGI 215.371-2](#).

215.371-3 Fair and reasonable price and the requirement for additional cost or pricing data.

For acquisitions that exceed the simplified acquisition threshold, if only one offer is received when competitive procedures were used and it is not necessary to resolicit in accordance with [215.371-2\(a\)](#), then the contracting officer shall comply with the following:

(a) If no additional cost or pricing data are required to determine through cost or price analysis that the offered price is fair and reasonable, the contracting officer shall require that any cost or pricing data provided in the proposal be certified if the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply.

(b) Otherwise, the contracting officer shall obtain additional cost or pricing data to determine a fair and reasonable price. If the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply, the cost or pricing data shall be certified.

(c) If the contracting officer is still unable to determine that the offered price is fair and reasonable, the contracting officer shall enter into negotiations with the offeror to establish a fair and reasonable price. The negotiated price should not exceed the offered price.

(d) If the contracting officer is unable to negotiate a fair and reasonable price, see FAR 15.405(d).

215.371-4 Exceptions.

(a) The requirements at sections [215.371-2](#) do not apply to—

(1) Acquisitions at or below the simplified acquisition threshold;

(2) Acquisitions, as determined by the head of the contracting activity, in support of contingency or humanitarian or peacekeeping operations; to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack; to facilitate the provision of international disaster assistance; or to support response to an emergency or major disaster;

(3) Small business set-asides under FAR subpart 19.5, set asides offered and accepted into the 8(a) Program under FAR subpart 19.8, or set-asides under the HUBZone Program (see FAR 19.1305(c)), the Service-Disabled Veteran-Owned Small Business Procurement Program (see FAR 19.1405(c)), or the Women-Owned Small Business Program (see FAR 19.1505(d));

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(4) Acquisitions of science and technology, as specified in [235.016](#)(a); or

(5) Acquisitions of architect-engineer services (see FAR 36.601-2).

(b) The applicability of an exception in paragraph (a) of this section does not eliminate the need for the contracting officer to seek maximum practicable competition and to ensure that the price is fair and reasonable.

215.371-5 Waiver.

(a) The head of the contracting activity is authorized to waive the requirement at [215.371-2](#) to resolicit for an additional period of at least 30 days.

(b) This waiver authority cannot be delegated below one level above the contracting officer.

215.371-6 Solicitation provision.

Use the provision at [252.215-7007](#), Notice of Intent to Resolicit, in competitive solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that will be solicited for fewer than 30 days, unless an exception at [215.371-4](#) applies or the requirement is waived in accordance with [215.371-5](#).

SUBPART 215.4—CONTRACT PRICING
(Revised May 20, 2021)

215.401 Definitions.

As used in this subpart—

“Market prices” means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.

“Relevant sales data” means information on sales of the same or similar items that can be used to establish price reasonableness taking into consideration the age, volume, and nature of the transactions (including any related discounts, refunds, rebates, offsets or other adjustments).

215.402 Pricing policy.

(a)(i) Pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239)—

(A) The contracting officer is responsible for determining if the information provided by the offeror is sufficient to determine price reasonableness. This responsibility includes determining whether information on the prices at which the same or similar items have previously been sold is adequate for evaluating the reasonableness of price, and determining the extent of uncertified cost data that should be required in cases in which price information is not adequate;

(B) The contracting officer shall not limit the Government’s ability to obtain information that may be necessary to support a determination of fair and reasonable pricing by agreeing to contract terms that preclude obtaining necessary supporting information; and

(C) When obtaining uncertified cost data, the contracting officer shall require the offeror to provide the information in the form in which it is regularly maintained in the offeror’s business operations.

(ii) Follow the procedures at [PGI 215.402](#) when conducting cost or price analysis, particularly with regard to acquisitions for sole source commercial items.

215.403 Obtaining certified cost or pricing data.

215.403-1 Prohibition on obtaining certified cost or pricing data (10 U.S.C. 2306a and 41 U.S.C. chapter 35).

(b) *Exceptions to certified cost or pricing data requirements.*

(i) Follow the procedures at [PGI 215.403-1\(b\)](#).

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(ii) Submission of certified cost or pricing data shall not be required in the case of a contract, subcontract, or modification of a contract or subcontract to the extent such data relates to an indirect offset.

(c) *Standards for exceptions from certified cost or pricing data requirements.*

(1) *Adequate price competition.*

(A) For acquisitions under dual or multiple source programs—

(1) The determination of adequate price competition must be made on a case-by-case basis. Even when adequate price competition exists, in certain cases it may be appropriate to obtain additional data to assist in price analysis; and

(2) Adequate price competition normally exists when—

(i) Prices are solicited across a full range of step quantities, normally including a 0-100 percent split, from at least two offerors that are individually capable of producing the full quantity; and

(ii) The reasonableness of all prices awarded is clearly established on the basis of price analysis (see FAR 15.404-1(b)).

(B) If only one offer is received in response to a competitive solicitation, see [215.371-3](#).

(3) *Commercial items.*

(A) Follow the procedures at [PGI 215.403-1\(c\)\(3\)\(A\)](#) for pricing commercial items.

(B) When applying the commercial item exception under FAR 15.403-1(b)(3), see [212.102\(a\)\(ii\)](#) regarding prior commercial item determinations.

(4) *Waivers.*

(A) The head of the contracting activity may, without power of delegation, apply the exceptional circumstances authority when a determination is made that—

(1) The property or services cannot reasonably be obtained under the contract, subcontract, or modification, without the granting of the waiver;

(2) The price can be determined to be fair and reasonable without the submission of certified cost or pricing data; and

(3) There are demonstrated benefits to granting the waiver. Follow the procedures at [PGI 215.403-1\(c\)\(4\)\(A\)](#) for determining when an exceptional case waiver is appropriate, for approval of such waivers, for partial waivers, and for waivers applicable to unpriced supplies or services.

(B) By November 30th of each year, departments and agencies shall provide a report to the Director, Defense Pricing and Contracting, Pricing and Contracting

Initiatives (DPC/PCI), of all waivers granted under FAR 15.403-1(b)(4), during the previous fiscal year, for any contract, subcontract, or modification expected to have a value of \$20 million or more. See [PGI 215.403-1\(c\)\(4\)\(B\)](#) for the format and guidance for the report.

(C) DoD has waived the requirement for submission of certified cost or pricing data for the Canadian Commercial Corporation and its subcontractors (but see [215.408\(3\)](#) and [225.870-4\(c\)](#)).

(D) DoD has waived certified cost or pricing data requirements for nonprofit organizations (including educational institutions) on cost-reimbursement-no-fee contracts. The contracting officer shall require—

(1) Submission of data other than certified cost or pricing data to the extent necessary to determine price reasonableness and cost realism; and

(2) Certified cost or pricing data from subcontractors that are not nonprofit organizations when the subcontractor's proposal exceeds the certified cost or pricing data threshold at FAR 15.403-4(a)(1).

215.403-3 Requiring data other than certified cost or pricing data.

Follow the procedures at [PGI 215.403-3](#).

(c) *Commercial items.* For determinations of price reasonableness of major weapon systems acquired as commercial items, see [234.7002\(d\)](#).

215.403-5 Instructions for submission of certified cost or pricing data and data other than certified cost or pricing data.

(b)(3) For contractors following the contract cost principles in FAR subpart 31.2, Contracts With Commercial Organizations, pursuant to the procedures in FAR 42.1701(b), the administrative contracting officer shall require contractors to comply with the submission items in Table 215.403-1 in order to ensure that their forward pricing rate proposal is submitted in an acceptable form in accordance with FAR 15.403-5(b)(3). The contracting officer should request that the proposal be submitted to the Government at least 90 days prior to the proposed effective date of the rates. To ensure the proposal is complete, the contracting officer shall request that the contractor complete the Contractor Forward Pricing Rate Proposal Adequacy Checklist at Table 215.403-1, and submit it with the forward pricing rate proposal.

Table 215.403-1 – Contractor Forward Pricing Rate Proposal Adequacy Checklist

Complete the following checklist, providing the location of requested information, or an explanation of why the requested information is not provided, and submit it with the forward pricing rate proposal.

215.404 Proposal analysis.

215.404-1 Proposal analysis techniques.

(a) *General.*

(i) Follow the procedures at [PGI 215.404-1](#) for proposal analysis.

(ii) For spare parts or support equipment, perform an analysis of—

(A) Those line items where the proposed price exceeds by 25 percent or more the lowest price the Government has paid within the most recent 12-month period based on reasonably available data;

(B) Those line items where a comparison of the item description and the proposed price indicates a potential for overpricing;

(C) Significant high-dollar-value items. If there are no obvious high-dollar-value items, include an analysis of a random sample of items; and

(D) A random sample of the remaining low-dollar value items. Sample size may be determined by subjective judgment, e.g., experience with the offeror and the reliability of its estimating and accounting systems.

(b) *Price analysis for commercial and noncommercial items.*

(i) In the absence of adequate price competition in response to the solicitation, pricing based on market prices is the preferred method to establish a fair and reasonable price (see [PGI 215.404-1\(b\)\(i\)](#)).

(ii) If the contracting officer determines that the information obtained through market research is insufficient to determine the reasonableness of price, the contracting officer shall consider information submitted by the offeror of recent purchase prices paid by the Government and commercial customers for the same or similar commercial items under comparable terms and conditions in establishing price reasonableness on a subsequent purchase if the contracting officer is satisfied that the prices previously paid remain a valid reference for comparison. The contracting officer shall consider the totality of other relevant factors such as the time elapsed since the prior purchase and any differences in the quantities purchased (section 853 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. L. 114-92)).

(iii) If the contracting officer determines that the offeror cannot provide sufficient information as described in paragraph (b)(ii) of this section to determine the reasonableness of price, the contracting officer should request the offeror to submit information on—

(A) Prices paid for the same or similar items sold under different terms and conditions;

(B) Prices paid for similar levels of work or effort on related products or services;

(C) Prices paid for alternative solutions or approaches; and

(D) Other relevant information that can serve as the basis for determining the reasonableness of price.

(iv) If the contracting officer determines that the pricing information submitted is not sufficient to determine the reasonableness of price, the contracting officer shall request other relevant information, to include cost data. However, no cost data may be required in any case in which there are sufficient non-Government sales of the same item to establish reasonableness of price (section 831 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239)).

(v) When evaluating pricing data, the contracting officer shall consider materially differing terms and conditions, quantities, and market and economic factors. For similar items, the contracting officer shall also consider material differences between the similar item and the item being procured (see FAR 15.404-1(b)(2)(ii)(B) and [PGI 215.404-1\(b\)\(v\)](#)). Material differences are those that could reasonably be expected to influence the contracting officer's determination of price reasonableness. The contracting officer shall consider the following factors when evaluating the relevance of the information available:

(A) *Market prices.*

(B) *Age of data.*

(1) Whether data is too old to be relevant depends on the industry (e.g., rapidly evolving technologies), product maturity (e.g., stable), economic factors (e.g., new sellers in the marketplace), and various other considerations.

(2) A pending sale may be relevant if, in the judgement of the contracting officer, it is probable at the anticipated price, and the sale could reasonably be expected to materially influence the contracting officer's determination of price reasonableness. The contracting officer may consult with the cognizant administrative contracting officers (ACOs) as they may have information about pending sales.

(C) *Volume and completeness of transaction data.* Data must include a sufficient number of transactions to represent the range of relevant sales to all types of customers. The data must also include key information, such as date, quantity sold, part number, part nomenclature, sales price, and customer. If the number of transactions is insufficient or the data is incomplete, the contracting officer shall request additional sales data to evaluate price reasonableness. If the contractor cannot provide sufficient sales data, the contracting officer shall request other relevant information.

(D) *Nature of transactions.* The nature of a sales transaction includes the information necessary to understand the transaction, such as terms and conditions, date, quantity sold, sale price, unique requirements, the type of customer (government, distributor, retail end-user, etc.), and related agreements. It also includes warranties, key product technical specifications, maintenance agreements, and preferred customer rewards.

(vi) The contracting officer shall consider catalog prices to be reliable when they are regularly maintained and supported by relevant sales data (including any related discounts, refunds, rebates, offsets, or other adjustments). The contracting officer may request that the offeror support differences between the proposed price(s), catalog price(s), and relevant sales data.

(vii) The contracting officer may consult with the DoD cadre of experts who are available to provide expert advice to the acquisition workforce in assisting with commercial item and price reasonableness determinations. The DoD cadre of experts is identified at [PGI 215.404-1\(b\)\(vii\)](#).

(h) *Review and justification of pass-through contracts.* Follow the procedures at [PGI 215.404-1\(h\)\(2\)](#) when considering alternative approaches or making the determination that the contracting approach selected is in the best interest of the Government, as required by FAR 15.404-1(h)(2).

215.404-2 Data to support proposal analysis.

See [PGI 215.404-2](#) for guidance on obtaining field pricing or audit assistance.

215.404-3 Subcontract pricing considerations.

Follow the procedures at [PGI 215.404-3](#) when reviewing a subcontractor's proposal.

215.404-4 Profit.

(b) *Policy.*

(1) Contracting officers shall use a structured approach for developing a prenegotiation profit or fee objective on any negotiated contract action when certified cost or pricing data is obtained, except for cost-plus-award-fee contracts (see [215.404-74](#), [216.405-2](#), and FAR 16.405-2) or contracts with Federally Funded Research and Development Centers (FFRDCs) (see [215.404-75](#)). There are three structured approaches—

- (A) The weighted guidelines method;
- (B) The modified weighted guidelines method; and
- (C) An alternate structured approach.

(c) *Contracting officer responsibilities.*

(1) Also, do not perform a profit analysis when assessing cost realism in competitive acquisitions.

(2) When using a structured approach, the contracting officer—

(A) Shall use the weighted guidelines method (see [215.404-71](#)), except as provided in paragraphs (c)(2)(B) and (c)(2)(C) of this subsection.

(B) Shall use the modified weighted guidelines method (see [215.404-72](#)) on contract actions with nonprofit organizations other than FFRDCs.

(C) May use an alternate structured approach (see [215.404-73](#)) when—

(1) The contract action is—

(i) At or below the certified cost or pricing data threshold (see FAR 15.403-4(a)(1));

(ii) For architect-engineer or construction work;

(iii) Primarily for delivery of material from subcontractors; or

(iv) A termination settlement; or

(2) The weighted guidelines method does not produce a reasonable overall profit objective and the head of the contracting activity approves use of the alternate approach in writing.

(D) Shall use the weighted guidelines method to establish a basic profit rate under a formula-type pricing agreement, and may then use the basic rate on all actions under the agreement, provided that conditions affecting profit do not change.

(E) Shall document the profit analysis in the contract file.

(5) Although specific agreement on the applied weights or values for individual profit factors shall not be attempted, the contracting officer may encourage the contractor to—

(A) Present the details of its proposed profit amounts in the weighted guidelines format or similar structured approach; and

(B) Use the weighted guidelines method in developing profit objectives for negotiated subcontracts.

(6) The contracting officer must also verify that relevant variables have not materially changed (e.g., performance risk, interest rates, progress payment rates, distribution of facilities capital).

(d) *Profit-analysis factors.*

(1) *Common factors.* The common factors are embodied in the DoD structured approaches and need not be further considered by the contracting officer.

215.404-70 DD Form 1547, Record of Weighted Guidelines Method Application.

Follow the procedures at [PGI 215.404-70](#) for use of DD Form 1547 whenever a structured approach to profit analysis is required.

215.404-71 Weighted guidelines method.

215.404-71-1 General.

(a) The weighted guidelines method focuses on four profit factors—

- (1) Performance risk;
- (2) Contract type risk;
- (3) Facilities capital employed; and
- (4) Cost efficiency.

(b) The contracting officer assigns values to each profit factor; the value multiplied by the base results in the profit objective for that factor. Except for the cost efficiency special factor, each profit factor has a normal value and a designated range of values. The normal value is representative of average conditions on the prospective contract when compared to all goods and services acquired by DoD. The designated range provides values based on above normal or below normal conditions. In the price negotiation documentation, the contracting officer need not explain assignment of the normal value, but should address conditions that justify assignment of other than the normal value. The cost efficiency special factor has no normal value. The contracting officer shall exercise sound business judgment in selecting a value when this special factor is used (see [215.404-71-5](#)).

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

215.404-71-2 Performance risk.

(a) *Description.* This profit factor addresses the contractor's degree of risk in fulfilling the contract requirements. The factor consists of two parts:

- (1) Technical--the technical uncertainties of performance.
- (2) Management/cost control--the degree of management effort necessary—
 - (i) To ensure that contract requirements are met; and
 - (ii) To reduce and control costs.

(b) *Determination.* The following extract from the DD Form 1547 is annotated to describe the process.

Item	Contractor Risk Factors	Assigned Weighting	Assigned Value	Base (Item 20)	Profit Objective
21.	Technical	(1)	(2)	N/A	N/A
22.	Management/ Cost Control	(1)	(2)	N/A	N/A
23.	Performance Risk (Composite)	N/A	(3)	(4)	(5)

(1) Assign a weight (percentage) to each element according to its input to the total performance risk. The total of the two weights equals 100 percent.

(2) Select a value for each element from the list in paragraph (c) of this subsection using the evaluation criteria in paragraphs (d) and (e) of this subsection.

(3) Compute the composite as shown in the following example:

	Assigned Weighting	Assigned Value	Weighted Value
Technical	60%	5.0%	3.0%
Management/ Cost Control	40%	4.0%	1.6%
Composite Value	100%		4.6%

(4) Insert the amount from Block 20 of the DD Form 1547. Block 20 is total contract costs, excluding facilities capital cost of money.

(5) Multiply (3) by (4).

(c) *Values: Normal and designated ranges.*

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

	Normal Value	Designated Range
Standard	5%	3% to 7%
Technology Incentive	9%	7% to 11%

(1) *Standard.* The standard designated range should apply to most contracts.

(2) *Technology incentive.* For the technical factor only, contracting officers may use the technology incentive range for acquisitions that include development, production, or application of innovative new technologies. The technology incentive range does not apply to efforts restricted to studies, analyses, or demonstrations that have a technical report as their primary deliverable.

(d) *Evaluation criteria for technical.*

(1) Review the contract requirements and focus on the critical performance elements in the statement of work or specifications. Factors to consider include—

- (i) Technology being applied or developed by the contractor;
- (ii) Technical complexity;
- (iii) Program maturity;
- (iv) Performance specifications and tolerances;
- (v) Delivery schedule; and
- (vi) Extent of a warranty or guarantee.

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value in those cases where there is a substantial technical risk. Indicators are—

(A) Items are being manufactured using specifications with stringent tolerance limits;

(B) The efforts require highly skilled personnel or require the use of state-of-the-art machinery;

(C) The services and analytical efforts are extremely important to the Government and must be performed to exacting standards;

(D) The contractor's independent development and investment has reduced the Government's risk or cost;

(E) The contractor has accepted an accelerated delivery schedule to meet DoD requirements; or

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(F) The contractor has assumed additional risk through warranty provisions.

(ii) Extremely complex, vital efforts to overcome difficult technical obstacles that require personnel with exceptional abilities, experience, and professional credentials may justify a value significantly above normal.

(iii) The following may justify a maximum value—

(A) Development or initial production of a new item, particularly if performance or quality specifications are tight; or

(B) A high degree of development or production concurrency.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value in those cases where the technical risk is low. Indicators are—

(A) Requirements are relatively simple;

(B) Technology is not complex;

(C) Efforts do not require highly skilled personnel;

(D) Efforts are routine;

(E) Programs are mature; or

(F) Acquisition is a follow-on effort or a repetitive type acquisition.

(ii) The contracting officer may assign a value significantly below normal for—

(A) Routine services;

(B) Production of simple items;

(C) Rote entry or routine integration of Government-furnished information; or

(D) Simple operations with Government-furnished property.

(4) *Technology incentive range.*

(i) The contracting officer may assign values within the technology incentive range when contract performance includes the introduction of new, significant technological innovation. Use the technology incentive range only for the most innovative contract efforts. Innovation may be in the form of--

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(A) Development or application of new technology that fundamentally changes the characteristics of an existing product or system and that results in increased technical performance, improved reliability, or reduced costs; or

(B) New products or systems that contain significant technological advances over the products or systems they are replacing.

(ii) When selecting a value within the technology incentive range, the contracting officer should consider the relative value of the proposed innovation to the acquisition as a whole. When the innovation represents a minor benefit, the contracting officer should consider using values less than the norm. For innovative efforts that will have a major positive impact on the product or program, the contracting officer may use values above the norm.

(e) *Evaluation criteria for management/cost control.*

(1) The contracting officer should evaluate—

(i) The contractor's management and internal control systems using contracting office data, information and reviews made by field contract administration offices or other DoD field offices;

(ii) The management involvement expected on the prospective contract action;

(iii) The degree of cost mix as an indication of the types of resources applied and value added by the contractor;

(iv) The contractor's support of Federal socioeconomic programs;

(v) The expected reliability of the contractor's cost estimates (including the contractor's cost estimating system);

(vi) The adequacy of the contractor's management approach to controlling cost and schedule; and

(vii) Any other factors that affect the contractor's ability to meet the cost targets (e.g., foreign currency exchange rates and inflation rates).

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value when there is a high degree of management effort. Indicators of this are—

(A) The contractor's value added is both considerable and reasonably difficult;

(B) The effort involves a high degree of integration or coordination;

(C) The contractor has a good record of past performance;

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(D) The contractor has a substantial record of active participation in Federal socioeconomic programs;

(E) The contractor provides fully documented and reliable cost estimates;

(F) The contractor makes appropriate make-or-buy decisions; or

(G) The contractor has a proven record of cost tracking and control.

(ii) The contracting officer may justify a maximum value when the effort—

(A) Requires large scale integration of the most complex nature;

(B) Involves major international activities with significant management coordination (e.g., offsets with foreign vendors); or

(C) Has critically important milestones.

(iii) If the contractor demonstrates efficient management and cost control through the submittal of a timely, qualifying proposal (as defined in [217.7401](#)) in furtherance of definitization of an undefinitized contract action, and the proposal demonstrates effective cost control from the time of award to the present, the contracting officer may add 1 percentage point to the value determined for management/cost control up to the maximum of 7 percent.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value when the management effort is minimal. Indicators of this are—

(A) The program is mature and many end item deliveries have been made;

(B) The contractor adds minimal value to an item;

(C) The efforts are routine and require minimal supervision;

(D) The contractor provides poor quality, untimely proposals;

(E) The contractor fails to provide an adequate analysis of subcontractor costs;

(F) The contractor does not cooperate in the evaluation and negotiation of the proposal;

(G) The contractor's cost estimating system is marginal;

(H) The contractor has made minimal effort to initiate cost reduction programs;

(I) The contractor's cost proposal is inadequate;

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(J) The contractor has a record of cost overruns or another indication of unreliable cost estimates and lack of cost control; or

(K) The contractor has a poor record of past performance.

(ii) The following may justify a value significantly below normal—

(A) Reviews performed by the field contract administration offices disclose unsatisfactory management and internal control systems (e.g., quality assurance, property control, safety, security); or

(B) The effort requires an unusually low degree of management involvement.

215.404-71-3 Contract type risk and working capital adjustment.

(a) *Description.* The contract type risk factor focuses on the degree of cost risk accepted by the contractor under varying contract types. The working capital adjustment is an adjustment added to the profit objective for contract type risk. It only applies to fixed-price contracts that provide for progress payments. Though it uses a formula approach, it is not intended to be an exact calculation of the cost of working capital. Its purpose is to give general recognition to the contractor's cost of working capital under varying contract circumstances, financing policies, and the economic environment.

(b) *Determination.* The following extract from the DD 1547 is annotated to explain the process.

Item	Contractor Risk Factors	Assigned Value	Base	Profit Objective
24a	Contract Type Risk (based on incurred costs at the time of qualifying proposal submission)	(1)	(2)(i)	(3)
24b	Contract Type Risk (based on Government estimated cost to complete)	(1)	(2)(ii)	(3)
24c	Totals		(3)	(3)

Item	Contractor Risk Factors	Costs Financed	Length Factor	Interest Rate	Profit Objective
25	Working Capital (4)	(5)	(6)	(7)	(8)

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(1) Select a value from the list of contract types in paragraph (c) of this section using the evaluation criteria in paragraph (d) of this section. See paragraph (d)(2) of this section.

(2)(i) Insert the amount of costs incurred as of the date the contractor submits a qualifying proposal, such as under an undefinitized contract action (excluding facilities capital cost of money) into the Block 24a column titled Base.

(ii) Insert the amount of Government estimated cost to complete (excluding facilities capital cost of money) into the Block 24b column titled Base.

(3) Multiply (1) by (2)(i) and (2)(ii), respectively for blocks 24a and 24b. Add Blocks 24a and 24b and insert the totals in Block 24c.

(4) Only complete this block when the prospective contract is a fixed-price contract containing provisions for progress payments.

(5) Insert the amount computed per paragraph (e) of this subsection.

(6) Insert the appropriate figure from paragraph (f) of this subsection.

(7) Use the interest rate established by the Secretary of the Treasury (see http://www.treasurydirect.gov/govt/rates/tcir/tcir_opdirsemi.htm). Do not use any other interest rate.

(8) Multiply (5) by (6) by (7). This is the working capital adjustment. It shall not exceed 4 percent of the contract costs in Block 20.

(c) *Values: Normal and designated ranges.*

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

Contract Type	Notes	Normal Value (percent)	Designated Range (percent)
Firm-fixed-price, no financing	(1)	5	4 to 6
Firm-fixed-price, with performance-based payments	(6)	4	2.5 to 5.5
Firm-fixed-price, with progress payments	(2)	3	2 to 4
Fixed-price incentive, no financing	(1)	3	2 to 4
Fixed-price incentive, with performance-based payments	(6)	2	0.5 to 3.5
Fixed-price with redetermination provision	(3)		
Fixed-price incentive, with progress payments	(2)	1	0 to 2
Cost-plus-incentive-fee	(4)	1	0 to 2
Cost-plus-fixed-fee	(4)	0.5	0 to 1
Time-and-materials (including overhaul contracts priced on time-and-materials basis)	(5)	0.5	0 to 1
Labor-hour	(5)	0.5	0 to 1
Firm-fixed-price, level-of-effort	(5)	0.5	0 to 1

(1) “No financing” means either that the contract does not provide progress payments or performance-based payments, or that the contract provides them only on a limited basis, such as financing of first articles. Do not compute a working capital adjustment.

(2) When the contract contains provisions for progress payments, compute a working capital adjustment (Block 25).

(3) For the purposes of assigning profit values, treat a fixed-price contract with redetermination provisions as if it were a fixed-price incentive contract with below normal conditions.

(4) Cost-plus contracts shall not receive the working capital adjustment.

(5) These types of contracts are considered cost-plus-fixed-fee contracts for the purposes of assigning profit values. They shall not receive the working capital adjustment in Block 25. However, they may receive higher than normal values within the designated range to the extent that portions of cost are fixed.

(6) When the contract contains provisions for performance-based payments, do not compute a working capital adjustment.

(d) *Evaluation criteria.*

(1) *General.* The contracting officer should consider elements that affect contract type risk such as—

- (i) Length of contract;
- (ii) Adequacy of cost data for projections;
- (iii) Economic environment;
- (iv) Nature and extent of subcontracted activity;
- (v) Protection provided to the contractor under contract provisions (e.g., economic price adjustment clauses);
- (vi) The ceilings and share lines contained in incentive provisions;
- (vii) Risks associated with contracts for foreign military sales (FMS) that are not funded by U.S. appropriations; and
- (viii) When the contract contains provisions for performance-based payments—
 - (A) The frequency of payments;
 - (B) The total amount of payments compared to the maximum allowable amount specified at FAR 32.1004(b)(2); and
 - (C) The risk of the payment schedule to the contractor.

(2) *Mandatory.*

(i) The contracting officer shall assess the extent to which costs have been incurred prior to definitization of the contract action (also see [217.7404-6\(a\)](#) and [243.204-70-6](#)). When costs have been incurred prior to definitization, generally regard the contract type risk to be in the low end of the designated range. If a substantial portion of the costs have been incurred prior to definitization, the contracting officer may assign a value as low as zero percent, regardless of contract type. However, if a contractor submits a qualifying proposal to definitize an undefinitized contract action and the contracting officer for such action definitizes the contract after the end of the 180-day period beginning on the date on which the contractor submitted the qualifying proposal (as defined in [217.7401](#)), the profit allowed on the contract shall accurately reflect the cost risk of the contractor as such risk existed on the date the contractor submitted the qualifying proposal.

(ii) Contracting officers shall document in the price negotiation memorandum the reason for assigning a specific contract type risk value, to include the extent to which any reduced cost risk during the undefinitized period of performance was considered, in determining the negotiation objective.

(3) *Above normal conditions.* The contracting officer may assign a higher than normal value when there is substantial contract type risk. Indicators of this are—

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

- (i) Efforts where there is minimal cost history;
- (ii) Long-term contracts without provisions protecting the contractor, particularly when there is considerable economic uncertainty;
- (iii) Incentive provisions (e.g., cost and performance incentives) that place a high degree of risk on the contractor;
- (iv) FMS sales (other than those under DoD cooperative logistics support arrangements or those made from U.S. Government inventories or stocks) where the contractor can demonstrate that there are substantial risks above those normally present in DoD contracts for similar items; or
- (v) An aggressive performance-based payment schedule that increases risk.

(4) *Below normal conditions.* The contracting officer may assign a lower than normal value when the contract type risk is low. Indicators of this are—

- (i) Very mature product line with extensive cost history;
- (ii) Relatively short-term contracts;
- (iii) Contractual provisions that substantially reduce the contractor's risk;
- (iv) Incentive provisions that place a low degree of risk on the contractor;
- (v) Performance-based payments totaling the maximum allowable amount(s) specified at FAR 32.1004(b)(2); or
- (vi) A performance-based payment schedule that is routine with minimal risk.

(e) *Costs financed.*

(1) Costs financed equal total costs multiplied by the portion (percent) of costs financed by the contractor.

(2) Total costs equal Block 20 (i.e., all allowable costs excluding facilities capital cost of money), reduced as appropriate when—

- (i) The contractor has little cash investment (e.g., subcontractor progress payments liquidated late in period of performance);
- (ii) Some costs are covered by special financing provisions, such as advance payments; or
- (iii) The contract is multiyear and there are special funding arrangements.

(3) The portion that the contractor finances is generally the portion not covered by progress payments, i.e., 100 percent minus the customary progress payment rate (see FAR 32.501). For example, if a contractor receives progress payments at 80 percent, the portion that the contractor finances is 20 percent. On contracts that

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

provide progress payments to small businesses, use the customary progress payment rate for large businesses.

(f) *Contract length factor.*

(1) This is the period of time that the contractor has a working capital investment in the contract. It—

(i) Is based on the time necessary for the contractor to complete the substantive portion of the work;

(ii) Is not necessarily the period of time between contract award and final delivery (or final payment), as periods of minimal effort should be excluded;

(iii) Should not include periods of performance contained in option provisions; and

(iv) Should not, for multiyear contracts, include periods of performance beyond that required to complete the initial program year's requirements.

(2) The contracting officer—

(i) Should use the following table to select the contract length factor;

(ii) Should develop a weighted average contract length when the contract has multiple deliveries; and

(iii) May use sampling techniques provided they produce a representative result.

TABLE	
Period to Perform Substantive Portion (in months)	Contract Length Factor
21 or less	.40
22 to 27	.65
28 to 33	.90
34 to 39	1.15
40 to 45	1.40
46 to 51	1.65
52 to 57	1.90
58 to 63	2.15
64 to 69	2.40
70 to 75	2.65
76 or more	2.90

(3) Example: A prospective contract has a performance period of 40 months with end items being delivered in the 34th, 36th, 38th, and 40th months of the contract. The average period is 37 months and the contract length factor is 1.15.

215.404-71-4 Facilities capital employed.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(a) *Description.* This factor focuses on encouraging and rewarding capital investment in facilities that benefit DoD. It recognizes both the facilities capital that the contractor will employ in contract performance and the contractor's commitment to improving productivity.

(b) *Contract facilities capital estimates.* The contracting officer shall estimate the facilities capital cost of money and capital employed using—

(1) An analysis of the appropriate Forms CASB-CMF and cost of money factors (48 CFR 9904.414 and FAR 31.205-10); and

(2) DD Form 1861, Contract Facilities Capital Cost of Money.

(c) *Use of DD Form 1861.* See [PGI 215.404-71-4\(c\)](#) for obtaining field pricing support for preparing DD Form 1861.

(1) *Purpose.* The DD Form 1861 provides a means of linking the Form CASB-CMF and DD Form 1547, Record of Weighted Guidelines Application. It—

(i) Enables the contracting officer to differentiate profit objectives for various types of assets (land, buildings, equipment). The procedure is similar to applying overhead rates to appropriate overhead allocation bases to determine contract overhead costs.

(ii) Is designed to record and compute the contract facilities capital cost of money and capital employed which is carried forward to DD Form 1547.

(2) *Completion instructions.* Complete a DD Form 1861 only after evaluating the contractor's cost proposal, establishing cost of money factors, and establishing a prenegotiation objective on cost. Complete the form as follows:

(i) List overhead pools and direct-charging service centers (if used) in the same structure as they appear on the contractor's cost proposal and Form CASB-CMF. The structure and allocation base units-of-measure must be compatible on all three displays.

(ii) Extract appropriate contract overhead allocation base data, by year, from the evaluated cost breakdown or prenegotiation cost objective and list against each overhead pool and direct-charging service center.

(iii) Multiply each allocation base by its corresponding cost of money factor to get the facilities capital cost of money estimated to be incurred each year. The sum of these products represents the estimated contract facilities capital cost of money for the year's effort.

(iv) Total contract facilities cost of money is the sum of the yearly amounts.

(v) Since the facilities capital cost of money factors reflect the applicable cost of money rate in Column 1 of Form CASB-CMF, divide the contract cost of money by that same rate to determine the contract facilities capital employed.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(d) *Preaward facilities capital applications.* To establish cost and price objectives, apply the facilities capital cost of money and capital employed as follows:

(1) *Cost of Money.*

(i) *Cost Objective.* Use the imputed facilities capital cost of money, with normal, booked costs, to establish a cost objective or the target cost when structuring an incentive type contract. Do not adjust target costs established at the outset even though actual cost of money rates become available during the period of contract performance.

(ii) *Profit Objective.* When measuring the contractor's effort for the purpose of establishing a prenegotiation profit objective, restrict the cost base to normal, booked costs. Do not include cost of money as part of the cost base.

(2) *Facilities Capital Employed.* Assess and weight the profit objective for risk associated with facilities capital employed in accordance with the profit guidelines at 215.404-71-4.

(e) *Determination.* The following extract from the DD Form 1547 has been annotated to explain the process.

Item	Contractor Facilities Capital Employed	Assigned Value	Amount Employed	Profit Objective
26.	Land	N/A	(2)	N/A
27.	Buildings	N/A	(2)	N/A
28.	Equipment	(1)	(2)	(3)

(1) Select a value from the list in paragraph (f) of this subsection using the evaluation criteria in paragraph (g) of this subsection.

(2) Use the allocated facilities capital attributable to land, buildings, and equipment, as derived in DD Form 1861, Contract Facilities Capital Cost of Money.

(i) In addition to the net book value of facilities capital employed, consider facilities capital that is part of a formal investment plan if the contractor submits reasonable evidence that—

(A) Achievable benefits to DoD will result from the investment; and

(B) The benefits of the investment are included in the forward pricing structure.

(ii) If the value of intracompany transfers has been included in Block 20 at cost (i.e., excluding general and administrative (G&A) expenses and profit), add to the contractor's allocated facilities capital, the allocated facilities capital attributable to the buildings and equipment of those corporate divisions supplying the intracompany transfers. Do not make this addition if the value of intracompany transfers has been included in Block 20 at price (i.e., including G&A expenses and profit).

(3) Multiply (1) by (2).

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(f) *Values: Normal and designated ranges.*

Asset Type	Normal Value	Designated Range
Land	0%	N/A
Buildings	0%	N/A
Equipment	17.5%	10% to 25%

(g) *Evaluation criteria.*

(1) In evaluating facilities capital employed, the contracting officer—

(i) Should relate the usefulness of the facilities capital to the goods or services being acquired under the prospective contract;

(ii) Should analyze the productivity improvements and other anticipated industrial base enhancing benefits resulting from the facilities capital investment, including—

(A) The economic value of the facilities capital, such as physical age, undepreciated value, idleness, and expected contribution to future defense needs; and

(B) The contractor's level of investment in defense related facilities as compared with the portion of the contractor's total business that is derived from DoD; and

(iii) Should consider any contractual provisions that reduce the contractor's risk of investment recovery, such as termination protection clauses and capital investment indemnification.

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value if the facilities capital investment has direct, identifiable, and exceptional benefits. Indicators are—

(A) New investments in state-of-the-art technology that reduce acquisition cost or yield other tangible benefits such as improved product quality or accelerated deliveries; or

(B) Investments in new equipment for research and development applications.

(ii) The contracting officer may assign a value significantly above normal when there are direct and measurable benefits in efficiency and significantly reduced acquisition costs on the effort being priced. Maximum values apply only to those cases where the benefits of the facilities capital investment are substantially above normal.

(3) *Below normal conditions.*

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(i) The contracting officer may assign a lower than normal value if the facilities capital investment has little benefit to DoD. Indicators are—

(A) Allocations of capital apply predominantly to commercial item lines;

(B) Investments are for such things as furniture and fixtures, home or group level administrative offices, corporate aircraft and hangars, gymnasiums; or

(C) Facilities are old or extensively idle.

(ii) The contracting officer may assign a value significantly below normal when a significant portion of defense manufacturing is done in an environment characterized by outdated, inefficient, and labor-intensive capital equipment.

215.404-71-5 Cost efficiency factor.

(a) This special factor provides an incentive for contractors to reduce costs. To the extent that the contractor can demonstrate cost reduction efforts that benefit the pending contract, the contracting officer may increase the prenegotiation profit objective by an amount not to exceed 4 percent of total objective cost (Block 20 of the DD Form 1547) to recognize these efforts (Block 29).

(b) To determine if using this factor is appropriate, the contracting officer shall consider criteria, such as the following, to evaluate the benefit the contractor's cost reduction efforts will have on the pending contract:

(1) The contractor's participation in Single Process Initiative improvements;

(2) Actual cost reductions achieved on prior contracts;

(3) Reduction or elimination of excess or idle facilities;

(4) The contractor's cost reduction initiatives (e.g., competition advocacy programs, technical insertion programs, obsolete parts control programs, spare parts pricing reform, value engineering, outsourcing of functions such as information technology). Metrics developed by the contractor such as fully loaded labor hours (i.e., cost per labor hour, including all direct and indirect costs) or other productivity measures may provide the basis for assessing the effectiveness of the contractor's cost reduction initiatives over time;

(5) The contractor's adoption of process improvements to reduce costs;

(6) Subcontractor cost reduction efforts;

(7) The contractor's effective incorporation of commercial items and processes;

or

(8) The contractor's investment in new facilities when such investments contribute to better asset utilization or improved productivity.

(c) When selecting the percentage to use for this special factor, the contracting officer has maximum flexibility in determining the best way to evaluate the benefit the

Part 215—Contracting By Negotiation

contractor's cost reduction efforts will have on the pending contract. However, the contracting officer shall consider the impact that quantity differences, learning, changes in scope, and economic factors such as inflation and deflation will have on cost reduction.

215.404-72 Modified weighted guidelines method for nonprofit organizations other than FFRDCs.

(a) *Definition.* As used in this subpart, a nonprofit organization is a business entity—

- (1) That operates exclusively for charitable, scientific, or educational purposes;
- (2) Whose earnings do not benefit any private shareholder or individual;
- (3) Whose activities do not involve influencing legislation or political campaigning for any candidate for public office; and
- (4) That is exempted from Federal income taxation under section 501 of the Internal Revenue Code.

(b) For nonprofit organizations that are entities that have been identified by the Secretary of Defense or a Secretary of a Department as receiving sustaining support on a cost-plus-fixed-fee basis from a particular DoD department or agency, compute a fee objective for covered actions using the weighted guidelines method in [215.404-71](#), with the following modifications:

- (1) *Modifications to performance risk (Blocks 21-23 of the DD Form 1547).*
 - (i) If the contracting officer assigns a value from the standard designated range (see [215.404-71-2\(c\)](#)), reduce the fee objective by an amount equal to 1 percent of the costs in Block 20 of the DD Form 1547. Show the net (reduced) amount on the DD Form 1547.
 - (ii) Do not assign a value from the technology incentive designated range.
- (2) *Modifications to contract type risk (Block 24 of the DD Form 1547).* Use a designated range of -1 percent to 0 percent instead of the values in [215.404-71-3](#). There is no normal value.
- (c) For all other nonprofit organizations except FFRDCs, compute a fee objective for covered actions using the weighted guidelines method in [215.404-71](#), modified as described in paragraph (b)(1) of this subsection.

215.404-73 Alternate structured approaches.

- (a) The contracting officer may use an alternate structured approach under [215.404-4\(c\)](#).
- (b) The contracting officer may design the structure of the alternate, but it shall include—

(1) Consideration of the three basic components of profit--performance risk, contract type risk (including working capital), and facilities capital employed. However, the contracting officer is not required to complete Blocks 21 through 30 of the DD Form 1547.

(2) Offset for facilities capital cost of money.

(i) The contracting officer shall reduce the overall prenegotiation profit objective by the amount of facilities capital cost of money under Cost Accounting Standard (CAS) 414, Cost of Money as an Element of the Cost of Facilities Capital (48 CFR 9904.414). Cost of money under CAS 417, Cost of Money as an Element of the Cost of Capital Assets Under Construction (48 CFR 9904.417), should not be used to reduce the overall prenegotiation profit objective. The profit amount in the negotiation summary of the DD Form 1547 must be net of the offset.

(ii) This adjustment is needed for the following reason: The values of the profit factors used in the weighted guidelines method were adjusted to recognize the shift in facilities capital cost of money from an element of profit to an element of contract cost (see FAR 31.205-10) and reductions were made directly to the profit factors for performance risk. In order to ensure that this policy is applied to all DoD contracts that allow facilities capital cost of money, similar adjustments shall be made to contracts that use alternate structured approaches.

215.404-74 Fee requirements for cost-plus-award-fee contracts.

In developing a fee objective for cost-plus-award-fee contracts, the contracting officer shall—

- (a) Follow the guidance in FAR 16.405-2 and [216.405-2](#);
- (b) Not use the weighted guidelines method or alternate structured approach;
- (c) Apply the offset policy in [215.404-73\(b\)\(2\)](#) for facilities capital cost of money, i.e., reduce the base fee by the amount of facilities capital cost of money; and
- (d) Not complete a DD Form 1547.

215.404-75 Fee requirements for FFRDCs.

For nonprofit organizations that are FFRDCs, the contracting officer—

(a) Should consider whether any fee is appropriate. Considerations shall include the FFRDC's—

- (1) Proportion of retained earnings (as established under generally accepted accounting methods) that relates to DoD contracted effort;
- (2) Facilities capital acquisition plans;
- (3) Working capital funding as assessed on operating cycle cash needs; and
- (4) Provision for funding unreimbursed costs deemed ordinary and necessary to the FFRDC.

(b) Shall, when a fee is considered appropriate, establish the fee objective in accordance with FFRDC fee policies in the DoD FFRDC Management Plan.

(c) Shall not use the weighted guidelines method or an alternate structured approach.

215.406-1 Prenegotiation objectives.

Follow the procedures at [PGI 215.406-1](#) for establishing prenegotiation objectives.

215.406-3 Documenting the negotiation.

Follow the procedures at [PGI 215.406-3](#) for documenting the negotiation.

215.407 Special cost or pricing areas.

215.407-1 Defective certified cost or pricing data.

(c)(i) When a contractor voluntarily discloses defective pricing after contract award, the contracting officer shall discuss the disclosure with the Defense Contract Audit Agency (DCAA). This discussion will assist in the contracting officer determining the involvement of DCAA, which could be a limited-scope audit (e.g., limited to the affected cost elements of the defective pricing disclosure), a full-scope audit, or technical assistance as appropriate for the circumstances (e.g., nature or dollar amount of the defective pricing disclosure). At a minimum, the contracting officer shall discuss with DCAA the following:

(A) Completeness of the contractor's voluntary disclosure on the affected contract.

(B) Accuracy of the contractor's cost impact calculation for the affected contract.

(C) Potential impact on existing contracts, task or deliver orders, or other proposals the contractor has submitted to the Government.

(ii) Voluntary disclosure of defective pricing is not a voluntary refund as defined in 242.7100 and does not waive the Government entitlement to the recovery of any overpayment plus interest on the overpayments in accordance with FAR 15.407-1(b)(7).

(iii) Voluntary disclosure of defective pricing does not waive the Government's rights to pursue defective pricing claims on the affected contract or any other Government contract.

215.407-2 Make-or-buy programs.

(a) *General.* See PGI for guidance on factors to consider when deciding whether to request a make-or-buy plan and for factors to consider when evaluating make-or-buy plan submissions.

(e) *Program requirements.*

(1) *Items and work included.* The minimum dollar amount is \$1.5 million.

215.407-3 Forward pricing rate agreements.

- (b)(i) Use forward pricing rate agreement (FPRA) rates when such rates are available, unless waived on a case-by-case basis by the head of the contracting activity.
- (ii) Advise the ACO of each case waived.
- (iii) Contact the ACO for questions on FPRAs or recommended rates.

215.407-4 Should-cost review.

(a) *General.* See [PGI 215.407-4](#) for guidance on determining whether to perform a program or overhead should-cost review.

(b) *Program should-cost review.* Major weapon system should-cost program reviews shall be conducted in a manner that is transparent, objective, and provides for the efficiency of the DoD systems acquisition process (section 837 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91)).

(i) Major weapon system should-cost reviews may include the following features:

(A) A thorough review of each contributing element of the program cost and the justification for each cost.

(B) An analysis of non-value added overhead and unnecessary reporting requirements.

(C) Benchmarking against similar DoD programs, similar commercial programs (where appropriate), and other programs by the same contractor at the same facility.

(D) An analysis of supply chain management to encourage competition and incentive cost performance at lower tiers.

(E) A review of how to restructure the program (Government and contractor) team in a streamlined manner, if necessary.

(F) Identification of opportunities to break out Government-furnished equipment versus prime contractor-furnished materials.

(G) Identification of items or services contracted through third parties that result in unnecessary pass-through costs.

(H) Evaluation of ability to use integrated developmental and operational testing and modeling and simulation to reduce overall costs.

(I) Identification of alternative technology and materials to reduce developmental or lifecycle costs for a program.

(J) Identification and prioritization of cost savings opportunities.

(K) Establishment of measurable targets and ongoing tracking systems.

(ii) The should-cost review shall provide for sufficient analysis while minimizing the impact on program schedule by engaging stakeholders early, relying on information already available before requesting additional data, and establishing a team with the relevant expertise early.

(iii) The should-cost review team shall be comprised of members, including third-party experts if necessary, with the training, skills, and experience in analysis of cost elements, production or sustainment processes, and technologies relevant to the program under review. The review team may include members from the Defense Contract Management Agency, the department or agency's cost analysis center, and appropriate functional organizations, as necessary.

(iv) The should-cost review team shall establish a process for communicating and collaborating with the contractor throughout the should-cost review, including notification to the contractor regarding which elements of the contractor's operations will be reviewed and what information will be necessary to perform the review, as soon as practicable, both prior to and during the review.

(v) The should-cost review team report shall ensure, to the maximum extent practicable, review of current, accurate, and complete data, and shall identify cost savings opportunities associated with specific engineering or business changes that can be quantified and tracked.

215.407-5 Estimating systems.

215.407-5-70 Disclosure, maintenance, and review requirements.

(a) *Definitions.*

(1) "Acceptable estimating system" is defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(2) "Contractor" means a business unit as defined in FAR 2.101.

(3) "Estimating system" is as defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(4) "Significant deficiency" is defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(b) *Applicability.*

(1) DoD policy is that all contractors have acceptable estimating systems that consistently produce well-supported proposals that are acceptable as a basis for negotiation of fair and reasonable prices.

(2) A large business contractor is subject to estimating system disclosure, maintenance, and review requirements if—

(i) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$50 million or more for which certified cost or pricing were required; or

(ii) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$10 million or more (but less than \$50 million) for which certified cost or pricing data were required and the contracting officer, with concurrence or at the request of the ACO, determines it to be in the best interest of the Government (e.g., significant estimating problems are believed to exist or the contractor's sales are predominantly Government).

(c) *Policy.*

(1) The contracting officer shall—

(i) Through use of the clause at [252.215-7002](#), Cost Estimating System Requirements, apply the disclosure, maintenance, and review requirements to large business contractors meeting the criteria in paragraph (b)(2)(i) of this section;

(ii) Consider whether to apply the disclosure, maintenance, and review requirements to large business contractors under paragraph (b)(2)(ii) of this section; and

(iii) Not apply the disclosure, maintenance, and review requirements to other than large business contractors.

(2) The cognizant contracting officer, in consultation with the auditor, for contractors subject to paragraph (b)(2) of this section, shall—

(i) Determine the acceptability of the disclosure and approve or disapprove the system; and

(ii) Pursue correction of any deficiencies.

(3) The auditor conducts estimating system reviews.

(4) An acceptable system shall provide for the use of appropriate source data, utilize sound estimating techniques and good judgment, maintain a consistent approach, and adhere to established policies and procedures.

(5) In evaluating the acceptability of a contractor's estimating system, the contracting officer, in consultation with the auditor, shall determine whether the contractor's estimating system complies with the system criteria for an acceptable estimating system as prescribed in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(d) *Disposition of findings—*

(1) *Reporting of findings.* The auditor shall document findings and recommendations in a report to the contracting officer. If the auditor identifies any significant estimating system deficiencies, the report shall describe the deficiencies in sufficient detail to allow the contracting officer to understand the deficiencies.

(2) *Initial determination.* (i) The contracting officer shall review all findings and recommendations and, if there are no significant deficiencies, shall promptly notify the contractor, in writing, that the contractor's estimating system is acceptable and approved; or

(ii) If the contracting officer finds that there are one or more significant deficiencies (as defined in the clause at [252.215-7002](#), Cost Estimating System Requirements) due to the contractor's failure to meet one or more of the estimating system criteria in the clause at [252.215-7002](#), the contracting officer shall—

(A) Promptly make an initial written determination on any significant deficiencies and notify the contractor, in writing, providing a description of each significant deficiency in sufficient detail to allow the contractor to understand the deficiency;

(B) Request the contractor to respond, in writing, to the initial determination within 30 days; and

(C) Promptly evaluate the contractor's responses to the initial determination, in consultation with the auditor or functional specialist, and make a final determination.

(3) *Final determination.* (i) The contracting officer shall make a final determination and notify the contractor, in writing, that—

(A) The contractor's estimating system is acceptable and approved, and no significant deficiencies remain, or

(B) Significant deficiencies remain. The notice shall identify any remaining significant deficiencies, and indicate the adequacy of any proposed or completed corrective action. The contracting officer shall—

(1) Request that the contractor, within 45 days of receipt of the final determination, either correct the deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the deficiencies;

(2) Disapprove the system in accordance with the clause at [252.215-7002](#), Cost Estimating System Requirements; and

(3) Withhold payments in accordance with the clause at [252.242-7005](#), Contractor Business Systems, if the clause is included in the contract.

(ii) Follow the procedures relating to monitoring a contractor's corrective action and the correction of significant deficiencies in [PGI 215.407-5-70\(e\)](#).

(e) *System approval.* The contracting officer shall promptly approve a previously disapproved estimating system and notify the contractor when the contracting officer determines that there are no remaining significant deficiencies.

(f) *Contracting officer notifications.* The cognizant contracting officer shall promptly distribute copies of a determination to approve a system, disapprove a system and withhold payments, or approve a previously disapproved system and release withheld

payments, to the auditor; payment office; affected contracting officers at the buying activities; and cognizant contracting officers in contract administration activities.

215.408 Solicitation provisions and contract clauses.

(1) Use the clause at [252.215-7002](#), Cost Estimating System Requirements, in all solicitations and contracts to be awarded on the basis of certified cost or pricing data.

(2) When contracting with the Canadian Commercial Corporation—

(i)(A) Use the provision at [252.215-7003](#), Requirement for Submission of Data Other Than Certified Cost or Pricing Data—Canadian Commercial Corporation—

(1) In lieu of DFARS [252.215-7010](#), Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, in a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation that is—

(i) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(ii) Fixed-price, if the contract value is expected to exceed \$500 million; or

(2) In lieu of DFARS [252.215-7010](#), in a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation that does not meet the thresholds specified in paragraph (2)(i)(A)(1), if approval is obtained as required at [225.870-4\(c\)\(2\)\(ii\)](#); and

(B) Do not use [252.225-7003](#) in lieu of DFARS [252.215-7010](#) in competitive acquisitions; and

(ii)(A) Use the clause at [252.215-7004](#), Requirement for Submission of Data Other Than Certified Cost or Pricing Data—Modifications—Canadian Commercial Corporation—

(1) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition, from the Canadian Commercial Corporation and resultant contract that is—

(i) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(ii) Fixed-price, if the contract value is expected to exceed \$500 million;

(2) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation and resultant contract that does not meet the thresholds specified in paragraph (2)(ii)(A)(1), if approval is obtained as required at [225.870-4\(c\)\(2\)\(ii\)](#); or

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(3)(i) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a competitive acquisition that includes FAR 52.215-21, Requirement for Data Other Than Certified Cost or Pricing Data—Modifications, or that meets the thresholds specified in paragraph (2)(ii)(A) (I).

(ii) The contracting officer shall then select the appropriate clause to include in the contract (52.215-21 only if award is not to the Canadian Commercial Corporation; or [252.215-7004](#) if award is to the Canadian Commercial Corporation and necessary approval is obtained in accordance with [225.870-4\(c\)\(2\)\(ii\)](#)); and

(B) The contracting officer may specify a higher threshold in paragraph (b) of the clause [252.215-7004](#).

(3) Use the provision at [252.215-7008](#), Only One Offer, in competitive solicitations that exceed the simplified acquisition threshold, including solicitations using FAR part 12 procedures for the acquisition of commercial items.

(4) When the solicitation requires the submission of certified cost or pricing data, the contracting officer should include [252.215-7009](#), Proposal Adequacy Checklist, in the solicitation to facilitate submission of a thorough, accurate, and complete proposal.

(5) When reasonably certain that the submission of certified cost or pricing data or data other than certified cost or pricing data will be required or when using the provision at [252.215-7008](#)—

(i) Use the basic or alternate of the provision at [252.215-7010](#), Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, in lieu of the provision at FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items.

(A) Use the basic provision when submission of certified cost or pricing data is required to be in the FAR Table 15-2 format, or if it is anticipated, at the time of solicitation, that the submission of certified cost or pricing data may not be required.

(B) Use the alternate I provision to specify a format for certified cost or pricing data other than the format required by FAR Table 15-2;

(ii) Use the provision at [252.215-7011](#), Requirements for Submission of Proposals to the Administrative Contracting Officer and Contract Auditor, when using the basic or alternate of the provision at [252.215-7010](#) and copies of the proposal are to be sent to the ACO and contract auditor; and

(iii) Use the provision at [252.215-7012](#), Requirements for Submission of Proposals via Electronic Media, when using the basic or alternate of the provision at [252.215-7010](#) and submission via electronic media is required.

(6) Use the provision at [252.215-7013](#), Supplies and Services Provided by Nontraditional Defense Contractors, in all solicitations.

(7) Use the clause at [252.215-7014](#), Exception from Certified Cost or Pricing Data Requirements for Foreign Military Sales Indirect Offsets, in solicitations and contracts that contain the provision at [252.215-7010](#), Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, when it is reasonably certain that—

(i) The contract is expected to include costs associated with an indirect offset;
and

(ii) The submission of certified cost or pricing data or data other than certified cost or pricing data will be required.

(8) Use the clause at [252.215-7015](#), Program Should-Cost Review, in all solicitations and contracts for the development or production of a major weapon system, as defined in [234.7001](#).

215.470 Estimated data prices.

(a) DoD requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product, or engineering value.

(b) When data are required to be delivered under a contract, include DD Form 1423, Contract Data Requirements List, in the solicitation. See [PGI 215.470\(b\)](#) for guidance on the use of DD Form 1423.

(c) The contracting officer shall ensure that the contract does not include a requirement for data that the contractor has delivered or is obligated to deliver to the Government under another contract or subcontract, and that the successful offeror identifies any such data required by the solicitation. However, where duplicate data are desired, the contract price shall include the costs of duplication, but not of preparation, of such data.

**SUBPART 215.5—PREAWARD, AWARD, AND POSTAWARD
NOTIFICATIONS, PROTESTS, AND MISTAKES**

(Revised February 15, 2019)

If the Government exercises the authority provided in [239.7305](#)(d), the notifications to unsuccessful offerors, either preaward or postaward, shall not reveal any information that is determined to be withheld from disclosure in accordance with 10 U.S.C. 2339a (see subpart [239.73](#)).

215.506 Postaward debriefing of offerors.

(e) If the Government exercises the authority provided in [239.7305](#)(d), the debriefing shall not reveal any information that is determined to be withheld from disclosure in accordance with 10 U.S.C. 2339a (see subpart [239.73](#)).

216.203-4 Contract clauses.

(1) Generally, use the clauses at FAR 52.216-2, Economic Price Adjustment--Standard Supplies, FAR 52.216-3, Economic Price Adjustment--Semistandard Supplies, and FAR 52.216-4, Economic Price Adjustment--Labor and Material, only when—

- (i) The total contract price exceeds the simplified acquisition threshold; and
- (ii) Delivery or performance will not be completed within 6 months after contract award.

(2) Follow the procedures at [PGI 216.203-4](#) when using an economic price adjustment clause based on cost indexes of labor or material.

216.203-4.70 Additional provisions and clauses.

(a) *Price adjustment for basic steel, aluminum, brass, bronze, or copper mill products.*

(1) (i) The price adjustment clause at [252.216-7000](#), Economic Price Adjustment--Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products, may be used in fixed-price supply solicitations and contracts for basic steel, aluminum, brass, bronze, or copper mill products, such as sheets, plates, and bars, when an established catalog or market price exists for the particular product being acquired.

(ii) The 10 percent figure in paragraph (d)(1) of the clause shall not be exceeded unless approval is obtained at a level above the contracting officer.

(2) Use the price adjustment provision at [252.216-7007](#), Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products—Representation, in solicitations that include the clause at [252.216-7000](#), Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products.

(b) *Price adjustment for nonstandard steel items.*

(1) The price adjustment clause at [252.216-7001](#), Economic Price Adjustment--Nonstandard Steel Items, may be used in fixed-price supply contracts when—

- (i) The contractor is a steel producer and actually manufactures the standard steel mill item referred to in the “base steel index” definition of the clause; and
- (ii) The items being acquired are nonstandard steel items made wholly or in part of standard steel mill items.

(2) When this clause is included in invitations for bids, omit Note 6 of the clause and all references to Note 6.

Defense Federal Acquisition Regulation Supplement

Part 216—Types of Contracts

(3) Solicitations shall instruct offerors to complete all blanks in accordance with the applicable notes.

(4) When the clause is to provide for adjustment on a basis other than “established price” (see Note 6 of the clause), that price must be verified.

(5) The 10 percent figure in paragraph (e)(4) of the clause shall not be exceeded unless approval is obtained at a level above the contracting officer.

(c) *Price adjustment for wage rates or material prices controlled by a foreign government.*

(1)(i) The price adjustment clause at [252.216-7003](#), Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government, may be used in fixed-price supply and service solicitations and contracts when—

(A) The contract is to be performed wholly or in part in a foreign country; and

(B) A foreign government controls wage rates or material prices and may, during contract performance, impose a mandatory change in wages or prices of material.

(ii) Verify the base wage rates and material prices prior to contract award and prior to making any adjustment in the contract price.

(2) Use the provision at [252.216-7008](#), Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government—Representation, in solicitations that include the clause at [252.216-7003](#), Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.216-7008](#) in the solicitation.

SUBPART 216.1—SELECTING CONTRACT TYPES

(Revised November 27, 2019)

216.102 Policies.

(1) In accordance with section 829 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328), the contracting officer shall first consider the use of fixed-price contracts, including fixed-price incentive contracts, in the determination of contract type. See [216.301-3](#)(2) for approval requirements for certain cost-reimbursement contracts.

(2) In accordance with section 811 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239), use of any cost-reimbursement line item for the acquisition of production of major defense acquisition programs is prohibited, unless the exception at [234.004](#)(2)(ii) applies.

(3) See [225.7301-1](#) for the requirement to use fixed-price contracts for acquisitions for foreign military sales.

216.104 Factors in selecting contract type.

Contracting officers shall follow the principles and procedures in Director, Defense Procurement and Acquisition Policy memorandum dated April 1, 2016, entitled “[Guidance on Using Incentive and Other Contract Types](#),” when selecting and negotiating the most appropriate contract type for a given procurement. See [PGI 216.104](#).

216.104-70 Research and development.

Follow the procedures at [PGI 216.104-70](#) for selecting the appropriate research and development contract type, and see [235.006](#)(b) for additional approval requirements.

SUBPART 216.3—COST-REIMBURSEMENT CONTRACTS

(Revised November 27, 2019)

216.301-3 Limitations.

(1) For contracts in connection with a military construction project or a military family housing project, contracting officers shall not use cost-plus-fixed-fee, cost-plus-award-fee, or cost-plus-incentive-fee contract types (10 U.S.C. 2306(c)). This applies notwithstanding a declaration of war or the declaration by the President of a national emergency under section 201 of the National Emergencies Act (50 U.S.C. 1621) that includes the use of the Armed Forces.

(2) Except as provided in [235.006\(b\)](#), in accordance with section 829 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328), approval of the head of the contracting activity is required prior to awarding cost-reimbursement contracts in excess of \$25 million.

216.306 Cost-plus-fixed-fee contracts.

(c) *Limitations.* For contracts in connection with a military construction project or military family housing project, see the prohibition at [216.301-3](#).

(i) Except as provided in paragraph (c)(ii) of this section, annual military construction appropriations acts prohibit the use of cost-plus-fixed-fee contracts that—

- (A) Are funded by a military construction appropriations act;
- (B) Are estimated to exceed \$25,000; and
- (C) Will be performed within the United States, except Alaska.

(ii) The prohibition in paragraph (c)(i) of this section does not apply to contracts specifically approved in writing, setting forth the reasons therefor, in accordance with the following:

(A) The Secretaries of the military departments are authorized to approve such contracts that are for environmental work only, provided the environmental work is not classified as construction, as defined by 10 U.S.C. 2801.

(B) The Secretary of Defense or designee must approve such contracts that are not for environmental work only or are for environmental work classified as construction.

216.307 Contract clauses.

(a) As required by section 827 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239), use the clause at [252.216-7009](#), Allowability of Costs Incurred in Connection With a Whistleblower Proceeding—

(1) In task orders entered pursuant to contracts awarded before September 30, 2013, that include the clause at FAR 52.216-7, Allowable Cost and Payment;

Defense Federal Acquisition Regulation Supplement

Part 216—Types of Contracts

and

(2) In contracts awarded before September 30, 2013, that—

(i) Include the clause at FAR 52.216-7, Allowable Cost and Payment;
and

(ii) Are modified to include the clause at DFARS [252.203-7002](#), Requirement to Inform Employees of Whistleblower Rights, dated September 2013 or later.

SUBPART 216.4—INCENTIVE CONTRACTS

(Revised November 27, 2019)

216.401 General.

(c) See [PGI 216.401](#)(c) for information on the Defense Acquisition University Award and Incentive Fees Community of Practice.

(d)(i) Except as provided in paragraph (d)(ii), the determination and findings justifying that the use of an incentive- or award-fee contract is in the best interest of the Government, may be signed by the head of contracting activity or a designee—

(A) No lower than one level below the head of the contracting activity for award fee contracts; or

(B) One level above the contracting officer for incentive fee contracts.

(ii) For cost-reimbursement incentive- or award fee contracts valued in excess of \$25 million, the determination and findings justifying that the use of this type of contract is in the best interest of the Government shall be signed by the head of the contracting activity. See DFARS [216.301-3](#)(2).

(e) Award-fee plans required in FAR 16.401(e) shall be incorporated into all award-fee type contracts. Follow the procedures at [PGI 216.401](#)(e) when planning to award an award-fee contract.

216.401-71 Objective criteria.

(1) Contracting officers shall use objective criteria to the maximum extent possible to measure contract performance. Objective criteria are associated with cost-plus-incentive-fee and fixed-price-incentive contracts.

(2) When objective criteria exist but the contracting officer determines that it is in the best interest of the Government also to incentivize subjective elements of performance, the most appropriate contract type is a multiple-incentive contract containing both objective incentives and subjective award-fee criteria (i.e., cost-plus-incentive-fee/award-fee or fixed-price-incentive/award-fee).

(3) See [PGI 216.401](#)(e) for guidance on the use of award-fee contracts.

216.402 Application of predetermined, formula-type incentives.

216.402-2 Technical performance incentives.

(1) See [PGI 216.402-2](#) for guidance on establishing performance incentives.

(2) Contracting officers shall ensure requirements about the payment of incentive fees or the imposition of penalties are included in the solicitation for a contract for the engineering and manufacturing development or production of a weapon system, including embedded software, if the program manager or

Part 216—Types of Contracts

comparable requiring activity official exercising program manager responsibilities includes—

(i) Provisions for the payment of incentive fees to the contractor, based on achievement of design specification requirements for reliability and maintainability of weapons systems under the contract; or

(ii) The imposition of penalties to be paid by the contractor to the Government for failure to achieve such design specification requirements (10 U.S.C. 2443).

216.403 Fixed-price incentive contracts.

216.403-1 Fixed-price incentive (firm target) contracts.

(b) *Application.*

(1) The contracting officer shall give particular consideration to the use of fixed-price incentive (firm target) contracts, especially for acquisitions moving from development to production.

(2) The contracting officer shall pay particular attention to share lines and ceiling prices for fixed-price incentive (firm target) contracts, with a 120 percent ceiling and a 50/50 share ratio as the point of departure for establishing the incentive arrangement.

(3) See [PGI 216.403-1](#) for guidance on the use of fixed-price incentive (firm target) contracts.

216.403-2 Fixed-price incentive (successive targets) contracts.

See [PGI 216.403-2](#) for guidance on the use of fixed-price incentive (successive targets) contracts.

216.405 Cost-reimbursement incentive contracts.

216.405-1 Cost-plus-incentive-fee contracts.

See [PGI 216.405-1](#) for guidance on the use of cost-plus-incentive-fee contracts.

216.405-2 Cost-plus-award-fee contracts.

(1) *Award-fee pool.* The award-fee pool is the total available award fee for each evaluation period for the life of the contract. The contracting officer shall perform an analysis of appropriate fee distribution to ensure at least 40 per cent of the award fee is available for the final evaluation so that the award fee is appropriately distributed over all evaluation periods to incentivize the contractor throughout performance of the contract. The percentage of award fee available for the final evaluation may be set below 40 per cent if the contracting officer determines that a lower percentage is appropriate, and this determination is approved by the head of the contracting activity (HCA). The HCA may not delegate this approval authority.

(2) *Award-fee evaluation and payments.* Award-fee payments other than payments resulting from the evaluation at the end of an award-fee period are prohibited. (This prohibition does not apply to base-fee payments.) The fee-determining official's rating for award-fee evaluations will be provided to the contractor within 45 calendar days of the end of the period being evaluated. The final award-fee payment will be consistent with the fee-determining official's final evaluation of the contractor's overall performance against the cost, schedule, and performance outcomes specified in the award-fee plan.

(3) *Limitations.*

(i) The cost-plus-award-fee contract shall not be used—

(A) To avoid—

(1) Establishing cost-plus-fixed-fee contracts when the criteria for cost-plus-fixed-fee contracts apply; or

(2) Developing objective targets so a cost-plus-incentive-fee contract can be used; or

(B) For either engineering development or operational system development acquisitions that have specifications suitable for simultaneous research and development and production, except a cost-plus-award-fee contract may be used for individual engineering development or operational system development acquisitions ancillary to the development of a major weapon system or equipment, where—

(1) It is more advantageous; and

(2) The purpose of the acquisition is clearly to determine or solve specific problems associated with the major weapon system or equipment.

(ii) Do not apply the weighted guidelines method to cost-plus-award-fee contracts for either the base (fixed) fee or the award fee.

(iii) The base fee shall not exceed three percent of the estimated cost of the contract exclusive of the fee.

(4) See [PGI 216.405-2](#) for guidance on the use of cost-plus-award-fee contracts.

216.405-2-70 Award fee reduction or denial for jeopardizing the health or safety of Government personnel.

(a) *Definitions.*

“Covered incident” and “serious bodily injury,” as used in this section, are defined in the clause at [252.216-7004](#), Award Fee Reduction or Denial for Jeopardizing the Health or Safety of Government Personnel.

(b) The contracting officer shall include in the evaluation criteria of any award-fee plan, a review of contractor and subcontractor actions that jeopardized the health or

Part 216—Types of Contracts

safety of Government personnel, through gross negligence or reckless disregard for the safety of such personnel, as determined through—

The contracting officer's evaluation also shall consider recovering all or part of award fees previously paid for such period.

216.405-2-71 Award fee reduction or denial for failure to comply with requirements relating to performance of private security functions.

(a) In accordance with section 862 of the National Defense Authorization Act for Fiscal Year 2008, as amended, the contracting officer shall include in any award-fee plan a requirement to review contractor compliance with, or violation of, applicable requirements of the contract with regard to the performance of private security functions in an area of contingency operations, complex contingency operations, or other military operations or exercises that are designated by the combatant commander (see [225.370](#)).

(b) In evaluating the contractor's performance under a contract that includes the clause at [252.225-7039](#), Defense Contractors Performing Private Security Functions Outside the United States, the contracting officer shall consider reducing or denying award fees for a period if the contractor fails to comply with the requirements of the clause during such period. SUBPART 216.5—INDEFINITE-DELIVERY CONTRACTS

(Revised October 1, 2020)

216.501-2-70 General.

(a)(i) For items with a shelf-life of less than six months, consider the use of indefinite-delivery type contracts with orders to be placed either—

(A) Directly by the users; or

(B) By central purchasing offices with deliveries direct to users.

(ii) Whenever an indefinite-delivery contract is issued, the issuing office must furnish all ordering offices sufficient information for the ordering office to complete its contract reporting responsibilities under 204.670-2. This data must be furnished to the ordering activity in sufficient time for the activity to prepare its report for the action within three working days of the order.

(b) See [217.204](#)(e)(i) for limitations on the period for task order or delivery order contracts awarded by DoD pursuant to 10 U.S.C. 2304a.

216.504 Indefinite-quantity contracts.

(c) *Multiple award preference—*

(1) *Planning the acquisition.*

(ii)(D)(1) The senior procurement executive has the authority to make the determination authorized in FAR 16.504(c)(1)(ii)(D)(1).

(i) In accordance with section 816 of the National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232), when making the determination at FAR 16.504(c)(1)(ii)(D)(1)(i), the senior procurement executive shall determine that the task or delivery orders expected under the contract are so integrally related that only a single source can “efficiently perform the work,” instead of “reasonably perform the work” as required by the FAR.

(2) The congressional notification requirement at FAR 16.504(c)(1)(ii)(D)(2) does not apply to DoD.

(3)(i) In accordance with section 816 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), the determination at FAR 16.504(c)(1)(ii)(D)(1) is not required if a justification has been executed, in accordance with FAR 6.3 and subpart 206.3.

216.505 Ordering.

(1) Departments and agencies shall comply with the review, approval, and reporting requirements established in accordance with subpart [217.7](#) when placing orders under non-DoD contracts in amounts exceeding the simplified acquisition threshold.

Part 216—Types of Contracts

(2) Orders placed under indefinite-delivery contracts may be issued on DD Form 1155, Order for Supplies or Services.

(b)(2) *Exceptions to the fair opportunity process.* For an order exceeding the simplified acquisition threshold, that is a follow-on to an order previously issued for the same supply or service based on a justification for an exception to fair opportunity citing the authority at FAR 16.505(b)(2)(i)(B) or (C), follow the procedures at [PGI 216.505\(b\)\(2\)](#).

216.505-70 Orders under multiple award contracts.

(a) If only one offer is received in response to an order exceeding the simplified acquisition threshold that is placed on a competitive basis, the contracting officer shall follow the procedures at [215.371](#).

(b) See [PGI 216.505-70](#) for guidance regarding minimum labor category qualifications for orders issued under multiple-award services contracts.

216.506 Solicitation provisions and contract clauses.

(S-70) Use the provisions at [252.215-7007](#), Notice of Intent to Resolicit, and [252.215-7008](#), Only One Offer, as prescribed at [215.371-6](#) and [215.408\(3\)](#), respectively.

**SUBPART 216.6—TIME-AND-MATERIALS, LABOR-HOUR, AND LETTER
CONTRACTS**

(Revised May 30, 2018)

216.601 Time-and-materials contracts.

(d) *Limitations.*

(i)(A) *Approval of determination and findings for time-and-materials or labor-hour contracts.*

(1) *Base period plus any option periods is three years or less.*

(i) For contracts (including indefinite-delivery contracts) and orders in which the portion of the requirement performed on a time-and-materials or labor-hour basis exceeds \$1 million, the approval authority for the determination and findings shall be the senior contracting official within the contracting activity. This authority may not be delegated.

(ii) For contracts (including indefinite-delivery contracts) and orders in which the portion of the requirement performed on a time-and-materials or labor-hour basis is less than or equal to \$1 million, the determination and findings shall be approved one level above the contracting officer.

(2) *Base period plus any option periods exceeds three years.* The authority of the head of the contracting activity to approve the determination and findings may not be delegated.

(3) *Exception.* The approval requirements in paragraphs (d)(i)(A)(1) and (2) of this section do not apply to contracts that, as determined by the head of the contracting activity—

(i) Support contingency or humanitarian or peacekeeping operations; or

(ii) Facilitate defense against or recovery from conventional, cyber, nuclear, biological, chemical or radiological attack;

(iii) Facilitate the provision of international disaster assistance;
Or

(iv) Support response to an emergency or major disaster.

(B) *Content of determination and findings.* The determination and findings shall contain sufficient facts and rationale to justify that no other contract type is suitable. At a minimum, the determination and findings shall—

(1) Include a description of the market research conducted;

Part 216—Types of Contracts

(2) Establish that it is not possible at the time of placing the contract or order to accurately estimate the extent or duration of the work or to anticipate costs with any reasonable degree of certainty;

(3) Address why a cost-plus-fixed-fee term or other cost-reimbursement, incentive, or fixed-price contract or order is not appropriate; for contracts (including indefinite-delivery contracts) and orders for noncommercial items awarded to contractors with adequate accounting systems, a cost-plus-fixed-fee term contract type shall be preferred over a time-and-materials or labor-hour contract type;

(4) Establish that the requirement has been structured to minimize the use of time-and-materials and labor-hour requirements (e.g., limiting the value or length of the time-and-materials or labor-hour portion of the contract or order; establishing fixed prices for portions of the requirement); and

(5) Describe the actions planned to minimize the use of time-and-materials and labor-hour contracts on future acquisitions for the same requirements.

(C) *Indefinite-delivery contracts.* For indefinite-delivery contracts, the contracting officer shall structure contracts that authorize time-and-materials orders to also authorize orders on a cost-reimbursement, incentive, or fixed-price basis, to the maximum extent practicable.

(e) *Solicitation provisions.* Use the provision at FAR 52.216-29, Time-and-Materials/Labor-Hour Proposal Requirements – Non-Commercial Item Acquisition with Adequate Price Competition, with [252.216-7002](#), Alternate A, in solicitations contemplating the use of a time-and-materials or labor-hour contract type for non-commercial items if the price is expected to be based on adequate competition.

216.603 Letter contracts.

216.603-2 Application.

(c)(3) In accordance with 10 U.S.C. 2326, establish definitization schedules for letter contracts following the requirements at [217.7404-3\(a\)](#) instead of the requirements at FAR 16.603-2(c)(3).

216.603-3 Limitations.

See Subpart [217.74](#) for additional limitations on the use of letter contracts.

216.603-4 Contract clauses.

SUBPART 217.1—MULTIYEAR CONTRACTING
(Revised October 1, 2020)

217.103 Definitions.

As used in this subpart—

“Advance procurement” means an exception to the full funding policy that allows acquisition of long lead time items (advance long lead acquisition) or economic order quantities (EOQ) of items (advance EOQ acquisition) in a fiscal year in advance of that in which the related end item is to be acquired. Advance procurements may include materials, parts, components, and effort that must be funded in advance to maintain a planned production schedule.

“Congressional defense committees,” means—

- (1) The Committee on Armed Services of the Senate;
- (2) The Committee on Appropriations of the Senate;
- (3) The Subcommittee on Defense of the Committee on Appropriations of the Senate;
- (4) The Committee on Armed Services of the House of Representatives ;
- (5) The Committee on Appropriations of the House of Representatives; and
- (6) The Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

“Military installation” means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department or, in the case of an activity in a foreign country, under the operational control of the Secretary of a military department or the Secretary of Defense (10 U.S.C. 2801(c)(4)).

217.170 General.

(a) Before awarding a multiyear contract, the head of the agency must compare the cost of that contract to the cost of an annual procurement approach, using a present value analysis. Do not award the multiyear contract unless the analysis shows that the multiyear contract will result in the lower cost (10 U.S.C. 2306b(l)(7); section 8008(a) of Pub. L. 105-56, and similar sections in subsequent DoD appropriations acts).

(b) The head of the agency must provide written notice to the congressional defense committees at least 30 days before termination of any multiyear contract (section 8010 of Division C, Title VIII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235), and similar sections in subsequent DoD appropriations acts).

(c) Every multiyear contract must comply with FAR 17.104(c), unless an

Defense Federal Acquisition Regulation Supplement

Part 217—Special Contracting Methods

exception is approved through the budget process in coordination with the cognizant comptroller.

(d)(1) DoD must provide notification to the congressional defense committees at least 30 days before entering into a multiyear contract for certain procurements, including those expected to—

(i) Employ an unfunded contingent liability in excess of \$20 million (see 10 U.S.C. 2306b(l)(1)(B)(i)(II), 10 U.S.C. 2306c(d)(1), and section 8008(a) of Pub. L. 105-56 and similar sections in subsequent DoD appropriations acts);

(ii) Employ economic order quantity procurement in excess of \$20 million in any one year of the contract (see 10 U.S.C. 2306b(l)(1)(B)(i)(I) and section 8008(a) of Pub. L. 105-56 and similar sections in subsequent DoD appropriations acts);

(iii) Involve a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20 million in any one year (see 10 U.S.C. 2306b(l)(1)(B)(ii) and section 8008(a) of Pub. L. 105-56 and similar sections in subsequent DoD appropriations acts); or

(iv) Include a cancellation ceiling in excess of \$150 million (see 10 U.S.C. 2306c(d)(4) and 10 U.S.C. 2306b(g)(1).

(2) A DoD component must submit a request for authority to enter into multiyear contracts described in paragraphs (d)(1)(i) through (iv) of this section as part of the component's budget submission for the fiscal year in which the multiyear contract will be initiated. DoD will include the request, for each candidate it supports, as part of the President's Budget for that year and in the Appendix to that budget as part of proposed legislative language for the appropriations bill for that year (section 8008(b) of Pub. L. 105-56).

(3) If the advisability of using a multiyear contract becomes apparent too late to satisfy the requirements in paragraph (d)(2) of this section, the request for authority to enter into a multiyear contract must be—

(i) Formally submitted by the President as a budget amendment; or

(ii) Made by the Secretary of Defense, in writing, to the congressional defense committees (section 8008(b) of Pub. L. 105-56).

(4) Agencies must establish reporting procedures to meet the congressional notification requirements of paragraph (d)(1) of this section. The head of the agency must submit a copy of each notice to the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics) (OUSD(AT&L)DPAP), and to the Deputy Under Secretary of Defense (Comptroller) (Program/Budget) (OUSD(C)(P/B)).

(5) If the budget for a contract that contains a cancellation ceiling in excess of \$150 million does not include proposed funding for the costs of contract cancellation up to the cancellation ceiling established in the contract—

(i) The notification required by paragraph (d)(1) of this section shall include—

(A) The cancellation ceiling amounts planned for each program year in the proposed multiyear contract, together with the reasons for the amounts planned;

(B) The extent to which costs of contract cancellation are not included in the budget for the contract; and

(C) A financial risk assessment of not including budgeting for costs of contract cancellation (10 U.S.C. 2306b(g) and 10 U.S.C. 2306c(d)); and

(ii) The head of the agency shall provide copies of the notification to the Office of Management and Budget at least 14 days before contract award.

217.171 Multiyear contracts for services.

(a) The head of the agency may enter into a multiyear contract for a period of not more than 5 years for the following types of services (and items of supply relating to such services), even though funds are limited by statute to obligation only during the fiscal year for which they were appropriated (10 U.S.C. 2306c(a)). Covered services are—

(1) Operation, maintenance, and support of facilities and installations;

(2) Maintenance or modification of aircraft, ships, vehicles, and other highly complex military equipment;

(3) Specialized training requiring high quality instructor skills (e.g., training for pilots and aircrew members or foreign language training);

(4) Base services (e.g., ground maintenance, in-plane refueling, bus transportation, and refuse collection and disposal); and

(5) Environmental remediation services for—

(i) An active military installation;

(ii) A military installation being closed or realigned under a base closure law as defined in 10 U.S.C. 2667(h)(2); or

(iii) A site formerly used by DoD (10 U.S.C. 2306c(b)).

(b) The head of the agency must be guided by the following principles when entering into a multiyear contract for services:

(1) The portion of the cost of any plant or equipment amortized as a cost of contract performance should not exceed the ratio between the period of contract performance and the anticipated useful commercial life of the plant or equipment. As used in this section, "useful commercial life" means the commercial utility of the facilities rather than the physical life, with due consideration given to such factors as the location, specialized nature, and obsolescence of the facilities.

(2) Consider the desirability of obtaining an option to extend the term of the contract for a reasonable period not to exceed 3 years at prices that do not include charges for plant, equipment, or other nonrecurring costs already amortized.

(3) Consider the desirability of reserving the right to take title, under the appropriate circumstances, to the plant or equipment upon payment of the unamortized portion of the cost (10 U.S.C. 2306c(c)).

(c) Before entering into a multiyear contract for services, the head of the agency must make a written determination that—

(1) There will be a continuing requirement for the services consistent with current plans for the proposed contract period;

(2) Furnishing the services will require—

(i) A substantial initial investment in plant or equipment; or

(ii) The incurrence of substantial contingent liabilities for the assembly, training, or transportation of a specialized work force; and

(3) Using a multiyear contract will promote the best interests of the United States by encouraging effective competition and promoting economies in operations (10 U.S.C. 2306c(a)).

(d) The head of an agency may not initiate a multiyear contract for services if the value of the multiyear contract exceeds \$750 million unless a law specifically provides authority for the contract (10 U.S.C. 2306c(d)(2)).

217.172 Multiyear contracts for supplies.

(a) This section applies to all multiyear contracts for supplies, including weapon systems and other multiyear acquisitions specifically authorized by law (10 U.S.C. 2306b).

(b) The head of the agency may enter into a multiyear contract for supplies if, in addition to the conditions listed in FAR 17.105-1(b), the use of such a contract will promote the national security of the United States (10 U.S.C. 2306b(a)(6)).

(c) Multiyear contracts in amounts exceeding \$750 million must be specifically authorized by law in an act other than an appropriations act (10 U.S.C. 2306b(i)(1)).

(d) The head of the agency may not initiate a multiyear procurement contract for any system (or component thereof) if the value of the multiyear contract would exceed \$750 million unless authority for the contract is specifically provided in an appropriations act (10 U.S.C. 2306b(l)(3)).

(e) The head of the agency shall not enter into a multiyear contract unless—

(1) The Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract;

(2) In the case of a contract for procurement of aircraft, the budget request includes full funding of procurement funds for production beyond advance procurement activities of aircraft units to be produced in the fiscal year covered by the budget;

(3) Cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(4) The contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(5) The contract does not provide for a price adjustment based on a failure to award a follow-on contract (section 8010 of Division C, Title VIII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and similar sections in subsequent DoD appropriations acts).

(f)(1) The head of the agency must not enter into or extend a multiyear contract that exceeds \$750 million (when entered into or extended) until the Secretary of Defense identifies the contract and any extension in a report submitted to the congressional defense committees (10 U.S.C. 2306b(l)(5)).

(2) In addition, for contracts equal to or greater than \$750 million, the head of the contracting activity must determine that the conditions required by paragraphs (h)(2)(i) through (vii) of this section will be met by such contract, in accordance with the Secretary's certification and determination required by paragraph (h)(2) of this section.

(g) The head of the agency may enter into a multiyear contract for—

(1) A weapon system and associated items, services, and logistics support for a weapon system (10 U.S.C. 2306b(h)(1)); and

(2) Advance procurement of components, parts, and materials necessary to manufacture a weapon system, including advance procurement to achieve economic lot purchases or more efficient production rates (see [217.172\(h\)\(3\)](#) and (4) of this section regarding economic order quantity procurements) (10 U.S.C. 2306b(h)(2)). Before initiating an advance procurement, the contracting officer must verify that it is consistent with DoD policy (e.g., the full funding policy in Volume 2A, chapter 1, of DoD 7000.14-R, Financial Management Regulation).

(h) The head of the agency shall ensure that the following conditions are satisfied before awarding a multiyear contract for a defense acquisition program that has been specifically authorized by law to be carried out using multiyear contract authority:

(1) The multiyear exhibits required by DoD 7000.14-R, Financial Management Regulation, are included in the agency's budget estimate submission and the President's budget request.

(2) The Secretary of Defense certifies to Congress in writing, by no later than 30 days before entry into such contracts, that each of the conditions in paragraphs (h)(2)(i) through (vii) of this section is satisfied (10 U.S.C. 2306b(i)(3)).

Defense Federal Acquisition Regulation Supplement

Part 217—Special Contracting Methods

(i) The Secretary has determined that each of the requirements in FAR 17.105-1, paragraphs (b)(1) through (b)(5), will be met by such contract and has provided the basis for such determination to the congressional defense committees (10 U.S.C. 2306b(i)(3)(A)).

(ii) The Secretary's determination under paragraph (h)(2)(i) of this section was made after the completion of a cost analysis performed by the Defense Cost and Resource Center of the Department of Defense and such analysis supports the findings (10 U.S.C. 2306b(i)(3)(B)).

(iii) The system being acquired pursuant to such contract has not been determined to have experienced cost growth in excess of the critical cost growth threshold pursuant to 10 USC 2433(d) within 5 years prior to the date the Secretary anticipates such contract (or a contract for advance procurement entered into consistent with the authorization for such contract) will be awarded (10 U.S.C. 2306b(i)(3)(C)).

(iv) A sufficient number of end items of the system being acquired under such contract have been delivered at or within the most current estimates of the program acquisition unit cost or procurement unit cost for such system to determine that current estimates of such unit costs are realistic (10 U.S.C. 2306b(i)(3)(D)).

(v) Sufficient funds will be available in the fiscal year in which the contract is to be awarded to perform the contract, and the future-years defense program for such fiscal year will include the funding required to execute the program without cancellation (10 U.S.C. 2306b(i)(3)(E)).

(vi) The contract is a fixed price type contract (10 U.S.C. 2306b(i)(3)(F)).

(vii) The proposed multiyear contract provides for production at not less than minimum economic rates, given the existing tooling and facilities (10 U.S.C. 2306b(i)(3)(G)). The head of the agency shall submit to OUSD(C)(P/B) information supporting the agency's determination that this requirement has been met.

(viii) The head of the agency shall submit information supporting this certification to OUSD(C)(P/B) for transmission to Congress through the Secretary of Defense.

(A) The head of the agency shall, as part of this certification, give written notification to the congressional defense committees of—

(1) The cancellation ceiling amounts planned for each program year in the proposed multiyear contract, together with the reasons for the amounts planned;

(2) The extent to which costs of contract cancellation are not included in the budget for the contract; and

(3) A financial risk assessment of not including the budgeting for

costs of contract cancellation (10 U.S.C. 2306b(g)); and

(B) The head of the agency shall provide copies of the notification to the Office of Management and Budget at least 14 days before contract award.

(3) The contract is for the procurement of a complete and usable end item (10 U.S.C. 2306b(i)(5)(A)).

(4) Funds appropriated for any fiscal year for advance procurement are obligated only for the procurement of those long-lead items that are necessary in order to meet a planned delivery schedule for complete major end items that are programmed under the contract to be acquired with funds appropriated for a subsequent fiscal year (including an economic order quantity of such long-lead items when authorized by law (10 U.S.C. 2306b(i)(5)(B))).

(5) The Secretary may make the certification under paragraph (h)(2) of this section notwithstanding the fact that one or more of the conditions of such certification are not met if the Secretary determines that, due to exceptional circumstances, proceeding with a multiyear contract under this section is in the best interest of the Department of Defense and the Secretary provides the basis for such determination with the certification (10 U.S.C. 2306b(i)(6)).

(6) The Secretary of Defense may not delegate this authority to make the certification under paragraph (h)(2) of this section or the determination under paragraph (h)(5) of this section to an official below the level of the Under Secretary of Defense for Acquisition, Technology, and Logistics (10 U.S.C. 2306b(i)(7)).

(7) All other requirements of law are met and there are no other statutory restrictions on using a multiyear contract for the specific system or component. One such restriction may be the achievement of specified cost savings. If the agency finds, after negotiations with the contractor(s), that the specified savings cannot be achieved, the head of the agency shall assess the savings that, nevertheless, could be achieved by using a multiyear contract. If the savings are substantial, the head of the agency may request relief from the law's specific savings requirement (10 U.S.C. 2306b(i)(4)). The request shall—

- (i) Quantify the savings that can be achieved;
 - (ii) Explain any other benefits to the Government of using the multiyear contract;
 - (iii) Include details regarding the negotiated contract terms and conditions; and
 - (iv) Be submitted to OUSD(AT&L)DPAP for transmission to Congress via the Secretary of Defense and the President.
- (i) The Secretary of Defense may instruct the head of the agency proposing a multiyear contract to include in that contract negotiated priced options for varying the quantities of end items to be procured over the life of the contract (10 U.S.C. 2306b(j)).
- (j) Any requests for increased funding or reprogramming for procurement of a

major system under a multiyear contract shall be accompanied by an explanation of how the request for increased funding affects the determinations made by the Secretary of Defense under [217.172\(h\)\(2\)](#) (10 U.S.C. 2306b(m)).

217.173 Multiyear contracts for military family housing.

The head of the agency may enter into multiyear contracts for periods up to 4 years for supplies and services required for management, maintenance, and operation of military family housing and may pay the costs of such contracts for each year from annual appropriations for that year (10 U.S.C. 2829).

217.174 Multiyear contracts for electricity from renewable energy sources.

(a) The head of the contracting activity may enter into a contract for a period not to exceed 10 years for the purchase of electricity from sources of renewable energy, as that term is defined in section 203(b)(2) of the Energy Policy Act of 2005 (42 U.S.C. 15852(b)(2)).

(b) *Limitations.* The head of the contracting activity may exercise the authority in paragraph (a) of this section to enter into a contract for a period in excess of five years only if the head of the contracting activity determines, on the basis of a business case analysis (see [PGI 217.1](#), Supplemental Information TAB, for a business case analysis template and guidance) prepared by the requiring activity, that—

(1) The proposed purchase of electricity under such contract is cost effective; and

(2) It would not be possible to purchase electricity from the source in an economical manner without the use of a contract for a period in excess of five years.

(c) Nothing in this section shall be construed to preclude the DoD from using other multiyear contracting authority of DoD to purchase renewable energy.

SUBPART 217.2—OPTIONS
(Revised November 30, 2020)

217.202 Use of options.

(1) See [PGI 217.202](#) for guidance on the use of options.

(i) See [PGI 217.202](#)(1) for guidance on the use of options with foreign military sales (FMS).

(ii) See [PGI 217.202](#)(2) for the use of options with sole source major systems for U.S. and U.S./FMS combined procurements.

(2) See [234.005-1](#) for limitations on the use of contract options for the provision of advanced component development, prototype, or initial production of technology developed under the contract or the delivery of initial or additional items.

217.204 Contracts.

(e)(i) Notwithstanding FAR 17.204(e), the ordering period of a task order or delivery order contract (including a contract for information technology) awarded by DoD pursuant to 10 U.S.C. 2304a—

(A) May be for any period up to 5 years;

(B) May be subsequently extended for one or more successive periods in accordance with an option provided in the contract or a modification of the contract; and

(C) Shall not exceed 10 years unless the head of the agency determines in writing that exceptional circumstances require a longer ordering period.

(ii) Paragraph (e)(i) of this section does not apply to the following:

(A) Contracts, including task or delivery order contracts, awarded under other statutory authority.

(B) Advisory and assistance service task order contracts (authorized by 10 U.S.C. 2304b that are limited by statute to 5 years, with the authority to extend an additional 6 months (see FAR 16.505(c)).

(C) Definite-quantity contracts.

(D) GSA schedule contracts.

(E) Multi-agency contracts awarded by agencies other than NASA, DoD, or the Coast Guard.

(iii) Obtain approval from the senior procurement executive before issuing an order against a task or delivery order contract subject to paragraph (e)(i) of this section, if performance under the order is expected to extend more than 1 year beyond the 10-

year limit or extended limit described in paragraph (e)(i)(C) of this section (see FAR 37.106 for funding and term of service contracts).

217.207 Exercise of options.

(c) In addition to the requirements at FAR 17.207(c), exercise an option only after:

(1) Determining that the contractor's record in the System for Award Management database is active and the contractor's Data Universal Numbering System (DUNS) number, Commercial and Government Entity (CAGE) code, name, and physical address are accurately reflected in the contract document. See [PGI 217.207](#) for the requirement to perform cost or price analysis of spare parts prior to exercising any option for firm-fixed-price contracts containing spare parts.

(2) Verifying in the Supplier Performance Risk System (SPRS) (<https://www.sprs.csd.disa.mil/>) that—

(i) The summary level score of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old, unless a lesser time is specified in the solicitation) for each covered contractor information system that is relevant to an offer, contract, task order, or delivery order are posted (see [204.7303](#)).

(ii) The contractor has a CMMC certificate at the level required by the contract, and that it is current (i.e., not more than 3 years old) (see [204.7502](#)).

217.208 Solicitation provisions and contract clauses.

Sealed bid solicitations shall not include provisions for evaluations of options unless the contracting officer determines that there is a reasonable likelihood that the options will be exercised (10 U.S.C. 2305(a)(5)). This limitation also applies to sealed bid solicitations for the contracts excluded by FAR 17.200.

217.208-70 Additional clauses.

(a) Use the basic or the alternate of the clause at [252.217-7000](#), Exercise of Option to Fulfill Foreign Military Sales Commitments, in solicitations and contracts when an option may be used for foreign military sales requirements. Do not use the basic or the alternate of this clause in contracts for establishment or replenishment of DoD inventories or stocks, or acquisitions made under DoD cooperative logistics support arrangements.

(1) Use the basic clause when the foreign military sales country is known at the time of solicitation or award.

(2) Use the alternate I clause when the foreign military sale country is not known at the time of solicitation or award.

(b) When a surge option is needed in support of industrial capability production planning, use the clause at [252.217-7001](#), Surge Option, in solicitations and contracts.

(1) Insert the percentage or quantity of increase the option represents in paragraph (a) of the clause to ensure adequate quantities are available to meet item requirements.

SUBPART 217.6—MANAGEMENT AND OPERATING CONTRACTS

217.600 Scope of subpart.

FAR Subpart 17.6 does not apply to DoD.

**SUBPART 217.7—INTERAGENCY ACQUISITIONS: ACQUISITIONS BY
NONDEFENSE AGENCIES ON BEHALF OF THE DEPARTMENT OF
DEFENSE**

(Revised September 21, 2015)

217.700 Scope of subpart.

This subpart—

(a) Implements section 854 of the National Defense Authorization Act for Fiscal Year 2005 (Pub. L. 108-375), section 801 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), and section 806 of the National Defense Authorization Act for Fiscal Year 2010 (Pub. L. 111-84); and

(b) Prescribes policy for the acquisition of supplies and services through the use of contracts or orders issued by non-DoD agencies.

217.701 Definitions.

As used in this subpart—

“Assisted acquisition” means the type of interagency contracting through which acquisition officials of a non-DoD agency award a contract or a task or delivery order for the acquisition of supplies or services on behalf of DoD.

“Direct acquisition” means the type of interagency contracting through which DoD orders a supply or service from a Governmentwide acquisition contract maintained by a non-DoD agency.

“Governmentwide acquisition contract” means a task or delivery order contract that—

(i) Is entered into by a non-defense agency; and

(ii) May be used as the contract under which property or services are procured for one or more other departments or agencies of the Federal Government.

217.770 Procedures.

Departments and agencies shall establish and maintain procedures for reviewing and approving orders placed for supplies and services under non-DoD contracts, whether through direct acquisition or assisted acquisition, when the amount of the order exceeds the simplified acquisition threshold. These procedures shall include—

(a) Evaluating whether using a non-DoD contract for the acquisition is in the best interest of DoD. Factors to be considered include—

(1) Satisfying customer requirements;

(2) Schedule;

Part 217—Special Contracting Methods

(3) Cost effectiveness (taking into account discounts and fees). In order to ensure awareness of the total cost of fees associated with use of a non-DoD contract, follow the procedures at [PGI 217.770\(a\)\(3\)](#); and

(4) Contract administration (including oversight);

(b) Determining that the tasks to be accomplished or supplies to be provided are within the scope of the contract to be used;

(c) Reviewing funding to ensure that it is used in accordance with appropriation limitations; and

(d) Collecting and reporting data on the use of assisted acquisition for analysis. Follow the reporting requirements in subpart [204.6](#).

SUBPART 217.70—EXCHANGE OF PERSONAL PROPERTY

(Revised December 28, 2017)

217.7000 Scope of subpart.

This subpart prescribes policy and procedures for exchange of nonexcess personal property concurrent with an acquisition. 40 U.S.C. 503 permits exchange of personal property and application of the exchange allowance to the acquisition of similar property. This subpart does not authorize the sale of nonexcess personal property.

217.7001 Definitions.

As used in this subpart—

(a) “Exchange (trade-in) property” means property which—

(1) Is not excess but is eligible for replacement (because of obsolescence, unserviceability, or other reason); and

(2) Is applied as whole or partial payment toward the acquisition of similar items (i.e., items designed and constructed for the same purpose).

(b) “Property” means items that fall within one of the generic categories listed in DoD Manual 4140.01, Volume 9, DoD Supply Chain Materiel Management Procedures: Materiel Programs.

217.7002 Policy.

DoD policy is to exchange, rather than replace, eligible nonexcess property whenever exchange promotes economical and efficient program accomplishment. Exchange policy, authority, and applicability are governed by—

(a) The Federal Property Management Regulations issued by the Administrator of the General Services Administration; and

(b) DoD Manual 4140.01, Volume 9, DoD Supply Chain Materiel Management Procedures: Materiel Programs.

217.7003 Purchase request.

Ensure that the requiring activity provides all of the following in support of the purchase request—

(a) A certification that the property is eligible for exchange and complies with all conditions and limitations of DoD Manual 4140.01, Volume 9, DoD Supply Chain Materiel Management Procedures: Materiel Programs.

(b) A written determination of economic advantage indicating—

(1) The anticipated economic advantage to the Government from use of the exchange authority;

(2) That exchange allowances shall be applied toward, or in partial payment of, the items to be acquired; and

(3) That, if required, the exchange property has been rendered safe or innocuous or has been demilitarized;

(c) All applicable approvals for the exchange; and

(d) A description of the property available for exchange (e.g., nomenclature, location, serial number, estimated travel value).

217.7004 Solicitation and award.

(a) Solicitations shall include a request for offerors to state prices—

(1) For the new items being acquired without any exchange; and

(2) For the new items with the exchange (trade-in allowance) for the exchange property listed.

(b) The contracting officer is not obligated to award on an exchange basis. If the lowest evaluated offer is an offer for the new items without any exchange, the contracting officer may award on that basis and forgo the exchange.

(c) Exchanges may be made only with the successful offeror. When the successful offer includes an exchange, award one contract for both the acquisition of the new property and the trade-in of the exchange property. The only exception is when the items must be acquired against a mandatory Federal supply schedule contract, in which case, award a separate contract for the exchange.

217.7005 Solicitation provision.

Use the provision at [252.217-7002](#), Offering Property for Exchange, when offering nonexcess personal property for exchange. Allow a minimum of 14 calendar days for the inspection period in paragraph (b) of the clause if the exchange property is in the contiguous United States. Allow at least 21 calendar days outside the contiguous United States.

**SUBPART 217.71—MASTER AGREEMENT FOR REPAIR AND ALTERATION
OF VESSELS**

(Revised May 12, 2006)

217.7100 Scope of subpart.

This subpart contains acquisition policies and procedures for master agreements for repair and alteration of vessels.

217.7101 Definitions.

(a) “Master agreement for repair and alteration of vessels”—

(1) Is a written instrument of understanding, negotiated between a contracting activity and a contractor that—

(A) Contains contract clauses, terms, and conditions applying to future contracts for repairs, alterations, and/or additions to vessels; and

(B) Contemplates separate future contracts that will incorporate by reference or attachment the required and applicable clauses agreed upon in the master agreement.

(2) Is not a contract.

(b) “Job order”—

(1) Is a fixed price contract incorporating, by reference or attachment, a master agreement for repair and alteration of vessels;

(2) May include clauses pertaining to subjects not covered by the master agreement; but applicable to the job order being awarded; and

(3) Applies to a specific acquisition and sets forth the scope of work, price, delivery date, and other appropriate terms that apply to the particular job order.

217.7102 General.

(a) Activities shall enter into master agreements for repair and alteration of vessels with all prospective contractors located within the United States or its outlying areas, which—

(1) Request ship repair work; and

(2) Possess the organization and facilities to perform the work satisfactorily. (Issuance of a master agreement does not indicate approval of the contractor's facility for any particular acquisition and is not an affirmative determination of responsibility under FAR Subpart 9.1 for any particular acquisition.)

(b) Activities may use master agreements in work with prospective contractors located outside the United States and its outlying areas.

Part 217—Special Contracting Methods

(c) Activities may issue job orders under master agreements to effect repairs, alterations, and/or additions to vessels belonging to foreign governments.

(1) Contractors shall treat vessels of a foreign government as if they were vessels of the U.S. Government whenever requested to do so by the contracting officer.

(2) Identify the vessel and the foreign government in the solicitation and job order.

217.7103 Master agreements and job orders.

217.7103-1 Content and format of master agreements.

Follow the procedures at PGI 217.7103-1 for preparation of master agreements.

217.7103-2 Period of agreement.

(a) Master agreements remain in effect until cancelled by either the contractor or the contracting officer.

(b) Master agreements can be cancelled by either the contractor or the contracting officer by giving 30 days written notice to the other.

(c) Cancellation of a master agreement does not affect the rights and liabilities under any job order existing at the time of cancellation. The contractor must continue to perform all work covered by any job order issued before the effective date of cancellation of the master agreement.

217.7103-3 Solicitations for job orders.

(a) When a requirement arises within the United States or its outlying areas for the type of work covered by the master agreement, solicit offers from prospective contractors that—

(1) Previously executed a master agreement; or

(2) Have not previously executed a master agreement, but possess the necessary qualifications to perform the work and agree to execute a master agreement before award of a job order.

(b) Follow the procedures at PGI 217.7103-3 when preparing solicitations for job orders.

217.7103-4 Emergency work.

(a) The contracting officer, without soliciting offers, may issue a written job order to a contractor that has previously executed a master agreement when—

(i) Delay in the performance of necessary repair work would endanger a vessel, its cargo or stores; or

(ii) Military necessity requires immediate work on a vessel.

(b) Follow the procedures at PGI 217.7103-4 when processing this type of undefinitized contract action.

217.7103-5 Repair costs not readily ascertainable.

Follow the procedures at PGI 217.7103-5 if the nature of any repairs is such that their extent and probable cost cannot be ascertained readily.

217.7103-6 Modification of master agreements.

(a) Review each master agreement at least annually before the anniversary of its effective date and revise it as necessary to conform to the requirements of the FAR and DFARS. Statutory or other mandatory changes may require review and revision earlier than one year.

(b) A master agreement shall be changed only by modifying the master agreement itself. It shall not be changed through a job order.

(c) A modification to a master agreement shall not affect job orders issued before the effective date of the modification.

217.7104 Contract clauses.

(a) Use the following clauses in solicitations for, and in, master agreements for repair and alteration of vessels:

- (1) 252.217-7003, Changes.
- (2) 252.217-7004, Job Orders and Compensation.
- (3) 252.217-7005, Inspection and Manner of Doing Work.
- (4) 252.217-7006, Title.
- (5) 252.217-7007, Payments.
- (6) 252.217-7008, Bonds.
- (7) 252.217-7009, Default.
- (8) 252.217-7010, Performance.
- (9) 252.217-7011, Access to Vessel.
- (10) 252.217-7012, Liability and Insurance.
- (11) 252.217-7013, Guarantees.

Part 217—Special Contracting Methods

(14) 252.217-7016, Plant Protection, as applicable.

(b)(1) Incorporate in solicitations for, and in, job orders, the clauses in the master agreement, and any other clauses on subjects not covered by the master agreement, but applicable to the job order to be awarded.

(2) Use the clause at 252.217-7016, Plant Protection, in job orders where performance is to occur at the contractor's facility.

SUBPART 217.72
(Removed May 12, 2006)

SUBPART 217.73—IDENTIFICATION OF SOURCES OF SUPPLY

(Revised January 15, 1999)

217.7300 Scope.

This subpart implements 10 U.S.C. 2384. It contains policy and procedures for requiring contractors to identify the actual manufacturer of supplies furnished to DoD.

217.7301 Policy.

Contractors shall identify their sources of supply in contracts for supplies. Contractor identification of sources of supply enables solicitation, in subsequent acquisitions, of actual manufacturers or other suppliers of items. This enhances competition and potentially avoids payment of additional costs for no significant added value.

217.7302 Procedures.

(a) Whenever practicable, include a requirement for contractor identification of sources of supply in all contracts for the delivery of supplies. The identification shall include—

(1) The item's actual manufacturer or producer, or all the contractor's sources for the item;

(2) The item's national stock number (if there is one);

(3) The item identification number used by—

(i) The actual manufacturer or producer of the item; or

(ii) Each of the contractor's sources for the item; and

(4) The source of any technical data delivered under the contract.

(b) The requirement in paragraph (a) of this section does not apply to contracts that are—

(1) For commercial items; or

(2) Valued at or below the simplified acquisition threshold.

217.7303 Solicitation provision.

(a) Use the provision at 252.217-7026, Identification of Sources of Supply, or one substantially the same, in all solicitations for supplies when the acquisition is being conducted under other than full and open competition, except when—

(1) Using FAR 6.302-5;

(2) The contracting officer already has the information required by the provision (e.g., the information was obtained under other acquisitions);

Defense Federal Acquisition Regulation Supplement

Part 217—Special Contracting Methods

(3) The contract is for subsistence, clothing or textiles, fuels, or supplies purchased and used outside the United States;

(4) The contracting officer determines that it would not be practicable to require offerors/contractors to provide the information, e.g., nonrepetitive local purchases; or

(5) The contracting officer determines that the exception at 217.7302(b) applies to all items under the solicitation.

(b) If appropriate, use the provision at 252.217-7026, Identification of Sources of Supply, or one substantially the same, in service contracts requiring the delivery of supplies.

SUBPART 217.74—UNDEFINITIZED CONTRACT ACTIONS

(Revised September 13, 2019)

217.7400 Scope.

This subpart prescribes policies and procedures implementing 10 U.S.C. 2326.

217.7401 Definitions.

As used in this subpart—

“Contract action” means an action which results in a contract.

- (1) It includes contract modifications for additional supplies or services.
- (2) It includes task orders and delivery orders.

(3) It does not include change orders, administrative changes, funding modifications, or any other contract modifications that are within the scope and under the terms of the contract, e.g., engineering change proposals, value engineering change proposals, and over and above work requests as described in subpart [217.77](#). For policy relating to definitization of change orders, see [243.204-70](#).

“Definitization” means the agreement on, or determination of, contract terms, specifications, and price, which converts the undefinitized contract action to a definitive contract.

“Qualifying proposal” means a proposal that contains sufficient information to enable DoD to conduct meaningful analyses and audits of the information contained in the proposal.

“Undefinitized contract action” means any contract action for which the contract terms, specifications, or price are not agreed upon before performance is begun under the action. Examples are letter contracts, orders under basic ordering agreements, and provisioned item orders, for which the price has not been agreed upon before performance has begun. For policy relating to definitization of change orders, see [243.204-70](#).

217.7402 Exceptions.

(a) The following undefinitized contract actions (UCAs) are not subject to this subpart. However, the contracting officer shall apply the policy and procedures to them to the maximum extent practicable (also see paragraph (b) of this section):

- (1) Purchases at or below the simplified acquisition threshold.
- (2) Special access programs.
- (3) Congressionally mandated long-lead procurement contracts.

(b) If the contracting officer determines that it is impracticable to adhere to the procedures of this subpart for a particular contract action that falls within one of the categories in paragraph (a) of this section, the contracting officer shall provide prior

notice, through agency channels, electronically via email to the Principal Director, Defense Pricing and Contracting (Contract Policy), at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil.

217.7403 Policy.

DoD policy is that undefinitized contract actions shall—

(a) Be used only when—

(1) The negotiation of a definitive contract action is not possible in sufficient time to meet the Government's requirements; and

(2) The Government's interest demands that the contractor be given a binding commitment so that contract performance can begin immediately.

(b) Be as complete and definite as practicable under the particular circumstances.

217.7404 Limitations.

See [PGI 217.7404](#) for additional guidance on obtaining approval to authorize use of an undefinitized contract action, documentation requirements, and other limitations on their use.

(a) *Foreign military sales contracts.*

(1) A contracting officer may not enter into a UCA for a foreign military sale unless—

(i) The UCA provides for agreement upon contractual terms, specifications, and price by the end of the 180-day period beginning on the date on which the contractor submits a qualifying proposal; and

(ii) The contracting officer obtains approval from the head of the contracting activity to enter into a UCA in accordance with [217.7404-1](#).

(2) The head of the contracting activity may waive the requirements of paragraph (a)(1) of this section, if a waiver is necessary in order to support any of the following operations:

(i) A contingency operation.

(ii) A humanitarian or peacekeeping operation.

(b) *Unilateral definitization by a contracting officer.* Any UCA with a value greater than \$50 million may not be unilaterally definitized until—

(1) The earlier of—

(i) The end of the 180-day period, beginning on the date on which the contractor submits a qualifying proposal to definitize the contractual terms, specifications, and price; or

(ii) The date on which the amount of funds expended under the contractual action is equal to more than 50 percent of the negotiated overall not-to-exceed price for the contractual action;

(2) The head of the contracting activity, without power of redelegation, approves the definitization in writing;

(3) The contracting officer provides a copy of the written approval to the contractor; and

(4) A period of 30 calendar days has elapsed after the written approval is provided to the contractor.

217.7404-1 Authorization.

The contracting officer shall obtain approval from the head of the contracting activity before—

(a) Entering into a UCA. The request for approval must fully explain the need to begin performance before definitization, including the adverse impact on agency requirements resulting from delays in beginning performance.

(b) Including requirements for non-urgent spare parts and support equipment in a UCA. The request should show that inclusion of the non-urgent items is consistent with good business practices and in the best interest of the United States.

(c) Modifying the scope of a UCA when performance has already begun. The request should show that the modification is consistent with good business practices and in the best interests of the United States.

217.7404-2 Price ceiling.

UCAs shall include a not-to-exceed price.

217.7404-3 Definitization schedule.

(a) UCAs shall contain definitization schedules that provide for definitization by the earlier of—

(1) The date that is 180 days after the contractor submits a qualifying proposal. This date may not be extended beyond an additional 90 days without a written determination by the head of the contracting activity without power of redelegation, the commander of the combatant command concerned, or the Under Secretary of Defense for Acquisition and Sustainment that it is in the best interests of the military department or the defense agency, the combatant command, or the Department of Defense, respectively, to continue the action; or

(2) The date on which the amount of funds obligated under the contract action is equal to more than 50 percent of the not-to-exceed price.

(b) Submission of a qualifying proposal in accordance with the definitization schedule is a material element of the contract. If the contractor does not submit a timely qualifying proposal, the contracting officer may suspend or reduce progress payments under FAR 32.503-6, or take other appropriate action.

217.7404-4 Limitations on obligations.

(a) The Government shall not obligate more than 50 percent of the not-to-exceed price before definitization. However, if a contractor submits a qualifying proposal before 50 percent of the not-to-exceed price has been obligated by the Government, then the limitation on obligations before definitization may be increased to no more than 75 percent (see [232.102-70](#) for coverage on provisional delivery payments).

(b) In determining the appropriate amount to obligate, the contracting officer shall assess the contractor's proposal for the undefinitized period and shall obligate funds only in an amount consistent with the contractor's requirements for the undefinitized period.

217.7404-5 Exceptions.

(a) The limitations in [217.7404-2](#), [217.7404-3](#), and [217.7404-4](#) do not apply to UCAs for the purchase of initial spares.

(b) The head of an agency may waive the limitations in [217.7404\(a\)](#), [217.7404-2](#), [217.7404-3](#), and [217.7404-4](#) for UCAs if the head of the agency determines that the waiver is necessary to support—

- (1) A contingency operation; or
- (2) A humanitarian or peacekeeping operation.

217.7404-6 Allowable profit.

When the final price of a UCA is negotiated after a substantial portion of the required performance has been completed, the head of the contracting activity shall ensure the profit allowed reflects—

(a) Any reduced cost risk to the contractor for costs incurred during contract performance before negotiation of the final price. However, if a contractor submits a qualifying proposal to definitize a UCA, and the contracting officer for such action definitizes the contract after the end of the 180-day period beginning on the date on which the contractor submitted the qualifying proposal, the profit allowed on the contract shall accurately reflect the cost risk of the contractor as such risk existed on the date the contractor submitted the qualifying proposal;

(b) Any reduced cost risk to the contractor for costs expected to be incurred during performance of the remainder of the contract after negotiation of the final price; and

(c) The requirements at [215.404-71-3\(d\)\(2\)](#). The risk assessment shall be documented in the price negotiation memorandum.

217.7405 Plans and reports.

(a) To provide for enhanced management and oversight of UCAs, departments and agencies shall—

- (1) Prepare and maintain a Consolidated UCA Management Plan; and

(2) Prepare semi-annual Consolidated UCA Management Reports addressing each UCA with an estimated value exceeding \$5 million.

(b) Consolidated UCA Management Reports and Consolidated UCA Management Plan updates shall be submitted to the Office of the Director, Defense Procurement and Acquisition Policy, by October 31 and April 30 of each year in accordance with the procedures at [PGI 217.7405](#).

(c) Consolidated UCA Management Reports shall include information about all change orders that are not forward priced (i.e., unpriced) and have an estimated value exceeding \$5 million.

217.7406 Contract clauses.

(a) Use the clause at FAR 52.216-24, Limitation of Government Liability, in—

- (1) All UCAs;
- (2) Solicitations associated with UCAs;
- (3) Basic ordering agreements;
- (4) Indefinite delivery contracts;
- (5) Any other type of contract providing for the use of UCAs; and
- (6) Unpriced change orders with an estimated value exceeding \$5 million.

(b)(1) Use the clause at [252.217-7027](#), Contract Definitization, in—

- (i) All UCAs;
- (ii) Solicitations associated with UCAs;
- (iii) Basic ordering agreements;
- (iv) Indefinite delivery contracts;
- (v) Any other type of contract providing for the use of UCAs; and
- (vi) Unpriced change orders with an estimated value exceeding \$5 million.

(2) Insert the applicable information in paragraphs (a), (b), and (d) of the clause.

(3) If, at the time of entering into the UCA or unpriced change order, the contracting officer knows that the definitive contract action will meet the criteria of FAR 15.403-1, 15.403-2, or 15.403-3 for not requiring submission of certified cost or pricing data, the words “and certified cost or pricing data” may be deleted from paragraph (a) of the clause.

SUBPART 217.75—ACQUISITION OF REPLENISHMENT PARTS

(Revised December 28, 2017)

217.7500 Scope of subpart.

This subpart provides guidance on additional requirements related to acquisition of replenishment parts.

217.7501 Definition.

“Replenishment parts,” as used in this subpart, means repairable or consumable parts acquired after the initial provisioning process.

217.7502 General.

Departments and agencies—

(a) May acquire replenishment parts concurrently with production of the end item.

(b) Shall provide for full and open competition when fully adequate drawings and any other needed data are available with the right to use for acquisition purposes (see Part 227). However—

(1) When data is not available for a competitive acquisition, use one of the procedures in [PGI 217.7504](#).

(2) Replenishment parts must be acquired so as to ensure the safe, dependable, and effective operation of the equipment. Where this assurance is not possible with new sources, competition may be limited to the original manufacturer of the equipment or other sources that have previously manufactured or furnished the parts as long as the action is justified. See [209.270](#) for requirements applicable to replenishment parts for aviation or ship critical safety items.

(c) Shall follow the limitations on price increases in [217.7505](#).

217.7503 Spares acquisition integrated with production.

Follow the procedures at [PGI 217.7503](#) for acquiring spare parts concurrently with the end item.

217.7504 Acquisition of parts when data is not available.

Follow the procedures at [PGI 217.7504](#) when acquiring parts for which the Government does not have the necessary data.

217.7505 Limitations on price increases.

This section provides implementing guidance for Section 1215 of Pub. L. 98-94 (10 U.S.C. 2452 note).

(a) The contracting officer shall not award, on a sole source basis, a contract for any centrally managed replenishment part when the price of the part has increased by 25 percent or more over the most recent 12-month period.

(1) Before computing the percentage difference between the current price and the prior price, adjust for quantity, escalation, and other factors necessary to achieve comparability.

Defense Federal Acquisition Regulation Supplement

Part 217—Special Contracting Methods

(2) Departments and agencies may specify an alternate percentage or percentages for contracts at or below the simplified acquisition threshold.

(b) The contracting officer may award a contract for a part, the price of which exceeds the limitation in paragraph (a) of this section, if the contracting officer certifies in writing to the head of the contracting activity before award that—

(1) The contracting officer has evaluated the price of the part and concluded that the price increase is fair and reasonable; or

(2) The national security interests of the United States require purchase of the part despite the price increase.

(c) The fact that a particular price has not exceeded the limitation in paragraph (a) of this section does not relieve the contracting officer of the responsibility for obtaining a fair and reasonable price.

(d) Contracting officers may include a provision in sole source solicitations requiring that the offeror supply with its proposal, price and quantity data on any government orders for the replenishment part issued within the most recent 12 months.

217.7506 Spare parts breakout program.

See [PGI 217.7506](#) and DoD Manual 4140.01, Volume 9, DoD Supply Chain Materiel Management Procedures: Materiel Programs, for spare parts breakout requirements.

SUBPART 217.76—CONTRACTS WITH PROVISIONING REQUIREMENTS
(Revised December 28, 2017)

217.7601 Provisioning.

(a) Follow the procedures at [PGI 217.7601](#) for contracts with provisioning requirements.

(b) For technical requirements of provisioning, see DoD Manual 4140.01, Volume 2, DoD Supply Chain Materiel Management Procedures: Demand and Supply Planning.

SUBPART 217.77—OVER AND ABOVE WORK
(Revised May 12, 2006)

217.7701 Procedures.

Follow the procedures at PGI 217.7701 when acquiring over and above work.

217.7702 Contract clause.

Use the clause at 252.217-7028, Over and Above Work, in solicitations and contracts containing requirements for over and above work, except as provided for in Subpart 217.71.

SUBPART 217.78—REVERSE AUCTIONS

(Added October 1, 2019)

217.7801 Prohibition.

In accordance with section 814 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328) as amended by section 882 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) (see 10 U.S.C. 2302 note), contracting officers shall not use reverse auctions when procuring items designated by the requiring activity as personal protective equipment or an aviation critical safety item, when the requiring activity advises the contracting officer that the level of quality or failure of the equipment or item could result in combat casualties. See [252.209-7010](#) for the definition and identification of critical safety items.

SUBPART 219.7—THE SMALL BUSINESS SUBCONTRACTING PROGRAM
(Revised December 31, 2019)

219.702-70 Statutory requirements for the Test Program for Negotiation of Comprehensive Small Business Subcontracting Plans.

(a) *Test Program.* In accordance with 15 U.S.C. 637 note, DoD has established a test program to determine whether comprehensive subcontracting plans on a corporate, division, or plant-wide basis will reduce administrative burdens while enhancing subcontracting opportunities for small and small disadvantaged business concerns. This program is referred to as the Test Program for Negotiation of Comprehensive Small Business Subcontracting Plans (Test Program).

(b) *Eligibility requirements.* To become and remain eligible to participate in the Test Program, a business concern is required to have furnished supplies or services (including construction) under at least three DoD contracts during the preceding fiscal year, having an aggregate value of at least \$100 million.

(c) *Comprehensive subcontracting plans.*

(1) The Defense Contract Management Agency will designate the contracting officer who shall negotiate and approve comprehensive subcontracting plans with eligible participants on an annual basis.

(2) Test Program participants use their comprehensive subcontracting plans, in lieu of individual subcontracting plans, when performing any DoD contract or subcontract that requires a subcontracting plan.

(d) *Assessment.* The contracting officer designated to manage the comprehensive subcontracting plan shall conduct a compliance review during the fiscal year after the close of the fiscal year for which the plan is applicable. The contracting officer shall compare the approved percentage or dollar goals to the total, actual subcontracting dollars covered by the comprehensive subcontracting plan.

(1) If the contractor has failed to meet its approved subcontracting goal(s), the contracting officer shall give the contractor written notice specifying the failure, advising of the potential for assessment of liquidated damages, permitting the contractor to demonstrate what good faith efforts have been made, and providing a period of 15 working days (or longer period at the contracting officer's discretion) within which to respond. The contracting officer may take the contractor's failure to respond to the notice as an admission that no valid explanation exists.

(2) The contracting officer shall review all available information to determine whether the contractor has failed to make a good faith effort to comply with the plan.

(3) If, after consideration of all relevant information, the contracting officer determines that the contractor failed to make a good faith effort to comply with the comprehensive subcontracting plan, the contracting officer shall issue a final decision. The contracting officer's final decision shall include the right of the contractor to appeal under the Disputes clause. The contracting officer shall distribute a copy of the final decision to all cognizant contracting officers for the contracts covered under the plan.

(e) *Liquidated damages.* The amount of liquidated damages shall be the amount of anticipated damages sustained by the Government, including but not limited to additional expenses of administration, reporting, and contract monitoring, and shall be identified in the comprehensive subcontracting plan. Liquidated damages shall be in addition to any other remedies the Government may have.

(f) *Expiration date.* The Test Program expires on December 31, 2027.

219.703 Eligibility requirements for participating in the program.

(a) Qualified nonprofit agencies for the blind and other severely disabled, that have been approved by the Committee for Purchase from People Who Are Blind or Severely Disabled under 41 U.S.C. chapter 85, are eligible to participate in the program as a result of 10 U.S.C. 2410d and section 9077 of Pub. L. 102-396 and similar sections in subsequent Defense appropriations acts. Under this authority, subcontracts awarded to such entities may be counted toward the prime contractor's small business subcontracting goal.

(b) A contractor may also rely on the written representation as to status of—

(i) A historically black college or university or minority institution; or

(ii) A qualified nonprofit agency for the blind or other severely disabled approved by the Committee for Purchase from People Who Are Blind or Severely Disabled.

219.704 Subcontracting plan requirements.

(1) In those subcontracting plans which specifically identify small businesses, prime contractors shall notify the administrative contracting officer of any substitutions of firms that are not small business firms, for the small business firms specifically identified in the subcontracting plan. Notifications shall be in writing and shall occur within a reasonable period of time after award of the subcontract. Contractor-specified formats shall be acceptable.

(2) See [215.304](#) for evaluation of offers in acquisitions that require a subcontracting plan.

219.705 Responsibilities of the contracting officer under the subcontracting assistance program.

(ii) The contracting officer may use the checklist at [PGI 219.705-4](#) when reviewing subcontracting plans in accordance with FAR 19.705-4.

219.705-6 Postaward responsibilities of the contracting officer.

(f) See [PGI 219.705-6\(f\)](#) for guidance on reviewing subcontracting reports.

(c)(1) Do not use the clause at FAR 52.219-10, Incentive Subcontracting Program, in contracts with contractors that have comprehensive subcontracting plans approved under the Test Program described in [219.702-70](#).

**SUBPART 219.8—CONTRACTING WITH THE SMALL BUSINESS
ADMINISTRATION (THE 8(A) PROGRAM)**

(Revised August 31, 2020)

219.800 General.

(a) By Partnership Agreement (PA) between the Small Business Administration (SBA) and the Department of Defense (DoD), the SBA has delegated to the Under Secretary of Defense (Acquisition, Technology, and Logistics) its authority under paragraph 8(a)(1)(A) of the Small Business Act (15 U.S.C. 637(a)) to enter into 8(a) prime contracts, and its authority under 8(a)(1)(B) of the Small Business Act to award the performance of those contracts to eligible 8(a) Program participants. However, the SBA remains the prime contractor on all 8(a) contracts, continues to determine eligibility of concerns for contract award, and retains appeal rights under FAR 19.810. The SBA delegates only the authority to sign contracts on its behalf. Consistent with the provisions of the PA, this authority is hereby redelegated to DoD contracting officers. A copy of the PA, which includes the PA's expiration date, is available at [PGI 219.800](#).

(b) Contracts awarded under the PA may be awarded directly to the 8(a) participant on either a sole source or competitive basis. An SBA signature on the contract is not required.

(c) Notwithstanding the PA, the contracting officer may elect to award a contract pursuant to the provisions of FAR Subpart 19.8.

219.803 Selecting acquisitions for the 8(a) Program.

When selecting acquisitions for the 8(a) Program, follow the procedures at [PGI 219.803](#).

219.804 Evaluation, offering, and acceptance.

When processing requirements under the PA, follow the procedures at [PGI 219.804](#).

219.804-1 Agency evaluation.

(f) The 8(a) firms should be offered the opportunity to give a technical presentation.

219.805 Competitive 8(a).

219.805-1 General.

(b)(2)(A) For acquisitions that exceed the competitive threshold, the SBA also may accept the requirement for a sole source 8(a) award on behalf of a small business concern owned by a Native Hawaiian Organization (Section 8020 of Pub. L. 109-148).

(B) “Native Hawaiian Organization,” as used in this subsection and as defined by 15 U.S.C. 637(a)(15) and 13 CFR 124.3, means any community service organization serving Native Hawaiians in the State of Hawaii—

(1) That is a not-for-profit organization chartered by the State of Hawaii;

(2) That is controlled by Native Hawaiians; and

(3) Whose business activities will principally benefit such Native Hawaiians.

219.805-2 Procedures.

When processing requirements under the PA, follow the procedures at [PGI 219.805-2](#) for requesting eligibility determinations.

219.806 Pricing the 8(a) contract.

For requirements processed under the PA cited in [219.800](#)—

(1) The contracting officer shall obtain certified cost or pricing data from the 8(a) contractor, if required by FAR subpart 15.4; and

(2) SBA concurrence in the negotiated price is not required. However, except for purchase orders not exceeding the simplified acquisition threshold, the contracting officer shall notify the SBA prior to withdrawing a requirement from the 8(a) Program due to failure to agree on price or other terms and conditions.

219.808 Contract negotiation.

219.808-1 Sole source.

For sole source requirements processed under the PA, follow the procedures at [PGI 219.808-1](#).

(a) In lieu of the threshold at FAR 19.808-1(a), the SBA may not accept for negotiation a DoD sole-source 8(a) contract exceeding \$100 million unless DoD has completed a justification in accordance with FAR 6.303 and [206.303-1\(b\)](#).

219.811 Preparing the contracts.

When preparing awards under the PA, follow the procedures at [PGI 219.811](#).

219.811-3 Contract clauses.

(1) Use the clause at [252.219-7009](#), Section 8(a) Direct Award, instead of the clauses at FAR 52.219-11, Special 8(a) Contract Conditions, FAR 52.219-12, Special 8(a) Subcontract Conditions, and FAR 52.219-17, Section 8(a) Award, in solicitations and contracts processed in accordance with the PA cited in [219.800](#).

(2) Use the clause at [252.219-7010](#), Notification of Competition Limited to Eligible 8(a) Participants—Partnership Agreement, in lieu of the clause at FAR 52.219-18, Notification of Competition Limited to Eligible 8(a) Participants, in competitive solicitations and contracts when the acquisition is accomplished using the procedures of FAR 19.805 and processed in accordance with the PA cited in [219.800](#).

(3) Use the clause at [252.219-7011](#), Notification to Delay Performance, in solicitations and purchase orders issued under the PA cited in [219.800](#).

Part 219--Small Business Programs

SUBPART 219.70--RESERVED
(October 01, 1998)

SUBPART 219.71—PILOT MENTOR-PROTEGE PROGRAM

(Revised October 31, 2018)

219.7100 Scope.

This subpart implements the Pilot Mentor-Protege Program (hereafter referred to as the “Program”) established under section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Pub. L. 101-510; 10 U.S.C. 2302 note), as amended through December 23, 2016. The purpose of the Program is to provide incentives for DoD contractors to assist protege firms in enhancing their capabilities and to increase participation of such firms in Government and commercial contracts.

219.7101 Policy.

DoD policy and procedures for implementation of the Program are contained in [Appendix I](#), Policy and Procedures for the DoD Pilot Mentor-Protege Program.

219.7102 General.

The Program includes—

- (a) Mentor firms and protege firms that meet the criteria in Appendix I, section I-102.
- (b) Mentor-protege agreements that establish a developmental assistance program for a protege firm.
- (c) Incentives that DoD may provide to mentor firms, including:
 - (1) Reimbursement for developmental assistance costs through—
 - (i) A separately priced contract line item on a DoD contract; or
 - (ii) A separate contract, upon written determination by the cognizant Component Director, Small Business Programs (SBP), that unusual circumstances justify reimbursement using a separate contract; or
 - (2) Credit toward applicable subcontracting goals, established under a subcontracting plan negotiated under FAR subpart 19.7 or under the DoD Comprehensive Subcontracting Test Program, for developmental assistance costs that are not reimbursed.

219.7103 Procedures.

219.7103-1 General.

The procedures for application, acceptance, and participation in the Program are in [Appendix I](#), Policy and Procedures for the DoD Pilot Mentor-Protege Program. The Director, SBP, of each military department or defense agency has the authority to approve contractors as mentor firms, approve mentor-protege agreements, and forward approved mentor-protege agreements to the contracting officer when funding is available.

219.7103-2 Contracting officer responsibilities.

Contracting officers must—

(a) Negotiate an advance agreement on the treatment of developmental assistance costs for either credit or reimbursement if the mentor firm proposes such an agreement, or delegate authority to negotiate to the administrative contracting officer (see FAR 31.109).

(b) Modify (without consideration) applicable contract(s) to incorporate the clause at [252.232-7005](#), Reimbursement of Subcontractor Advance Payments--DoD Pilot Mentor-Protege Program, when a mentor firm provides advance payments to a protege firm under the Program and the mentor firm requests reimbursement of advance payments.

(c) Modify (without consideration) applicable contract(s) to incorporate other than customary progress payments for protege firms in accordance with FAR 32.504(c) if a mentor firm provides such payments to a protege firm and the mentor firm requests reimbursement.

(d) Modify applicable contract(s) to establish a contract line item for reimbursement of developmental assistance costs if—

(1) A DoD program manager or the cognizant Component Director, SBP, has made funds available for that purpose; and

(2) The contractor has an approved mentor-protege agreement.

(e) Negotiate and award a separate contract for reimbursement of developmental assistance costs only if—

(1) Funds are available for that purpose;

(2) The contractor has an approved mentor-protege agreement; and

(3) The cognizant Component Director, SBP, has made a determination in accordance with [219.7102\(c\)\(1\)\(ii\)](#).

(f) Not authorize reimbursement for costs of assistance furnished to a protege firm in excess of \$1,000,000 in a fiscal year unless a written determination from the cognizant Component Director, SBP, is obtained.

(g) Advise contractors of reporting requirements in [Appendix I](#).

(h) Provide a copy of the approved Mentor-Protege agreement to the Defense Contract Management Agency administrative contracting officer responsible for conducting the annual performance review (see Appendix I, [Section I-113](#)).

219.7104 Developmental assistance costs eligible for reimbursement or credit.

(a) Developmental assistance provided under an approved mentor-protege agreement is distinct from, and must not duplicate, any effort that is the normal and expected product of the award and administration of the mentor firm's subcontracts. The mentor firm must accumulate and charge costs associated with the latter in accordance with its approved accounting practices. Mentor firm costs that are eligible for reimbursement are set forth in [Appendix I](#).

(b) Before incurring any costs under the Program, mentor firms must establish the accounting treatment of developmental assistance costs eligible for reimbursement or credit. To be eligible for reimbursement under the Program, the mentor firm must incur the costs not later than September 30, 2021.

(c) If the mentor firm is suspended or debarred while performing under an approved mentor-protege agreement, the mentor firm may not be reimbursed or credited for developmental assistance costs incurred more than 30 days after the imposition of the suspension or debarment.

(d) Developmental assistance costs, incurred by a mentor firm not later than September 30, 2021, that are eligible for crediting under the Program, may be credited toward subcontracting plan goals as set forth in [Appendix I](#).

219.7105 Reporting.

Mentor and protege firms must report on the progress made under mentor-protege agreements as indicated in Appendix I, [Section I-112](#).

219.7106 Performance reviews.

The Defense Contract Management Agency will conduct annual performance reviews of all mentor-protege agreements as indicated in Appendix I, [Section I-113](#). The determinations made in these reviews should be a major factor in determinations of amounts of reimbursement, if any, that the mentor firm is eligible to receive in the remaining years of the Program participation term under the agreement.

“Labor advisor,” as used in this part, means the departmental or agency headquarters labor advisor.

SUBPART 222.1—BASIC LABOR POLICIES

(Revised October 30, 2015)

222.101 Labor relations.

222.101-1 General.

Follow the procedures at [PGI 222.101-1](#) for referral of labor relations matters to the appropriate authorities.

222.101-3 Reporting labor disputes.

Follow the procedures at [PGI 222.101-3](#) for reporting labor disputes.

222.101-3-70 Impact of labor disputes on defense programs.

(a) Each department and agency shall determine the degree of impact of potential or actual labor disputes on its own programs and requirements. For guidance on determining the degree of impact, see [PGI 222.101-3-70\(a\)](#).

(b) Each contracting activity shall obtain and develop data reflecting the impact of a labor dispute on its requirements and programs. Upon determining that the impact of the labor dispute is significant, the head of the contracting activity shall submit a report of findings and recommendations to the labor advisor in accordance with departmental procedures.

222.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) When a contractor is unable to deliver urgent and critical items because of a work stoppage at its facility, the contracting officer, before removing any items from the facility, shall—

(i) Before initiating any action, contact the labor advisor to obtain the opinion of the national office of the Federal Mediation and Conciliation Service or other mediation agency regarding the effect movement of the items would have on labor negotiations. Normally removals will not be made if they will adversely affect labor negotiations.

(ii) Upon the recommendation of the labor advisor, provide a written request for removal of the material to the cognizant contract administration office. Include in the request the information specified at [PGI 222.101-4\(a\)\(ii\)](#).

(iii) With the assistance of the labor advisor or the commander of the contract administration office, attempt to have both the management and the labor representatives involved agree to shipment of the material by normal means.

(iv) If agreement for removal of the needed items cannot be reached following the procedures in paragraphs (a)(i) through (iii) of this subsection, the commander of the contract administration office, after obtaining approval from the labor advisor, may seek the concurrence of the parties to the dispute to permit movement of the material by military vehicles with military personnel. On receipt of such concurrences, the commander may proceed to make necessary arrangements to move the material.

Defense Federal Acquisition Regulation Supplement

Part 222—Application of Labor Laws to Government Acquisitions

(v) If agreement for removal of the needed items cannot be reached following any of the procedures in paragraphs (a)(i) through (iv) of this subsection, refer the matter to the labor advisor with the information required by [222.101-3-70\(b\)](#). If the labor advisor is unsuccessful in obtaining concurrence of the parties for the movement of the material and further action to obtain the material is deemed necessary, refer the matter to the agency head. Upon review and verification that the items are urgently or critically needed and cannot be moved with the consent of the parties, the agency head, on a nondelegable basis, may order removal of the items from the facility.

222.101-70 Acquisition of stevedoring services during labor disputes.

(a) Use the following procedures only in the order listed when a labor dispute delays performance of a contract for stevedoring services which are urgently needed.

(1) Attempt to have management and labor voluntarily agree to exempt military supplies from the labor dispute by continuing the movement of such material.

(2) Divert vessels to alternate ports able to provide necessary stevedoring services.

(3) Consider contracting with reliable alternative sources of supply within the stevedoring industry.

(4) Utilize civil service stevedores to perform the work performed by contract stevedores.

(5) Utilize military personnel to handle the cargo which was being handled by contract stevedores prior to the labor dispute.

(i) Obtain the concurrence of other appropriate approving officials; and

(ii) Seek agreement as to the contracts under which overtime premiums will be approved when—

(A) Two or more contracting offices have current contracts at the same contractor facility; and

(B) The approval of overtime by one contracting office will affect the performance or cost of contracts of another office. In the absence of evidence to the contrary, a contracting officer may rely on a contractor's statement that approval of overtime premium pay for one contract will not affect performance or payments under any other contract.

**SUBPART 222.3—CONTRACT WORK HOURS AND SAFETY
STANDARDS**

(Revised June 15, 2012)

222.302 Liquidated damages and overtime pay.

Upon receipt of notification of Contract Work Hours and Safety Standards violations, the contracting officer shall—

- (1) Immediately withhold such funds as are available;
 - (2) Give the contractor written notification of the withholding and a statement of the basis for the liquidated damages assessment. The written notification shall also inform the contractor of its 60 days right to appeal the assessment, through the contracting officer, to the agency official responsible for acting on such appeals; and
 - (3) If funds available for withholding are insufficient to cover liquidated damages, ask the contractor to pay voluntarily such funds as are necessary to cover the total liquidated damage assessment.
- (d)(i) The assessment shall become the final administrative determination of contractor liability for liquidated damages when—
- (A) The contractor fails to appeal to the contracting agency within 60 days from the date of the withholding of funds;
 - (B) The department agency, following the contractor's appeals, issues a final order which affirms the assessment of liquidated damages or waives damages of \$500 or less; or
 - (C) The Secretary of Labor takes final action on a recommendation of the agency head to waive or adjust liquidated damages in excess of \$500.
- (ii) Upon final administrative determination of the contractor's liability for liquidated damages, the contracting officer shall transmit withheld or collected funds determined to be owed the Government as liquidated damages to the servicing finance and accounting officer for crediting to the appropriate Government Treasury account. The contracting officer shall return any excess withheld funds to the contractor.

**SUBPART 222.4—LABOR STANDARDS FOR CONTRACTS INVOLVING
CONSTRUCTION**

(Revised December 28, 2017)

222.402 Applicability.

222.402-70 Installation support contracts.

(a) Apply both the Service Contract Labor Standards statute and the Construction Wage Rate Requirements statute to installation support contracts if—

(1) The contract is principally for services but also requires a substantial and segregable amount of construction, alteration, renovation, painting, or repair work; and

(2) The aggregate dollar value of such construction work exceeds or is expected to exceed \$2,000.

(b) *Service Contract Labor Standards statute coverage under the contract.* Contract installation support requirements, such as plant operation and installation services (i.e., custodial, snow removal, etc.) are subject to the Service Contract Labor Standards. Apply Service Contract Labor Standards clauses and minimum wage and fringe benefit requirements to all contract service calls or orders for such maintenance and support work.

(c) *Construction Wage Rate Requirements statute coverage under the contract.* Contract construction, alteration, renovation, painting, and repair requirements (i.e., roof shingling, building structural repair, paving repairs, etc.) are subject to the Construction Wage Rate Requirements statute. Apply Construction Wage Rate Requirements clauses and minimum wage requirements to all contract service calls or orders for construction, alteration, renovation, painting, or repairs to buildings or other works.

(d) *Repairs versus maintenance.* Some contract work may be characterized as either Construction Wage Rate Requirements painting/repairs or Service Contract Labor Standards maintenance. For example, replacing broken windows, spot painting, or minor patching of a wall could be covered by either the Construction Wage Rate Requirements or the Service Contract Labor Standards. In those instances where a contract service call or order requires construction trade skills (i.e., carpenter, plumber, painter, etc.), but it is unclear whether the work required is Service Contract Labor Standards maintenance or Construction Wage Rate Requirements painting/repairs, apply the following rules:

(1) Individual service calls or orders which will require a total of 32 or more work-hours to perform shall be considered to be repair work subject to the Construction Wage Rate Requirements.

(2) Individual service calls or orders which will require less than 32 work-hours to perform shall be considered to be maintenance subject to the Service Contract Labor Standards.

(3) Painting work of 200 square feet or more to be performed under an individual service call or order shall be considered to be subject to the Construction

Wage Rate Requirements statute regardless of the total work-hours required.

(e) The determination of labor standards application shall be made at the time the solicitation is prepared in those cases where requirements can be identified. Otherwise, the determination shall be made at the time the service call or order is placed against the contract. The service call or order shall identify the labor standards law and contract wage determination which will apply to the work required.

(f) Contracting officers may not avoid application of the Construction Wage Rate Requirements statute by splitting individual tasks between orders or contracts.

222.403 Statutory and regulatory requirements.

222.403-4 Department of Labor regulations.

Direct all questions regarding Department of Labor regulations to the labor advisor.

222.404 Construction Wage Rate Requirements statute wage determinations.

Not later than April 1 of each year, each department and agency shall furnish the Administrator, Wage and Hour Division, with a general outline of its proposed construction program for the coming fiscal year. The Department of Labor uses this information to determine where general wage determination surveys will be conducted.

(1) Indicate by individual project of \$500,000 or more—

(i) The anticipated type of construction;

(ii) The estimated dollar value; and

(iii) The location in which the work is to be performed (city, town, village, county, or other civil subdivision of the state).

(2) The report format is contained in Department of Labor All Agency Memo 144, December 27, 1985.

(3) The report control number is 1671-DOL-AN.

222.404-2 General requirements.

(c)(5) Follow the procedures at [PGI 222.404-2\(c\)\(5\)](#) when seeking clarification of the proper application of construction wage rate schedules.

222.406 Administration and enforcement.

222.406-1 Policy.

(a) *General.* The program shall also include—

(i) Training appropriate contract administration, labor relations, inspection, and other labor standards enforcement personnel in their responsibilities; and

(ii) Periodic review of field enforcement activities to ensure compliance with applicable regulations and instructions.

(b) *Preconstruction letters and conferences.*

(1) Promptly after award of the contract, the contracting officer shall provide a preconstruction letter to the prime contractor. This letter should accomplish the following, as appropriate—

(A) Indicate that the labor standards requirements contained in the contract are based on the following statutes and regulations—

(1) Construction Wage Rate Requirements statute;

(2) Contract Work Hours and Safety Standards statute;

(3) Copeland (Anti-Kickback) Act;

(4) Parts 3 and 5 of the Secretary of Labor's Regulations (Parts 3 and 5, Subtitle A, Title 29, CFR); and

(5) Executive Order 11246 (Equal Employment Opportunity);

(B) Call attention to the labor standards requirements in the contract which relate to—

(1) Employment of foremen, laborers, mechanics, and others;

(2) Wages and fringe benefits payments, payrolls, and statements;

(3) Differentiation between subcontractors and suppliers;

(4) Additional classifications;

(5) Benefits to be realized by contractors and subcontractors in keeping complete work records;

(6) Penalties and sanctions for violations of the labor standards provisions; and

(7) The applicable provisions of FAR 22.403; and

(C) Ensure that the contractor sends a copy of the preconstruction letter to each subcontractor.

(2) Before construction begins, the contracting officer shall confer with the prime contractor and any subcontractor designated by the prime to emphasize their labor standards obligations under the contract when—

(A) The prime contractor has not performed previous Government contracts;

(B) The prime contractor experienced difficulty in complying with labor standards requirements on previous contracts; or

(C) It is necessary to determine whether the contractor and its subcontractors intend to pay any required fringe benefits in the manner specified in the wage determination or to elect a different method of payment. If the latter, inform the contractor of the requirements of FAR 22.406-2.

222.406-6 Payrolls and statements.

(a) *Submission.* Contractors who do not use Department of Labor Form WH 347 or its equivalent must submit a DD Form 879, Statement of Compliance, with each payroll report.

222.406-8 Investigations.

(a) Before beginning an investigation, the investigator shall inform the contractor of the general scope of the investigation, and that the investigation will include examining pertinent records and interviewing employees. In conducting the investigation, follow the procedures at [PGI 222.406-8\(a\)](#).

(c) *Contractor notification.*

(4)(A) Notify the contractor by certified mail of any finding that it is liable for liquidated damages under the Contract Work Hours and Safety Standards (CWHSS) statute. The notification shall inform the contractor that—

(1) It has 60 days after receipt of the notice to appeal the assessment of liquidated damages; and

(2) The appeal must demonstrate either that the alleged violations did not occur at all, occurred inadvertently notwithstanding the exercise of due care, or the assessment was computed improperly.

(B) If an appeal is received, the contracting officer shall process the appeal in accordance with department or agency regulations.

(d) *Contracting officer's report.* Forward a detailed enforcement report or summary report to the agency head in accordance with agency procedures. Include in the report, as a minimum, the information specified at [PGI 222.406-8\(d\)](#).

222.406-9 Withholding from or suspension of contract payments.

(a) *Withholding from contract payments.* The contracting officer shall contact the labor advisor for assistance when payments due a contractor are not available to satisfy that contractor's liability for Wage Rate Requirements or CWHSS statute wage underpayments or liquidated damages.

(c) *Disposition of contract payments withheld or suspended.*

(3) *Limitation on forwarding or returning funds.* When disposition of withheld funds remains the final action necessary to close out a contract, the Department of Labor will retain withheld funds pending completion of an investigation or other administrative proceedings.

(4) *Liquidated damages.*

(A) The agency head may adjust liquidated damages of \$500 or less when the amount assessed is incorrect or waive the assessment when the violations—

(1) Were nonwillful or inadvertent; and

(2) Occurred notwithstanding the exercise of due care by the contractor, its subcontractor, or their agents.

(B) The agency head may recommend to the Administrator, Wage and Hour Division, that the liquidated damages over \$500 be adjusted because the amount assessed is incorrect. The agency head may also recommend the assessment be waived when the violations—

(1) Were nonwillful or inadvertent; and

(2) Occurred notwithstanding the exercise of due care by the contractor, the subcontractor, or their agents.

222.406-10 Disposition of disputes concerning construction contract labor standards enforcement.

(d) Forward the contracting officer's findings and the contractor's statement through the labor advisor.

222.406-13 Semiannual enforcement reports.

Forward these reports through the head of the contracting activity to the labor advisor within 15 days following the end of the reporting period. These reports shall not include information from investigations conducted by the Department of Labor. These reports shall contain the following information, as applicable, for construction work subject to the Construction Wage Rate Requirements statute and the CWHSS statute—

SUBPART 223.71—STORAGE, TREATMENT, AND DISPOSAL OF TOXIC OR HAZARDOUS MATERIALS

223.7101 Definitions.

As used in this subpart, the terms “storage” and “toxic or hazardous materials” are defined in the clause at [252.223-7006](#), Prohibition on Storage, Treatment, and Disposal of Toxic or Hazardous Materials.

223.7102 Policy.

(a) 10 U.S.C. 2692 prohibits storage, treatment, or disposal on DoD installations of toxic or hazardous materials that are not owned either by DoD or by a member of the armed forces (or a dependent of the member) assigned to or provided military housing on the installation, unless an exception in [223.7104](#) applies.

(b) When storage of toxic or hazardous materials is authorized based on an imminent danger, the storage provided shall be temporary and shall cease once the imminent danger no longer exists. In all other cases of storage or disposal, the storage or disposal shall be terminated as determined by the Secretary of Defense.

223.7103 Procedures.

(a)(1) Storage, treatment, or disposal of toxic or hazardous materials not owned by DoD on a DoD installation is prohibited unless—

(i) One or more of the exceptions set forth in [223.7104](#)(a) is met including requisite approvals; or

(ii) Secretary of Defense authorization is obtained under the conditions set forth in [223.7104](#)(b).

(2) When storage, treatment, or disposal of toxic or hazardous materials not owned by DoD is authorized in accordance with this subpart, the contract shall specify the types and quantities of toxic or hazardous materials that may be temporarily stored, treated, or disposed of in connection with the contract or as a result of the authorized use of a DoD facility or space launch facility. All solicitations and contracts shall specify the conditions under which storage, treatment, or disposal is authorized.

(b) If the contracting officer is uncertain as to whether particular activities are prohibited or fall under one of the exceptions in [223.7104](#), the contracting officer should seek advice from the cognizant office of counsel.

223.7104 Exceptions.

(a) The prohibition of 10 U.S.C. 2692 does not apply to any of the following:

Defense Federal Acquisition Regulation Supplement

Part 223—Environment, Energy and Water Efficiency, Renewable Energy Technologies, Occupational Safety, and Drug-Free Workplace

(1) The storage, treatment, or disposal of materials that will be or have been used in connection with an activity of DoD or in connection with a service to be performed on a DoD installation for the benefit of DoD.

(2) The storage of strategic and critical materials in the National Defense Stockpile under an agreement for such storage with the Administrator of General Services Administration.

(3) The temporary storage or disposal of explosives in order to protect the public or to assist agencies responsible for Federal, State, or local law enforcement in storing or disposing of explosives when no alternative solution is available, if such storage or disposal is made in accordance with an agreement between the Secretary of Defense and the head of the Federal, State, or local agency concerned.

(4) The temporary storage or disposal of explosives in order to provide emergency lifesaving assistance to civil authorities.

(5) The disposal of excess explosives produced under a DoD contract, if the head of the military department concerned determines, in each case, that an alternative feasible means of disposal is not available to the contractor, taking into consideration public safety, available resources of the contractor, and national defense production requirements.

(6) The temporary storage of nuclear materials or nonnuclear classified materials in accordance with an agreement with the Secretary of Energy.

(7) The storage of materials that constitute military resources intended to be used during peacetime civil emergencies in accordance with applicable DoD regulations.

(8) The temporary storage of materials of other Federal agencies in order to provide assistance and refuge for commercial carriers of such material during a transportation emergency.

(9) The storage of any material that is not owned by DoD, if the Secretary of the military department concerned determines that the material is required or generated in connection with the authorized and compatible use of a facility of DoD, including the use of such a facility for testing material or training personnel.

(10) The treatment and disposal of any toxic or hazardous materials not owned by DoD, if the Secretary of the military department concerned determines that the material is required or generated in connection with the authorized and compatible use of a facility of that military department and the Secretary enters into a contract or agreement with the prospective user that—

(i) Is consistent with the best interest of national defense and environmental security; and

(ii) Provides for the prospective user's continued financial and environmental responsibility and liability with regard to the material.

Defense Federal Acquisition Regulation Supplement

Part 223—Environment, Energy and Water Efficiency, Renewable Energy Technologies, Occupational Safety, and Drug-Free Workplace

(11) The storage of any material that is not owned by DoD if the Secretary of the military department concerned determines that the material is required or generated in connection with the use of a space launch facility located on a DoD installation or on other land controlled by the United States.

(b) The Secretary of Defense may grant an exception to the prohibition in 10 U.S.C. 2692 when essential to protect the health and safety of the public from imminent danger if the Secretary otherwise determines the exception is essential and if the storage or disposal authorized does not compete with private enterprise.

223.7105 Reimbursement.

The Secretary of Defense may assess a charge for any storage or disposal provided under this subpart. If a charge is to be assessed, then such assessment shall be identified in the contract with payment to the Government on a reimbursable cost basis.

223.7106 Contract clause.

Use the basic or the alternate of the clause at [252.223-7006](#), Prohibition on Storage, Treatment, and Disposal of Toxic or Hazardous Materials, in all solicitations and contracts which require, may require, or permit contractor access to a DoD installation.

(a) Use the basic clause, unless a determination is made under [223.7104\(a\)\(10\)](#).

(b) Use the alternate I clause when the Secretary of the military department issues a determination under the exception at [223.7104\(a\)\(10\)](#).

(Revised December 9, 2005)

SUBPART 223.72—SAFEGUARDING SENSITIVE CONVENTIONAL ARMS, AMMUNITION, AND EXPLOSIVES

223.7200 Definition.

“Arms, ammunition, and explosives (AA&E),” as used in this subpart, means those items within the scope (chapter 1, paragraph B) of DoD 5100.76-M, Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives.

223.7201 Policy.

(a) The requirements of DoD 5100.76-M, Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives, shall be applied to contracts when—

(1) AA&E will be provided to the contractor or subcontractor as Government-furnished property; or

(2) The principal development, production, manufacture, or purchase of AA&E is for DoD use.

(b) The requirements of DoD 5100.76-M need not be applied to contracts when—

(1) The AA&E to be acquired under the contract is a commercial item within the meaning of FAR 2.101; or

(2) The contract will be performed in a Government-owned contractor-operated ammunition production facility. However, if subcontracts issued under such a contract will meet the criteria of paragraph (a) of this section, the requirements of DoD 5100.76-M shall apply.

223.7202 Preaward responsibilities.

When an acquisition involves AA&E, technical or requirements personnel shall specify in the purchase request—

(a) That AA&E is involved; and

(b) Which physical security requirements of DoD 5100.76-M apply.

223.7203 Contract clause.

Use the clause at 252.223-7007, Safeguarding Sensitive Conventional Arms, Ammunition, and Explosives, in all solicitations and contracts to which DoD 5100.76-M applies, in accordance with the policy at 223.7201. Complete paragraph (b) of the clause based on information provided by cognizant technical or requirements personnel.

**SUBPART 223.73—MINIMIZING THE USE OF MATERIALS CONTAINING
HEXAVALENT CHROMIUM**

(Revised May 20, 2021)

223.7300 Definition.

“Legacy system,” as used in this subpart, means any program that has passed Milestone A in the defense acquisition management system, as defined in DoD Instruction 5000.02.

223.7301 Policy.

In accordance with the DoD policy memorandum of April 8, 2009, Minimizing the Use of Hexavalent Chromium, it is DoD policy to minimize hexavalent chromium (an anti-corrosive) in items acquired by DoD (deliverables and construction material), due to the serious human health and environmental risks related to its use.

223.7302 Reserved.

223.7303 Prohibition.

(a) Except as provided in [223.7304](#) and [223.7305](#), no contract may include a specification or standard that results in a deliverable or construction material containing more than 0.1 percent hexavalent chromium by weight in any homogeneous material in the deliverable or construction material where proven substitutes are available that provide acceptable performance for the application.

(b) This prohibition is in addition to any imposed by the Clean Air Act regardless of the place of performance.

223.7304 Exceptions.

The prohibition in [223.7303](#) does not apply to—

(a) Legacy systems and their related parts, subsystems, and components that already contain hexavalent chromium. However, alternatives to hexavalent chromium shall be considered by the appropriate official during system modifications, follow-on procurements of legacy systems, or maintenance procedure updates; and

(b) Additional sustainment related contracts (e.g., parts, services) for a system in which use of hexavalent chromium was previously approved.

223.7305 Authorization and approval.

(a) The prohibition in [223.7303](#) does not apply to critical defense applications if no substitute can meet performance requirements. The DoD policy of April 8, 2009, “Minimizing the Use of Hexavalent Chromium,” contains requirements for weighing hexavalent chromium versus substitutes. DoD Program Managers must consider the following factors—

- (1) Cost effectiveness of alternative materials or processes;
- (2) Technical feasibility of alternative materials or processes;

Defense Federal Acquisition Regulation Supplement

Part 223—Environment, Energy and Water Efficiency, Renewable Energy Technologies, Occupational Safety, and Drug-Free Workplace

(3) Environment, safety, and occupational health risks associated with the use of the hexavalent chromium or substitute materials in each specific application;

(4) Achieving a DoD Manufacturing Readiness Level of at least eight for any qualified alternative;

(5) Materiel availability of hexavalent chromium and the proposed alternatives over the projected life span of the system; and

(6) Corrosion performance difference of alternative materials or processes as determined by agency corrosion subject matter experts.

(b) However, unless an exception in [223.7304](#) applies, the incorporation of hexavalent chromium in items acquired by DoD shall be specifically authorized at a level no lower than a general or flag officer or a member of the Senior Executive Service from the Program Executive Office or equivalent level, in coordination with the component Corrosion Control and Prevention Executive. Follow the procedures in PGI [223.7305](#).

223.7306 Contract clause.

Unless an exception in [223.7304](#) applies, or use has been authorized in accordance with [223.7305](#), use the clause at [252.223-7008](#), Prohibition of Hexavalent Chromium, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that are for supplies, maintenance and repair services, or construction.

“Eligible product” means, instead of the definition in FAR 25.003—

(1) A foreign end product that—

(i) Is in a category listed in [225.401-70](#); and

Accordingly, the following are qualifying countries:

The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

225.070 Reporting of acquisition of end products manufactured outside the United States.

SUBPART 225.1—BUY AMERICAN—SUPPLIES
(Revised March 26, 2015)

225.101 General.

(a) For DoD, the following two-part test determines whether a manufactured end product is a domestic end product:

(i) The end product is manufactured in the United States; and

(ii) The cost of its U.S. and qualifying country components exceeds 50 percent of the cost of all its components. This test is applied to end products only and not to individual components.

(c) Additional exceptions that allow the purchase of foreign end products are listed at [225.103](#).

225.103 Exceptions.

(a)(i)(A) Public interest exceptions for certain countries are in [225.872](#).

(B) For procurements covered by the World Trade Organization Government Procurement Agreement, the Under Secretary of Defense (Acquisition, Technology, and Logistics) has determined that it is inconsistent with the public interest to apply the Buy American statute to end products that are substantially transformed in the United States.

(ii)(A) Normally, use the evaluation procedures in subpart [225.5](#), but consider recommending a public interest exception if the purposes of the Buy American statute are not served, or in order to meet a need set forth in 10 U.S.C. 2533. For example, a public interest exception may be appropriate—

(1) If accepting the low domestic offer will involve substantial foreign expenditures, or accepting the low foreign offer will involve substantial domestic expenditures;

(2) To ensure access to advanced state-of-the-art commercial technology; or

(3) To maintain the same source of supply for spare and replacement parts (also see paragraph (b)(iii)(B) of this section)—

(i) For an end item that qualifies as a domestic end product; or

(ii) In order not to impair integration of the military and commercial industrial base.

(B) Except as provided in [PGI 225.872-4](#), process a determination for a public interest exception after consideration of the factors in 10 U.S.C. 2533—

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(1) At a level above the contracting officer for acquisitions valued at or below the simplified acquisition threshold;

(2) By the head of the contracting activity for acquisitions with a value greater than the simplified acquisition threshold but less than \$1.5 million; or

(3) By the agency head for acquisitions valued at \$1.5 million or more.

(b)(i) A determination that an article, material, or supply is not reasonably available is required when domestic offers are insufficient to meet the requirement and award is to be made on other than a qualifying country or eligible end product.

(ii) Except as provided in FAR 25.103(b)(3), the determination shall be approved—

(A) At a level above the contracting officer for acquisitions valued at or below the simplified acquisition threshold;

(B) By the chief of the contracting office for acquisitions with a value greater than the simplified acquisition threshold but less than \$1.5 million; or

(C) By the head of the contracting activity or immediate deputy for acquisitions valued at \$1.5 million or more.

(iii) A separate determination as to whether an article is reasonably available is not required for the following articles. DoD has already determined that these articles are not reasonably available from domestic sources:

(A) Spare or replacement parts that must be acquired from the original foreign manufacturer or supplier.

(B) Foreign drugs acquired by the Defense Supply Center, Philadelphia, when the Director, Pharmaceuticals Group, Directorate of Medical Materiel, determines that only the requested foreign drug will fulfill the requirements.

(iv) Under coordinated acquisition (see Subpart [208.70](#)), the determination is the responsibility of the requiring department when the requiring department specifies acquisition of a foreign end product.

(c) The cost of a domestic end product is unreasonable if it is not the low evaluated offer when evaluated under Subpart [225.5](#).

225.105 Determining reasonableness of cost.

(b) Use an evaluation factor of 50 percent instead of the factors specified in FAR 25.105(b).

225.170 Acquisition from or through other Government agencies.

Contracting activities must apply the evaluation procedures in Subpart [225.5](#) when using Federal supply schedules.

SUBPART 225.2—BUY AMERICAN—CONSTRUCTION MATERIALS
(Revised March 26, 2015)

225.202 Exceptions.

(a)(2) A nonavailability determination is not required for construction materials listed in FAR 25.104(a). For other materials, a nonavailability determination shall be approved at the levels specified in [225.103](#)(b)(ii). Use the estimated value of the construction materials to determine the approval level.

225.206 Noncompliance.

(c)(4) Prepare any report of noncompliance in accordance with the procedures at [209.406-3](#) or [209.407-3](#).

SUBPART 225.3—CONTRACTS PERFORMED OUTSIDE THE UNITED STATES

(Revised May 30, 2018)

225.301 Contractor personnel in a designated operational area or supporting a diplomatic or consular mission outside the United States.

225.301-1 Scope.

(a) “Performance in a designated operational area,” as used in this section, means performance of a service or construction, as required by the contract. For supply contracts, the term includes services associated with the acquisition of supplies (e.g., installation or maintenance), but does not include production of the supplies or associated overhead functions.

(c) For DoD, this section also applies to all personal services contracts.

225.301-4 Contract clause.

(1) Use the clause at FAR 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission Outside the United States, in accordance with the prescription at FAR 25.301-4, except that—

(i) The clause shall also be used in personal services contracts with individuals; and

(ii) The clause shall not be used when all contractor personnel performing outside the United States will be covered by the clause at [252.225-7040](#).

(2) When using the clause at FAR 52.225-19, the contracting officer shall inform the contractor that the Synchronized Predeployment and Operational Tracker (SPOT) is the appropriate automated system to use for the list of contractor personnel required by paragraph (g) of the clause. Information on the SPOT system is available at <https://spot.dmdc.mil> and http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html.

225.302 Contractors performing private security functions outside the United States.

225.302-6 Contract clause.

Use the clause at [252.225-7039](#), Defense Contractors Performing Private Security Functions Outside the United States, instead of FAR clause 52.225-26, Contractors Performing Private Security Functions Outside the United States, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, when private security functions are to be performed outside the United States in—

(1) Contingency operations;

(2) Combat operations, as designated by the Secretary of Defense;

(3) Other significant military operations (as defined in 32 CFR part 159), designated by the Secretary of Defense, and only upon agreement of the Secretary of Defense and the Secretary of State;

(4) Peace operations, consistent with Joint Publication 3-07.3; or

(5) Other military operations or military exercises, when designated by the Combatant Commander.

225.370 Contracts requiring performance or delivery in a foreign country.

(a) If the acquisition requires the performance of services or delivery of supplies in an area outside the United States, follow the procedures at [PGI 225.370\(a\)](#).

(b) For work performed in Germany, eligibility for logistics support or base privileges of contractor employees is governed by U.S.-German bilateral agreements. Follow the procedures at Army in Europe Regulation 715-9, available at http://www.eur.army.mil/g1/content/CPD/docper/docper_germanyLinks.html under “AE Regs & Resources.”

(c) For work performed in Japan or Korea, see [PGI 225.370\(b\)](#) for information on bilateral agreements and policy relating to contractor employees in Japan or Korea.

(d) For work performed in the U.S. Central Command area of responsibility, follow the procedures for theater business clearance/contract administration delegation instructions at [PGI 225.370\(d\)](#).

225.371 Contractor personnel supporting U.S. Armed Forces deployed outside the United States.

For additional information on contractor personnel supporting U.S. Armed Forces, see [PGI 225.371](#).

225.371-1 Scope.

(a) This section applies to contracts that involve contractor personnel supporting U.S. Armed Forces deployed outside the United States in—

(1) Contingency operations;

(2) Humanitarian or peacekeeping operations; or

(3) Other military operations or military exercises, when designated by the combatant commander.

(b) Any of the types of operations listed in paragraph (a) of this subsection may include stability operations such as—

(1) Establishment or maintenance of a safe and secure environment; or

(2) Provision of emergency infrastructure reconstruction, humanitarian relief, or essential governmental services (until feasible to transition to local government).

225.371-2 Definition.

“Designated operational area” is defined in the clause at [252.225-7040](#). See [PGI 225.371-2](#) for additional information on designated operational areas.

225.371-3 Government support.

(a) Government support that may be authorized or required for contractor personnel performing in a designated operational area may include, but is not limited to, the types of support listed in [PGI 225.371-3\(a\)](#).

(b) The agency shall provide logistical or security support only when the appropriate agency official, in accordance with agency guidance, determines in coordination with the combatant commander that—

(1) Such Government support is available and is needed to ensure continuation of essential contractor services; and

(2) The contractor cannot obtain adequate support from other sources at a reasonable cost.

(c) The contracting officer shall specify in the solicitation and contract—

(1) Valid terms, approved by the combatant commander, that specify the responsible party, if a party other than the combatant commander is responsible for providing protection to the contractor personnel performing in the designated operational area; and

(2) Any other Government support to be provided, and whether this support will be provided on a reimbursable basis, citing the authority for the reimbursement.

(d) *Medical support of contractor personnel.* The contracting officer shall provide direction to the contractor when the contractor is required to reimburse the Government for medical treatment or transportation of contractor personnel to a selected civilian facility in accordance with paragraph (c)(2)(ii) of the clause at [252.225-7040](#). For additional information, see [PGI 225.371-3\(d\)](#).

(e) *Letter of authorization.* Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)–generated letter of authorization (LOA) signed by the contracting officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The LOA also will identify any additional authorizations, privileges, or Government support that the contractor personnel are entitled to under the contract. For additional information on LOAs, see [PGI 225.371-3\(e\)](#).

225.371-4 Law of war training.

(a) *Basic training.* Basic law of war training is required for all contractor personnel supporting U.S. Armed Forces deployed outside the United States. The basic training normally will be provided through a military-run training center. The contracting officer may authorize the use of an alternate basic training source, provided the servicing DoD legal advisor concurs with the course content. An example of an

alternate source of basic training is the web-based training provided by the Defense Acquisition University at <https://acc.dau.mil/CommunityBrowser.aspx?id=18014&lang=en-US>.

(b) *Advanced law of war training.*

(1) The types of personnel that must obtain advanced law of war training include the following:

(i) Private security contractors.

(ii) Security guards in or near areas of military operations.

(iii) Interrogators, linguists, interpreters, guards, report writers, information technology technicians, or others who will come into contact with enemy prisoners of war, civilian internees, retained persons, other detainees, terrorists, or criminals who are captured, transferred, confined, or detained during or in the aftermath of hostilities.

(iv) Other personnel when deemed necessary by the contracting officer.

(2) If contractor personnel will be required to obtain advanced law of war training, the solicitation and contract shall specify—

(i) The types of personnel subject to advanced law of war training requirements;

(ii) Whether the training will be provided by the Government or the contractor;

(iii) If the training will be provided by the Government, the source of the training; and

(iv) If the training will be provided by the contractor, a requirement for coordination of the content with the servicing DoD legal advisor to ensure that training content is commensurate with the duties and responsibilities of the personnel to be trained.

225.371-5 Contract clauses.

Use the clause 252.225-7980, Contractor Personnel Performing in the United States Africa Command Area of Responsibility ([DEVIATION 2016-O0008](#))(JUN 2016), in lieu of the clause at DFARS 252.225-7040, Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that will require contractor personnel to perform in the United States Africa Command (AFRICOM) area of responsibility. This class deviation remains in effect until incorporated in the DFARS or otherwise rescinded.

Use the clause 252.225-7993, Prohibition on Providing Funds to the Enemy ([DEVIATION 2015-O0016](#))(SEP 2015), in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of

This class deviation remains in effect until incorporated in the Federal Acquisition Regulation or otherwise rescinded.

Use the clause 252.225-7994, Additional Access to Contractor and Subcontractor Records in the United States Central Command Theater of Operations ([DEVIATION 2015-O0013](#))(MAR 2015), in all solicitations and contracts awarded prior to December 19, 2017, valued at more than \$100,000, that are to be performed in the United States Central Command (USCENCOM) theater of operations. This class deviation remains in effect until incorporated in the DFARS or otherwise rescinded.

Use the clause at 252.225-7976 Contractor Personnel Performing in Japan ([DEVIATION 2018-O0019](#)) (AUG 2018) in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisitions of commercial items, that will require contractor personnel to perform in Japan. The clause requires DoD contractors to account for contractor personnel and dependents in the Synchronized Predeployment and Operational Tracker, in order for the contractor personnel and dependents to be eligible for coverage under the Status of Forces Agreement.

(a) Use the clause at [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, instead of the clause at FAR 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission Outside the United States, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, for performance in a designated operational area that authorize contractor personnel (including both contractors authorized to accompany the Force (CAAF) and non-CAAF) to support U.S. Armed Forces deployed outside the United States in—

- (1) Contingency operations;

(2) Peace operations consistent with Joint Publication 3-07.3; or

SUBPART 225.4—TRADE AGREEMENTS

(Revised December 30, 2015)

225.401 Exceptions.

(a)(2)(A) If a department or agency considers an individual acquisition of a product to be indispensable for national security or national defense purposes and appropriate for exclusion from the provisions of FAR subpart 25.4, it may submit a request with supporting rationale to the Director of Defense Procurement and Acquisition Policy (OUSD(AT&L)DPAP). Approval by OUSD(AT&L)DPAP is not required if—

- (1) Purchase from foreign sources is restricted by statute (see Subpart 225.70);
- (2) Another exception in FAR 25.401 applies to the acquisition; or
- (3) Competition from foreign sources is restricted under subpart [225.71](#).

(B) Public interest exceptions for certain countries when acquiring products or services in support of operations in Afghanistan are in [225.7704-1](#).

225.401-70 End products subject to trade agreements.

Acquisitions of end products in the following product service groups (PSGs) are covered by trade agreements if the value of the acquisition is at or above the applicable trade agreement threshold and no exception applies. If an end product is not in one of the listed groups, the trade agreements do not apply. The definition of Caribbean Basin country end products in FAR 25.003 excludes those end products that are not eligible for duty-free treatment under 19 U.S.C. 2703(b). Therefore certain watches, watch parts, and luggage from certain Caribbean Basin countries are not eligible products. However, [225.003](#) expands the definition of Caribbean Basin country end products to include petroleum and any product derived from petroleum, in accordance with Section 8094 of Pub. L. 103-139.

225.402 General.

To estimate the value of the acquisition, use the total estimated value of end products covered by trade agreements (see [225.401-70](#)).

225.403 World Trade Organization Government Procurement Agreement and Free Trade Agreements.

(c) For acquisitions of supplies covered by the World Trade Organization Government Procurement Agreement, acquire only U.S.-made, qualifying country, or designated country end products unless—

(i) The contracting officer determines that offers of U.S.-made, qualifying country, or designated country end products from responsive, responsible offerors are either—

(A) Not received; or

(B) Insufficient to fill the Government's requirements. In this case, accept all responsive, responsible offers of U.S.-made, qualifying country, and eligible products before accepting any other offers;

(ii) A national interest waiver under 19 U.S.C. 2512(b)(2) is granted on a case-by-case basis. Except as delegated in paragraphs (c)(i)(A) and (B) of this section, submit any request for a national interest waiver to the Director of Defense Procurement and Acquisition Policy in accordance with department or agency procedures. Include supporting rationale with the request.

(A) The head of the contracting activity may approve a national interest waiver for a purchase by an overseas purchasing activity, if the waiver is supported by a written statement from the requiring activity that the products being acquired are critical for the support of U.S. forces stationed abroad.

(B) The Commander or Director, Defense Energy Support Center, may approve national interest waivers for purchases of fuel for use by U.S. forces overseas; or

(iii) The acquisition is in support of operations in Afghanistan (see [225.7704-1](#)).

225.408 Procedures.

(a)(4) The requirements of FAR 25.408(a)(4), on submission of offers in U.S. dollars, do not apply to overseas acquisitions or to Defense Energy Support Center post, camp, or station overseas requirements.

SUBPART 225.5—EVALUATING FOREIGN OFFERS—SUPPLY CONTRACTS
(Revised September 30, 2013)

225.502 Application.

(a) Whenever the acquisition is in support of operations in Afghanistan, treat the offers of end products from South Caucasus or Central and South Asian states listed in [225.401-70](#) the same as qualifying country offers.

(b) Use the following procedures instead of the procedures in FAR 25.502(b) for acquisitions subject to the World Trade Organization Government Procurement Agreement:

(i) Consider only offers of U.S.-made, qualifying country, or designated country end products, except as permitted by [225.403](#) or [225.7703-1](#).

(ii) If price is the determining factor, award on the low offer.

(c) Use the following procedures instead of those in FAR 25.502(c) for acquisitions subject to the Buy American statute or the Balance of Payments Program:

(i)(A) If the acquisition is subject only to the Buy American statute or the Balance of Payments Program, then only qualifying country end products are exempt from application of the Buy American or Balance of Payments Program evaluation factor.

(B) If the acquisition is also subject to a Free Trade Agreement, then eligible products of the applicable Free Trade Agreement country are also exempt from application of the Buy American or Balance of Payments Program evaluation factor.

(ii) If price is the determining factor, use the following procedures:

(A) If the low offer is a domestic offer, award on that offer.

(B) If there are no domestic offers, award on the low offer (see example in [225.504\(1\)](#)).

(C) If the low offer is a foreign offer that is exempt from application of the Buy American or Balance of Payments Program evaluation factor, award on that offer. (If the low offer is a qualifying country offer from a country listed at [225.872-1\(b\)](#), execute a determination in accordance with [225.872-4](#)).

(D) If the low offer is a foreign offer that is not exempt from application of the Buy American or Balance of Payments Program evaluation factor, and there is another foreign offer that is exempt and is lower than the lowest domestic offer, award on the low foreign offer (see example in [225.504\(2\)](#)).

(E) Otherwise, apply the 50 percent evaluation factor to the low foreign offer.

(1) If the price of the low domestic offer is less than the evaluated price of the low foreign offer, award on the low domestic offer (see example in [225.504\(3\)](#)).

(2) If the evaluated price of the low foreign offer remains less than the low domestic offer, award on the low foreign offer (see example in [225.504\(4\)](#)).

(iii) If price is not the determining factor, use the following procedures:

(A) If there are domestic offers, apply the 50 percent Buy American or Balance of Payments Program evaluation factor to all foreign offers unless an exemption applies.

(B) Evaluate in accordance with the criteria of the solicitation.

(C) If these procedures will not result in award on a domestic offer, re-evaluate offers without the 50 percent factor. If this will result in award on an offer to which the Buy American statute or Balance of Payments Program applies, but evaluation in accordance with paragraph (c)(ii) of this section would result in award on a domestic offer, proceed with award only after execution of a determination in accordance with [225.103\(a\)\(ii\)\(B\)](#), that domestic preference would be inconsistent with the public interest.

(iv) If the solicitation includes the provision at [252.225-7023](#), Preference for Products or Services from Afghanistan, use the evaluation procedures at [225.7703-3](#).

225.503 Group offers.

Evaluate group offers in accordance with FAR 25.503, but apply the evaluation procedures of [225.502](#).

225.504 Evaluation examples.

For examples that illustrate the evaluation procedures in [225.502\(c\)\(ii\)](#), see [PGI 225.504](#).

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

SUBPART 225.6
(Removed July 11, 2006)

SUBPART 225.7—PROHIBITED SOURCES

(Revised September 29, 2021)

225.701 Restrictions.

225.701-70 Exception.

DoD personnel are authorized to make emergency acquisitions in direct support of U.S. or allied forces deployed in military contingency, humanitarian, or peacekeeping operations in a country or region subject to economic sanctions administered by the Department of the Treasury, Office of Foreign Assets Control.

225.770 Prohibition on acquisition of certain items from Communist Chinese military companies.

This section implements section 1211 of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163), section 1243 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81), and section 1296 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328). See [PGI 225.770](#) for additional information relating to this statute, the terms used in this section, the United States Munitions List (USML), and the 600 series of the Commerce Control List (CCL).

225.770-1 Definitions.

As used in this section—

“Component” means an item that is useful only when used in conjunction with an end item (15 CFR 772.1 and 22 CFR 120.45(b)).

“Item” means—

- (1) A USML defense article, as defined at 22 CFR 120.6;
- (2) A USML defense service, as defined at 22 CFR 120.9; or
- (3) A 600 series item, as defined at 15 CFR 772.1.

“Part” means any single unassembled element of a major or minor component, accessory, or attachment, that is not normally subject to disassembly without the destruction or impairment of designed use (15 CFR 772.1 and 22 CFR 120.45(d)).

225.770-2 Prohibition.

Do not acquire items covered by the USML or the 600 series of the CCL, through a contract or subcontract at any tier, from any Communist Chinese military company. This prohibition does not apply to components and parts of covered items unless the components and parts are themselves covered by the USML or the 600 series of the CCL.

225.770-3 Exceptions.

The prohibition in [225.770-2](#) does not apply to items acquired—

- (a) In connection with a visit to the People’s Republic of China by a vessel or an aircraft of the U.S. armed forces;

- (b) For testing purposes; or
- (c) For the purpose of gathering intelligence.

225.770-4 Identifying items covered by the USML or the 600 series of the CCL.

(a) Before issuance of a solicitation, the requiring activity will notify the contracting officer in writing whether the items to be acquired are covered by the USML or the 600 series of the CCL. The notification will identify any covered item(s) and will provide the pertinent USML reference(s) from 22 CFR part 121 or the 600 series of the CCL references from 15 CFR part 774, Supplement No. 1.

(b) The USML includes defense articles and defense services that fall into 21 categories. The CCL includes ten categories and five product groups in each category, many of which contain 600 series items. Since not all items covered by the USML or 600 series of the CCL are themselves munitions (e.g., protective personnel equipment, military training equipment), the requiring activity should consult the USML and the 600 series of the CCL before concluding that an item is or is not covered. See [PGI 225.770-4](#).

225.770-5 Waiver of prohibition.

(a) The prohibition in [225.770-2](#) may be waived, on a case-by-case basis, if an official identified in paragraph (b) of this subsection determines that a waiver is necessary for national security purposes.

(b) The following officials are authorized, without power of delegation, to make the determination specified in paragraph (a) of this subsection:

- (1) The Under Secretary of Defense (Acquisition and Sustainment).
- (2) The Secretaries of the military departments.
- (3) The Component Acquisition Executive of the Defense Logistics Agency.

(c)(1) The official granting a waiver shall submit a report to the congressional defense committees, with a copy to the Director of Defense Procurement and Acquisition Policy (see [PGI 225.770-5](#)), not less than 15 days before issuing the waiver.

(2) In the report, the official shall—

- (i) Identify the specific reasons for the waiver; and
- (ii) Include recommendations as to what actions may be taken to develop alternative sourcing capabilities in the future.

225.771 Prohibition on contracting or subcontracting with a firm that is owned or controlled by the government of a country that is a state sponsor of terrorism.

- (i) The firm;
- (ii) A subsidiary of the firm; or
- (iii) Any other firm that owns or controls the firm.

(b) For restrictions on subcontracting with a firm, or a subsidiary of a firm, that is identified by the Secretary of Defense as being owned or controlled by the government of a country that is a state sponsor of terrorism, see [209.405-2](#).

225.771-3 Notification.

Any disclosure that the government of a country that is a state sponsor of terrorism has a significant interest in an offeror, a subsidiary of an offeror, or any other firm that owns or controls an offeror shall be forwarded through agency channels to the address at [PGI 225.771-3](#).

225.771-4 Waiver of prohibition.

The prohibition in [225.771-2](#) may be waived if the Secretary of Defense determines that a waiver is not inconsistent with the national security objectives of the United States in accordance with 10 U.S.C. 2327(c).

225.771-5 Solicitation provision.

Use the provision at [252.225-7050](#), Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items (other than commercial satellite services), that are expected to result in contracts of \$150,000 or more. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.225-7050](#) in the solicitation.

225.772 Prohibition on acquisition of certain foreign commercial satellite services.

225.772-0 Scope.

This section implements 10 U.S.C. 2279.

225.772-1 Definitions.

(10 U.S.C. 2279)

“Foreign entity” means—

(1) Any branch, partnership, group or sub-group, association, estate, trust, corporation or division of a corporation, or organization organized under the laws of a foreign state if either its principal place of business is outside the United States or its equity securities are primarily traded on one or more foreign exchanges.

(2) Notwithstanding paragraph (1) of this definition, any branch, partnership, group or sub-group, association, estate, trust, corporation or division of a corporation, or organization that demonstrates that a majority of the equity interest in such entity is ultimately owned by U.S. nationals is not a foreign entity. (31 CFR 800.212)

“Government of a covered foreign country” includes the state and the government of a covered foreign country, as well as any political subdivision, agency, or instrumentality thereof.

(ii) The foreign entity plans to or is expected to provide satellite services under the contract from a covered foreign country; or

(iii) Entering into such contract would create an unacceptable cybersecurity risk for DoD, as determined by the Under Secretary of Defense for Acquisition and Sustainment or the Under Secretary of Defense for Policy; or

(2) An offeror that is offering commercial satellite services provided by a foreign entity as described in paragraph (a) of this section; or

(b)(1) Any entity, except as provided in paragraph (b)(2) of this section, for a launch that occurs on or after December 31, 2022, if the Under Secretary of Defense for Acquisition and Sustainment or the Under Secretary of Defense for Policy reasonably believes that such satellite services will be provided using satellites that will be—

225.772-3 Procedures.

(a)(1) The contracting officer shall not award to any source that is a foreign satellite service provider or is offering satellite services provided by a foreign entity if such award presents an unacceptable cybersecurity risk, as determined by the Under Secretary of Defense for Acquisition and Sustainment or the Under Secretary of Defense for Policy.

Part 225—Foreign Acquisition

(2) When procuring commercial satellite services from a foreign entity, the contracting officer shall review the exclusion records in the System for Award Management (SAM) database as required at FAR 9.405, to ensure that an entity identified in, or otherwise known to be involved in, the otherwise successful offer is not listed as ineligible in the SAM database (see FAR 9.405).

(b) If an offeror discloses information in accordance with paragraph (c) of the provision [252.225-7049](#), Prohibition on Acquisition of Certain Foreign Commercial Satellite Services—Representations, the contracting officer—

(1) Shall forward the information regarding the offeror through agency channels to the address at [PGI 225.772-3](#); and

(2) Shall not award to that offeror, unless an exception is determined to apply in accordance with [225.772-4](#).

(c)(1) If the otherwise successful offeror provides negative responses to all representations in the provision at [252.225-7049](#), the contracting officer may rely on the representations, unless the contracting officer has an independent reason to question the representations.

(2) If the contracting officer has an independent reason to question a negative representation of the otherwise successful offeror, the contracting officer shall consult with the office specified in [PGI 225.772-3](#), prior to deciding whether to award to that offeror.

225.772-4 Exception.

(a) The prohibitions in [225.772-2](#)(a) and (b) do not apply if—

(1) The Under Secretary of Defense for Acquisition and Sustainment, or the Under Secretary of Defense for Policy, without power of redelegation, determines that it is in the national security interest of the United States to enter into such contract; and

(2) Not later than seven days before entering into such contract, the Under Secretary of Defense making the determination in paragraph (a)(1) of this section, in consultation with the Director of National Intelligence, submits to the congressional defense committees a national security assessment, in accordance with 10 U.S.C. 2279.

(b) If requesting an exception pursuant to paragraph (a) of this section, the contracting officer shall forward the request through agency channels to the address at [PGI 225.772-3](#), providing any available information necessary for the Under Secretary of Defense making the determination in paragraph (a)(1) of this section to evaluate the request and perform a national security assessment, in accordance with 10 U.S.C. 2279.

225.802-70 Contracts for performance outside the United States and Canada. Follow the procedures at [PGI 225.802-70](#) when placing a contract requiring performance outside the United States and Canada. Also see subpart [225.3](#), Contracts Performed Outside the United States.

225.802-71 End use certificates.

Contracting officers considering the purchase of an item from a foreign source may encounter a request for the signing of a certificate to indicate that the Armed Forces of the United States is the end user of the item, and that the U.S. Government will not transfer the item to third parties without authorization from the Government of the country selling the item. When encountering this situation, refer to DoD Directive 2040.3, End Use Certificates, for guidance.

225.870 Contracting with Canadian contractors.

225.870-1 General.

(a) The Canadian government guarantees to the U.S. Government all commitments, obligations, and covenants of the Canadian Commercial Corporation under any contract or order issued to the Corporation by any contracting office of the U.S. Government. The Canadian government has waived notice of any change or modification that may be made, from time to time, in these commitments, obligations, or covenants.

(b) For production planning purposes, Canada is part of the defense industrial base (see [225.870-2\(b\)](#)).

(c) The Canadian Commercial Corporation will award and administer contracts with contractors located in Canada, except for—

(1) Negotiated acquisitions for experimental, developmental, or research work under projects other than the Defense Development Sharing Program;

(2) Acquisitions of unusual or compelling urgency;

(3) Acquisitions at or below the simplified acquisition threshold; or

(4) Acquisitions made by DoD activities located in Canada.

(d) For additional information on production rights, data, and information; services provided by Canadian Commercial Corporation; audit; and inspection, see [PGI 225.870-1\(d\)](#).

225.870-2 Solicitation of Canadian contractors.

(a) If requested, furnish a solicitation to the Canadian Commercial Corporation even if no Canadian firm is solicited.

(b) Handle acquisitions at or below the simplified acquisition threshold directly with Canadian firms and not through the Canadian Commercial Corporation.

225.870-3 Submission of offers.

(a) As indicated in [225.870-4](#), the Canadian Commercial Corporation is the prime contractor. To indicate acceptance of offers by individual Canadian companies, the Canadian Commercial Corporation issues a letter supporting the Canadian offer and containing the following information:

(1) Name of the Canadian offeror.

(2) Confirmation and endorsement of the offer in the name of the Canadian Commercial Corporation.

(3) A statement that the Corporation shall subcontract 100 percent with the offeror.

(b) When a Canadian offer cannot be processed through the Canadian Commercial Corporation in time to meet the date for receipt of offers, the Corporation may permit Canadian firms to submit offers directly. However, the contracting officer shall receive the Canadian Commercial Corporation's endorsement before contract award.

(c) The Canadian Commercial Corporation will submit all sealed bids in terms of U.S. currency. Do not adjust contracts awarded under sealed bidding for losses or gains from fluctuation in exchange rates.

(d) Except for sealed bids, the Canadian Commercial Corporation normally will submit offers and quotations in terms of Canadian currency. The Corporation may, at the time of submitting an offer, elect to quote and receive payment in terms of U.S. currency, in which case the contract—

(2) Shall not be adjusted for losses or gains from fluctuation in exchange rates.

225.870-4 Contracting procedures.

(a) Except for contracts described in [225.870-1\(c\)\(1\)](#) through (4), award individual contracts covering purchases from suppliers located in Canada to the Canadian Commercial Corporation, 350 Albert Street, Suite 700, Ottawa, ON, K1R-1A4.

(b) Direct communication with the Canadian supplier is authorized and encouraged in connection with all technical aspects of the contract, provided the Corporation's approval is obtained on any matters involving changes to the contract.

(c) *Requirement for data other than certified cost or pricing data.*

(1) DoD has waived the requirement for submission of certified cost or pricing data for the Canadian Commercial Corporation and its subcontractors (see [215.403-1\(c\)\(4\)\(C\)](#)).

(2) The Canadian Commercial Corporation is not exempt from the requirement to submit data other than certified cost or pricing data, as defined in FAR 2.101. In accordance with FAR 15.403-3(a)(1)(ii), the contracting officer shall require submission of data other than certified cost or pricing data from the offeror, to the extent necessary to determine a fair and reasonable price.

(i) No further approval is required to request data other than certified cost or pricing data from the Canadian Commercial Corporation in the following circumstances:

(A) In a solicitation for a sole source acquisition that is—

(1) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(2) Fixed-price, if the contract value is expected to exceed \$500 million.

(B) If the Canadian Commercial Corporation submits the only offer in response to a competitive solicitation that meets the thresholds specified in paragraph (c)(2)(i)(A) of this section.

(C) For modifications that exceed \$150,000 in contracts that meet the criteria in paragraph (c)(2)(i)(A) or (B) of this section.

(D) In competitive solicitations in which data other than certified cost or pricing data are required from all offerors.

(ii) In any circumstances other than those specified in paragraph (2)(i) of this section, the contracting officer shall only require data other than certified cost or pricing data from the Canadian Commercial Corporation if the head of the contracting activity, or designee no lower than two levels above the contracting officer, determines that data other than certified cost or pricing data are needed (or in the case of modifications that it is reasonably certain that data other than certified cost or pricing data will be needed) in order to determine that the price is fair and reasonable) (see FAR 15.403-3(a)).

(3) The contracting officer shall use the provision at [252.215-7003](#), Requirement for Submission of Data Other Than Certified Cost or Pricing Data—Canadian Commercial Corporation, and the clause at [252.215-7004](#), Requirement for Submission of Data Other Than Certified Cost or Pricing Data—Modifications—Canadian Commercial Corporation, as prescribed at [215.408\(2\)\(i\)](#) and (ii), respectively.

(4) Except for contracts described in [225.870-1\(c\)\(1\)](#) through (4), Canadian suppliers will provide required data other than certified cost or pricing data exclusively through the Canadian Commercial Corporation.

(5) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the contracting officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award, unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror, based on consideration of the following:

- (i) The effort made to obtain the data.
- (ii) The need for the item or service.
- (iii) Increased cost or significant harm to the Government if award is not made.

(d) Identify in the contract, the type of currency, i.e., U.S. or Canadian. Contracts that provide for payment in Canadian currency shall—

(1) Quote the contract price in terms of Canadian dollars and identify the amount by the initials “CN”, e.g., \$1,647.23CN; and

(2) Clearly indicate on the face of the contract the U.S./Canadian conversion rate at the time of award and the U.S. dollar equivalent of the Canadian dollar contract amount.

225.870-5 Contract administration.

Follow the contract administration procedures at [PGI 225.870-5](#).

225.870-6 Termination procedures.

When contract termination is necessary, follow the procedures at [249.7000](#).

225.870-7 Acceptance of Canadian supplies.

For information on the acceptance of Canadian supplies, see [PGI 225.870-7](#).

225.870-8 Industrial security.

Industrial security for Canada shall be in accordance with the U.S.-Canada Industrial Security Agreement of March 31, 1952, as amended.

225.871 North Atlantic Treaty Organization (NATO) cooperative projects.

(3) Agency heads are authorized to solicit and award contracts to implement cooperative projects.

(b) Contracts implementing cooperative projects shall comply with all applicable laws relating to Government acquisition, unless a waiver is granted under [225.871-4](#). A waiver of certain laws and regulations may be obtained if the waiver—

(1) Is required by the terms of a written cooperative project agreement;

(2) Will significantly further NATO standardization, rationalization, and interoperability; and

(3) Is approved by the appropriate DoD official.

225.871-4 Statutory waivers.

(c) To request a waiver under a cooperative project, follow the procedures at [PGI 225.871-4](#).

(d) Obtain the approval of the Deputy Secretary of Defense before committing to make a waiver in an agreement or a contract.

225.871-5 Directed subcontracting.

(a) The Director of Defense Procurement and Acquisition Policy may authorize the direct placement of subcontracts with particular subcontractors. Directed subcontracting is not authorized unless specifically addressed in the cooperative project agreement.

(b) In some instances, it may not be feasible to name specific subcontractors at the time the agreement is concluded. However, the agreement shall clearly state the general provisions for work sharing at the prime and subcontract level. For additional information on cooperative project agreements, see [PGI 225.871-5](#).

225.871-6 Disposal of property.

(b) Congressional notification is also required each time a statutory waiver under [225.871-4](#) is incorporated in a contract or a contract modification, if such information was not provided in the certification to Congress before finalizing the cooperative agreement.

225.872 Contracting with qualifying country sources.

225.872-1 General.

(a) As a result of memoranda of understanding and other international agreements, DoD has determined it inconsistent with the public interest to apply restrictions of the Buy American statute or the Balance of Payments Program to the acquisition of qualifying country end products from the following qualifying countries:

Australia
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Federal Republic of Germany
Finland
France
Greece
Israel
Italy
Japan
Latvia
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland

(b) Individual acquisitions of qualifying country end products from the following qualifying country may, on a purchase-by-purchase basis (see [225.872-4](#)), be exempted from application of the Buy American statute and the Balance of Payments Program as inconsistent with the public interest:

Austria

(c) The determination in paragraph (a) of this subsection does not limit the authority of the Secretary concerned to restrict acquisitions to domestic sources or reject an otherwise acceptable offer from a qualifying country source when considered necessary for national defense reasons.

225.872-2 Applicability.

(a) This section applies to all acquisitions of supplies except those restricted by—

(1) U.S. National Disclosure Policy, DoDD 5230.11, Disclosure of Classified Military Information to Foreign Governments and International Organizations;

(2) U.S. defense mobilization base requirements purchased under the authority of FAR 6.302-3(a)(2)(i), except for quantities in excess of that required to maintain the defense mobilization base. This restriction does not apply to Canadian planned producers.

(i) Review individual solicitations to determine whether this restriction applies.

(ii) Information concerning restricted items may be obtained from the Deputy Under Secretary of Defense (Industrial Affairs);

(3) Other U.S. laws or regulations (e.g., the annual DoD appropriations act); and

(4) U.S. industrial security requirements.

(b) This section does not apply to construction contracts.

225.872-3 Solicitation procedures.

(a) Except for items developed under the U.S./Canadian Development Sharing Program, use the criteria for soliciting and awarding contracts to small business concerns under FAR Part 19 without regard to whether there are potential qualifying country sources for the end product. Do not consider an offer of a qualifying country end product if the solicitation is identified for the exclusive participation of small business concerns.

(b) Send solicitations directly to qualifying country sources. Solicit Canadian sources through the Canadian Commercial Corporation in accordance with [225.870](#).

(c) Use international air mail if solicitation destinations are outside the United States and security classification permits such use.

(d) If unusual technical or security requirements preclude the acquisition of otherwise acceptable defense equipment from qualifying country sources, review the need for such requirements. Do not impose unusual technical or security requirements

solely for the purpose of precluding the acquisition of defense equipment from qualifying countries.

(e) Do not automatically exclude qualifying country sources from submitting offers because their supplies have not been tested and evaluated by the department or agency.

(1) Consider the adequacy of qualifying country service testing on a case-by-case basis. Departments or agencies that must limit solicitations to sources whose items have been tested and evaluated by the department or agency shall consider supplies from qualifying country sources that have been tested and accepted by the qualifying country for service use.

(2) The department or agency may perform a confirmatory test, if necessary.

(3) Apply U.S. test and evaluation standards, policies, and procedures when the department or agency decides that confirmatory tests of qualifying country end products are necessary.

(4) If it appears that these provisions might adversely delay service programs, obtain the concurrence of the Under Secretary of Defense (Acquisition, Technology, and Logistics), before excluding the qualifying country source from consideration.

(f) Permit industry representatives from a qualifying country to attend symposia, program briefings, prebid conferences (see FAR 14.207 and 15.201(c)), and similar meetings that address U.S. defense equipment needs and requirements. When practical, structure these meetings to allow attendance by representatives of qualifying country concerns.

225.872-4 Individual determinations.

If the offer of an end product from a qualifying country source listed in [225.872-1\(b\)](#), as evaluated, is low or otherwise eligible for award, prepare a determination and findings exempting the acquisition from the Buy American statute and the Balance of Payments Program as inconsistent with the public interest, unless another exception such as the Trade Agreements Act applies. Follow the procedures at [PGI 225.872-4](#).

225.872-5 Contract administration.

(a) Arrangements exist with some qualifying countries to provide reciprocal contract administration services. Some arrangements are at no cost to either government. To determine whether such an arrangement has been negotiated and what contract administration functions are covered, contact the Deputy Director of Defense Procurement and Acquisition Policy (Contract Policy and International Contracting), ((703) 697-9351, DSN 227-9351).

(b) Follow the contract administration procedures at [PGI 225.872-5\(b\)](#).

(c) Information on quality assurance delegations to foreign governments is in Subpart [246.4](#), Government Contract Quality Assurance.

225.872-6 Request for audit services.

Handle requests for audit services in France, Germany, the Netherlands, or the United Kingdom in accordance with [PGI 215.404-2\(c\)](#), but follow the additional procedures at [PGI 225.872-6](#).

225.872-7 Industrial security for qualifying countries.

The required procedures for safeguarding classified defense information necessary for the performance of contracts awarded to qualifying country sources are in the National Industrial Security Program Operating Manual, 32 CFR part 117 (implemented for the Army by AR 380-49; for the Navy by SECNAV Instruction 5510.1H; for the Air Force by AFI 31-601; for the Defense Information Systems Agency by DCA Instruction 240-110-8; and for the National Imagery and Mapping Agency by NIMA Instruction 5220.22).

225.872-8 Subcontracting with qualifying country sources.

In reviewing contractor subcontracting procedures, the contracting officer shall ensure that the contract does not preclude qualifying country sources from competing for subcontracts, except when restricted by national security interest reasons, mobilization base considerations, or applicable U.S. laws or regulations (see the clause at [252.225-7002](#), Qualifying Country Sources as Subcontractors).

225.873 Waiver of United Kingdom commercial exploitation levies.

225.873-1 Policy.

DoD and the Government of the United Kingdom (U.K.) have agreed to waive U.K. commercial exploitation levies and U.S. nonrecurring cost recoupment charges on a reciprocal basis. For U.K. levies to be waived, the offeror or contractor shall identify the levies and the contracting officer shall request a waiver before award of the contract or subcontract under which the levies are charged.

225.873-2 Procedures.

When an offeror or a contractor identifies a levy included in an offered or contract price, follow the procedures at [PGI 225.873-2](#).

SUBPART 225.9—CUSTOMS AND DUTIES

(Revised May 10, 2016)

225.900-70 Definition.

“Component,” as used in this subpart, means any item supplied to the Government as part of an end product or of another component.

225.901 Policy.

Unless the supplies are entitled to duty-free treatment under a special category in the Harmonized Tariff Schedule of the United States (e.g., the Caribbean Basin Economic Recovery Act or a Free Trade Agreement), or unless the supplies already have entered into the customs territory of the United States and the contractor already has paid the duty, DoD will issue duty-free entry certificates for—

- (1) Qualifying country supplies (end products and components);
- (2) Eligible products (end products but not components) under contracts covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement; and
- (3) Other foreign supplies for which the contractor estimates that duty will exceed \$300 per shipment into the customs territory of the United States.

225.902 Procedures.

Follow the entry and release procedures at [PGI 225.902](#).

225.903 Exempted supplies.

- (b)(i) For an explanation of the term “supplies,” see [PGI 225.903\(b\)\(i\)](#).
- (ii) The duty-free certificate shall be printed, stamped, or typed on the face of, or attached to, Customs Form 7501. A duly designated officer or civilian official of the appropriate department or agency shall execute the certificate in the format provided at [PGI 225.903\(b\)\(ii\)](#).

225.1101 Acquisition of supplies.

(1) Use the basic or the alternate of the provision at [252.225-7000](#), Buy American—Balance of Payments Program Certificate, instead of the provision at FAR 52.225-2, Buy American Certificate, in any solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that includes the basic or the alternate of the clause at [252.225-7001](#), Buy American and Balance of Payments Program. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.225-7000](#) in the solicitation.

(i) Use the basic provision when the solicitation includes the basic clause at [252.225-7001](#).

(ii) Use the alternate I provision when the solicitation includes alternate I of the clause at [252.225-7001](#).

(2)(i) Use the basic or the alternate of the clause at [252.225-7001](#), Buy American and Balance of Payments Program, instead of the clause at FAR 52.225-1, Buy American—Supplies, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, unless—

(A) All line items will be acquired from a particular source or sources under the authority of FAR 6.302-3;

(B) All line items require domestic or qualifying country end products in accordance with subpart [225.70](#), but note that this exception does not apply if subpart [225.70](#) only requires manufacture of the end product in the United States or in the United States or Canada, without a corresponding requirement for use of domestic components;

(C) The acquisition is for supplies for use within the United States and an exception to the Buy American statute applies, e.g., nonavailability or public interest (see FAR 25.103 and [225.103](#));

(D) The acquisition is for supplies for use outside the United States and an exception to the Balance of Payments Program applies (see [225.7501](#));

(E) One or more of the basic or the alternates of the following clauses will apply to all line items in the contract:

(1) [252.225-7021](#), Trade Agreements.

(2) Does not exceed the simplified acquisition threshold.

(k) Acquisitions of waste and byproducts of cotton or wool fiber for use in the production of propellants and explosives.

(l) Acquisitions of foods manufactured or processed in the United States, regardless of where the foods (and any component if applicable) were grown or produced. However, in accordance with section 8118 of the DoD Appropriations Act for Fiscal Year 2005 (Pub. L. 108-287), this exception does not apply to fish, shellfish, or seafood manufactured or processed in the United States or fish, shellfish, or seafood contained in foods manufactured or processed in the United States.

(m) Acquisitions of fibers and yarns that are for use in synthetic fabric or coated synthetic fabric (but not the purchase of the synthetic or coated synthetic fabric itself), if—

(1) The fabric is to be used as a component of an end product that is not a textile product. Examples of textile products, made in whole or in part of fabric, include—

(i) Draperies, floor coverings, furnishings, and bedding (Product or Service Group (PSG) 72, Household and Commercial Furnishings and Appliances);

(ii) Items made in whole or in part of fabric in PSG 83, Textile/leather/furs/apparel/findings/tents/flags, or PSG 84, Clothing, Individual Equipment and Insignia;

(iii) Upholstered seats (whether for household, office, or other use); and

(iv) Parachutes (PSC 1670); or

(2) The fibers and yarns are para-aramid fibers and continuous filament para-aramid yarns manufactured in a qualifying country.

(n) Acquisitions of chemical warfare protective clothing when the acquisition furthers an agreement with a qualifying country. (See [225.003](#)(10) and the requirement in [205.301](#) for synopsis within 7 days after contract award when using this exception.)

(o) Acquisitions that are interagency, State, or local purchases that are executed by DoD as a result of the transfer of contracts from the General Services Administration or

for which DoD serves as an item manager for products on behalf of the General Services Administration. According to section 897 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. L. 114-92), such contracts shall not be subject to requirements under chapter 148 of title 10, United States Code (including 10 U.S.C. 2533a), to the extent such contracts are for purchases of products by other Federal agencies or State or local governments.

225.7002-3 Contract clauses.

Unless an exception at [225.7002-2](#) applies—

(a) Use the clause at [252.225-7012](#), Preference for Certain Domestic Commodities, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items.

(b) Use the clause at [252.225-7015](#), Restriction on Acquisition of Hand or Measuring Tools, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that exceed the simplified acquisition threshold that require delivery of hand or measuring tools.

(c) Use the clause at [252.225-7006](#), Acquisition of the American Flag, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that are for the acquisition of the American flag, with an estimated value that exceeds the simplified acquisition threshold.

225.7003 Restrictions on acquisition of specialty metals.

225.7003-1 Definitions.

As used in this section—

“Alloy” means a metal consisting of a mixture of a basic metallic element and one or more metallic, or non-metallic, alloying elements.

(1) For alloys named by a single metallic element (e.g., titanium alloy), it means that the alloy contains 50 percent or more of the named metal (by mass).

(2) If two metals are specified in the name (e.g., nickel-iron alloy), those metals are the two predominant elements in the alloy, and together they constitute 50 percent or more of the alloy (by mass).

“Automotive item”—

(1) Means a self-propelled military transport tactical vehicle, primarily intended for use by military personnel or for carrying cargo, such as—

- (i) A high-mobility multipurpose wheeled vehicle;
- (ii) An armored personnel carrier; or
- (iii) A troop/cargo-carrying truckcar, truck, or van; and

(2) Does not include—

- (i) A commercially available off-the-shelf vehicle; or
- (ii) Construction equipment (such as bulldozers, excavators, lifts, or loaders) or other self-propelled equipment (such as cranes or aircraft ground support equipment).

“Commercial derivative military article” means an item acquired by the Department of Defense that is or will be produced using the same production facilities, a common supply chain, and the same or similar production processes that are used for the production of articles predominantly used by the general public or by nongovernmental entities for purposes other than governmental purposes.

“Electronic component” means an item that operates by controlling the flow of electrons or other electrically charged particles in circuits, using interconnections of electrical devices such as resistors, inductors, capacitors, diodes, switches, transistors, or integrated circuits. The term does not include structural or mechanical parts of an assembly containing an electronic component and does not include any high performance magnets that may be used in the electronic component.

“High performance magnet” means a permanent magnet that obtains a majority of its magnetic properties from rare earth metals (such as samarium).

“Produce” means—

- (1) Atomization;
- (2) Sputtering; or
- (3) Final consolidation of non-melt derived metal powders.

“Specialty metal” means—

- (1) Steel—
 - (i) With a maximum alloy content exceeding one or more of the following limits: manganese, 1.65 percent; silicon, 0.60 percent; or copper, 0.60 percent; or

- (ii) Containing more than 0.25 percent of any of the following elements: aluminum, chromium, cobalt, molybdenum, nickel, niobium (columbium), titanium, tungsten, or vanadium;

- (2) Metal alloys consisting of—

- (i) Nickel or iron-nickel alloys that contain a total of alloying metals other than nickel and iron in excess of 10 percent; or

- (ii) Cobalt alloys that contain a total of alloying metals other than cobalt and iron in excess of 10 percent;

- (3) Titanium and titanium alloys; or
- (4) Zirconium and zirconium alloys.

“Steel” means an iron alloy that includes between .02 and 2 percent carbon and may include other elements.

225.7003-2 Restrictions.

(a) The following restrictions implement 10 U.S.C. 2533b. Except as provided in [225.7003-3](#)—

(1) Do not acquire the following items, or any components of the following items, unless any specialty metals contained in the items or components are melted or produced in the United States (also see guidance at [PGI 225.7003-2\(a\)](#)):

- (i) Aircraft.
- (ii) Missile or space systems.
- (iii) Ships.
- (iv) Tank or automotive items.
- (v) Weapon systems.
- (vi) Ammunition.

(2) Do not acquire a specialty metal (e.g., raw stock, including bar, billet, slab, wire, plate, and sheet; castings; and forgings) as an end item, unless the specialty metal is melted or produced in the United States. This restriction applies to specialty metal acquired by a contractor for delivery to DoD as an end item, in addition to specialty metal acquired by DoD directly from the entity that melted or produced the specialty metal.

(b) For more information on specialty metals restrictions and reporting of noncompliances, see http://www.acq.osd.mil/dpap/cpic/ic/restrictions_on_specialty_metals_10_usc_2533b.html.

225.7003-3 Exceptions.

(a) Acquisitions in the following categories are not subject to the restrictions in [225.7003-2](#):

- (1) Acquisitions at or below the simplified acquisition threshold.
- (2) Acquisitions outside the United States in support of combat operations.
- (3) Acquisitions in support of contingency operations.
- (4) Acquisitions for which the use of other than competitive procedures has been approved on the basis of unusual and compelling urgency in accordance with FAR 6.302-2.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(5) Acquisitions of items specifically for commissary resale.

(6) Acquisitions of items for test and evaluation under the foreign comparative testing program (10 U.S.C. 2350a(g)). However, this exception does not apply to any acquisitions under follow-on production contracts.

(b) One or more of the following exceptions may apply to an end item or component that includes any of the following, under a prime contract or subcontract at any tier. The restrictions in [225.7003-2](#) do not apply to the following:

(1) Electronic components, unless the Secretary of Defense, upon the recommendation of the Strategic Materials Protection Board pursuant to 10 U.S.C. 187, determines that the domestic availability of a particular electronic component is critical to national security.

(2)(i) Commercially available off-the-shelf (COTS) items containing specialty metals, except the restrictions do apply to contracts or subcontracts for the acquisition of—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, and sheet, that have not been incorporated into end items, subsystems, assemblies, or components. Specialty metal supply contracts issued by COTS producers are not subcontracts for the purposes of this exception;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

(C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems (see [PGI 225.7003-3\(b\)\(6\)](#) for a table of applicability of specialty metals restrictions to magnets); and

(D) COTS fasteners, unless—

(1) The fasteners are incorporated into COTS end items, subsystems, or assemblies; or

(2) The fasteners qualify for the commercial item exception in paragraph (b)(3) of this subsection.

(ii) If this exception is used for an acquisition of COTS end items valued at \$5 million or more per item, the acquiring department or agency shall submit an annual report to the Director, Defense Procurement and Acquisition Policy, in accordance with the procedures at [PGI 225.7003-3\(b\)\(2\)](#).

(3) Fasteners that are commercial items and are acquired under a contract or subcontract with a manufacturer of such fasteners, if the manufacturer has certified that it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to DoD and other customers, that is not less than 50 percent of the total amount of the specialty metal that the manufacturer will purchase to carry out the production of such fasteners for all customers.

(4) Items listed in [225.7003-2\(a\)](#), manufactured in a qualifying country or containing specialty metals melted or produced in a qualifying country.

(5) Specialty metal in any of the items listed in [225.7003-2](#) if the USD(A&S), or an official authorized in accordance with paragraph (b)(5)(i) of this subsection, determines that specialty metal melted or produced in the United States cannot be acquired as and when needed at a fair and reasonable price in a satisfactory quality, a sufficient quantity, and the required form (i.e., a domestic nonavailability determination). In accordance with 10 U.S.C. 2533b(m)(4), the term “required form” in this section refers to the form of the mill product, such as bar, billet, wire, slab, plate, or sheet, in the grade appropriate for the production of a finished end item to be delivered to the Government under this contract; or a finished component assembled into an end item to be delivered to the Government under the contract. See guidance in [PGI 225.7003-3\(b\)\(5\)](#).

(i) The Secretary of the military department concerned is authorized, without power of redelegation, to make a domestic nonavailability determination that applies to only one contract. The supporting documentation for the determination shall include an analysis and written documentation by the requiring activity, with specificity, why alternatives that would not require a domestic nonavailability determination are unacceptable.

(ii) A domestic nonavailability determination that applies to more than one contract (i.e., a class domestic nonavailability determination), requires the approval of the USD(A&S).

(A) At least 30 days before making a domestic nonavailability determination that would apply to more than one contract, the USD(A&S) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

(1) Publish a notice on the Federal Business Opportunities website (www.FedBizOpps.gov or any successor site) of the intent to make the domestic nonavailability determination; and

(2) Solicit information relevant to such notice from interested parties, including producers of specialty metal mill products.

(B) The USD(A&S)—

(1) Will take into consideration all information submitted in response to the notice in making a class domestic nonavailability determination;

(2) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and

(3) Will ensure that any such domestic nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States that are not covered by another exception listed in this paragraph (b)), if the total weight of noncompliant specialty metal does not exceed 2 percent of the total weight of all specialty metal in the end item. This exception does not apply to high performance magnets containing specialty metals. See [PGI 225.7003-3\(b\)\(6\)](#) for a table of applicability of specialty metals restrictions to magnets.

(c) *Compliance for commercial derivative military articles.* The restrictions at 225.7003-2(a) do not apply to an item acquired under a prime contract if—

(1) The offeror has certified, and subsequently demonstrates, that the offeror and its subcontractor(s) will individually or collectively enter into a contractual agreement or agreements to purchase a sufficient quantity of domestically melted or produced specialty metal in accordance with the provision at [252.225-7010](#); and

(2) The USD(A&S), or the Secretary of the military department concerned, determines that the item is a commercial derivative military article (defense agencies see procedures at [PGI 225.7003-3\(c\)](#)). The contracting officer shall submit the offeror's certification and a request for a determination to the appropriate official, through agency channels, and shall notify the offeror when a decision has been made.

(d) *National security waiver.* The USD(A&S) may waive the restrictions at [225.7003-2](#) if the USD(A&S) determines in writing that acceptance of the item is necessary to the national security interests of the United States (see procedures at [PGI 225.7003-3\(d\)](#)). This authority may not be delegated.

(1) The written determination of the USD(A&S)—

(i) Shall specify the quantity of end items to which the national security waiver applies;

(ii) Shall specify the time period over which the national security waiver applies; and

(iii) Shall be provided to the congressional defense committees before the determination is executed, except that in the case of an urgent national security requirement, the determination may be provided to the congressional defense committees up to 7 days after it is executed.

(2) After making such a determination, the USD(A&S) will—

(i) Ensure that the contractor or subcontractor responsible for the noncompliant specialty metal develops and implements an effective plan to ensure future compliance; and

(ii) Determine whether or not the noncompliance was knowing and willful. If the USD(A&S) determines that the noncompliance was knowing and willful, the appropriate debarring and suspending official shall consider suspending or debarring the contractor or subcontractor until such time as the contractor or subcontractor has effectively addressed the issues that led to the noncompliance.

(3) Because national security waivers will only be granted when the acquisition in question is necessary to the national security interests of the United States, the requirement for a plan will be applied as a condition subsequent, and not a condition precedent, to the granting of a waiver.

225.7003-4 Reserved.

225.7003-5 Solicitation provision and contract clauses.

(a) Unless the acquisition is wholly exempt from the specialty metals restrictions at [225.7003-2](#) because the acquisition is covered by an exception in [225.7003-3](#)(a) or (d) (but see paragraph (d) of this subsection)—

(1) Use the clause at [252.225-7008](#), Restriction on Acquisition of Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require the delivery of specialty metals as end items.

(2) Use the clause at [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require delivery of any of the following items, or components of the following items, if such items or components contain specialty metal:

- (A) Aircraft.
- (B) Missile or space systems.
- (C) Ships.
- (D) Tank or automotive items.
- (E) Weapon systems.
- (F) Ammunition.

(b) Use the provision at [252.225-7010](#), Commercial Derivative Military Article—Specialty Metals Compliance Certificate, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items,—

- (1) That contain the clause at [252.225-7009](#); and
- (2) For which the contracting officer anticipates that one or more offers of commercial derivative military articles may be received.

(c) If an agency cannot reasonably determine at time of acquisition whether some or all of the items will be used in support of combat operations or in support of contingency operations, the contracting officer should not rely on the exception at [225.7003-3\(a\)\(2\)](#) or (3), but should include the appropriate specialty metals clause or provision in the solicitation and contract.

(d) If the solicitation and contract require delivery of a variety of contract line items containing specialty metals, but only some of the items are subject to domestic specialty metals restrictions, identify in the Schedule those items that are subject to the restrictions.

225.7004 Restriction on acquisition of foreign buses.

225.7004-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire a multipassenger motor vehicle (bus) unless it is manufactured in the United States, Australia, Canada, or the United Kingdom.

225.7004-2 Applicability.

Apply this restriction if the buses are purchased, leased, rented, or made available under contracts for transportation services.

225.7004-3 Exceptions.

This restriction does not apply in any of the following circumstances:

(a) Buses manufactured outside the United States, Australia, Canada, or the United Kingdom are needed for temporary use because buses manufactured in the United States, Australia, Canada, or the United Kingdom are not available to satisfy requirements that cannot be postponed. Such use may not, however, exceed the lead time required for acquisition and delivery of buses manufactured in the United States, Australia, Canada, or the United Kingdom.

(b) The requirement for buses is temporary in nature. For example, to meet a special, nonrecurring requirement or a sporadic and infrequent recurring requirement, buses manufactured outside the United States, Australia, Canada, or the United Kingdom may be used for temporary periods of time. Such use may not, however, exceed the period of time needed to meet the special requirement.

(c) Buses manufactured outside the United States, Australia, Canada, or the United Kingdom are available at no cost to the U.S. Government.

(d) The acquisition is for an amount at or below the simplified acquisition threshold.

225.7004-4 Waiver.

The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

225.7005 Restriction on certain chemical weapons antidote.

225.7005-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire chemical weapons antidote contained in automatic injectors, or the components for such injectors, unless the chemical

Part 225—Foreign Acquisition

weapons antidote or component is manufactured in the United States or Canada by a company that—

(a) Has received all required regulatory approvals; and

(b) Has the plant, equipment, and personnel to perform the contract in the United States or Canada at the time of contract award.

225.7005-2 Exception.

This restriction does not apply if the acquisition is for an amount at or below the simplified acquisition threshold.

225.7005-3 Waiver.

The waiver criteria at 225.7008(a) apply to this restriction.

225.7006 Restriction on air circuit breakers for naval vessels.

225.7006-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire air circuit breakers for naval vessels unless they are manufactured in the United States, Australia, Canada, or the United Kingdom.

225.7006-2 Exceptions.

This restriction does not apply if the acquisition is—

(a) For an amount at or below the simplified acquisition threshold; or

(b) For spare or repair parts needed to support air circuit breakers manufactured outside the United States. Support includes the purchase of spare air circuit breakers when those from alternate sources are not interchangeable.

225.7006-3 Waiver.

The waiver criteria at [225.7008](#)(a) apply to this restriction.

225.7006-4 Solicitation provision and contract clause.

(a) Use the provision at [252.225-7037](#), Evaluation of Offers for Air Circuit Breakers, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that require air circuit breakers for naval vessels unless—

(1) An exception applies; or

(2) A waiver has been granted.

(b) Use the clause at [252.225-7038](#), Restriction on Acquisition of Air Circuit Breakers, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that require air circuit breakers for naval vessels unless—

(1) An exception at [225.7006-2](#) applies; or

(2) A waiver has been granted.

225.7007 Restrictions on anchor and mooring chain.

225.7007-1 Restrictions.

(a) In accordance with Section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, four inches or less in diameter, unless--

(1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) 10 U.S.C. 2534 also restricts acquisition of welded shipboard anchor and mooring chain, four inches or less in diameter, when used as a component of a naval vessel. However, the Appropriations Act restriction described in paragraph (a) of this subsection takes precedence over the restriction of 10 U.S.C. 2534.

225.7007-2 Waiver.

(a) The Secretary of the department responsible for acquisition may waive the restriction in [225.7007-1\(a\)](#), on a case-by-case basis, if--

(1) Sufficient domestic suppliers are not available to meet DoD requirements on a timely basis; and

(2) The acquisition is necessary to acquire capability for national security purposes.

(b) Document the waiver in a written determination and findings containing--

(1) The factors supporting the waiver; and

(2) A certification that the acquisition must be made in order to acquire capability for national security purposes.

(c) Provide a copy of the determination and findings to the House and Senate Committees on Appropriations.

225.7007-3 Contract clause.

Unless a waiver has been granted, use the clause at [252.225-7019](#), Restriction on Acquisition of Anchor and Mooring Chain, in solicitations and contracts requiring welded shipboard anchor or mooring chain four inches or less in diameter.

225.7008 Waiver of restrictions of 10 U.S.C. 2534.

When specifically authorized by reference elsewhere in this subpart, the restrictions on certain foreign purchases under 10 U.S.C. 2534(a) may be waived as follows:

(a)(1) The Under Secretary of Defense (Acquisition and Sustainment) (USD(A&S)),

without power of delegation, may waive a restriction for a particular item for a particular foreign country upon determination that—

(i) United States producers of the item would not be jeopardized by competition from a foreign country, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country; or

(ii) Application of the restriction would impede cooperative programs entered into between DoD and a foreign country, or would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items under [225.872](#), and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

(2) A notice of the determination to exercise the waiver authority shall be published in the Federal Register and submitted to the congressional defense committees at least 15 days before the effective date of the waiver.

(3) The effective period of the waiver shall not exceed 1 year.

(4) For contracts entered into prior to the effective date of a waiver, provided adequate consideration is received to modify the contract, the waiver shall be applied as directed or authorized in the waiver to—

(i) Subcontracts entered into on or after the effective date of the waiver; and

(ii) Options for the procurement of items that are exercised after the effective date of the waiver, if the option prices are adjusted for any reason other than the application of the waiver.

(b) The head of the contracting activity may waive a restriction on a case-by-case basis upon execution of a determination and findings that any of the following applies:

(1) The restriction would cause unreasonable delays.

(2) Satisfactory quality items manufactured in the United States, Australia, Canada, or the United Kingdom are not available.

(3) Application of the restriction would result in the existence of only one source for the item in the United States, Australia, Canada, or the United Kingdom.

(4) Application of the restriction is not in the national security interests of the United States.

(5) Application of the restriction would adversely affect a U.S. company.

(c) A restriction is waived when it would cause unreasonable costs. The cost of an item of U.S., Australian, Canadian, or United Kingdom origin is unreasonable if it exceeds 150 percent of the offered price, inclusive of duty, of items that are not of U.S., Australian, Canadian, or United Kingdom origin.

225.7009 Restriction on ball and roller bearings.

225.7009-1 Scope.

This section implements Section 8065 of the Fiscal Year 2002 DoD Appropriations Act (Pub. L. 107-117) and the same restriction in subsequent DoD appropriations acts.

225.7009-2 Restriction.

(a) Do not acquire ball and roller bearings unless—

(1) The bearings are manufactured in the United States or Canada; and

(2) For each ball or roller bearing, the cost of the bearing components manufactured in the United States or Canada exceeds 50 percent of the total cost of the bearing components of that ball or roller bearing.

(b) The restriction at [225.7003-2](#) may also apply to bearings that are made from specialty metals, such as high carbon chrome steel (bearing steel).

225.7009-3 Exception.

The restriction in [225.7009-2](#) does not apply to contracts or subcontracts for the acquisition of commercial items, except for commercial ball and roller bearings acquired as end items.

225.7009-4 Waiver.

The Secretary of the department responsible for acquisition or, for the Defense Logistics Agency, the Component Acquisition Executive, may waive the restriction in [225.7009-2](#), on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that—

(a) Adequate domestic supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

225.7009-5 Contract clause.

Use the clause at [252.225-7016](#), Restriction on Acquisition of Ball and Roller Bearings, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, unless—

(a) The items being acquired are commercial items other than ball or roller bearings acquired as end items;

(b) The items being acquired do not contain ball and roller bearings; or

(c) A waiver has been granted in accordance with [225.7009-4](#).

225.7010 Restriction on certain naval vessel components.

225.7010-1 Restriction.

Part 225—Foreign Acquisition

In accordance with 10 U.S.C. 2534, do not acquire the following components of naval vessels, to the extent they are unique to marine applications, unless manufactured in the United States, Australia, Canada, or the United Kingdom:

- (a) Gyrocompasses.
- (b) Electronic navigation chart systems.
- (c) Steering controls.
- (d) Pumps.
- (e) Propulsion and machinery control systems.
- (f) Totally enclosed lifeboats.

225.7010-2 Exceptions.

This restriction does not apply to—

- (a) Contracts or subcontracts that do not exceed the simplified acquisition threshold; or
- (b) Acquisition of spare or repair parts needed to support components for naval vessels manufactured outside the United States. Support includes the purchase of spare gyrocompasses, electronic navigation chart systems, steering controls, pumps, propulsion and machinery control systems, or totally enclosed lifeboats, when those from alternate sources are not interchangeable.

225.7010-3 Waiver.

The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

225.7010-4 Implementation.

- (a) 10 U.S.C. 2534(h) prohibits the use of contract clauses or certifications to implement this restriction.
- (b) Agencies shall accomplish implementation of this restriction through use of management and oversight techniques that achieve the objectives of this section without imposing a significant management burden on the Government or the contractor involved.

225.7011 Restriction on carbon, alloy, and armor steel plate.

225.7011-1 Restriction.

(a) In accordance with Section 8111 of the Fiscal Year 1992 DoD Appropriations Act (Pub. L. 102-172) and similar sections in subsequent DoD appropriations acts, do not acquire any of the following types of carbon, alloy, or armor steel plate for use in a Government-owned facility or a facility under the control of (e.g., leased by) DoD, unless it is melted and rolled in the United States or Canada:

- (1) Carbon, alloy, or armor steel plate in Federal Supply Class 9515.

(2) Carbon, alloy, or armor steel plate described by specifications of the American Society for Testing Materials or the American Iron and Steel Institute.

(b) This restriction—

(1) Applies to the acquisition of carbon, alloy, or armor steel plate as a finished steel mill product that may be used “as is” or may be used as an intermediate material for the fabrication of an end product; and

(2) Does not apply to the acquisition of an end product (e.g., a machine tool), to be used in the facility, that contains carbon, alloy, or armor steel plate as a component.

225.7011-2 Waiver.

The Secretary of the department responsible for acquisition may waive this restriction, on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that—

(a) Adequate U.S. or Canadian supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

225.7011-3 Contract clause.

Unless a waiver has been granted, use the clause at [252.225-7030](#), Restriction on Acquisition of Carbon, Alloy, and Armor Steel Plate, in solicitations and contracts that—

(a) Require the delivery to the Government of carbon, alloy, or armor steel plate that will be used in a Government-owned facility or a facility under the control of DoD; or

(b) Require contractors operating in a Government-owned facility or a facility under the control of DoD to purchase carbon, alloy, or armor steel plate.

225.7012 Restriction on supercomputers.

225.7012-1 Restriction.

In accordance with Section 8112 of Pub. L. 100-202, and similar sections in subsequent DoD appropriations acts, do not purchase a supercomputer unless it is manufactured in the United States.

225.7012-2 Waiver.

The Secretary of Defense may waive this restriction, on a case-by-case basis, after certifying to the Armed Services and Appropriations Committees of Congress that—

(a) Adequate U.S. supplies are not available to meet requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

225.7012-3 Contract clause.

Unless a waiver has been granted, use the clause at [252.225-7011](#), Restriction on Acquisition of Supercomputers, in solicitations and contracts for the acquisition of supercomputers.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

“Covered contract” means an energy savings performance contract, a utility services contract, or a private housing contract awarded by DoD, to be performed in the United States, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products. DoD is deemed to own a photovoltaic device if the device is—

(1) Installed in the United States on DoD property or in a facility owned by DoD; and

(2) Reserved for the exclusive use of DoD in the United States for the full economic life of the device.

“Designated country photovoltaic device” means a World Trade Organization Government Procurement Agreement (WTO GPA) country photovoltaic device, a Free Trade Agreement country photovoltaic device, a least developed country photovoltaic device, or a Caribbean Basin country photovoltaic device.

“Domestic photovoltaic device” means a photovoltaic device that is manufactured in the United States.

“Foreign photovoltaic device” means a photovoltaic device other than a domestic photovoltaic device.

“Free Trade Agreement country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a Free Trade Agreement country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a Free Trade Agreement country.

“Least developed country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a least developed country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a least developed country.

“Photovoltaic device” means a device that converts light directly into electricity through a solid-state, semiconductor process.

“Qualifying country photovoltaic device” means a photovoltaic device manufactured in a qualifying country.

“U.S.-made photovoltaic device” means a photovoltaic device that—

- (1) Is manufactured in the United States; or

“WTO GPA country photovoltaic device” means a photovoltaic device that—

- (1) Is wholly manufactured in a WTO GPA country; or
- (2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a WTO GPA country.

225.7017-2 Restriction.

In accordance with section 846 of the National Defense Authorization Act for Fiscal Year 2011, photovoltaic devices provided under any covered contract shall comply with 41 U.S.C. chapter 83, Buy American, subject to the exceptions to that statute provided in the Trade Agreements Act of 1979 (19 U.S.C. 2501 et seq.).

225.7017-3 Exceptions.

DoD requires the contractor to utilize domestic photovoltaic devices in covered contracts that exceed the simplified acquisition threshold, with the following exceptions:

(a) *Qualifying country.* Qualifying country photovoltaic devices may be utilized in any covered contract, because [225.103](#)(a)(i)(A) provides an exception to the Buy American statute for products of qualifying countries, as defined in [225.003](#).

(b) *Buy American—unreasonable cost.* For a covered contract that utilizes photovoltaic devices valued at less than \$182,000, the exception for unreasonable cost may apply (see FAR 25.103(c)). If the cost of a foreign photovoltaic device plus 50 percent is less than the cost of a domestic photovoltaic device, then the foreign photovoltaic device may be utilized.

(c) *Trade agreements.*

(1) *Free Trade Agreements.* For a covered contract that utilizes photovoltaic devices valued at \$25,000 or more, photovoltaic devices may be utilized from a country covered under the acquisition by a Free Trade Agreement, depending upon dollar threshold (see FAR subpart 25.4).

(2) *World Trade Organization—Government Procurement Agreement.* For covered contracts that utilize photovoltaic devices that are valued at \$182,000 or more, only U.S.-made photovoltaic devices, designated country photovoltaic devices, or qualifying country photovoltaic devices may be utilized.

225.7017-4 Solicitation provision and contract clause.

(a)(1) Use the clause at [252.225-7017](#), Photovoltaic Devices, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a contract expected to exceed the simplified acquisition threshold that may be a covered contract, i.e., an energy savings performance contract, a utility service contract, or a private housing contract awarded by DoD, if such contract will result in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products.

(2) Use the clause in the resultant contract, including contracts using FAR part 12 procedures for the acquisition of commercial items, if it is a covered contract.

(b) Use the provision at [252.225-7018](#), Photovoltaic Devices—Certificate, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that contain the clause at [252.225-7017](#).

225.7018 Restriction on acquisition of certain magnets , tantalum, and tungsten.

225.7018-1 Definitions.

“Electronic device” means an item that operates by controlling the flow of electrons or other electrically charged particles in circuits, using interconnections such as resistors, inductors, capacitors, diodes, switches, transistors, or integrated circuits.

“Tungsten heavy alloy” means a tungsten base pseudo alloy that—

(1) Meets the specifications of ASTM B777 or SAE-AMS-T-21014 for a particular class of tungsten heavy alloy; or

(2) Contains at least 90 percent tungsten in a matrix of other metals (such as nickel-iron or nickel-copper) and has density of at least 16.5 g/cm³.

225.7018-2 Restriction.

(a) Except as provided in [225.7018-3](#) and [225.7018-4](#), do not acquire any covered material melted or produced in any covered country, or any end item, manufactured in any covered country, that contains a covered material (10 U.S.C. 2533c).

(b)(1) For samarium-cobalt magnets and neodymium iron-boron magnets, this restriction includes—

(i) Melting samarium with cobalt to produce the samarium-cobalt alloy or melting neodymium with iron and boron to produce the neodymium-iron-boron alloy; and

(ii) All subsequent phases of production of the magnets, such as powder formation, pressing, sintering or bonding, and magnetization.

(2) The restriction on melting and producing of samarium-cobalt magnets is in addition to any applicable restrictions on melting of specialty metals at [225.7003](#) and the clause at [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals.

(c) For production of tantalum metal and alloys, this restriction includes the reduction of tantalum chemicals such as oxides, chlorides, or potassium salts, to metal powder and all subsequent phases of production of tantalum metal and alloys, such as consolidation of metal powders.

(d) For production of tungsten metal powder and tungsten heavy alloy, this restriction includes—

(2) Calcination and reduction into powder;

(3) Final consolidation of non-melt derived metal powders; and

(4) All subsequent phases of production of tungsten metal powder, tungsten heavy alloy, or any finished or semi-finished component containing tungsten heavy alloy.

225.7018-3 Exceptions.

The restriction in section [225.7018-2](#) does not apply to an acquisition—

(a) At or below the simplified acquisition threshold;

(b) Outside the United States of an item for use outside the United States; or

(c) Of an end item that is—

(1) A commercially available off-the-shelf item (but see [PGI 225.7018-3\(c\)\(1\)](#) with regard to commercially available samarium-cobalt magnets), other than—

(i) A commercially available off-the-shelf item that is 50 percent or more tungsten by weight; or

(ii) A tantalum metal, tantalum alloy, or tungsten heavy alloy mill product, such as bar, billet, slab, wire, cube, sphere, block, blank, plate, or sheet, that has not been incorporated into an end item, subsystem, assembly, or component;

(3) A neodymium-iron-boron magnet manufactured from recycled material if the milling of the recycled material and sintering of the final magnet takes place in the United States.

(d) If the authorized agency official concerned, as specified in [225.7018-4](#), determines that compliant covered materials of satisfactory quality and quantity, in the required form, cannot be procured as and when needed at a reasonable price.

(1) For tantalum metal, tantalum alloy, or tungsten heavy alloy, the term “required form” refers to the form of the mill product, such as bar, billet, wire, slab, plate, or sheet, in the grade appropriate for the production of a finished end item to be delivered to the Government under this contract; or a finished component assembled into an end item to be delivered to the Government under the contract.

(2) For samarium-cobalt magnets or neodymium-iron-boron magnets, the term “required form” refers to the form and properties of the magnets.

225.7018-4 Nonavailability determination.

(a) *Individual nonavailability determinations.*

(1) The head of the contracting activity is authorized to make a nonavailability determination described in [225.7018-3\(d\)](#) on an individual basis (i.e., applies to only one contract).

(2) The supporting documentation for the determination shall include an analysis and written certification by the requiring activity that describes, with specificity, why alternatives that would not require a nonavailability determination are unacceptable. The template for an individual nonavailability determination is available at [PGI 225.7018-4\(a\)\(2\)](#).

(3) Provide to USD(A&S) DASD (Industrial Policy), in accordance with the procedures at [PGI 225.7018-4\(a\)\(3\)](#)—

(i) A copy of individual nonavailability determinations with supporting documentation; and

(ii) Notification when individual nonavailability determinations are requested, but denied.

(b) *Class nonavailability determinations.*

A class nonavailability determination (i.e., a nonavailability determinations that applies to more than one contract) requires the approval of the USD(A&S). Follow the procedures at [PGI 225.7018-4](#)(b) when submitting a request for a class nonavailability determination.

(1) At least 30 days before making a nonavailability determination that would apply to more than one contract, the USD(A&S) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

(i) Publish a notice on the Federal Business Opportunities website (www.FedBizOpps.gov) of the intent to make the nonavailability determination; and

(ii) Solicit information relevant to such notice from interested parties, including producers of mill products from covered materials.

(2) The USD(A&S)—

(i) Will take into consideration all information submitted in response to the notice in making a class nonavailability determination;

(ii) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and

(iii) Will ensure that any such nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

225.7018-5 Contract clause.

Unless acquiring items outside the United States for use outside the United States or a nonavailability determination has been made in accordance with [225.7018-4](#), use the clause at [252.225-7052](#), Restriction on Acquisition of Certain Magnets, Tantalum, and Tungsten, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that exceed the simplified acquisition threshold.

225.7019 Prohibition on use of certain energy sourced from inside the Russian Federation.

225.7019-1 Definitions.

As used in this section—

“Covered military installation” means a military installation in Europe identified by DoD as a main operating base.

“Furnished energy” means energy furnished to a covered military installation in any form and for any purpose, including heating, cooling, and electricity.

“Main operating base” means a facility outside the United States and its territories with permanently stationed operating forces and robust infrastructure.

225.7019-2 Prohibition.

In accordance with section 2821 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), contracts for the acquisition of furnished energy for a covered military installation shall not use any energy sourced from inside the Russian Federation as a means of generating the furnished energy for the covered military installation. The prohibition—

(a) Applies to all forms of energy that are furnished to a covered military installation; and

(b) Does not apply to energy converted by a third party into another form of energy and not directly delivered to a covered military installation.

225.7019-3 Waiver.

(a) *Request and approval of waiver.* The requiring activity may submit to the contracting activity a request for waiver of the prohibition in [225.7019-2](#) for a specific contract for the acquisition of furnished energy for a covered military installation. The head of the contracting activity, without power of redelegation, may approve the waiver, upon certification to the congressional defense committees that—

(1) The waiver of section 2821 is necessary to ensure an adequate supply of furnished energy for the covered military installation; and

(2) National security requirements have been balanced against the potential risk associated with reliance upon the Russian Federation for furnished energy.

(b) *Submission of waiver notice.*

(1) Not later than 14 days before the execution of any energy contract for which a waiver is granted under paragraph (a) of this section, the head of the contracting activity shall submit to the congressional defense committees a notice of the waiver. See [PGI 225.7019-3](#) for waiver procedures.

(2) The waiver notice shall include the following:

(i) The rationale for the waiver, including the basis for the certifications required by paragraph (a) of this section.

(ii) An assessment of how the waiver may impact DoD's European energy resilience strategy.

(iii) An explanation of the measures DoD is taking to mitigate the risk of using Russian Federation furnished energy.

225.7019-4 Solicitation provision and contract clause.

Unless a waiver has been granted in accordance with [225.7019-3](#)—

(a) Use the provision at [252.225-7053](#), Representation Regarding Prohibition on Use of Certain Energy Sourced from Inside the Russian Federation, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items and solicitations at or below the simplified acquisition threshold, that are for the acquisition of furnished energy for a covered military installation; and

(b) Use the clause at [252.225-7054](#), Prohibition on Use of Certain Energy Sourced from Inside the Russian Federation, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items and solicitations and contracts at or below the simplified acquisition threshold, that are for the acquisition of furnished energy for a covered military installation.

(Revised December 24, 2009)

225.7100 Scope of subpart.

This subpart contains foreign product restrictions that are based on policies designed to protect the defense industrial base.

225.7101 Definitions.

“Component” and “domestic manufacture,” as used in this subpart, are defined in the clause at 252.225-7025, Restriction on Acquisition of Forgings.

225.7102 Forgings.

225.7102-1 Policy.

When acquiring the following forging items, whether as end items or components, acquire items that are of domestic manufacture to the maximum extent practicable:

ITEMS

Ship propulsion shafts
Periscope tubes
Ring forgings for bull gears

CATEGORIES

Excludes service and landing craft shafts
All
All greater than 120 inches in diameter

225.7102-2 Exceptions.

The policy in 225.7102-1 does not apply to acquisitions—

(a) Using simplified acquisition procedures, unless the restricted item is the end item being purchased;

(b) Overseas for overseas use; or

(c) When the quantity acquired exceeds the amount needed to maintain the U.S. defense mobilization base (provided the excess quantity is an economical purchase quantity). The requirement for domestic manufacture does not apply to the quantity above that required to maintain the base, in which case, qualifying country sources may compete.

225.7102-3 Waiver.

Upon request from a contractor, the contracting officer may waive the requirement for domestic manufacture of the items listed in 225.7102-1.

225.7102-4 Contract clause.

Use the clause at 252.225-7025, Restriction on Acquisition of Forgings, in solicitations and contracts, unless—

(a) The supplies being acquired do not contain any of the items listed in 225.7102-1;
or

(b) An exception in 225.7102-2 applies. If an exception applies to only a portion of the acquisition, specify the excepted portion in the solicitation and contract.

SUBPART 225.72—REPORTING CONTRACT PERFORMANCE OUTSIDE THE UNITED STATES

(Revised October 1, 2020)

225.7201 Policy.

10 U.S.C. 2410g requires offerors and contractors to notify DoD of any intention to perform any part of a DoD contract outside the United States and Canada that—

- (a) Exceeds \$750,000 in value; and
- (b) Could be performed inside the United States or Canada.

225.7202 Exception.

This subpart does not apply to contracts for commercial items, construction, ores, natural gas, utilities, petroleum products and crudes, timber (logs), or subsistence.

225.7203 Contracting officer distribution of reports.

225.7204 Solicitation provision and contract clauses.

Except for acquisitions described in [225.7202](#)—

- (a) Use the provision at [252.225-7003](#), Report of Intended Performance Outside the United States and Canada—Submission with Offer, in solicitations with a value exceeding \$15 million; and
- (b) Use the clause at [252.225-7004](#), Report of Intended Performance Outside the United States and Canada—Submission after Award, in solicitations and contracts with a value exceeding \$15 million.

SUBPART 225.73—ACQUISITIONS FOR FOREIGN MILITARY SALES
(Revised August 30, 2021)

225.7300 Scope of subpart.

(a) This subpart contains policies and procedures for acquisitions for foreign military sales (FMS) under the Arms Export Control Act (22 U.S.C. Chapter 39). Section 22 of the Arms Export Control Act (22 U.S.C. 2762) authorizes DoD to enter into contracts for resale to foreign countries or international organizations.

(b) This subpart does not apply to—

- (1) FMS made from inventories or stocks;
- (2) Acquisitions for replenishment of inventories or stocks; or
- (3) Acquisitions made under DoD cooperative logistic supply support arrangements.

225.7301 General.

(a) The U.S. Government sells defense articles and services to foreign governments or international organizations through FMS agreements. The agreement is documented in a Letter of Offer and Acceptance (LOA) (see the Defense Security Cooperation Agency (DSCA) Security Assistance Management Manual (DSCA 5105.38-M)).

(b) Conduct FMS acquisitions under the same acquisition and contract management procedures used for other defense acquisitions.

(c) Follow the additional procedures at [PGI 225.7301\(c\)](#) for preparation of solicitations and contracts that include FMS requirements.

(d) See [229.170](#) for policy on contracts financed under U.S. assistance programs that involve payment of foreign country value added taxes or customs duties.

225.7301-1 Reserved.

225.7301-2 Solicitation approval for sole source contracts.

The contracting officer shall coordinate through agency channels with the Principal Director, Defense Pricing and Contracting, prior to issuing a solicitation for a firm-fixed-price sole source contract type for U.S./FMS combined requirements for a major system that has an estimated contract value that exceeds \$500 million. See also [201.170](#) and [PGI 216.403-1\(1\)\(ii\)\(B\) and \(C\)](#).

225.7302 Preparation of letter of offer and acceptance.

For FMS programs that will require an acquisition, the contracting officer shall assist the DoD implementing agency responsible for preparing the Letter of Offer and Acceptance (LOA) by—

Part 225—Foreign Acquisition

(1) Working with prospective contractors to—

(i) Identify, in advance of the LOA, any unusual provisions or deviations (such as those requirements for Pseudo LOAs identified at [PGI 225.7301](#));

(ii) Advise the contractor if the DoD implementing agency expands, modifies, or does not accept any key elements of the prospective contractor's proposal;

(iii) Identify any logistics support necessary to perform the contract (such as those requirements identified at [PGI 225.7301](#)); and

(iv) For noncompetitive acquisitions over \$10,000, ask the prospective contractor for information on price, delivery, and other relevant factors. The request for information shall identify the fact that the information is for a potential foreign military sale and shall identify the foreign customer; and

(2) Working with the DoD implementing agency responsible for preparing the LOA, as specified in [PGI 225.7302](#).

225.7303 Pricing acquisitions for FMS.

(a) Price FMS contracts using the same principles used in pricing other defense contracts. However, application of the pricing principles in FAR Parts 15 and 31 to an FMS contract may result in prices that differ from other defense contract prices for the same item due to the considerations in this section.

(b) If the foreign government has conducted a competition resulting in adequate price competition (see FAR 15.403-1(b)(1)), the contracting officer shall not require the submission of certified cost or pricing data. The contracting officer should consult with the foreign government through security assistance personnel to determine if adequate price competition has occurred.

225.7303-1 Contractor sales to other foreign customers.

If the contractor has made sales of the item required for the foreign military sale to foreign customers under comparable conditions, including quantity and delivery, price the FMS contract in accordance with FAR Part 15.

225.7303-2 Cost of doing business with a foreign government or an international organization.

(a) In pricing FMS contracts where non-U.S. Government prices as described in [225.7303-1](#) do not exist, except as provided in [225.7303-5](#), recognize the reasonable and allocable costs of doing business with a foreign government or international organization, even though such costs might not be recognized in the same amounts in pricing other defense contracts. Examples of such costs include, but are not limited to, the following:

(1) Selling expenses (not otherwise limited by FAR Part 31), such as—

(i) Maintaining international sales and service organizations;

(ii) Sales commissions and fees in accordance with FAR Subpart 3.4;

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(iii) Sales promotions, demonstrations, and related travel for sales to foreign governments. Section 126.8 of the International Traffic in Arms Regulations (22 CFR 126.8) may require Government approval for these costs to be allowable, in which case the appropriate Government approval shall be obtained; and

(iv) Configuration studies and related technical services undertaken as a direct selling effort to a foreign country.

(2) Product support and post-delivery service expenses, such as—

(i) Operations or maintenance training, training or tactics films, manuals, or other related data; and

(ii) Technical field services provided in a foreign country related to accident investigations, weapon system problems, or operations/tactics enhancement, and related travel to foreign countries.

(3) *Offsets*. For additional information see [225.7306](#).

(i) An offset agreement is the contractual arrangement between the FMS customer and the U.S. defense contractor that identifies the offset obligation imposed by the FMS customer that has been accepted by the U.S. defense contractor as a condition of the FMS customer's purchase. These agreements are distinct and independent of the LOA and the FMS contract. Further information about offsets and LOAs may be found in the Defense Security Cooperation Agency (DSCA) Security Assistance Management Manual (DSCA 5105.38-M), chapter 6, paragraph 6.3.9. (<http://samm.dsca.mil/chapter/chapter-6>).

(ii) A U.S. defense contractor may recover all costs incurred for offset agreements with a foreign government or international organization if the LOA is financed wholly with foreign government or international organization customer cash or repayable foreign military finance credits.

(iii) The U.S. Government assumes no obligation to satisfy or administer the offset agreement or to bear any of the associated costs.

(iv) Indirect offset costs are deemed reasonable for purposes of FAR parts 15 and 31 with no further analysis necessary on the part of the contracting officer, provided that the U.S. defense contractor submits to the contracting officer a signed offset agreement or other documentation showing that the FMS customer has made the provision of an indirect offset a condition of the FMS acquisition. FMS customers are placed on notice through the LOA that indirect offset costs are deemed reasonable without any further analysis by the contracting officer.

(4) Costs that are the subject of advance agreement under the appropriate provisions of FAR Part 31; or where the advance understanding places a limit on the amounts of cost that will be recognized as allowable in defense contract pricing, and the agreement contemplated that it will apply only to DoD contracts for the U.S. Government's own requirements (as distinguished from contracts for FMS).

(b) Costs not allowable under FAR Part 31 are not allowable in pricing FMS contracts, except as noted in paragraphs (c) and (e) of this subsection.

(c) The limitations for major contractors on independent research and development and bid and proposal (IR&D/B&P) costs for projects that are of potential interest to DoD, in [231.205-18\(c\)\(iii\)](#), do not apply to FMS contracts, except as provided in [225.7303-5](#). The allowability of IR&D/B&P costs on contracts for FMS not wholly paid for from funds made available on a nonrepayable basis is limited to the contract's allocable share of the contractor's total IR&D/B&P expenditures. In pricing contracts for such FMS—

(1) Use the best estimate of reasonable costs in forward pricing; and

(2) Use actual expenditures, to the extent that they are reasonable, in determining final cost.

(d) Under paragraph (e)(1)(A) of Section 21 of the Arms Export Control Act (22 U.S.C. 2761), the United States must charge for administrative services to recover the estimated cost of administration of sales made under the Arms Export Control Act.

(e) The limitations in [231.205-1](#) on allowability of costs associated with leasing Government equipment do not apply to FMS contracts.

225.7303-3 Government-to-government agreements.

If a government-to-government agreement between the United States and a foreign government for the sale, coproduction, or cooperative logistic support of a specifically defined weapon system, major end item, or support item, contains language in conflict with the provisions of this section, the language of the government-to-government agreement prevails.

225.7303-4 Contingent fees.

(a) Except as provided in paragraph (b) of this subsection, contingent fees are generally allowable under DoD contracts, provided—

(1) The fees are paid to a bona fide employee or a bona fide established commercial or selling agency maintained by the prospective contractor for the purpose of securing business (see FAR Part 31 and FAR Subpart 3.4); and

(2) The contracting officer determines that the fees are fair and reasonable.

(b)(1) Under DoD 5105.38-M, LOAs for requirements for the governments of Australia, Taiwan, Egypt, Greece, Israel, Japan, Jordan, Republic of Korea, Kuwait, Pakistan, Philippines, Saudi Arabia, Turkey, Thailand, or Venezuela (Air Force) shall provide that all U.S. Government contracts resulting from the LOAs prohibit the reimbursement of contingent fees as an allowable cost under the contract, unless the contractor identifies the payments and the foreign customer approves the payments in writing before contract award (see [225.7307\(a\)](#)).

(2) For FMS to countries not listed in paragraph (b)(1) of this subsection, contingent fees exceeding \$50,000 per FMS case are unallowable under DoD contracts,

unless the contractor identifies the payment and the foreign customer approves the payment in writing before contract award.

225.7303-5 Acquisitions wholly paid for from nonrepayable funds.

(a) In accordance with 22 U.S.C. 2762(d), price FMS wholly paid for from funds made available on a nonrepayable basis on the same costing basis with regard to profit, overhead, IR&D/B&P, and other costing elements as is applicable to acquisitions of like items purchased by DoD for its own use.

(b) Direct costs associated with meeting a foreign customer's additional or unique requirements are allowable under such contracts. Indirect burden rates applicable to such direct costs are permitted at the same rates applicable to acquisitions of like items purchased by DoD for its own use.

(c) A U.S. defense contractor may not recover costs incurred for offset agreements with a foreign government or international organization if the LOA is financed with funds made available on a nonrepayable basis.

225.7304 FMS customer involvement.

(a) FMS customers may request that a defense article or defense service be obtained from a particular contractor. In such cases, FAR 6.302-4 provides authority to contract without full and open competition. The FMS customer may also request that a subcontract be placed with a particular firm. The contracting officer shall honor such requests from the FMS customer only if the LOA or other written direction sufficiently fulfills the requirements of FAR Subpart 6.3.

(b) FMS customers should be encouraged to participate with U.S. Government acquisition personnel in discussions with industry to--

- (1) Develop technical specifications;
- (2) Establish delivery schedules;
- (3) Identify any special warranty provisions or other requirements unique to the FMS customer; and
- (4) Review prices of varying alternatives, quantities, and options needed to make price-performance tradeoffs.

(c) Do not disclose to the FMS customer any data, including certified cost or pricing data, that is contractor proprietary unless the contractor authorizes its release.

(d) Except as provided in paragraph (e)(3) of this section, the degree of FMS customer participation in contract negotiations is left to the discretion of the contracting officer after consultation with the contractor. The contracting officer shall provide an explanation to the FMS customer if its participation in negotiations will be limited. Factors that may limit FMS customer participation include situations where—

- (1) The contract includes requirements for more than one FMS customer;

- (2) The contract includes unique U.S. requirements; or
 - (3) Contractor proprietary data is a subject of negotiations.
- (e) Do not allow representatives of the FMS customer to—
- (1) Direct the exclusion of certain firms from the solicitation process (they may suggest the inclusion of certain firms);
 - (2) Interfere with a contractor's placement of subcontracts; or
 - (3) Observe or participate in negotiations between the U.S. Government and the contractor involving certified cost or pricing data, unless a deviation is granted in accordance with subpart [201.4](#).
- (f) Do not accept directions from the FMS customer on source selection decisions or contract terms (except that, upon timely notice, the contracting officer may attempt to obtain any special contract provisions, warranties, or other unique requirements requested by the FMS customer).
- (g) Do not honor any requests by the FMS customer to reject any bid or proposal.
- (h) If an FMS customer requests additional data concerning FMS contract prices, the contracting officer shall, after consultation with the contractor, provide sufficient data to demonstrate the reasonableness of the price and reasonable responses to relevant questions concerning contract price. This data--
- (1) May include tailored responses, top-level pricing summaries, historical prices, or an explanation of any significant differences between the actual contract price and the estimated contract price included in the initial LOA; and
 - (2) May be provided orally, in writing, or by any other method acceptable to the contracting officer.

225.7305 Limitation of liability.

Advise the contractor when the foreign customer will assume the risk for loss or damage under the appropriate limitation of liability clause(s) (see FAR Subpart 46.8). Consider the costs of necessary insurance, if any, obtained by the contractor to cover the risk of loss or damage in establishing the FMS contract price.

225.7306 Offset arrangements.

In accordance with the Presidential policy statement of April 16, 1990, DoD does not encourage, enter into, or commit U.S. firms to FMS offset arrangements. The decision whether to engage in offsets, and the responsibility for negotiating and implementing offset arrangements, resides with the companies involved. (Also see [225.7303-2\(a\)\(3\)](#).)

225.7307 Contract clauses.

(a) Use the clause at [252.225-7027](#), Restriction on Contingent Fees for Foreign Military Sales, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that are for FMS.

 - (6) The end product is acquired for commissary resale; or

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(7) The contracting officer determines that a requirement can best be filled by a foreign end product or construction material, including determinations that—

(i) A subsistence product is perishable and delivery from the United States would significantly impair the quality at the point of consumption;

(ii) An end product or construction material, by its nature or as a practical matter, can best be acquired in the geographic area concerned, e.g., ice or books; or bulk material, such as sand, gravel, or other soil material, stone, concrete masonry units, or fired brick;

(iii) A particular domestic construction material is not available;

(iv) The cost of domestic construction material would exceed the cost of foreign construction material by more than 50 percent, calculated on the basis of—

(A) A particular construction material; or

(B) The comparative cost of application of the Balance of Payments Program to the total acquisition; or

(v) Use of a particular domestic construction material is impracticable;

(b) After receipt of offers—

(1) The evaluated low offer (see Subpart [225.5](#)) is an offer of an end product that—

(i) Is a qualifying country end product;

(ii) Is an eligible product;

(iii) If the acquisition is in support of operations in Afghanistan, a South Caucasus/Central and South Asian state end product listed in [225.401-70](#) (see [225.7704-2](#)); or

(iv) Is a nonqualifying country end product, but application of the Balance of Payments Program evaluation factor would not result in award on a domestic offer; or

(2) The construction material is an eligible product or, if the acquisition is in support of operations in Afghanistan, the construction material is a South Caucasus/Central and South Asian state construction material (see [225.7704-2](#)); or

(c) At any time during the acquisition process, the head of the agency determines that it is not in the public interest to apply the restrictions of the Balance of Payments Program to the end product or construction material.

225.7502 Procedures.

If the Balance of Payments Program applies to the acquisition, follow the procedures at [PGI 225.7502](#).

225.7503 Contract clauses.

Part 225—Foreign Acquisition

Unless the entire acquisition is exempt from the Balance of Payments Program—

(a) Use the basic or an alternate of the clause at [252.225-7044](#), Balance of Payments Program—Construction Material, in solicitations and contracts for construction to be performed outside the United States, including acquisitions of commercial items or components, with an estimated value greater than the simplified acquisition threshold but less than \$7,008,000.

(2) Use the alternate I clause if the acquisition is in support of operations in Afghanistan.

(b) Use the basic or an alternate of the clause at [252.225-7045](#), Balance of Payments Program—Construction Material Under Trade Agreements, in solicitations and contracts for construction to be performed outside the United States with an estimated value of \$7,008,000 or more, including acquisitions of commercial items or components.

(4) Use the alternate III clause in solicitations and contracts with an estimated value of \$7,008,000 or more, but less than \$10,802,884, and is in support of operations in Afghanistan.

225.7602 Procedures.

For contracts awarded to the Canadian Commercial Corporation (CCC), the CCC will submit a certification from its proposed subcontractor with the other required precontractual information (see [225.870](#)).

225.7603 Exceptions.

225.7701 Definitions.

As used in this subpart—

“Product from Afghanistan” means a product that is mined, produced, or manufactured in Afghanistan.

“Service from Afghanistan” means a service including construction that is performed in Afghanistan predominantly by citizens or permanent resident aliens of Afghanistan.

“Small arms” means pistols and other weapons less than 0.50 caliber.

225.7702 Acquisitions not subject to the enhanced authority to acquire products or services from Afghanistan.

225.7702-1 Acquisition of small arms.

Part 225—Foreign Acquisition

(a) Except as provided in paragraph (b) of this section, when acquiring small arms for assistance to the Army of Afghanistan, the Afghani Police Forces, or other Afghani security organizations—

(1) Use full and open competition to the maximum extent practicable, consistent with the provisions of 10 U.S.C. 2304;

(2) If use of other than full and open competition is justified in accordance with FAR Subpart 6.3, ensure that—

(i) No responsible U.S. manufacturer is excluded from competing for the acquisition; and

(ii) Products manufactured in the United States are not excluded from the competition; and

(3) If the exception at FAR 6.302-2 (unusual and compelling urgency) applies, do not exclude responsible U.S. manufacturers or products manufactured in the United States from the competition for the purpose of administrative expediency. However, such an offer may be rejected if it does not meet delivery schedule requirements.

(b) Paragraph (a)(2) of this section does not apply when—

(1) The exception at FAR 6.302-1 (only one or a limited number of responsible sources) applies, and the only responsible source or sources are not U.S. manufacturers or are not offering products manufactured in the United States; or

(2) The exception at FAR 6.302-4 (international agreement) applies, and United States manufacturers or products manufactured in the United States are not the source(s) specified in the written directions of the foreign government reimbursing the agency for the cost of the acquisition of the property or services for such government.

225.7702-2 Acquisition of uniform components for the Afghan military or the Afghan police.

Any textile components supplied by DoD to the Afghan National Army or the Afghan National Police for purpose of production of uniforms shall be produced in the United States.

225.7703 Enhanced authority to acquire products or services from Afghanistan.

225.7703-1 Acquisition procedures.

(a) Subject to the requirements of [225.7703-2](#), except as provided in [225.7702](#), a product or service (including construction), in support of operations in Afghanistan, may be acquired by—

(1) Providing a preference for products or services from Afghanistan in accordance with the evaluation procedures at [225.7703-3](#);

(2) Limiting competition to products or services from Afghanistan; or

(3) Using procedures other than competitive procedures to award a contract to a particular source or sources from Afghanistan. When other than competitive procedures are used, the contracting officer shall document the contract file with the rationale for selecting the particular source(s).

(b) For acquisitions conducted using a procedure specified in paragraph (a) of this subsection, the justification and approval addressed in FAR Subpart 6.3 is not required.

(c) When issuing solicitations and contracts for performance in Afghanistan, follow the procedures at [PGI 225.7703-1](#)(c).

225.7703-2 Determination requirements.

Before use of a procedure specified in [225.7703-1](#)(a), a written determination must be prepared and executed as follows:

(a) For products or services to be used only by the military forces, police, or other security personnel of Afghanistan, the contracting officer shall—

(1) Determine in writing that the product or service is to be used only by the military forces, police, or other security personnel of Afghanistan; and

(2) Include the written determination in the contract file.

(b) For products or services not limited to use by the military forces, police, or other security personnel of Afghanistan, the following requirements apply:

(1) The appropriate official specified in paragraph (b)(2) of this subsection must determine in writing that it is in the national security interest of the United States to use a procedure specified in [225.7703-1](#)(a), because—

(i) The procedure is necessary to provide a stable source of jobs in Afghanistan; and

(ii) Use of the procedure will not adversely affect—

(A) Operations in Afghanistan (including security, transition, reconstruction, and humanitarian relief activities); or

(B) The U.S. industrial base. The authorizing official generally may presume that there will not be an adverse effect on the U.S. industrial base. However, when in doubt, the authorizing official should coordinate with the applicable subject matter expert specified in [PGI 225.7703-2](#)(b).

(2) Determinations may be made for an individual acquisition or a class of acquisitions meeting the criteria in paragraph (b)(1) of this subsection as follows:

(i) The head of the contacting activity is authorized to make a determination that applies to an individual acquisition with a value of less than \$100 million.

(ii) The Principal Director, Defense Pricing and Contracting, and the following officials, without power of redelegation, are authorized to make a

- (B) Army Acquisition Executive.
- (C) Navy Acquisition Executive.
- (D) Air Force Acquisition Executive.

(c) See [PGI 225.7703-2\(c\)](#) for formats for use in preparation of the determinations required by this subsection.

225.7703-3 Evaluating offers.

Evaluate offers submitted in response to solicitations that include the provision at [252.225-7023](#), Preference for Products or Services from Afghanistan, as follows:

(a) If the low offer is an offer of a product or service from Afghanistan, award on that offer.

(b) If there are no offers of a product or service from Afghanistan, award on the low offer.

(c) Otherwise, apply the evaluation factor specified in the solicitation to the low offer.

(1) If the price of the low offer of a product or service from Afghanistan is less than the evaluated price of the low offer, award on the low offer of a product or service from Afghanistan.

(2) If the evaluated price of the low offer remains less than the low offer of a product or service from Afghanistan, award on the low offer.

225.7703-4 Solicitation provisions and contract clauses.

(a) Use the provision at [252.225-7023](#), Preference for Products or Services from Afghanistan, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that provide a preference for products or services from Afghanistan in accordance with [225.7703-1\(a\)\(1\)](#). The contracting officer may

Part 225—Foreign Acquisition

modify the 50 percent evaluation factor in accordance with contracting office procedures.

(b) Use the clause at [252.225-7024](#), Requirement for Products or Services from Afghanistan, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that include the provision at [252.225-7023](#), Preference for Products or Services from Afghanistan, and in the resulting contract.

(c) Use the clause at [252.225-7026](#), Acquisition Restricted to Products or Services from Afghanistan, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

(1) Are restricted to the acquisition of products or services from Afghanistan in accordance with [225.7703-1](#)(a)(2); or

(2) Will be directed to a particular source or sources from Afghanistan in accordance with [225.7703-1](#)(a)(3).

(d) Use the clause at [252.225-7029](#), Acquisition of Uniform Components for Afghan Military or Afghan National Police, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, for the acquisition of any textile components that DoD intends to supply to the Afghan National Army or the Afghan National Police for purposes of production of uniforms.

(e) When the Trade Agreements Act applies to the acquisition, use the appropriate clause and provision as prescribed at [225.1101](#) (5), and (6).

(f) Do not use any of the following provisions or clauses in solicitations or contracts that include the provision at [252.225-7023](#), the clause at [252.225-7024](#), or the clause at [252.225-7026](#):

- (1) [252.225-7020](#), Trade Agreements Certificate.
- (2) [252.225-7021](#), Trade Agreements.

225.7704 Acquisitions of products and services from South Caucasus/Central and South Asian (SC/CASA) state in support of operations in Afghanistan.

225.7704-1 Applicability of trade agreements.

As authorized by the United States Trade Representative, the Secretary of Defense has waived the prohibition in section 302(a) of the Trade Agreements Act (see subpart [225.4](#)) for acquisitions by DoD, and by GSA on behalf of DoD, of products and services from SC/CASA states in direct support of operations in Afghanistan.

225.7704-2 Applicability of Balance of Payments Program.

The Deputy Secretary of Defense has determined, because of importance to national security, that it would be inconsistent with the public interest to apply the provisions of the Balance of Payments Program (see subpart [225.75](#)) to offers of end products other than arms, ammunition, and war materials (i.e., end products listed in [225.401-70](#)) and construction materials from the SC/CASA states that are being acquired by or on behalf of DoD in direct support of operations in Afghanistan.

225.7704-3 Solicitation provisions and contract clauses.

Appropriate solicitation provisions and contract clauses are prescribed as alternates to the Buy American-Trade Agreements-Balance of Payments Program solicitation provisions and contract clauses prescribed at [225.1101](#) and [225.7503](#).

225.7705 Prohibition on use of funds for contracts of certain programs and projects in Afghanistan that cannot be safely accessed.

This section implements section 1216 of the National Defense Authorization Act for Fiscal Year 2017 (Pub. L. 114-328).

225.7705-1 Prohibition.

The contracting officer shall not obligate or expend funds for a construction or other infrastructure program or project of the Department in Afghanistan if military or civilian personnel of the United States Government or their representatives, with authority to conduct oversight of such program or project, cannot safely access such program or project. In limited circumstances, this prohibition may be waived in accordance with section [225.7705-2](#).

225.7705-2 Waiver of prohibition.

(a) The prohibition in [225.7705-1](#) may be waived upon issuance of a determination, approved in accordance with paragraph (b) of this section, that—

- (1) The program or project clearly contributes to United States national interests or strategic objectives;
- (2) The Government of Afghanistan has requested or expressed a need for the program or project;
- (3) The program or project has been coordinated with the Government of Afghanistan, and with any other implementing agencies or international donors;

(4) Security conditions permit effective implementation and oversight of the program or project;

(5) Safeguards to detect, deter, and mitigate corruption and waste, fraud, and abuse of funds are in place;

(6) Adequate arrangements have been made for the sustainment of the program or project following its completion, including arrangements with respect to funding and technical capacity for sustainment; and

(7) Meaningful metrics have been established to measure the progress and effectiveness of the program or project in meeting its objectives.

(b) The following officials are authorized to approve the determination described in paragraph (a) of this section:

(1) In the case of a program or project with an estimated lifecycle cost of less than \$1 million, by the contracting officer.

(2) In the case of a program or project with an estimated lifecycle cost of \$1 million or more, but less than \$20 million, by the senior U.S. officer in the Combined Security Transition Command-Afghanistan.

(3) In the case of a program or project with an estimated lifecycle cost of \$20 million or more, but less than \$40 million, by the Commander of United States Forces-Afghanistan.

(4) In the case of a program or project with an estimated lifecycle cost of \$40 million or more, by the Secretary of Defense.

(c) Congressional notification is required within 15 days of issuance of a determination to waive the prohibition for programs or projects valued at \$40 million or more in accordance with paragraph (b)(4) of this section.

225.7705-3 Procedures.

(a) The contracting officer shall not obligate or expend funds for contracts for a construction or other infrastructure program or project in Afghanistan, awarded after December 23, 2016, unless the requiring activity provides the following documentation:

(1) Written affirmation that military or civilian personnel of the United States Government or their representatives, with authority to conduct oversight of such program or project, can safely access such program or project; or

(2)(i) For programs or projects valued at less than \$1 million, sufficient information upon which to base the determination described in [225.7705-2\(a\)](#); or

(ii)(A) For programs or projects valued at \$1 million or more, a copy of the approved determination described in [225.7705-2\(a\)](#) and (b); and

(B) For programs or projects valued at \$40 million or more, a copy of the

Congressional notification described in [225.7705-2\(c\)](#).

(b) After contract award, the contracting officer shall review the requiring activity's progress reports (e.g., contracting officer's representative reports) that addresses whether access continues to be safe or security conditions continue to permit effective implementation and oversight of the contract. If the requiring activity does not affirm continued safe access or, if a determination to waive the prohibition has been approved, that security conditions continue to permit effective implementation and oversight of the contract, then the contracting officer shall consult with the requiring activity to take any appropriate actions.
